Health Insurance – premium revenue

Encouraging improvement in trajectory despite continued slowing of market

- Industry volumes were relatively flat
- Medibank
 - Strong performance from new products helped drive stronger acquisition in 2H17
 - Lapse up slightly in line with industry
- ahm
 - Strong growth in all channels, especially direct channels in 2H17
 - Significant improvement in both acquisition and lapse rates
- Revenue per Policy Unit up 3.8% but lower than blended rate rise of 5.4% due to continuing cover reductions and sales mix changes

Financial year ended 30 June	2017	2016	Change
Premium revenue (\$m)	6,244.9	6,172.5	1.2%
Policyholders¹ (thousand):			
Opening balance	1,800.3	1,846.0	(2.5%)

Average revenue per Policy Unit^{1,3} (\$)	1,327.9	1,279.4	3.8%

1 Consistent with reported industry data, Policyholder numbers only include resident business whereas total Policy Units include both resident and non-resident business (i.e. OSHC and OVHC)

2 Consolidated lapse and acquisition rates exclude transfers of Policyholders between ahm and Medibank at a combined brand level. Lapse and acquisition rates are based on the average of the opening and closing balances for the period

3 Policy Units or Policy Single Equivalent Units (PSEUs) – refer to glossary for definition. Based on average of the month-end balances over the reporting period

4 Based on number of Policyholders

Health Insurance – claims

Drawing rate increase continues to be driven by hospital utilisation growth

- Hospital
 - Higher growth in hospital utilisation rate, coming off a low base in FY16
 - Expected savings from prostheses pricing reform emerging
 - Public hospital costs decrease reflects continued reductions in average length of stay
 - Risk equalisation up due to claims growth and increased spend on CareComplete
- Extras
 - Payment integrity program continued to help moderate overall cost growth
 - Dental cost growth also reflected increased benefits paid from the 100% back offer
- Claims cost growth continues to be partially offset by mix changes and cover reductions
- Claims provision release (net of risk equalisation) of \$16m from 30 June 2016 balance vs. \$20m from 30 June 2015 balance

Financial year ended 30 June (\$m)	2017	2016	Change

- Extras	1,263.6	1,258.0	0.4%
Average net claims expense per Policy Unit ¹ (\$)	(1,101.3)	(1,066.6)	3.3%
Hospital utilisation ² growth	3.6%	2.4%	120bps

1 Policy Units or Policy Single Equivalent Units (PSEUs) refer to glossary for definition. Policy Units include both resident and non-resident business (i.e. OSHC and OVHC). Based on average of the month-end balances over the reporting period

2 Hospital utilisation is defined as the number of hospital admissions per hospital Policy Unit

Health Insurance – management expenses

Increase driven by investments in customer; significant future productivity savings expected

- Reported cost growth of 10.2% reflects:
 - DelPHI amortisation commenced
 - Increase in Deferred Acquisition Costs (DAC) amortisation reflects first full 4-year run rate
 - Additional investment in customer initiatives; majority not expected to recur
- Other management expenses growth contained to 1.6%
- Target of \$50m (up from \$40m) in cumulative productivity savings by 2020
 - Savings of \$20m expected in FY18
- Enterprise Resource Planning project costs still being capitalised – amortisation to commence in 2Q18 (FY18: \$6m)

Financial year ended 30 June (\$m)	2017	2016	Change
Premium revenue	6,244.9	6,172.5	1.2%

- Other management expenses	(471.7)	(464.2)	1.6%
MER	9.1%	8.4%	70bps

Medibank Health

(formerly Complementary Services)

Reported profit increase due to divestments in FY16; ongoing business profit steady

- Reported revenue decline due to divested businesses (Workplace Health, Travel Doctor) in latter part of 1H16
- Ongoing Medibank Health businesses delivered steady operating profit whilst investing in future growth opportunities and implementing an improved service delivery model for the Australian Defence Force contract.
- Post balance date acquisition (3 July 2017) of HealthStrong for \$36.9m
 - FY17 Revenue \$27.6m
 - FY17 EBITDA \$3.8m

Investment portfolio

Target asset allocation revised following continued strength of equity markets

- Target asset allocation revised in June 2017 to 80% defensive, 20% growth (from 75% defensive, 25% growth)
- More defensive portfolio positioning in response to elevated equity valuations and continued global uncertainties
 - Expected return lowered by c.30bps
 - Target return of 1.5% to 2.0% above RBA cash rate
- Foreign currency exposures fully hedged (except for international equities – 50% hedged)

As at 30 June 2017	Balance (\$m)	Portfolio composition	Previous target asset allocation	New target asset allocation

Net investment income

Investment returns buoyed by higher equity market returns and stronger credit markets

- Net investment income above FY16 due to higher investment market returns
 - Growth assets up due to above average equity market returns in FY17 and below average returns in FY16; benefits from lower Australian Dollar
 - Defensive assets up due to stronger credit markets more than offsetting a lower cash rate
- Increase in underlying return premium over cash rate
 - Strong property returns
 - Enhanced premium on cash portfolio

2 FY16 normalised tax rate adjusted for one-off tax benefit

Balance sheet

Strong, debt free balance sheet

- Higher cash balance reflects new strategic asset allocation and funding for HealthStrong acquisition
- Unearned premium liability increase reflects growth in overseas customers
- Deferred acquisition costs up due to continued growth of ahm
- Other liabilities increased due to the timing of tax payments
- Balance sheet remains debt free

Cash flow

Improvement in operating cash flow driven by normalisation of key working capital movements

- Working capital in the prior year impacted by the timing of payments
- Operating assets and liabilities movement reflects higher prepayments of premiums
- Post Project DelPHI, capital expenditure now broadly in line with depreciation and amortisation
- Increase in income tax due to significant FY16 profit increase, and one-off tax benefit of \$23.2m in FY16
- Change in sale of investments related to investment portfolio reweighting to defensive assets

Capital

Modest unallocated capital; some already used in HealthStrong acquisition

- Health Insurance capital at the top end of 12-14% target range, supported by strong investment returns (normalisation adjustment of \$30.8m) and reflective of level of revenue growth
- Unallocated capital defined as:
 - Health Insurance capital above the 12-14% target range (FY17: 13.9%)
 - Other capital above operational requirements
- Unallocated capital reduced by \$36.9m to a notional \$35.3m following the acquisition of HealthStrong on 3 July 2017

Outlook

Craig Drummond – Chief Executive Officer

Regulatory landscape

Significant reform needed to help address rising affordability challenge

Broader regulatory landscape

- Senate Inquiry into PHI
- Medicare Benefits Schedule Review
- Prosthesis List Advisory Committee
- Private Health Ministerial Advisory Committee

Medibank submission to senate inquiry

Transparency

Affordability

Value

- Reduce prosthesis prices paid by private health insurers
- More informed choice for consumers using private health insurance in public hospitals
- Reform second-tier default
- Greater transparency of healthcare costs and quality
- Maintain effective and ongoing incentives for the take-up of private health insurance
- Better preventative programs for chronic disease
- Classification for private health insurance policies to not add to premiums or restrict product innovation
- More rigorous and periodic audits of MBS claims

FY18 Health Insurance outlook

- Flat overall market volumes expected due to further declines in the participation rate
- Continued improvement expected in market share trajectory (stabilisation targeted by the end of 2019)
- No material change expected in hospital utilisation growth rate from FY17 level
- Management expenses expected to be lower, including the benefit of \$20m in productivity savings
- Regulatory environment expected to be supportive with a focus on affordability and industry sustainability

¹ Impacts from credit spread movements were not normalised as part of 1H17 reporting due to materiality considerations and the possibility that they may reverse in 2H17. The impact of credit spread movements increased further in 2H17, leading to an adjustment in Underlying NPAT for FY17. The above table applies this adjustment retrospectively to 1H17

Term	Definition
PHIO	Private Health Insurance Ombudsman
Policyholder	The primary person who is insured under a private health insurance policy (other than in relation to overseas students or visitors), who is not a dependent child, and who is responsible for paying the premium
PSEUs or Policy Units	Policy Single Equivalent Units are used by Medibank as a standard measure of income units. They take into account the number of adults on a policy, and whether they have Hospital Cover or Extras Cover or both. For example, a household with two parents and three children, all of which had both Hospital and Extras Cover, would represent four Policy Units (2 adults x 2 types of Cover = 4; no premium payable in relation to children)
RACS	Royal Australasian College of Surgeons
ROE	Return on equity
Service NPS	A measure of the likelihood of an existing customer to recommend the brand immediately following a service interaction
Underlying NPAT	Underlying NPAT is calculated based on statutory NPAT adjusted for short-term outcomes that are expected to normalise over the medium to longer term, most notably in relation to the level of gains or losses from equity investments, and for one-off items, especially those that are non-cash, such as asset impairments
