10 August 2017

Dear Shareholder

On behalf of Webjet Limited (**Webjet**), I am pleased to invite you to participate in the recently announced 1 for 6 accelerated non-renounceable pro-rata entitlement offer for new Webjet ordinary shares (**New Shares**) at an issue price of \$10.00 per New Share (**Entitlement Offer**).

On 2 August 2017, Webjet announced its intention to raise approximately \$164 million through an Entitlement Offer. The institutional accelerated component of the Entitlement Offer (**Institutional Entitlement Offer**) was successfully completed on 3 August 2017. This information booklet (**Retail Offer Booklet**) relates to the non-accelerated component of the Entitlement Offer (**Retail Entitlement Offer**).

The net proceeds of the Entitlement Offer will be applied principally to the acquisition of JAC Travel Group (Holdings) Limited (**Acquisition**) and transaction costs. More detail is provided in Webjet's Investor Presentation lodged with the Australian Securities Exchange (**ASX**) on 3 August 2017 (and included in this Retail Offer Booklet). The benefits that are expected to flow from the Acquisition for Webjet are also described in that document.

Under the Retail Entitlement Offer, eligible retail shareholders in Australia and New Zealand have the opportunity to subscribe for 1 New Share for every 6 ordinary shares in Webjet held at 7.00pm (AEST) on 7 August 2017 (**Entitlement**) at the price of \$10.00 per New Share, which is the same price as the institutional investors who participated in the Institutional Entitlement Offer (and as set out in your personalised Entitlement and Acceptance Form that is enclosed with this Retail Offer Booklet).

If you take up your Entitlement in full, you can also apply for additional shares in excess of your Entitlement up to a maximum of 50% of your Entitlement under a 'top-up' facility (refer to section 1 of this Retail Offer Booklet for more information).

The issue price of \$10.00 per New Share represents an approximately 8.6% discount to the theoretical ex-rights price of \$10.94 on 1 August 2017.

The Entitlement Offer is fully underwritten by UBS AG, Australia Branch and Credit Suisse (Australia) Limited (**Underwriters**).

The Entitlement Offer is non-renounceable and the Entitlements will not be tradeable on the ASX or otherwise transferable. Shareholders who do not take up their Entitlement in full will not receive any value in respect of those Entitlements they do not take up. I encourage you to consider this offer carefully.

Other Information

This Retail Offer Booklet contains important information, including:

- the Investor Presentation referred to above, which was released to the ASX on 3 August 2017, and provides information on Webjet, including a trading update and information relating to the Acquisition;
- instructions on how to apply, detailing how to participate in the Retail Entitlement Offer if you choose to do so, and a timetable of key dates; and
- instructions on how to take up all or part of your Entitlement.

A personalised Entitlement and Acceptance Form which details your Entitlement, to be completed in accordance with the instructions contained therein, accompanies this Retail Offer Booklet.

The Retail Entitlement Offer closes at 5.00pm (AEST) on Tuesday, 22 August 2017.

Please read in full the details on how to submit your application, which are set out in this Retail Offer Booklet.

You should also consult your stockbroker, solicitor, accountant or other professional adviser to evaluate whether or not to participate in the Retail Entitlement Offer.

On behalf of the Board of Webjet, I encourage you to consider this investment opportunity and thank you for your ongoing support.

Yours sincerely

Roger Sharp
Chairman

1. THE RETAIL ENTITLEMENT OFFER

Eligible Retail Shareholders (as defined in Important Information (see Section 3 below)) are being offered the opportunity to subscribe for 1 New Share for every 6 ordinary shares in Webjet held at 7.00pm (AEST) on Monday, 7 August 2017 (**Entitlement**), at the issue price of \$10.00 per New Share.

Eligible Retail Shareholders may also apply for New Shares in excess of their Entitlement up to a maximum of 50% of their Entitlement (**Additional New Shares**). Please note that Additional New Shares in excess of Entitlements will only be allocated to an Eligible Retail Shareholder if, and to the extent that, the number of Additional New Shares applied for does not exceed 50% of that shareholder's Entitlement and is otherwise subject to Webjet's absolute discretion having regard to the circumstances at the time of the close of the Retail Entitlement Offer (**Allocation Principles**). Any Additional New Shares will be limited to the extent that there are sufficient New Shares from Eligible Retail Shareholders who do not take up their full Entitlements. Subject to the foregoing, Webjet may apply any scale-back (in its absolute discretion).

By way of example, If your shareholding as at 7.00pm (AEST) on 7 August 2017 (**Record Date**) is 2,000 Shares, then:

- your Entitlement to subscribe for New Shares under the Retail Entitlement Offer is 334 New Shares; and
- the maximum number of Additional New Shares you may apply for is 167 Additional New Shares.

Accordingly, in this example, if you take up your full Entitlement and apply for the maximum number of Additional New Shares, you could apply for up to 501 New Shares.

The Company has applied for the grant by ASX of official quotation of the New Shares.

The Retail Entitlement Offer is being made pursuant to provisions of the Corporations Act which allow certain rights issues to be made without a prospectus. As a result, it is important for Eligible Retail Shareholders to read and understand the information on Webjet and the Retail Entitlement Offer made publicly available, prior to accepting all or part of their Entitlement or applying for Additional New Shares. In particular, please refer to this Retail Offer Booklet, Webjet's other periodic and continuous disclosure announcements to the ASX available at www.asx.com.au.

Your Entitlement is set out on the accompanying personalised Entitlement and Acceptance Form and has been calculated as 1 New Share for every 6 Existing Shares you held as at the record date of 7.00pm (AEST) on Monday, 7 August 2017 (**Record Date**) rounded up to the nearest whole New Share. If you have more than one holding of Existing Shares, you will be sent more than one personalised Entitlement and Acceptance Form and you will have separate Entitlements for each separate holding. New Shares issued pursuant to the Retail Entitlement Offer will be fully paid and rank equally with existing Webjet ordinary shares on issue.

Note: the Entitlement stated on your personalised Entitlement and Acceptance Form may be in excess of the actual Entitlement you may be permitted to take up where, for example, you are holding Existing Shares on behalf of a person in the United States.

Nominees and custodians

The Retail Entitlement Offer is being made to all shareholders on the share register of Webjet at 7:00pm (AEST) on Monday, 7 August 2017 with an address in Australia or New Zealand and who did not participate in the Institutional Entitlement Offer that are not in the United States and are not acting for the account or benefit of a person in the United States. Webjet is not required to determine whether or not any registered holder is acting as a nominee or custodian or the identity or residence of any beneficial owners of Existing Shares. Where any holder is acting as a nominee or custodian for a foreign person, that holder, in dealing with its beneficiary, will need to assess whether indirect participation by the beneficiary in the Retail Entitlement Offer is compatible with applicable foreign laws. Any person in the United States or any person that is

or is acting for the account or benefit of a person in the United States with a holding through a nominee or custodian may not participate in the Retail Entitlement Offer and the nominee or custodian must not take up any Entitlement or send any materials into the United States. Webjet is not able to advise on foreign laws.

2. HOW TO APPLY

If you wish to take up all or part of your entitlement, or you wish to apply for Additional New Shares, you can do either of the following:

Payment by BPAY®

If you wish to pay by BPAY®, please follow the instructions on your personalised Entitlement and Acceptance Form. You can only make a payment via BPAY® if you are the holder of an account with an Australian financial institution that supports BPAY® transactions.

Please note that should you choose to pay by BPAY®:

- you do not need to submit the personalised Entitlement and Acceptance Form but are taken to have made the declarations on that Entitlement and Acceptance Form;
- if you do not pay for your full Entitlement, you are deemed to have taken up your Entitlement in respect of such whole number of New Shares which is covered in full by your application monies; and
- if you do pay for more than your full Entitlement, you are deemed to have applied for as many Additional New Shares as your excess amount will pay for in full (subject to a maximum of 50% of your Entitlement and any scale-back determined by Webjet in its absolute discretion).

It is your responsibility to ensure that your BPAY® payment is received by the Share Registry by no later than **5.00pm (AEST) on Tuesday, 22 August 2017**. You should be aware that your financial institution may implement earlier cut-off times with regards to electronic payment and you should therefore take this into consideration when making payment.

If you are paying by BPAY®, please make sure to use the specific Biller Code and unique Customer Reference Number on the back of your personalised Entitlement and Acceptance Form. If you receive more than one personalised Entitlement and Acceptance Form, please only use the Customer Reference Number specific to the Entitlement on that form. If you inadvertently use the same Customer Reference Number for more than one of your Entitlements, you will be deemed to have applied only for New Shares (and Additional New Shares) on the Entitlement to which that Customer Reference Number applies.

Payment by cheque, bank draft or money order

If you wish to pay by cheque, bank draft or money order, you should complete your personalised Entitlement and Acceptance Form in accordance with the instructions on the Form and return it accompanied by a cheque, bank draft or money order in Australian currency for the amount of the application monies, payable to “Webjet Limited” and crossed “Not Negotiable”.

Your cheque, bank draft or money order must be:

- for an amount equal to \$10.00 multiplied by the number of New Shares (and if applicable, Additional New Shares) that you are applying for; and
- in Australian currency drawn on an Australian branch of a financial institution.

Cash payments will not be accepted. Receipts for payment will not be issued.

Shareholders who make payment via cheque, bank draft or money order should mail their completed personalised Entitlement and Acceptance Form together with application monies using the reply paid or self-addressed envelope provided with this Retail Offer Booklet to:

Webjet Limited
C/- Computershare Investor Services Pty Limited
GPO Box 2987
Adelaide SA 5001
Australia

To participate in the Retail Entitlement Offer, your payment and validly completed Entitlement and Acceptance Form must be received by Computershare Investor Services Pty Limited by 5.00pm (AEST) on Tuesday, 22 August 2017.

You should ensure that sufficient funds are held in relevant account(s) to cover the application monies as your cheque will be processed on the day of receipt. If the amount of your cheque for application monies (or the amount for which the cheque clears in time for allocation) is insufficient to pay in full for the number of New Shares (and if applicable, Additional New Shares) you have applied for in your personalised Entitlement and Acceptance Form, you will be taken to have applied for such lower number of whole New Shares (and if applicable, Additional New Shares) as your cleared application monies will pay for (and to have specified that number of New Shares on your personalised Entitlement and Acceptance Form). Alternatively, your application will not be accepted.

Representations, allotment and refunds

If you take no action, you will not be allocated New Shares and your Entitlement will lapse. Your Entitlement to participate in the Retail Entitlement Offer is non-renounceable and will not be tradeable or otherwise transferable. Shareholders who do not take up their Entitlements in full will not receive any payment or value for those Entitlements they do not take up.

By completing and returning your personalised Entitlement and Acceptance Form with application monies or making a payment by BPAY®, you will be deemed to:

(a) represent and warrant that you are an Eligible Retail Shareholder (as defined in Important Information (see Section 3 below));

(b) represent and warrant on your behalf and on behalf of each person on whose account or benefit you are acting that: (i) you are not in the United States and are not acting for the account or benefit of a person in the United States; (ii) you understand and acknowledge that neither the Entitlements nor the New Shares (and any Additional New Shares) have been, or will be, registered under the Securities Act or the securities laws of any state or other jurisdiction in the United States, or in any other jurisdiction outside Australia or New Zealand and accordingly, the Entitlements may not be offered or taken up by, and the New Shares (and any New Additional Shares) may not be offered, sold or otherwise transferred except in accordance with an available exemption from, or in a transaction not subject to, the registration requirements of the Securities Act and any other applicable securities laws; (iii) you understand and acknowledge that the Entitlements and the New Shares (and Additional New Shares) may only be offered, sold and resold outside the United States in “offshore transactions” (as defined in Rule 902(h) under the Securities Act) in reliance on Regulation S under the Securities Act; (iv) you are taking up your Entitlement and purchasing New Shares (and Additional New Shares) outside the United States in “offshore transactions” (as defined in Rule 902(h) under the Securities Act) in reliance on Regulation S under the Securities Act; (v) you acknowledge that if you decide to sell or otherwise transfer the New Shares (and Additional New Shares) you will only do so in standard (regular way) brokered transactions on the ASX where neither you nor any person acting on your behalf knows, or has reason to know, that the sale has been pre-arranged with, or that the purchaser is, a person in the United States; and (vi) you have not and will not send any materials relating to the Retail Entitlement Offer to any person in the United States;

Acquisition

Webjet today announced it has entered into a binding agreement to acquire JacTravel Group (Holdings) Limited (“**JacTravel**”) (“**Acquisition**”) for an enterprise value of £200 million. The

¹ Based on TTV and management estimates.

² As at 24 June 2017, JacTravel had c.10,000 directly contracted hotels, of which c.7,000 are unique and c.3,000 overlap with Webjet’s existing inventory.

³ Based on EBITDA for the 12 months to 30 June 2017 as set out in the unaudited management accounts of JacTravel, adjusted by Webjet management based on its due diligence and to exclude non-recurring items and align to Australian Accounting Standards.

⁴ Based on the 12 months to 30 June 2017 per unaudited management accounts for Webjet and JacTravel. Calculation before amortisation of intangibles related to the acquisition and one-off transaction costs. In accordance with AASB 133, Webjet basic EPS for the year ending 30 June 2017 has been adjusted to reflect the bonus element in the Entitlement Offer. EPS accretion is dependent on the accounting treatment of the Thomas Cook agreement. Refer to Webjet’s ASX announcement (dated 28 July 2017) and Webjet’s investor presentation (pages 16 and 21, as of today’s date).

NOT FOR DISTRIBUTION OR RELEASE IN THE UNITED STATES

Acquisition will be funded by a fully underwritten accelerated pro rata non-renounceable entitlement offer ("**Entitlement Offer**"), cash and debt funding and an issue of new Webjet shares to continuing management shareholders and the existing private equity owner of JacTravel ("**Vendor Share Placement**").

JacTravel is a market leading global B2B travel business based in Europe. Operating a multi-brand strategy via JacTravel and TotalStay, the company connects an extensive range of suppliers with travel providers and specialises in both multi-channel hotel distribution and tailored tours to inbound traveler groups visiting Europe. JacTravel has market leading positions in its core segments and is one of the largest independent platforms in Europe by TTV, with strong presence in key international cities.

Webjet's Managing Director, John Guscic said: *"The acquisition of JacTravel is transformational to WebBeds, creating the #2 B2B player globally and the #2 B2B player in the important European market.*

JacTravel is highly complementary to WebBeds' existing portfolio in terms of geography, product and customer mix, with an operating footprint that fills a key gap in our current offering, being Tier 1 European cities, whilst increasing the breadth and depth of WebBeds' existing position across Asia, the Americas and Middle East.

In addition, bringing JacTravel under our broader Webjet banner and leveraging its inventory into WebBeds' existing distribution network will provide deepened room night allocations, opportunities to realise synergies and accelerate growth of WebBeds globally."

For the 12 months ended 30 June 2017, JacTravel generated TTV of £398 million (A\$657 million⁵) and EBITDA of £19 million (A\$32 million⁵). The Acquisition purchase price is £200 million (A\$330 million⁵) to be paid in cash and new Webjet shares. The purchase price represents 10.5x FY2017 EBITDA and the Acquisition is estimated to be materially EPS accretive in FY17 on a pro-forma basis, before synergies:

- c.25% EPS accretive⁶ based on Webjet's accounting treatment of the Thomas Cook agreement
- c.35% EPS accretive⁷ based on the proposed accounting treatment of the Thomas Cook agreement as notified by BDO, Webjet's auditor

The cash consideration for the Acquisition will be funded by the proceeds of the Entitlement Offer and A\$145 million of existing cash reserves and debt funding. In addition, approximately 2.7 million new Webjet shares will be issued to continuing management shareholders and the private equity vendor of JacTravel at an issue price of A\$10.94 per share, representing c.9% of the purchase price. The shares issued under the Vendor Share Placement will represent approximately 2% of Webjet's issued capital after completion of the Entitlement Offer. They will be subject to escrow for a period of 18 months for continuing management and 6 months for the private equity owner of JacTravel. Following the acquisition, Pro-forma Net Debt / FY17 EBITDA

⁵ Based on GBP:AUD conversion rate of 1.65 as at 1 August 2017.

⁶ Based on Webjet's existing accounting treatment of the Thomas Cook agreement, as presented in its 1H'17 financial report and as set out in Webjet's announcement to the ASX, dated 28 July 2017.

⁷ Based on the proposed accounting treatment of the Thomas Cook agreement as notified by Webjet's auditor, BDO, set out in Webjet's announcement to the ASX (dated 28 July 2017) and further details of which are set out in Webjet's investor presentation (pages 16 and 21, as of today's date).

will be less than 0.5x⁸, which ensures continued balance sheet strength and capacity to pursue further growth opportunities.

The acquisition is expected to complete on 31 August 2017.

Entitlement Offer

The Entitlement Offer is a fully underwritten accelerated pro rata non-renounceable entitlement offer, to raise approximately A\$164 million.

Under the Entitlement Offer, eligible shareholders are invited to subscribe for 1 new Webjet share for every 6 existing Webjet shares ("**Entitlement**") held as at 7:00pm (Sydney time) on Monday, 7 August 2017 ("**Record Date**").

The offer price of A\$10.00 per new share represents an 8.6% discount to the theoretical ex-rights price of A\$10.94 on 1 August 2017⁹.

Approximately 16.4 million new Webjet shares will be issued under the Entitlement Offer. New shares will rank equally with existing shares.

Institutional Entitlement Offer

Eligible institutional shareholders will be invited to participate in the Entitlement Offer for institutional shareholders ("**Institutional Entitlement Offer**") which is being conducted today, Wednesday, 2 August 2017 and tomorrow, Thursday, 3 August 2017.

Eligible institutional shareholders can choose to take up all, part or none of their Entitlement. Institutional Entitlements cannot be traded on market or transferred.

Institutional Entitlements that eligible institutional shareholders do not take up by the close of the Institutional Entitlement Offer, and institutional Entitlements that would otherwise have been offered to ineligible institutional shareholders, will be offered to new and existing institutional investors concurrently with the Institutional Entitlement Offer.

Webjet's shares will remain in a trading halt pending completion of the Institutional Entitlement Offer.

Retail Entitlement Offer

Eligible retail shareholders in Australia and New Zealand will be invited to participate in the Entitlement Offer for retail shareholders ("**Retail Entitlement Offer**") at the same offer price and offer ratio as the Institutional Entitlement Offer. The Retail Entitlement Offer will open on Thursday, 10 August and close at 5:00pm on Tuesday, 22 August. Eligible retail shareholders may also apply for New Shares in excess of their Entitlement up to a maximum of 50% of their Entitlement.

Further details about the Retail Entitlement Offer will be set out in the retail offer booklet, which Webjet expects to lodge with the ASX and despatch on Thursday, 10 August.

Entitlements cannot be traded on the ASX or transferred. Eligible shareholders who do not take up their Entitlement under the Entitlement Offer in full or in part, will not receive any value in respect to those Entitlements not taken up.

⁸ Based on the 12 months to 30 June 2017 per unaudited management accounts for Webjet continuing operations and the 12 months to 30 June 2017 per unaudited management accounts for JacTravel, with JacTravel EBITDA constructed from unaudited management accounts, adjusted by Webjet management based on its due diligence and to exclude non-recurring items and aligned to Australian Accounting Standards. Net debt calculation excludes A\$21.2 million of restricted client funds. Pro-forma net debt calculation is dependent on the accounting treatment of the Thomas Cook agreement.

⁹ The TERP is a theoretical price at which WEB shares trade immediately after the ex-date for the Entitlement Offer and prior to the Vendor Share Placement. TERP is calculated by reference to Webjet's closing price of A\$11.10 on 1 August 2017.

Accounting treatment—Thomas Cook agreement

Update on accounting treatment of the Thomas Cook agreement

- On 28 July 2017 Webjet notified the market of a disagreement with its auditor, BDO Audit (SA) Pty Ltd (BDO), on a technical accounting matter relating to its financial statements for the year ending 30 June 2017
- In August 2016, Webjet entered into an agreement with Thomas Cook as preferred supplier for the majority of the volume of Thomas Cook's complementary hotel business (Contract). Webjet paid £21 million to Thomas Cook for the transfer of around 3,000 hotel contracts and for the implementation costs of the deal
- During a 2 year "transitional period", Thomas Cook agreed to pay Webjet a fixed management fee (in instalments) in order to retain access to the hotel contracts. Thereafter, Thomas Cook will pay a volume based fee
- The accounting treatment applied by Webjet was to record an intangible asset (10 year amortisation), and to recognise the fixed management fee as revenue on a monthly straight-line basis over the transitional period. The volume based fee (post transitional period) will be treated as revenue on an accrual basis
 - intangible asset amortised over 10 years based on the assessment of the economic life of the hotel contracts
- In completing its half year review, BDO signed off on this treatment in its Independent Auditor's Review Report in respect of Webjet's 31 December 2016 financial statements (lodged on 22 February 2017)
- Subsequently, BDO advised Webjet that it may no longer agree with the above accounting treatment (i.e. it being recorded as an intangible asset) and the recognition of the fixed management fee as income. On 27 July 2017, BDO advised Webjet of its final decision in which it confirmed that it had indeed changed its mind concerning the accounting treatment of the Thomas Cook contract and the transactions under that contract
- Further to the announcement on 28 July 2017, the Company has engaged with ASIC in respect to its disagreement with the auditor in relation to the technical accounting treatment related specifically to the Thomas Cook agreement
- The Company is seeking to resolve this matter and will ensure that its FY17 accounts comply with applicable accounting standards and the Corporations Act

KEY RISKS AND SELLING RESTRICTIONS

Key risks

1. Operational risks

This section discusses some of the risks associated with an investment in Webjet. Webjet's business is subject to a number of risk factors both specific to its business and of a general nature which may impact on its future performance and forecasts. Before subscribing for Webjet shares, prospective investors should carefully consider and evaluate Webjet and its business and whether the shares are suitable to acquire having regard to their own investment objectives and financial circumstances and taking into consideration the material risk factors, as set out below. The risk factors set out below are not exhaustive. Prospective investors should consider publicly available information on Webjet, examine the full content of this presentation and consult their financial or other advisers before making an investment decision.

Competition

Given Webjet operates in a predominately online environment, it is facing significantly increased competition from existing and/or new sites and business models and the introduction of further new mobile booking apps is considered to be a risk to Webjet's market share. The fast release nature of new online technologies and development of apps could impact Webjet.

If Webjet's competitors or potential competitors become more effective, or if new competitors enter the market and Webjet is unable to appropriately respond to or counter these actions, the Company's financial performance or operating margins could be adversely affected.

Competition has also grown through internet-based travel providers and metasearch businesses, including the rise of "home stay" OTAs such as Airbnb, Homeaway, and Tripping. In the B2B space there could be increased competition from OTAs in any of these forms. The "home stay" OTAs may also impact the market for hotel rooms (as they offer an alternative to a hotel room), or increase competition by offering hotel rooms in addition to homes on their websites. The competition may adversely impact the Company's financial performance and its ability to execute its growth strategy, including in respect of JacTravel.

If the actions of competitors or potential competitors become more effective, or if new competitors enter the market and Webjet is unable to counter these actions, the Company's financial performance or operating margins could be adversely affected or Webjet may be unable to compete successfully.

Market risk

Webjet is exposed to changes in consumer sentiment towards Webjet itself, travel in general and across key markets. Consequently, a failure by Webjet to predict or respond to any such changes could adversely impact Webjet's future financial performance.

Technology risk

Webjet and the JacTravel business that it is acquiring rely heavily on information technology systems. Key systems are operated under licences and the Company's costs may increase. Licences may be terminated or not renewed. The suppliers may be subject to events, such as insolvency or technical failures, leading to temporary or permanent loss of services and systems.

Webjet makes a significant time and cost investment in its information technology and sales systems to deliver cost savings in its processes and operations to achieve increases in efficiencies. The information systems are not proprietary systems. Should these IT systems not be further developed and implemented or upgraded by suppliers when anticipated, it may negatively impact the Company's performance potential and competitive position.

An interruption, loss of or delay of the Company's internet or communication facilities or transaction processing facilities, loss or corruption of data, failure of backup and restoration procedures (including as a result of a cyber attack, malicious damage to Webjet's IT systems or fraudulent use of Webjet's data or information or breach of privacy of consumer data) or failure of back up and disaster recovery systems and plans may impact the Company's short term financial position and may have a longer term impact on client and supplier satisfaction.

In addition, any pricing ticketing errors may result in Webjet making additional payments to suppliers under Webjet's seat price guarantee.

People risk

If not managed effectively, Webjet's ability to attract and retain key talent in its management and operational staff could have a negative effect on its reputation and performance.

Webjet is substantially dependent on the continuing service of its Managing Director as well as other key executives. There is no guarantee Webjet will be able to retain the service of such persons

Key risks (cont'd)

1. Operational risks

Online booking market

Webjet and JacTravel are exposed to the significant influence of Google in both search results and as a key element in the online marketing space. Notwithstanding Webjet's significant brand awareness and depth of product, it continues to bid aggressively for key search terms in Google in order to defend its current positions. Changes to any element in the online booking market, including changes imposed by Google, may cause Webjet's marketing costs to materially increase, which could adversely impact financial performance and position.

Foreign exchange risk

A shift in the value of the Australian dollar, particularly against the US dollar, GBP or Euro can impact domestic consumer spending and in turn, impact the domestic and international travel markets. Despite Webjet's strong position in online flights and accommodation, Webjet is unable to accurately predict the lead-in time or flow-on effect of any movement in the Australian dollar and impact on consumer spending.

As such, fluctuations in a number of exchange rates, including the Australian dollar / US dollar exchange rate, Australian dollar / GBP exchange rate and Australian dollar / Euro exchange rate may adversely have a negative effect upon the financial performance and position of Webjet and JacTravel. Webjet's increased business outside of Australia following the JacTravel acquisition also has the potential to increase the impact of currency movements to its business.

Security

As with all e-commerce businesses, Webjet is heavily reliant on the security of its websites and associated payment systems to ensure that customers are confident of transactions online. Breaches of security could impact customer satisfaction and confidence in Webjet and could impact the operations and financial performance of Webjet and/or its share price.

Maintenance of professional reputation and brand name

The success of Webjet is heavily reliant on its reputation and branding. Unforeseen issues or events which place Webjet's reputation at risk may impact on its future growth and profitability, its ability to compete successfully and result in adverse effects on its future business plans.

Supplier relationships

A key element of the business model of Webjet and JacTravel is the strength of the relationships that each business has established with its suppliers. The retention of these existing suppliers and the sourcing of new suppliers is a key factor that underpins Webjet's business model. The flight-centric nature of the B2C businesses makes the relationships with key airlines of particular importance. In addition, a key selling point for consumers is Webjet's ability to provide consumers with tickets for all major airlines on its search and booking engine. Loss of any major airline as a supplier may significantly diminish the attractiveness of Webjet's search and booking engine to consumers and thereby reduce Webjet's sales.

The hotel supply rights of Webjet's B2B business, including the JacTravel business, are also very important. Loss of material suppliers, or a change in how suppliers transact with Webjet or with Webjet's customers, may diminish the attractiveness of Webjet's B2B offering and impact on growth and profitability.

In many cases the suppliers of Webjet and JacTravel (including airlines and hotels) are also direct competitors to Webjet's and JacTravel's business. These suppliers may develop ways to direct consumer traffic to their websites and other sales points. A change in the relationship with Webjet's suppliers may adversely impact on the financial performance and position of Webjet.

Any change in commission rates payable could significantly impact margins. The quantum, compositions and proportion of commissions and incentives from airlines, hotel providers and other suppliers may change over time, impacting Webjet's business model and profitability, if it is unable to adapt.

Diminution of customer satisfaction and loyalty

The businesses of Webjet and JacTravel are a customer service business and they are therefore dependent on customer satisfaction and loyalty. Any diminution in customer satisfaction, Webjet may have an adverse impact on the financial performance and position of Webjet.

Key risks (cont'd)

1. Operational risks

Hostilities, terrorism and other external events

Webjet may be adversely impacted by international hostilities or war, acts of terrorism, epidemics or outbreaks of disease, political or social instability, natural disasters and weather effects. JacTravel has a particular focus on the European market, which has been the subject of a number of recent acts of terrorism. These events may impact upon travel to specific locations or be of generalised effect. These events may also impact airline, accommodation and other travel sales, which may have an adverse impact on Webjet's and JacTravel's operating and financial performance and more immediate impact upon its share price.

Government policies and regulation

Unfavourable changes to government regulation or legislation, regulatory requirements or policies/procedures including relating to consumer credit laws, the registration, operations and licensing of travel agents, consumer financing, banking policy in relation to credit cards, regulation of trade practices, competition, general consumer laws and taxation may adversely affect Webjet's business model and profitability. Webjet is also subject to the regulatory requirements of the Corporations Act, the ASX Listing Rules, ASIC and the Australian Competition and Consumer Commission and Reserve Bank of Australia policies and to similar regulation internationally. Changes to any such legislation, rules and regulatory requirements, or to other policies and procedures of government or other regulatory authorities, may affect Webjet, its business operations and/or its financial performance or have other unforeseen implications.

Intellectual property

Webjet's ability to leverage its innovation and expertise depends upon its ability to protect its intellectual property and any improvements to it. Intellectual property that is important to Webjet includes, but is not limited to, trade marks, domain names, its website, business names and logos. Such intellectual property may not be capable of being legally protected. It may be the subject of unauthorised disclosure or unlawfully infringed, or Webjet may incur substantial costs in asserting or defending its intellectual property rights.

Tourism industry

Webjet's operating and financial performance is dependent on the health of the tourism industry generally. A decline in the domestic and international tourism industry, whether as a result of a particular event (such as a terrorist attack, outbreak of disease or a natural disaster, such as earthquakes and volcanic ash clouds) or economic conditions (such as a decrease in consumer and business demand), could have a material adverse effect on Webjet's operating and financial performance.

2. Acquisition risks

Funding risk

The acquisition of JacTravel is subject to funding condition precedent, however, if it is not completed Webjet is liable to pay a break fee of £2,000,000. The acquisition is being partly funded by a combination of the fully underwritten pro-rata accelerated non-renounceable entitlement offer of new shares in Webjet documented in this presentation, a placement of 2.6 new shares in Webjet to management and private equity vendors of JacTravel, a new A\$100 million debt facility and the remainder of cash. The Underwriting Agreement is subject to customary termination events and if the Underwriting Agreement was to be terminated, there is a risk that Webjet may not raise sufficient funds from the capital raising to complete the acquisition. The new debt facility and draw down by Webjet on it is subject to customary conditions precedent which could limit Webjet's ability to fund the acquisition with debt if not satisfied. If the Underwriting Agreement was to be terminated or debt not available, Webjet will consider other funding options or may otherwise be required to terminate the relevant acquisition agreement. Webjet may seek to obtain funding by issuing additional shares or borrowing money. Any additional equity financing may be dilutive to shareholders and any debt financing, if available, may involve restrictive covenants, which may limit Webjet's operations and business strategy.

Analysis of acquisition opportunities

Webjet has undertaken financial, tax, legal and commercial analysis on JacTravel in order to determine its attractiveness to Webjet and whether to acquire it. It is possible that despite such analysis and the best estimate assumptions made by Webjet, the conclusions drawn are inaccurate or are not realised. To the extent that the actual results achieved by the acquisition of JacTravel are different to those indicated by Webjet's analysis, there is a risk that the profitability and future earnings of the operations of Webjet may be materially different from the profitability and earnings expected as reflected in this presentation.

Reliance on information provided

Webjet has prepared (and made assumptions in the preparation of) the financial information relating to acquisition of JacTravel included in this presentation in reliance on financial information and other information provided by JacTravel. If any of the data or information relied upon by Webjet in its due diligence process and its preparation of this presentation proves to be incomplete, incorrect, inaccurate or misleading, there is a risk that the actual financial position and performance of Webjet may be materially different to the financial position and performance expected by Webjet. Investors should also note that there is no assurance that the due diligence conducted by Webjet and its advisors on JacTravel was conclusive and that all material issues and risks in respect of the acquisition have been identified. Therefore, there is a risk that unforeseen issues and risks may arise,³² which may also have a material impact on Webjet.

Key risks (cont'd)

2. Acquisition risks

Integration risk

The acquisition of JacTravel involves the integration of JacTravel's business, which has previously operated independently to Webjet. As a result, there is a risk that the integration may be more complex than currently anticipated, encounter unexpected challenges or issues (including maintaining the current culture of the JacTravel business), take longer than expected, divert management attention or not deliver the expected benefits. As well, while Webjet has negotiated a normalised amount of working capital to be available in the business at completion of the acquisition, this is a negative amount (due largely to the fact that a business like JacTravel has a large amount of forward booked sales) and there is a risk that this may be inadequate and require further working capital support from Webjet. The acquisition of JacTravel may also trigger acceleration, review or termination events relating to material contracts of JacTravel because of its change of control. These circumstances could all impact on Webjet's operating and financial performance.

Uncovered warranty and indemnity breaches

Webjet may suffer a loss as a result of conduct of the sellers of JacTravel for which the representations, warranties and indemnities negotiated by Webjet in its agreement to acquire JacTravel turn out to be inadequate in the circumstances. This could include Webjet becoming liable for unknown liabilities. The warranties and indemnity protection that Webjet has negotiated with the sellers of JacTravel are limited by the fact that the majority seller is a private equity fund, and it is customary practice in the United Kingdom for private equity sellers to only provide limited warranty and indemnity protection. Webjet has put in place warranty and indemnity insurance to support the warranties and indemnities received from sellers of JacTravel, however, that policy will not respond on all matters and is subject to a maximum liability cap, and therefore may provide no coverage on a particular liability for Webjet. Such uncovered liability may adversely affect the financial performance or position of Webjet post acquisition.

3. General risks

Share price fluctuations

As with any entity with ordinary shares listed on the ASX, the market price of Webjet shares will fluctuate due to various factors, many of which are non-specific to Webjet, including recommendations by brokers and analysts, Australia and international general economic conditions, inflation rates, interest rates, changes in government, fiscal, monetary and regulatory policies, global geo-political events and hostilities and acts of terrorism, and investor perceptions. Fluctuations such as these may adversely affect the market price of Webjet.

3. General risks (cont'd)

Economic Risks

Webjet is exposed to economic factors in the ordinary course of business. Factors such as changes in fiscal, monetary and regulatory policies can adversely impact Webjet's earnings.

Businesses such as Webjet that borrow money are potentially exposed to adverse interest rate movements that may affect the cost of borrowing, which in turn would impact on earnings and increase the financial risk inherent in those businesses.

Financial information and forecasts

The forward looking statements, opinion and estimates provided in this presentation, rely on various contingencies and assumptions. Various factors and risks, both known and unknown, many of which are outside the control of Webjet, may impact upon the performance of Webjet and cause actual performance to vary significantly from expected results. There can be no guarantee that Webjet will achieve its stated objectives or that forward looking statements or forecasts will prove to be accurate.

Taxation

Future changes in Australian taxation laws, including changes in interpretation or application of the law by the courts or taxation authorities in Australia or other jurisdictions in which Webjet operates, may affect taxation treatment of an investment in Webjet shares, or the holding and disposal of those shares. Further, changes in tax law, or changes in the way tax law is expected to be interpreted, in the various jurisdictions in which Webjet operates, may impact the future tax liabilities of Webjet.

Dividends

The payment of any future dividends will be at the discretion of the Board and will depend, amongst other things, on the performance and financial circumstances of the Company at the relevant time. There can be no guarantee as to the likelihood, timing, franking or quantum of future dividends from Webjet.

Change in accounting policy

Webjet is subject to the usual business risk that there may be changes in accounting policies which impact Webjet.

Key risks (cont'd)

3. General risks (cont'd)

Accounting treatment

In August 2017, Webjet entered into an agreement with Thomas Cook pursuant to which it was appointed to be the preferred supplier for the majority of the volume of Thomas Cook's complementary travel business (Contract). The Contract entitles Webjet initially to a fixed management fee during a transitional period and then to a volume based fee.

The accounting treatment applied by Webjet to the Contract was to record the Contract as an intangible asset, to be amortised over a period of 10 years, and to recognise the fixed fee paid to Webjet under the Contract as revenue on a monthly straight-line basis over the transitional period. The volume based fee payable to Webjet under the Contract, which applies after the initial transitional period, has been treated by Webjet as revenue on an accrual basis.

Webjet's auditor, BDO Audit (SA) Pty Ltd (BDO), approved this approach when signing off on Webjet's interim accounts to 31 December 2016. However, BDO has advised Webjet that it no longer agrees with Webjet's accounting treatment of the Contract (i.e. being recorded as an intangible asset) and Webjet's recognition of the fixed fee as revenue. Webjet obtained advice from two Big 4 accounting firms in relation to the accounting treatment of the Contract, and both firms supported Webjet's position that

1. The Contracts purchased from Thomas Cook are an intangible asset, and as such should be capitalised
2. The fixed fee received from Thomas Cook should be treated as revenue

The differences in the views between Webjet (and two of the Big 4 accounting firms) on one hand, and BDO on the other, relate to technical matters only and do not affect the quantum or timing of the fixed fee payments to be made by Thomas Cook to Webjet under the Contract.

If Webjet were to adopt the accounting treatment in FY17 proposed by BDO, the A\$11.0 million revenue recognised by Webjet from the Contract for FY17 would have to be reversed, and incorporating FX impact, the adjustment to EBITDA would be a reduction of A\$11.5 million. Further, the A\$32.7 million carrying value of the intangible asset associated with the Contract would be derecognised.

The Company has provided information to ASIC in respect of its disagreement with the auditor in relation to the technical accounting treatment related specifically to the Contract. The Company will ensure that its FY17 accounts comply with applicable accounting standards and the Corporations Act.

10 August 2017

Dear Sir/Madam

Non-renounceable Entitlement Offer - Notification to ineligible shareholders

On 2 August 2017, Webjet Limited ACN 002 013 612 (**Company** or **Webjet**) announced that it was conducting a 1 for 6 accelerated non-renounceable pro-rata entitlement offer of fully paid ordinary shares to existing shareholders to raise up to approximately \$164 million, at an issue price of \$10.00 per share (**Entitlement Offer**). The Entitlement Offer is fully underwritten by UBS AG, Australia Branch and Credit Suisse (Australia) Limited.

The net proceeds of the Entitlement Offer will be applied principally to the acquisition of JAC Travel Group (Holdings) Limited (**Acquisition**). More detail is provided in Webjet's Investor Presentation lodged with the Australian Securities Exchange (**ASX**) on 3 August 2017.

The Entitlement Offer consists of an institutional and a retail component (**Institutional Entitlement Offer** and **Retail Entitlement Offer** respectively). The Institutional Entitlement Offer was underwritten and raised approximately \$93 million and the Retail Entitlement Offer which is also underwritten will raise approximately \$71 million.

The Retail Entitlement Offer is only available to Eligible Shareholders (as defined below). **Eligible Shareholders** are those persons who:

- are registered as holders of existing shares as at 7.00pm (AEST) on 7 August 2017;
- have a registered addresses on the Webjet share register in Australia or New Zealand at that date;
- are not in the United States and are not acting for the account or benefit of a person in the United States;
- were not invited to participate (other than as nominee, in respect of other underlying holdings) under the Institutional Entitlement Offer, and were not treated as ineligible institutional shareholders under the Institutional Entitlement Offer; and
- are eligible under all applicable securities laws to receive an offer under the Retail Entitlement Offer.

As you do not satisfy the criteria above, you are deemed not to be an Eligible Shareholder for the purposes of the Retail Entitlement Offer. Webjet considers it generally unreasonable on this occasion to extend the Entitlement Offer to shareholders with a registered address outside of Australia or New Zealand having regard to the small number of those shareholders and the costs of complying with legal and regulatory requirements in each of those jurisdictions. Accordingly, the Company is unfortunately unable to extend to you the opportunity to participate in the Retail Entitlement Offer. Under the terms of the Retail Entitlement Offer, you are not eligible to apply for new shares and you will not be sent a copy of the offering materials relating to the Retail Entitlement Offer.

You are not required to do anything in response to this letter. This letter is to inform you about the Retail Entitlement Offer and is not an offer to issue new shares to you, nor an invitation for you to apply for new shares. Entitlements in respect of new shares you would have been entitled to if you were an Eligible Shareholder will lapse. As the Retail Entitlement Offer is non-renounceable, you will not receive any value for these entitlements.

Thank you for your continued support of Webjet and I trust you understand the Company's position on this matter.

If you have any queries regarding the Retail Entitlement Offer, please contact your professional adviser or the Webjet Information Line on 1300 556 161 (within Australia) or +61 3 9415 4000 (from outside Australia) from 8.30am to 5.30pm (AEST) during the Retail Entitlement Offer period. For other questions, you should consult your broker, solicitor, accountant, financial adviser or other professional adviser.

Yours sincerely

Roger Sharp

Chairman
