**Imagion Biosystems Posts Podcast Interview
with Health Professional Radio**

MELBOURNE – July 10, 2017 – Imagion Biosystems Limited (ASX:IBX) today announced the release of a Podcast interview with IBX Executive Chairman, Robert Proulx, speaking to Health Professional Radio, an Australian based media channel dedicated to promoting awareness of issues in healthcare.

The Q&A session with Mr. Proulx provides descriptions of the key elements of Imagion Biosystems' MagSense™ cancer detection technology, the company's commercialization plan, and what motivates Mr. Proulx and the Company's employees, collaborators, and investors to get MagSense™ technology into hospitals and medical clinics as soon as possible.

The Podcast interview can be found on the Company's website under the Investor section – News & Announcements (www.imagionbiosystems.com).

About Imagion Biosystems

Imagion Biosystems is at the crossroads of biotechnology and nanotechnology. Its novel bioimaging and nanomagnetic detection systems have been developed specifically to detect cancer and other diseases earlier and with higher specificity than is currently possible. With the MagSense™ technology Imagion has the potential to optimise patient care and reduce mortality rates across various cancer indications. Based in Albuquerque, New Mexico, Imagion Biosystems listed on the Australian Securities Exchange (ASX) in June 2017.
