

Powerhouse Ventures New Zealand Portfolio Showcase Briefings

11th May 2017 - Powerhouse Ventures Limited (ASX: PVL), the developer of intellectual property-based businesses, advises that it will be holding Portfolio Showcase Briefings throughout New Zealand. These events provide an opportunity for New Zealand investors and analysts to engage with some of the leading companies in the Powerhouse investment portfolio. The Showcase Briefings will include presentations from the CEOs and Directors of five of Powerhouse's portfolio companies.

The portfolio companies presenting are:

Session Speakers:	Sector	Speaker
Avalia	Medical	Melissa Yiannoutsos
CropLogic	AgriTech	Matthew Journee
Invert Robotics	Engineering	Neil Fletcher
Upstream	Medical	Colin Dawson
Veritide	AgriTech	Ian Hunter

Platform technology that can be used to design new treatments for cancer, infectious diseases and allergy, with an initial focus centring on cancer immunotherapy.

Commercialising a unique system allowing growers, consultants and food processors in the agri sector to better forecast and optimise crop yields.

Commercialising unique robotic technology to create remote inspection solutions for a range of industries.

Platform of cardio endocrine biomarkers that accurately diagnose a range of conditions in heart disease and associated complications.

Real-time bacteria technology applied to the food industry for food safety and quality.

In addition, investors and analysts will be able to engage with Powerhouse Executives regarding Powerhouse growth and other exciting Portfolio companies. This will include receiving an update on HydroWorks, which is just finalising around \$15 million of ground-breaking Australian contracts in the "red-hot" clean-tech sector.

Information on the Showcase Briefings is detailed below. Please email Greg Slade, (Investor Relations Manager) at greg@sladeir.com before 17 May 2017 to request and/or confirm your attendance.

About Powerhouse Ventures Limited (ASX: PVL):

Powerhouse is a leading intellectual property commercialisation company which identifies and invests in scientific and technical innovation developed at New Zealand and Australian universities and government-owned research institutes. Powerhouse forms, supports and invests in companies that are seeking to commercialise technologies in one of four sectors: engineering and clean-tech; medical and healthcare; agritech and environmental; and, digital and ICT.

It aims to develop these innovations into world-changing businesses by providing access to commercial expertise, patient capital, networks and governance support.

Powerhouse has a successful track record with an existing active portfolio of 24 early stage to mature businesses.
