About Gentrack

Gentrack is a developer of specialist software for energy utilities, water companies and airports around the world. It employs over 350 people in offices in New Zealand, Australia, the UK and Europe and services over 150 customer sites in 20 countries. Gentrack's innovative software products include Gentrack Velocity, Junifer CIS, Airport 20/20, BlipTrack and CA+.

Velocity and Junifer CIS are innovative billing and customer management solutions providing a full range of functionality from SaaS billing and customer management for new entrant energy and water suppliers, to cloud hosted and on-premise solutions for the largest utilities in competitive and regulated markets. Gentrack's intelligent software solutions for airports, Airport 20/20, BlipTrack and CA+, provide a comprehensive solution suite engineered to optimise airport operations through intelligent collaboration, streamlining airport data flows and transforming the passenger experience.
