1. Details of the offer

1.1 The Rights Issue

Cohiba Minerals Limited (**the Company** or **CHK**) offers to its shareholders, as recorded on the share registry records on the Record Date and who have a registered address in Australia or New Zealand (each an **Eligible Shareholder**), the right to participate in a non-renounceable rights issue of 1 new fully paid ordinary shares (**New Shares**) for every 6 existing shares (**Shares**) held at the Record Date at an issue price of 1.3 cents (\$0.013) per New Share (**the Rights Issue**), with 1 free-attaching unlisted option (**New Option**) to acquire an ordinary fully paid share in the Company for each New Share issued.

The Rights Issue will raise up to approximately \$515,259 (before costs).

Fractional entitlements to New Shares will be rounded up.

This Prospectus also contains the Placement Option Offer, the details of which are contained in Section 1.7 below, and the Facilitation Option Offer, the details of which are set out in Section 1.8 below.

1.2 Exercise price and expiry date of New Options

New Options have an exercise price of 1.8 cents (\$0.018) per option, an expiry date which is three years from the issue date and, upon exercise, entitle the holder to one ordinary fully paid share in the Company.

Further terms of New Options are set out at section 9.2 of this Prospectus.

1.3 No Rights Trading

Entitlements to New Shares and New Options pursuant to the Rights Issue are not renounceable and accordingly, there is no ability to trade rights on ASX or elsewhere.

1.4 Non-qualifying Foreign Shareholders

Only shareholders with addresses in the Company's register of members in Australia and New Zealand are eligible to participate in the Rights Issue.

The Company has decided that it is unreasonable to make the Rights Issue offer outside Australia and New Zealand having regard for:

- the number of shareholders in places where the Rights Issue would be made;
- the number and value of securities those shareholders would be offered; and
- the cost of complying with the legal and regulatory requirements of regulatory authorities in those jurisdictions.

A total of 3,650,000 Shares (1.53% of existing issued Shares) are held by five (5) non-qualifying foreign shareholders in three (3) different countries. These Shares of the non-qualifying foreign shareholders are equivalent to entitlements to 608,334 New Shares (approximately \$7,908 at the 1.3 cent issue price). The entitlements of non-qualifying foreign shareholders will form part of the shortfall.

1.5 Underwriting

The Offer is not underwritten.

1.6 Shortfall

Any part of your entitlement to New Shares under this Prospectus not taken up will form part of the shortfall.

If you are an Eligible Shareholder and you apply for your full entitlement you may also apply for more New Shares than the number shown on your Entitlement and Acceptance form. To do this, please complete the relevant section in the Entitlement and Acceptance Form.

The issue of additional New Shares in response to applications for additional New Shares will depend on there being sufficient shortfall available after all valid acceptances of entitlements are fulfilled. The allocation

of shortfall to Eligible Shareholders will be at the discretion of the Board having regard to factors including the respective pro-rata entitlements of the subscribing shareholders as at the Record Date. The Board will endeavour, where possible, to allot shortfall shares (whether to Eligible Shareholders or third parties) to a spread of investors to mitigate control effects which may otherwise arise from issuing shortfall to a single or small number of investors.

No shareholder or investor will be allocated New Shares from the shortfall that would result in the relevant interest of the shareholder (and its associates) exceeding 20% of the issued capital of the Company.

The number of New Shares (and free-attaching New Options) that you receive as a result of a shortfall application (if any) will depend on the extent to which Eligible Shareholders accept their entitlements to the Rights Issue, the extent to which Eligible Shareholders who accept their entitlement in full apply for shortfall and the discretion of the Board to accept or reject shortfall applications in whole or in part. Additional New Shares and free-attaching New Options will not be issued to Shareholders or others from the shortfall where to do so would involve a breach of the ASX Listing Rules, the Corporations Act or any applicable law.

The Company also reserves the right to offer and issue shortfall New Shares and New Options at its discretion within 3 months after the Closing Date. The offer of New Shares and free-attaching New Options from the shortfall is an offer of the New Shares and free-attaching New Options offered under the Rights Issue not otherwise taken up by Eligible Shareholders. The Board will also endeavour to place shortfall with any non-qualifying foreign shareholders having regard for their notional entitlements under the Rights Issue subject to those entities demonstrating that they are able to accept an offer of placement from the shortfall.

As noted above, to the extent that it is commercially practicable, and taking into account CHK's funding requirements, the Board will endeavour to allot the shortfall to a spread of investors in order to mitigate any control effects which may arise from issuing New Shares from the shortfall to a single or small number of investors.

1.7 Share Placement and Placement Option Offer

On 20 February 2017, the Company announced that it had received commitments from professional and sophisticated investors for a placement of 111,000,000 fully paid ordinary shares at an issue price of \$0.013 (1.3 cents) per share, to raise \$1,443,000 before costs (**Placement**). 31,000,000 shares were issued on 23 February 2017 (**Tranche 1 Placement Shares**). 80,000,000 shares, representing the remainder of the placement shares, are anticipated to be issued on or about 24 April 2017 (**Tranche 2 Placement Shares**).

Each share issued under the Placement is to be accompanied by one free-attaching option (**Placement Option**) with an exercise price of \$0.018 (1.8 cents) per option, expiring 3 years from the date of issue and, upon exercise, entitling the holder to one ordinary share in the Company (**Placement Option Offer**).

The issue of Placement Options under the Placement Option Offer is subject to shareholders passing resolutions ratifying the issue of the Tranche 1 Placement Shares and approving the issue of the Tranche 2 Placement Shares and the Placement Options at a General Meeting of the Company to be held on 19 April 2017. In the event shareholder approval is not obtained, the Placement Option Offer will be withdrawn.

Full terms of the Placement Options are contained in Section 9.2.

1.8 Facilitation Option Offer

On 20 February 2017, the Company announced the proposed acquisition of Cobalt X Pty Ltd. The proposed acquisition of Cobalt X Pty Ltd remains subject to the satisfaction of a number of conditions including completion of due diligence, shareholder approval and the execution of formal sale documentation. It should be noted that the Rights Issue is not conditional upon completion of the acquisition and will proceed regardless of whether the Company proceeds with the acquisition of Cobalt X Pty Ltd.

Under the terms of the proposed acquisition, the Company will agree to issue 80,000,000 options (**Facilitation Options**) having an exercise price of \$0.018 (1.8 cents) per option, expiring 3 years from the date of issue and, upon exercise, entitling the holder to one ordinary share in the Company (**Facilitation Option Offer**) to advisors in connection with the introduction and facilitation of the proposed transaction. The Facilitation Option Offer is made to, and only capable of acceptance by, Benison Holdings Pty Ltd (or its nominees) which acted as introducer and facilitator of the proposed acquisition of Cobalt X Pty Ltd.

The issue of the Facilitation Options is subject to, and conditional upon, the Company successfully completing the proposed acquisition of Cobalt X Pty Ltd.

Full terms of the Facilitation Options are contained in Section 9.2.

1.9 ASX Listing – New Shares

The Company will apply to ASX for admission of the New Shares to official quotation within 7 days of lodgement of this Prospectus. The fact that ASX may grant official quotation to the New Shares is not to be taken in any way as an indication of the merits of the Company or those securities.

If ASX does not grant permission for the Official Quotation of the New Shares within three months after the date of issue of this Prospectus (or such period as is permitted by the Corporations Act), the Company, in its absolute discretion, will either repay the acceptance monies to applicants without interest or (subject to any necessary ASIC or ASX waivers or consents being obtained) issue a supplementary or replacement prospectus and allow applicants one month to withdraw their acceptances and be repaid their acceptance monies without interest.

1.10 ASX Listing – New Options and Placement and Facilitation Options

The New Options, Placement Options and Facilitation Options will be unlisted. The Company may in the future, subject to meeting the requirements of the ASX Listing Rules and the Corporations Act, apply for Official Quotation of the New Options, Placement Options and Facilitation Options. The Company makes no guarantee as to whether the New Options, Placement Options or Facilitation Options will be admitted to quotation at any given time, or at all. This Prospectus should not be taken as an indication that the New Options, Placement Options or Facilitation Options will be listed at any given time, or at all.

The New Options, Placement Options (issued subject to shareholder approval) and Facilitation Options (issued subject to completion of the Company's acquisition of Cobalt X Pty Ltd) will be unlisted and they will not be able to be traded on ASX unless and until the quotation requirements are met. The fact that ASX may in the future grant official quotation of New Options, Placement Options and/or Facilitation Options is not to be taken in any way as an indication of the merits of the Company or the securities offered under this Prospectus.

2. Purpose of the Offer

The Company is undertaking the Rights Issue to raise capital for the following activities:

- Exploration activities on the Company's current lithium projects located in Western Australia acquired on completion of the acquisition of Charge Lithium Pty Ltd.

In the event the Company proceeds with the proposed acquisition of Cobalt X, the Company will issue a total of 80,000,000 Facilitation Options (having the same terms as the New Options) as a fee to advisors and introducers in connection with the Cobalt X acquisition. The Rights Issue and the placement to which the Placement Options relate are not conditional upon the Company's acquisition of Cobalt X and will proceed regardless of whether the Company pursue, or completes, the proposed acquisition. If the Company completes the acquisition of Cobalt X it would have a total of 251,302,554 options on issue (assuming the Rights Issue is fully subscribed and assuming no further shares are issued and no existing options are exercised).

Dilution

Shareholders who take up their rights pursuant to the Rights Issue will not be diluted, and will maintain (or, in the event of undersubscriptions, increase) their existing proportional (percentage) interest in the Company – although may subsequently be diluted as a result of the exercise of New Options (or other options on issue) following completion of the Rights Issue. Shareholders holdings will, however, be diluted through the issue of the Tranche 2 Placement Shares and may be diluted if the Company completes its acquisition of Cobalt X.

The percentage shareholding in the Company of shareholders who do not take up their rights pursuant to the Rights Issue will be diluted. Examples of the impact of dilution on existing holders where a shareholder does not take up its entitlement (not accounting for the further dilution that may result from the issue of the Tranche 2 Placement Shares or the acquisition of Cobalt X) are set out below:

Shareholder (example)	Holding at the Record Date	% at the Record Date	1 for 6 entitlement under the Rights Issue	Holding if entitlement not taken up	As % of total Shares on issue after the Rights Issue
A	500,000	0.21%	83,333	500,000	0.18%
B	1,000,000	0.42%	166,667	1,000,000	0.36%
C	2,000,000	0.84%	333,333	2,000,000	0.72%
D	5,000,000	2.10%	833,333	5,000,000	1.80%
E	10,000,000	4.20%	1,666,666	10,000,000	3.60%

Note: The table above assumes that any shortfall is taken up in full, and that the total number of issued shares of the Company following completion of the Rights Issue is 277,447,574 shares. It is further assumed the notional Shareholders in the examples above do not acquire or dispose of shares and that no existing options or New Options are converted into ordinary shares. It does not take account of the potential future dilutive impact of the Placement or the acquisition of Cobalt X.

NOTES TO PRO-FORMA STATEMENT OF FINANCIAL POSITION:

The pro-forma Statement of Financial Position at 31 December 2016 has been adjusted to reflect the following post 31 December 2016 and pro-forma adjustments:

1. The placement of 111,000,000 fully paid ordinary shares to professional and sophisticated investors at an issue price of \$0.013 (1.3 cents) raising \$1,443,000 (before costs). The Placement was to be completed in two tranches with 31,000,000 fully paid ordinary shares having already been issued in accordance with the Company's placement capacity with ASX Listing Rule 7.1 (Tranche 1). The Tranche 1 Placement was completed on 23 February 2017 and the Company issued 31,000,000 fully paid ordinary shares at an issue price of \$0.013 (1.3 cents) raising \$403,000 (before costs). The remaining 80,000,000 fully paid ordinary shares (Tranche 2) will be issued following, and subject to, shareholder approval. If the Tranche 2 Placement was not approved by shareholders the effect on the above pro-forma transactions is that the cash and cash equivalents will be reduced by \$980,600 (net of costs).
2. Costs equating to \$62,400 associated with the proposed Placement of 80,000,000 Tranche 2 fully paid ordinary shares at an issue price of \$0.013 (1.3 cents) subject to, shareholder approval.

In addition to the post 31 December 2016 adjustments:

3. The pro-forma Statement of Financial Position including Rights Issue if 0% subscribed has been adjusted to incorporate costs associated with the offer of \$30,000.
4. The pro-forma Statement of Financial Position including Rights Issue if 50% subscribed has been adjusted to incorporate net proceeds of the Rights Issue (after costs) of \$227,630.
5. The pro-forma Statement of Financial Position including Rights Issue if 100% subscribed has been adjusted to incorporate net proceeds of the Rights Issue (after costs) of \$485,259.
6. The pro-forma Statement of Financial Position does not include any assumptions in relation to the proposed acquisition of Cobalt X Pty Ltd as announced to shareholders on 20 February 2017. The Company is in the process of carrying out due diligence on the proposed acquisition and will provide further updates in due course. In the event that the proposed acquisition of Cobalt X Pty Ltd was to proceed, the carrying amount of exploration expenditure would increase along with the amount of equity on the Balance Sheet. The result of the additional charges to exploration expenditure would result in the proposed acquisition being accounted for as an asset acquisition in accordance with accounting standards.

BASIS OF PREPARATION OF PRO-FORMA STATEMENT OF FINANCIAL POSITION:

The above pro-forma statement has been prepared in accordance with ASIC Regulatory Guide 230 *Disclosing non-IFRS Financial Information* issued in December 2011.

The pro-forma statement of financial position is based on reviewed accounts at 31 December 2016 and has been prepared to provide shareholders with information on the assets and liabilities of the Company and pro-forma assets and liabilities of the Company following completion of the Rights Issue. The pro-forma financial information is presented in abbreviated form insofar as it does not include all of the disclosures required by Australian Accounting Standards application to annual financial statements.

4.3 Costs of the offer

The estimated anticipated costs of the Rights Issue are as follows:

Particulars	Amount (\$) (exclusive of GST)
Legal fees	\$15,000
Printing and administrative fees	\$7,500
Regulatory Fees	\$7,500
TOTAL	\$30,000

5. Risks

The New Shares and options offered under this Prospectus are considered speculative. There are various factors, both specific to the Company and general, which may affect the future operating and financial performance of the Company and the value of any investment in the Company.

Some of these factors can be mitigated through safeguards and appropriate commercial action and controls. However, many are outside the control of the Company and therefore cannot be mitigated. There are also general risks associated with share investment. Hence, investors should be aware that the performance of the Company may be affected and the value of its Shares may rise or fall over any given period.

This section describes certain (non-exhaustive) risks associated with investment in the Company. Prior to making an investment decision, prospective investors should carefully consider the following risk factors, as well as all other information contained in this Prospectus.

5.1 Company Specific Risks

(A) Acquisition and Completion Risks

The Company currently holds an option to acquire interests in exploration tenement applications located in Western Australia, which were the subject of the Company's ASX announcements on 22 April 2016, 20 May 2016, 23 June 2016 and 10 February 2017 (**Greenbushes Option**).

In addition, the Company is pursuing a proposed acquisition of Cobalt X Pty Ltd, a company which has made various applications for mining and mineral exploration licences pursuant to the Mineral Resources Act 1989 (QLD) and has represented to the Company that it holds various contractual rights with third parties to facilitate the acquisition by it of additional mining and exploration projects and related plant and equipment (**Cobalt X Acquisition**). Further details of the proposed acquisition of Cobalt X were the subject of the Company's ASX announcement on 20 February 2017 and 8 March 2017.

Key acquisition and completion risks associated with the acquisition and completion of the Greenbushes Option and the Cobalt X Acquisition are summaries below:

- There is no guarantee the Company will exercise the option and pursue exploration activities in respect of the applications the subject of the Greenbushes Option. The Company continues to assess, among other things, the prospectivity of the areas the subject of the tenement applications.
- In the event the Company exercises its option to acquire the tenement the subject of the Greenbushes Option, there is a risk associated with completion of the acquisition. Specifically, should the Company exercise its option, there is a risk that the acquisition may nevertheless fail as a result of non-satisfaction of conditions, failure to obtain consents or approvals required for completion or as a result of a failure by counter-parties to perform their obligations under those agreements.
- The Cobalt X Acquisition remains conditional upon, among other things, completion of due diligence, execution of a formal share sale agreement with the Cobalt X vendors and the parties obtaining all necessary shareholder and regulatory and third party approvals. As with the Greenbushes Option, there is a risk the Cobalt X Acquisition may fail as a result of non-satisfaction of conditions or as a result of a failure by counter-parties to perform their obligations under those agreements.

The risk factors set out above could lead to delays, increases in costs, disputes, litigation or failure of one or both of the transactions. These factors could negatively affect the completion of one or both of the acquisitions and there can be no assurance the Company would be successful in seeking remedies or enforcement of its rights through legal action.

The Company intends to conduct the Rights Issue regardless of whether the Cobalt X Acquisition or the Greenbushes Option are pursued.

(B) Grant and Renewal of Permits

The Company intends to pursue exploration activities that are dependent upon the grant, maintenance and renewal of tenements in which the Company has or may acquire an interest. Maintenance of the Company's tenements is dependent on, amongst other things, the Company's ability to meet the licence conditions imposed by relevant authorities including minimum annual expenditure requirements which, in turn, is dependent on the Company being sufficiently funded to meet those expenditure requirements. Although the Company has no reason to think the tenements in which it currently has, or has rights to acquire, an interest in will not be granted or renewed, there is no assurance that grants will be obtained or that renewals will be given as a matter of course and there is no assurance that new conditions will not be imposed by the relevant granting authority.

(C) Additional Funding

The Company's funding requirements depend on numerous factors including the Company's ability to generate income from its projects, the outcome of future exploration and work programs and the acquisition of any new projects. The Company may require further funding in addition to current cash reserves to fund future exploration activities or the acquisition of new projects. Additional equity financing, if available, may be dilutive to shareholders and/or occur at prices lower than the market price. Debt financing, if available, may involve restrictions on financing and operating activities. If the Company is unable to obtain additional financing as needed it may be required to reduce the scope of its exploration operations.

(D) Land Access

There is a substantial level of regulation and restriction on the ability of exploration and mining companies to have access to land in Australia. The Company currently has, or is seeking to acquire, an interest in various exploration tenements located in Queensland and Western Australia. Queensland and Western Australia have implemented restrictions affecting land interest in areas deemed to be subject to certain protective overlays and zoning classifications, including areas containing sites of indigenous cultural heritage significance and areas of urban developments. In some instances, the protective overlays and zoning classifications may restrict mining and exploration activities completely, however more commonly they will affect the procedure required for access and may impose obligations in respect of compensation, land rehabilitation and/or land impact management. This may, for example, necessitate the completion of impact assessment studies and/or require the negotiation of access or compensation arrangements with landowners and indigenous groups. Inability to access, or delays experiences in accessing, the land and unforeseen expenses associated therewith may impact on the Company's activities. Any future changes in legislation and regulations may impose significant obligations or restrictions on the Company which cannot be predicted.

(E) Operating Risks

The Company is in the early stages of resource exploration activity. The business of minerals exploration, development and product is by its nature subject to considerable risk. The prospectus of the Company must be considered in light of the considerable risks, costs and difficulties frequently encountered by companies in a similar stage of resource exploration. The amount and timing of exploration expenditures will depend on the progress of ongoing exploration, the results of consultants' analysis and recommendations and other factors, many of which are beyond the Company's control.

The development of the new and current projects will require the commitment of substantial resources and the Company expects to incur losses unless and until projects enter into commercial production and generate sufficient revenues to fund their continuing operations. There can be no assurance the exploration of the Company's projects will result in the discovery of an economic

mineral deposit. Accordingly, there can be no assurance the Company will generate any revenues or achieve profitability.

Furthermore, if the Company made a discovery, there can be no assurance any logistical, technical, financial and regulatory hurdles would be satisfied and that profitable, commercial production would be achieved.

(F) Dilution

The percentage shareholding in the Company of existing shareholders who do not take up their rights in full pursuant to the Rights Issue will be diluted. Shareholders who do not take up their rights in full may be diluted depending on the extent to which the Rights Issue is subscribed by other shareholders or third-parties who apply for and received New Shares from any shortfall. Further details of the potential dilutive impact of the Rights Issue are set out in Section 4.1.

Shareholders may also be diluted upon exercise of New Options and/or Placement Options (although there is no guarantee that any New Options and/or Placement Options will be exercised).

Shareholders may also be diluted as a result of the issue of consideration to the vendors if the Cobalt X Acquisition is completed and the issue of shares upon exercise of the Facilitation Options (although there is no guarantee that the Facilitation Options will be exercised).

(G) Speculative nature of investment

Acquiring or dealing with shares and options involves risks. An investment in the Company involves risks that may be higher than risks associated with investment in other companies.

No guarantee can be given about the market value or price of New Shares or New Options (which may be less than the issue price).

There can also be no guarantee the Company's share price will be greater than the exercise price of the New Options during the period up to expiry of the New Options. Accordingly, there is a risk the New Options will be out of the money during the exercise period affecting the value of the New Options.

The New Shares and any shares issued upon exercise of New Options (or other options under the Prospectus) carry no guarantee with respect to payment of dividends, return of capital or their market value or price. No guarantee can be given that the Company's share price will be greater than the exercise price.

(H) Availability of Personnel

The Company is reliant on technical consultants and other resource industry specialists engaged on a consultancy basis to provide analysis and recommendations on, and carry out, exploration activities in respect of its projects. The availability of suitable technical consultants and resource industry specialists may be limited and there may be delays in securing equipment and personnel required to carry out the Company's planned activities. This may result in cost and time overruns which may have a material adverse effect on the Company.

5.2 General Risks

(A) Environment

The proposed activities of the Company are subject to both Australian Federal and State laws and regulations concerning the environment. The Company may require approval from relevant regulatory authorities before undertaking activities likely to impact on the environment. If the Company fails to obtain such approvals it may be prevented from undertaking those activities. Delays in obtaining any required approvals may also adversely affect the Company proposed activities. Furthermore, future legislation and regulations may impose significant environmental obligations on the Company that cannot be predicted.

(B) Government Policy

In addition to the effect of legislative or regulatory changes in the specific areas of land access and environment discussed above, changes in government, financial policy, taxation and other laws (including legislation which regulates the resources industry) may affect the Company's ability to carry on its proposed activities, restrict the Company in achieving its objective or may result in increased compliance costs or complexities in managing the Company's proposed operations and activities. Changes to State or Commonwealth government, government policies or legislation cannot be predicted and could have a materially adverse effect on the Company.

(C) Litigation risks

The Company is exposed to possible litigation risk including contractual disputes, occupational health and safety claims and employee claims. The Company may be involved in disputes with other parties in the future, potentially resulting in litigation. Any such claim or dispute, if proven, may adversely impact the Company's operations, financial performance and financial position.

(D) Market Conditions

The market price of the Company's securities may be subject to a variety of unpredictable influences on the market for equities in general and resources stocks in particular. These market conditions may affect the value of the Company's securities regardless of the Company's performance. Lack of liquidity may also affect the value of the Company's securities.

The trading price of New Shares, and New Options and Placement Options if admitted to official quotation on ASX and underlying shares issued upon exercise, may fall as well as rise.

(E) Liquidity

There can be no assurance there will be, or continue to be, an active market for Shares or that the price of Shares will increase.

The New Options, Placement Options and Facilitation Options will be unlisted. While the Company may, in the future, apply for quotation of the New Options, Placement Options and Facilitation Options there can be no guarantee that any such application, if made, would be successful. There is a risk that there will be a limited or no market for the New Options, Placement Options and Facilitation Options, particularly during the period where they are unlisted.

(F) Economic risks

General economic conditions, movements in interest and inflation rates and currency exchange rates may adversely affect the Company's activities, as well as its ability to fund those activities. Further, share market conditions may affect the value of Company securities regardless of the Company's operating performance. Share market conditions are affected by many factors, such as:

- general economic outlook;
- interest rates and inflation rates;
- currency fluctuations;
- changes in investor sentiment toward particular market sectors;
- the demand for, and supply of, capital; and
- terrorism or other hostilities.

(G) Taxation

There may be tax implications arising from applications for New Shares, the receipt of dividends both franked and unfranked (if any) from the Company, participation in any on-market buy-back and on the future disposal of Shares.

5.3 Above risk factors not exhaustive

The above risk factors should not be taken as exhaustive of the risks faced by the Company or by investors in the Company. The above factors, and others not specifically referred to above, may in the future materially affect the financial performance of the Company and the value of New Shares or other securities offered under this Prospectus.

Potential investors should consider that investment in the Company is speculative and should consult their professional advisors before making any decision regarding applying for New Shares or investment in the Company.

To accept your entitlement and pay via BPAY, you should:

- read this Prospectus and the Entitlement and Acceptance Form in their entirety and seek appropriate professional advice if necessary; and
- make your payment via BPAY for the number of New Shares you wish to subscribe for (being the Rights Issue offer price of 1.3 cents (\$0.013) per New Share multiplied by the number of New Shares for which you are accepting your entitlement plus any shortfall shares) so that it is received no later than 5:00pm (Melbourne time) on the Closing Date, or such later date as the Company may specify. You can only make a payment via BPAY if you are the holder of an account with an Australian financial institution.

You should be aware that your financial institution may implement earlier cut off times with regards to electronic payment, and should therefore take this into consideration when making payment. You may also have your own limit on the amount that can be paid via BPAY. It is your responsibility to check that the amount you wish to pay via BPAY does not exceed your limit. The Company and the Share Registrar accept no responsibility for unsuccessful, delayed, or incomplete BPAY payments.

If you have multiple holdings you will have multiple BPAY reference numbers. To ensure that you receive your entitlement in respect of each holding, you must use the customer reference number shown on each personalised Entitlement and Acceptance Form when paying for any New Shares that you wish to accept your entitlement for in respect of that holding. Persons resident in countries outside Australia and New Zealand should consult their professional advisers as to whether any governmental or other consent is required or whether formalities need to be observed to enable them to acquire New Shares. Return of an Entitlement and Acceptance Form or payment will be taken by the Company to constitute a representation that there has been no breach of such requirements.

No account has been taken of the particular objectives, financial situation or needs of recipients of this Prospectus. Because of this, recipients of this Prospectus should have regard to their own objectives, financial situation and needs.

Recipients of this Prospectus should make their own independent investigation and assessment of the Company, its business, assets and liabilities, prospects and profits and losses, and the risks associated with investing in the Company. Independent expert advice should be sought before any decision is made to accept the Rights Issue offer, or to acquire New Shares or other securities of the Company.

7. Continuous Disclosure Obligations

This Prospectus is issued by the Company in accordance with the provisions of the Corporations Act applicable to a prospectus for continuously quoted securities.

Section 713 of the Corporations Act enables a company to issue a special prospectus where the securities under that prospectus are continuously quoted securities, or option over continuously quoted securities, within the meaning of the Corporations Act. This generally means that the relevant securities are in a class of securities, or options over a class of securities, that were quoted enhanced disclosure securities at all times during the 3 months before the date of this Prospectus and that other requirements relating to the Company not being subject to various exemptions and orders under the Corporations Act within the last 12 months are met.

In summary, special prospectuses are required to contain information in relation to the effect of the offer of securities on the company and the rights and liabilities attaching to the securities. It is not necessary to include general information in relation to all of the assets and liabilities, financial position, profits and losses or prospects of the issuing company. Accordingly, this Prospectus does not contain the same level of disclosure as a prospectus of an unlisted company or an initial public offering prospectus.

Having taken such precautions and having made such enquiries as are reasonable, the Company believes that it has complied with the general and specific requirements of ASX as applicable from time to time throughout the 12 months before the date of this Prospectus which required the Company to notify ASX of information about specified events or matters as they arise for the purpose of ASX making that information available to the stock market conducted by ASX.

For the purpose of satisfying section 713(5) of the Corporations Act a prospectus must incorporate information if such information:

- (a) has been excluded from a continuous disclosure notice in accordance with the ASX Listing Rules; and
- (b) is information that investors and their professional advisors would reasonably require for the purpose of making an informed assessment of:
 - the assets and liabilities, financial position and performance, profit and losses and prospects of the Company; and
 - the rights and liabilities attaching to the securities being offered.

The prospectus must contain this information only to the extent to which it is reasonable for investors and their professional advisors to expect to find such information in the prospectus. The Company is not aware of any matters that need to be disclosed under this section of the Corporations Act that have not been previously disclosed or which have not been set out in this Prospectus.

From time to time the Company seeks and engages in discussions on an ongoing basis in respect of potential new investment opportunities both in Australia and overseas. Funds may be used to fund the costs associated with identifying, investigating and pursuing new opportunities. The Company may also investigate opportunities for the divestment of non-core assets and businesses. While the Company may seek and negotiate potential investment or divestment opportunities in this respect, there is no certainty that any arrangement(s) will be finalised on particular terms, at a specific time, or at all. The Company will make further announcements in respect of any such discussions or negotiations in accordance with its disclosure obligations as developments occur.

As a disclosing entity under the Corporations Act, the Company is subject to regular reporting and disclosure obligations. Copies of documents lodged with ASX and ASIC in relation to the Company may be obtained from or inspected by accessing the respective web sites.

Any person may request, and the Company will provide free of charge, a copy of each of the following documents during the acceptance period of this Prospectus:

- (a) the Annual Financial Report of the Company for the financial year ended 30 June 2016 (lodged with ASX on 27 September 2016), being the most recent annual financial report of the Company before the lodgement of this Prospectus with ASIC; and
- (b) any continuous disclosure notices given by the Company since the lodgement of the Annual Financial Report referred to in (a) above before lodgement of this Prospectus. Continuous disclosure notices given by the Company since the lodgement of the Annual Financial Report to the date of this Prospectus are listed in Section 8 of this Prospectus.

Such documents are also available on-line from the ASX web site.

8. ASX Announcements

- (ii) In any reorganisation as referred to in paragraph (e)(i), Options will be treated in the following manner:

Shareholders holding Shares on behalf of persons who are resident overseas (except in New Zealand) are responsible for ensuring that taking up the Rights Issue offer does not breach regulations in the relevant overseas jurisdiction. Return of a duly completed Entitlement and Acceptance Form or payment will be taken by the Company to constitute a representation that there has been no breach of such regulations. Shareholders who are nominees are therefore advised to seek independent advice as to how they should proceed. The Rights Issue offer has not been, and will not be, registered under the US Securities Act and has not been made in the United States of America or to persons resident in the United States of America.
