

11 August 2017

ASX ANNOUNCEMENT

Senetas Corporation Limited – Market Update

Senetas Corporation Ltd (ASX: SEN) (Senetas / the Company) provides the following market guidance in relation to its financial results for the year ended 30 June 2017 (FY17).

Following confirmation of the June 2017 sales results from the Company's major distribution partner, Gemalto, and as the Company's full year audit nears completion, Senetas expects its Net Profit Before Tax (NPBT) to be between \$5.2 million and \$5.3 million for FY17. The expected result is within the FY17 NPBT guidance range provided to the market on 6 February 2017.

Net Profit After Tax (NPAT) for FY17 is expected to be between \$2.8 million and \$2.9 million, below the guidance range provided on 6 February 2017 as a result of a higher than estimated tax expense resulting from the Company's rebatable R&D expenditure.

A detailed update on the Company's operations and further information in relation to the FY2017 results will be released with the Appendix 4E and Full Year Report on Monday, 28 August 2017.

END

ABOUT SENETAS CORPORATION LIMITED

Senetas is an Australian public listed company (ASX: SEN) and leading developer and manufacturer of certified high-assurance encryption hardware; dedicated to protecting network transmitted data without compromising performance.

Senetas encryptors provide dedicated robust end-to-end encryption using state-of-the-art 'client-side' encryption key management. They are a first choice of government and commercial organisations and communications service providers requiring maximum data protection.

Although the serious risks to network data security have been underestimated until revelations of catastrophic security breaches among major commercial and government organisations; Senetas encryptors have protected much of the world's most sensitive information for nearly 20 years.

Certified by leading independent certification authorities, such as Common Criteria, FIPS, CAPS and NATO, Senetas encryptors are certified as "suitable for government and defence use".

Compatible with all Layer 2 Metro Area and Carrier Ethernet networks, Senetas encryptors support all Layer 2 protocols and topologies.

Senetas encryptors protect Cloud and data centre services; government information and secrets; commercially sensitive intellectual property and business secrets; citizen identity and privacy; defence and military information; business and financial data and banking transactions; data centre traffic and CCTV networks; and critical industrial and infrastructure systems.

All Senetas encryptors are designed, developed and manufactured in Australia. They are distributed globally to channel partners and customers by Gemalto, the world's largest data security company. Gemalto also provides a global customer support network.

With their leading security and network performance characteristics, Senetas encryptors are trusted to protect network transmitted data in 30 countries.

Senetas customers include global market leading enterprises and Cloud service providers; government organisations with highly sensitive information, such as the US defence forces; national utilities; commercial and industrial organisations; banks and global financial transactions systems providers.
