

ASX RELEASE

APPENDIX 4E & 2017 FINANCIAL REPORT EARLY SALES OF NEW IN-VITRO DIAGNOSTIC DELIVERS REVENUE BOOST

Highlights:

- *Revenue from product sales up 25% to \$804k, total revenue \$1.46 million*
- *Revenue growth driven by sales of new IVD test through distribution partner StatLab, in first four months since commercial launch*
- *Recent ASX listing provides capital to drive US sales growth and geographic expansion for the hTERT test, as well as future product development to expand the products' use beyond the current application in bladder cancer*

31 August 2017: Sienna Cancer Diagnostics, (ASX:SDX) a commercial stage, medical technology company focused on the development and commercialisation of innovative cancer-related tests for the diagnostic pathology market, releases its Appendix 4E and Financial Report for the period ended 30 June 2017. These are the first financial results published by the company since listing on the Australian Securities Exchange in August 2017.

Total revenue of \$1.46 million was recorded for the 2017 financial year. Revenue generated from direct product sales increased by 25% to \$803,574 (up from \$640,664 in FY16). The remaining revenue is attributed to the R&D tax incentive, and interest.

The Group reported a net loss, after the capitalisation of development expenditure, of \$695,310 (2016: \$476,700) for the reporting period. If not for the capitalisation of development expenditure the Group would have recorded a net loss of \$1,350,919 (2016: \$1,357,342), as expenditure of \$655,609 (2016: \$880,642) for SCD-A7 was capitalised as an intangible asset.

Sienna's IVD product detects hTERT, a component of telomerase – a biomarker found in 85% of epithelial (tissue based) cancers. It is currently being used in the application of bladder cancer as an adjunct to urine cytology, a common diagnostic tool used in pathologies laboratories worldwide.

During FY17, Sienna obtained IVD registration with the US FDA, the European Union (including CE Mark) and the TGA in Australia. In line with Sienna's initial focus on the United States, it signed an exclusive distribution agreement with StatLab, a leading developer and manufacturer of cytology and other diagnostic supplies, targeting >3,000 US pathology laboratories.

StatLab commenced the commercial launch of the IVD test in March 2017 following the training of its sales force, development of marketing materials, and receipt of product inventory.

While the majority of product revenue in FY17 was generated through a commercial relationship with a large US laboratory that developed an in-house version of Sienna's test, there was uplift in sales revenue as a result of new sales achieved by StatLab.

Matthew Hoskin, CEO of Sienna Cancer Diagnostics said, "We are very pleased with the initial sales of the IVD test, and the relationship with our distribution partner StatLab. Our strategy is to work with StatLab to target large volume private pathology labs, and leading academic institutions performing urine cytology testing. As expected, the sales process for a novel diagnostic test is complex and does take some time, particularly in the early days. It is encouraging that in the space of a few months, StatLab has already engaged several laboratories in the process of education and evaluation of the test, and has started receiving revenues from pathology laboratories now using the test in routine clinical practice.

"The teams at Sienna and StatLab are very excited about the growth opportunity in the US. We'll continue to work together to increase awareness of the clinical utility of our product.

"With the funds raised in our recent IPO, we now have the resources to drive the growth strategies in the US and other regions, as well as continue research into the next application for our platform technology."

ENDS.

About Sienna Cancer Diagnostics

Sienna Cancer Diagnostics Ltd. is an Australian medical technology company, with operations in the United States, Europe and Australia. Sienna's strengths lie in identifying novel technologies that satisfy an unmet clinical / market need, then developing and commercialising them. The Company has demonstrated the utility of its first product with the help of its global clinical partners. Sienna's primary platform is the detection of the biomarker telomerase, which is found in nearly all epithelial cancers, and was the subject of a Nobel Prize in 2009. Telomerase is well recognised as an important biomarker used by 85% of cancers to enable immortal cell replication.

The FDA listing of Sienna's first IVD in the United States, and CE marking / IVD registration in Europe and Australia, means the SCD-A7 reagent can be used for clinical diagnostic purposes by pathology laboratories in those regions. Diagnostic pathology laboratories may now purchase the product for use as an in-vitro diagnostic test for the presence of hTERT, a component of telomerase.

APPENDIX 4E AND FINANCIAL REPORT
FOR THE YEAR ENDED 30 JUNE 2017

1. Reporting Period

Current Reporting Year - For the year ended 30 June 2017

Previous Reporting Year – For the year ended 30 June 2016

2. Results for Announcement to the Market

	June 2017	June 2016	Change	Change
	(\$)	(\$)	(\$)	(%)
Revenue from ordinary activities	1,456,945	1,343,998	112,947	8
Loss after tax	(695,310)	(476,700)	(218,610)	46
Total comprehensive loss for the year	(695,310)	(476,700)	(218,610)	46
Earnings Per Share	June 2017	June 2016		
Basic earnings per share (cents)	(0.00)	(0.00)		
Diluted earnings per share (cents)	(0.00)	(0.00)		
Net Tangible Asset Backing	June 2017	June 2016		
Net tangible assets per share (cents)	0.00	0.00		

3. Financial Results

This report should be read in conjunction with any ASX announcements made by Sienna Cancer Diagnostics Limited in accordance with the continuous disclosure requirements arising under the Corporations Act 2001 and ASX Listing Rules.

The information provided in this report contains all the information required by ASX Listing Rule 4.3A.

For an explanation of the financial results reported above please refer to commentary provided in the Directors' Report attached to the 2017 Financial Report.

4. Dividends

No dividend has been declared in relation to the financial year ended 30 June 2017 and no dividend was declared in relation to the financial year ended 30 June 2016.

5. Statement of profit or loss and other comprehensive income with notes

Refer to attached audited financial report.

6. Statement of financial position with notes

Refer to attached audited financial report.

7. Statement of changes in equity

Refer to attached audited financial report.

8. Statement of cash flows

Refer to attached audited financial report.

9. Segment results

Refer to Note 22 of the financial report attached.

10. Details of entities over which control has been gained or lost during the period

No transactions during the period impacted Sienna's control of any entities.

11. Details of associates and joint venture entities

The consolidated entity had no associates or joint venture entities during the year ended 30 June 2017 or the year ended 30 June 2016.

12. Other factors

Refer to attached financial report.

13. Audit status

The attached financial report has been audited and the independent audit report contained within is not subject to a modified opinion.

DIRECTORS' REPORT

The Directors of Sienna Cancer Diagnostics Limited (Sienna, the Group, or the Company) present their report for the financial year ended 30 June 2017.

Directors

The names of the Directors of the Company in office at any time during or since the end of the financial year are:

Geoffrey Cumming	Non-executive Chairman
David Earp	Non-executive Director
Carl Stubbings	Non-executive Director
John Chiplin	Non-executive Director
David Neate	Non-executive Director (resigned 23 May 2017)
Clifford Holloway	Managing Director/Chief Executive Officer (appointed 5 November 2015, resigned as Managing Director 11 August 2016 and resigned as Chief Executive Officer 15 August 2016)

Principal Activities

Sienna is a medical technology company that develops and commercialises cancer-related in-vitro diagnostic tests that address unmet clinical needs. Sienna's target market is pathology laboratories worldwide. The first product developed and brought to market by Sienna is the first in-vitro diagnostic test for detection of hTERT, a component of the biomarker telomerase.

During the 2017 financial year the key areas of activity related to:

- further development of Sienna's IVD test (SCD-A7)
- the commencement of a large-scale bladder cancer study at Johns Hopkins University School of Medicine
- the appointment of product distribution agents in the United States, the United Kingdom, and Switzerland
- the search for further distribution agents for rest-of-world markets
- achievement of ISO13485 certification in October 2016, required for US IVD registration and European CE marking
- listing of the IVD with the Food and Drug Administration (FDA) in the United States as a class 1 product
- registration of SCD-A7 with the European regulatory authority as a CE-marked IVD
- listing Sienna's IVD on the Therapeutic Goods Administration's (TGA) Australian Register of Therapeutic Goods (ARTG)
- the commercial launch of SCD-A7 in the USA
- continuation of clinical validation studies for the collection of data to support the uptake of the IVD test following launch
- research for expanded utility of Sienna's IVD product
- capital raising activities via a rights issue to shareholders and a prospectus for an Initial Public Offering (IPO)
- preparations for an Australian Securities Exchange (ASX) listing

Corporate Information

Corporate Structure

Sienna, a company limited by shares, is incorporated and domiciled in Australia. Sienna has prepared a consolidated financial report incorporating the entity that it controlled during the financial year.

The parent company, Sienna Cancer Diagnostics Limited, became a publicly listed company on 3 August 2017 with the ticker code SDX. At the date of listing on the ASX, Sienna had 643 shareholders. Prior to the listing Sienna was an unlisted public company. Sienna owns 100% of Melbourne Diagnostics Pty Ltd.

The registered office and principal place of business is located at 1 Dalmore Drive, Scoresby, Victoria, Australia, 3179.

Review of Operations

Operating results

The Group reported a net loss, after the capitalisation of development expenditure, of \$695,310 (2016: \$476,700) for the reporting period. If not for the capitalisation of development expenditure the Group would have recorded a net loss of \$1,350,919 (2016: \$1,357,342), as expenditure of \$655,609 (2016: \$880,642) for SCD-A7 was capitalised as an intangible asset.

Revenue

Total revenue recorded for the financial year was \$1,456,945 (2016: \$1,343,998). Product revenues increased to \$803,574 (2016: \$640,664), the receipt of the refundable research and development tax offset contributed \$637,523 (2016: \$682,921) and interest income added \$15,848 (2016: \$17,697). The comparative year included a foreign currency gain of \$2,716.

DIRECTORS' REPORT

Operating Expenditure

Total operating expenditure for the financial period, before the capitalisation of development expenses for SCD-A7, was \$2,807,864 (2016: \$2,701,340). Development expenditure of \$655,609 (2016: \$880,642) incurred to 21 December 2016 was capitalised as an intangible asset, to meet the requirements of accounting standard AASB 138 – Intangible Assets. The process of capitalising development expenditure for SCD-A7 ceased on 21 December 2016, the date the product was first available for sale to customers. Having the product available for sale marks the commencement of the process of amortising the balance of accumulated development expenditure, and as a result an amortisation charge of \$58,562 (2016: Nil) was recorded for the 2017 financial year.

Employee and contractor costs before the capitalisation of development expenditure reduced to \$1,497,812 from \$1,714,322 recorded in the prior financial year, following the resignation of the Chief Executive Officer (CEO) / Managing Director in August 2016. Those responsibilities were taken up by the senior executives and the Board until April 2017, when the Chief Operating Officer was promoted to the role. Research and development expenditure before the capitalisation of development expenses increased slightly to \$560,264 (2016: \$514,588). Travel and meetings expenditure reduced to \$72,328 (2016: \$110,609) following the resignation of the Sydney based CEO. A doubtful debts expense of \$202,635 (2016: Nil), was recognised following the Chapter 11 bankruptcy filing of a significant customer. On 16 March 2017, the Group became aware that Bostwick Laboratories Inc. had filed for chapter 11 bankruptcy protection in the United States. Sienna has registered invoices with the courts as an unsecured creditor of the chapter 11 filing, for product incomes earned in December 2016, January 2017, February 2017 and the first 15 days of March 2017, representing USD155,370 (AUD202,635) of revenue. As the directors are unsure as to what amount, if any, will eventually be recovered from the chapter 11 filing, an allowance for doubtful debts for this amount was recorded in March 2017.

A credit of \$1,949 was recorded for share-based payments (2016: an expense of \$64,882), the combination of the expense for the current reporting period and the reversal of prior period charges for options that expired or were forfeited.

Cash flow

Net cash used in operating activities totalled \$792,807 (2016: \$68,169). The net decrease in cash for the financial year was \$358,526 (2016: net cash increase \$277,721). Cash reserves at 30 June 2017 were \$720,399 (30 June 2016: \$1,080,657). Receipts from operating activities totalled \$646,904 (2016: \$742,753), with reduced cash inflow from product income, \$611,147 (2016: \$693,736), due to Bostwick Laboratories entering chapter 11 bankruptcy protection in 2017, and the balance representing the refund of GST input tax credits. The Research and Development Tax Incentive refund contributed \$637,523 (2016: \$682,921) to cashflow and interest receipts added \$15,104 (2016: \$17,897). Payments to suppliers and employees increased to \$2,092,338 (2016: \$1,511,740), largely due to the reduction in the amount of development expenditure capitalised as an intangible asset for SCD-A7. Cash flow relating to the capitalised development expenditure is categorised as an investment cash flow.

Net cash used in investing activities reduced to \$723,811 from \$896,919 recorded for the prior financial year. The reduction in cash outflow for investing activities relates to the reduction of capitalised development expenditure in 2017, \$653,877 (2016: \$880,642). Approximately six months of development expenditure for SCD-A7 was capitalised in the 2017 financial year, compared to a full year of expenditure in the 2016 financial year. The purchase of intangible assets relates to patent legal fees which increased to \$56,741 (2016: \$10,220).

The inflow of cash recorded for financing activities, \$1,158,092 (2016: \$1,242,809) represents the net proceeds from the issue of new ordinary shares.

Contributed Equity

On 30 November 2017, rights issue documentation was despatched to registered holders of the Company's ordinary shares. The rights issue offered shareholders the opportunity to purchase 1 new ordinary share at 17 cents, for every 4.26 shares held at 7pm on 17 November 2016. For every three (3) new ordinary shares purchased, one (1) option, exercisable at 22 cents, was granted to the shareholder. These options vest on 2 April 2018 and expire on 2 October 2018. A total of 7,300,186 new ordinary shares were issued during the financial year, representing \$1,231,426 of new capital, with the rights issue being the major contributor. A total of 2,273,314 options were issued to shareholders pursuant to the rights issue. During the 2016 financial year the exercise of shareholder options and the issue of shares to new and existing shareholders added \$1,288,084 to contributed equity. Capital raising expenses incurred during the reporting period were \$73,334 (2016: \$45,275).

Future Developments

The Group does not foresee any unusual future event that may significantly negatively impact the Company's operations, results or state of affairs.

Sienna's business model of developing diagnostic products for global markets will always bear some risk given the nature of technological development, competitors entering the market, changes in global healthcare, reliance on commercial partners and our ability to access capital to sustain operations. We cannot guarantee that Sienna technology will be widely adopted and sold by pathology laboratories. Moreover, the global Healthcare industry is an ever-evolving landscape where changes in reimbursement for diagnostics may impact our business opportunities.

DIRECTORS' REPORT

Dividends

No dividends were paid or declared since the start of the financial year. No recommendation for payment has been made.

After Balance Date Events

On 3 August 2017, Sienna Cancer Diagnostics Ltd listed on the Australian Securities Exchange (ASX), having lodged a prospectus with the Australian Securities and Investment Commission (ASIC) on 25 May 2017. The company raised a total of \$4,597,600, before capital raising expenses, in new capital pursuant to the prospectus, and 22,988,000 new ordinary shares, at 20 cents per share, were issued on 31 July 2017. The total number of ordinary shares on issue following the new allotment of shares was 180,262,327. The ASX determined that 24,426,629 of this total be subject to escrow for a period of 24 months from listing date.

There has been no other matter or circumstance which has arisen since 30 June 2017 that has significantly affected or may significantly affect:

- (a) The operations, in financial years subsequent to 30 June 2017, of the consolidated entity, or
- (b) The results of those operations, or
- (c) The state of affairs, in financial years subsequent to 30 June 2017, of the consolidated entity.

Environmental Issues

Sienna's operations are subject to certain environmental regulations under the laws of the Commonwealth and State. In order to ensure compliance with the Environment Protection Act 1970 the consolidated entity engages an external waste management consultant. This consultant is certified to ISO 14001, ISO 9001 and AS/NZ4801. The Directors are not aware of any breaches during the period covered by this report.

Significant Changes in State of Affairs

Apart from matters referred to throughout the Directors' Report, there have been no significant changes in the state of affairs of the Company.

Share-Based Payments

The Group operates an Employee Share Option Plan (ESOP). Each option provides the holder with the right to purchase an ordinary share in the parent entity at a pre-determined price. During the year ended 30 June 2017, 2,500,000 (2016: 5,700,000) new options were issued pursuant to the Group's ESOP, 4,500,000 options were cancelled upon cessation of employment (2016: 330,000) and a further 200,000 (2016: 7,450,000) expired. Options offered to Sienna Directors and staff are subject to a number of conditions which can restrict both vesting and the exercising of the options. Subsequent to the end of the financial year, 210,000 employee options were forfeited and a further 600,000 options were issued to employees under the plan. The new options are exercisable at 25 cents, vest in three equal tranches: 12, 24 and 36 months from issue, and have a four (4) year life. At the date of the Directors Report a total of 13,193,314 options were on issue: 2,273,314 shareholder options and 10,920,000 options issued under the ESOP, representing 7.31% of the total issued capital of Sienna Cancer Diagnostics Ltd.

There were no ordinary shares issued during the financial year from the exercise of employee share options.

Proceedings on Behalf of the Company

No person has applied for leave of court to bring proceedings on behalf of the Company to intervene in any proceedings to which the Company is a party for the purpose of taking responsibility on behalf of the Company for all or any part of these proceedings.

Auditors' Independence Declaration

A copy of the auditors' independence declaration as required under s307C of the *Corporations Act 2001* is set out on page 14.

None of Sienna's officers are former partners or directors of Sienna's auditor, Walker Wayland NSW Chartered Accountant.

Non-Audit Services

Walker Wayland NSW Chartered Accountants were paid \$8,000 (2016: \$4,629) for non-audit services during the 2017 financial year. Walker Wayland NSW Chartered Accountants prepared the investigating accountant's report for Sienna's prospectus dated 25 May 2017.

Directors' Related Party Transactions

Directors related party transactions are detailed in Note 19 to the financial statements.

DIRECTORS' REPORT

Indemnifying and insurance of Directors and other Officers

The Company has paid a premium for Directors' and Officers' Liability (Management Liability) Insurance.

Under the Company's constitution:

- i. To the extent permitted by law and subject to the restrictions in sections 199A and 199B of the Corporations Act 2001, the Company indemnifies every person who is or has been an officer of the Company against any liability (other than for legal costs) incurred by that person as an officer of the Company.
- ii. To the extent permitted by law and subject to the restrictions in sections 199A and 199B of the Corporations Act 2001, the Company indemnifies every person who is or has been an officer of the Company against reasonable legal costs incurred in defending an action for a liability incurred by that person as an officer of the Company.

The Company insures its Directors, Company Secretary and executive officers under a Management Liability Insurance policy. Under the Company's Management Liability Insurance Policy, the Company cannot release to any third party or otherwise publish details of the nature of the liabilities insured by the policy or the amount of the premium. Accordingly, the Company relies on section 300(9) of the Corporations Act 2001 to exempt it from the requirement to disclose the nature of the liability insured against and the premium amount of the relevant policy.

Directors and Company Secretary

Names, qualifications, experience and special responsibilities

Geoffrey Cumming	Non-executive Chairman, appointed Non-executive Director 27 January 2006, appointed Non-executive Chairman 9 June 2006.
Qualifications	BSc (Hons), BAppSc, MAICD, MBA, Ph.D.
Experience	Geoff has held senior roles in the global healthcare and biotechnology sector for more than 20 years. As Managing Director, Roche Diagnostic Systems (Oceania), Geoff transformed the loss-making entity the Swiss parent was intending to divest, into the fastest growing and most profitable affiliate in the Roche group. In his role as Managing Director/CEO of Biosceptre International Ltd, Geoff was successful in designing and securing key funding arrangements through a skilful range of capital raising initiatives, including large government grants, partnering and co-development deals. His most recent executive role was as Managing Director / CEO of Anteo Diagnostics Ltd (ASX: ADO). He is currently a Non-executive Director of Anteo Diagnostics Ltd and Medical Australia Ltd (ASX: MLA).
Special Responsibilities	Member of the Audit Committee
Carl Stubbings	Non-executive Director, appointed 31 December 2011, Acting CEO from August 2016 to March 2017.
Qualifications	BSc
Experience	Carl has considerable experience commercialising diagnostic products, both locally and globally. Based in the USA for 13 years, he served as Senior Vice President for Panbio USA Ltd and Vice-President of Sales and Marketing for Focus Diagnostics, a subsidiary of Quest Diagnostics, one of the world's largest pathology laboratories. In July 2012, Carl moved back to Australia and has held roles at Benitec Biopharma Limited (ASX:BLT, NASDAQ:BNTC), where he was Chief Business Officer, and more recently as Head of Commercialisation at BCAL Diagnostics, a start-up company developing a blood test for breast cancer. In addition to his executive roles, Carl is also a Non-executive Director of ASX listed medical device company Analytica Medical Limited (ASX:ALT) and Otakaro Pathways, a New Zealand based company developing a diagnostic test for Crohn's disease.
Special Responsibilities	Chair of the Remuneration Committee

DIRECTORS' REPORT

Directors and Company Secretary (Continued)

David J. Earp	Non-executive Director, appointed 1 December 2012
Qualifications	BSc (Hons), J.D., Ph.D.
Experience	David was a partner in an intellectual property law firm, advising life science clients, prior to taking senior roles in a number of biotechnology companies. From 1999 until 2012, David served in various roles at Geron Corporation (NASDAQ:GERN), including Chief Patent Counsel, Chief Legal Officer and Senior Vice President of Corporate Transactions. From 2005 to 2010, David was a Board member of TA Therapeutics Ltd. (Hong Kong, PRC). He served on the Board of ViaGen Corporation (Austin, Texas) from 2008-2012, including as Executive Chairman from 2010 until the company was acquired in a trade sale. He is currently the President, CEO and a Director of Circle Pharma, an early stage biotechnology company located in San Francisco, California. David holds a BSc with First Class Honours from Leeds University (UK), a PhD in biochemistry from Cambridge University (UK) and a JD from Lewis and Clark Northwestern School of Law (Portland, Oregon).
Special Responsibilities	Member of the Audit and Remuneration Committees
John Chiplin	Non-executive Director, appointed 22 January 2016
Qualifications	BPharm, MRPharm, Ph.D.
Experience	John is an experienced healthcare executive who brings considerable capital markets experience to the Sienna Board. His most recent executive position was CEO of Polynoma LLC, a US based cancer immunotherapy company, and he was formerly the founding CEO of ASX listed Arana Therapeutics Limited prior to that company's acquisition by Cephalon (now Teva). Before his appointment at Arana, Dr Chiplin was head of the UK's \$300M ITI Life Science investment fund. He is currently a Non-executive Director of ASX listed biotechnology companies Benitec Biopharma Limited (ASX:BLT, NASDAQ:BNTC), Cynata Therapeutics Limited (ASX:CYP) and Adalta Limited (ASX:1AD). He is the Chairman of UK AIM listed company Scancell Holdings Plc (AIM:SCLP). Dr Chiplin is also the founder and Managing Director of Newstar Ventures, an early stage investment fund.
Special Responsibilities	Member of the Remuneration Committee
David Neate	Non-executive Director, appointed 23 May 2005, resigned 23 May 2017
Qualifications	BCom
Experience	David is Sienna's largest shareholder and has extensive commercial expertise and experience in understanding and managing the needs of growing businesses. With a background in financial markets and commercial and residential property development, David owns and manages a successful and expanding business in the fashion import industry and a broad and diverse portfolio of international investments. He has a strong focus on corporate governance and accountability.
Special Responsibilities	Chair of the Audit Committee, resigned 23 May 2017
Tony Di Pietro	Company Secretary, appointed 25 February 2015
Qualifications	BComm, CPA, AGIA
Experience	Tony commenced in the role of Chief Financial Officer in November 2014 and was appointed Company Secretary in February 2015. He is a CPA accredited accountant with over 15 years of corporate accounting experience, gained both in Australia and the UK. He also holds a Graduate Diploma of Applied Corporate Governance from the Governance Institute of Australia. Tony's experience spans many industries including biotechnology, resources, banking, patient transport, security and parking, having been employed by companies such as BHP Ltd (Now BHP Billiton Ltd), ExxonMobil Ltd, HSBC Ltd and Wilson Group. Tony was previously at Acrux Limited, where he was a key member of management for more than 10 years. During this period, Acrux transitioned from a small loss-making public company to an ASX listed company generating significant profits.

DIRECTORS' REPORT

Meetings of Directors and Committees

The Board utilises the following committees to make recommendations on governance and strategic matters. The Audit & Risk and Remuneration Committees make recommendations to the Board.

- *Audit and Risk Committee*
Chaired by David Neate (until his resignation on 23 May 2017) and comprising Geoffrey Cumming and David Earp.
- *Remuneration Committee*
Chaired by Carl Stubbings and comprising David Earp and John Chiplin.

The following table sets out the number of Director and Committee meetings of the Company held during the financial year, and the number of meetings attended by each Director.

Director	Directors' Meetings		Audit Committee		Remuneration Committee	
	Held	Attended	Held	Attended	Held	Attended
Geoffrey Cumming	24	24	2	2	-	-
Carl Stubbings	24	23	-	-	2	2
David Earp	24	24	2	2	2	2

DIRECTORS' REPORT REMUNERATION REPORT (AUDITED)

The Remuneration Report, which forms part of the Directors' report, sets out information about the remuneration of the Company's Directors and its Key Management Personnel for the financial year ended 30 June 2017.

Names and positions held by Directors and Key Management Personnel at any time during the financial year are:

Name	Position	Date Appointed to position
Dr Geoffrey Cumming	Non-Executive Chairman	9 June 2006
Mr Carl Stubbings	Non-Executive Director	31 December 2011
Dr David Earp	Non-Executive Director	1 December 2012
Dr John Chiplin	Non-Executive Director	22 January 2016
Mr David Neate	Non- Executive Director	23 May 2005, Resigned 23 May 2017
Mr Matthew Hoskin ¹	Chief Executive Officer (CEO)	1 April 2017
Dr Clifford Holloway ²	Managing Director/CEO	5 November 2015/1 May 2015

¹ Mr. Hoskin held the position of Chief Operating Officer (COO) prior to his appointment to the role of CEO. While employed in the role of COO he was considered a member of Key Management Personnel.

² Resigned 11 August 2016/15 August 2016.

Directors' and Key Management Personnel Interests in Ordinary Shares and Options

Directors' and Key Management Personnel's interests in the ordinary shares of Sienna Cancer Diagnostics Ltd and options over ordinary shares as at the date of this report are detailed below:

Name	Position	Total Number of Ordinary Shares	Total Number of Options
Dr Geoffrey Cumming	Non-Executive Chairman	848,860 ¹	600,000 ⁴
Mr Carl Stubbings	Non-Executive Director	113,975 ²	400,000 ⁴
Dr David Earp	Non-Executive Director	133,334 ³	400,000 ⁴
Dr John Chiplin	Non-Executive Director	125,000	-
Mr Matthew Hoskin	CEO	-	4,300,000 ⁵
Total		1,221,169	5,700,000

¹ A total of 237,225 of these shares were compulsorily escrowed by the ASX for a 24-month period from the ASX listing date, 3 August 2017.

² A total of 28,494 of these shares were compulsorily escrowed by the ASX for a 24-month period from the ASX listing date, 3 August 2017.

³ A total of 33,334 of these shares were compulsorily escrowed by the ASX for a 24-month period from the ASX listing date, 3 August 2017.

⁴ Any shares issued from the exercise of these options will be compulsorily escrowed by the ASX until the second anniversary of the ASX listing date, 3 August 2019.

⁵ Any shares issued from the exercise of 2,500,000 options granted to Mr. Hoskin on 1 April 2017 will be compulsorily escrowed by the ASX until the second anniversary of the ASX listing date, 3 August 2019.

Remuneration Policy

The aim of the Company's remuneration policy is to align the interests of directors and employees with those of shareholders. To do this Sienna:

- Sets remuneration levels that attract and retain highly skilled and experienced directors and employees; and
- Motivates and rewards performance that advances the Company's strategic goals.

DIRECTORS' REPORT REMUNERATION REPORT (AUDITED)

Remuneration Structure

The remuneration of Key Management Personnel and employees is structured in two parts:

- Fixed Remuneration, comprising: base salary, superannuation (payable under the Superannuation Guarantee Act) and other benefits in lieu of salary; and
- Variable Remuneration, which may comprise: a short-term incentive bonus (cash) and a long-term incentive in the form of options under the ESOP.

The Company aims to set the level of fixed remuneration at market levels for comparable jobs, in similarly structured and sized companies in the industry in which the Company operates. No advice from a remuneration consultant was sought during the financial year for the Company's remuneration structure.

Short-Term Incentive Plan

The short-term incentive plan provides an incentive to employees to achieve an annual cash bonus on the achievement of corporate goals set at the beginning of each calendar year. These corporate goals are clearly defined, drive shareholder value and can be objectively measured. The percentage of an employee's base salary that can be earned through the Short-Term Incentive Plan (STIP) is set by the Board for Key Management Personnel and by Key Management Personnel for all other employees. At the end of the calendar year the Board assesses the level of achievement of these corporate goals. Payments made pursuant to the STIP are at the discretion of the Board.

Long-Term Incentive Plan

The purpose of the long-term incentive plan is to align the interests of directors, key management personnel and employees with those of the shareholders and provide reward for sustained achievement of the Group's strategic objectives. Sienna's long-term incentive plan is implemented through the Employee Share Option Plan (ESOP).

The key terms of the ESOP are:

- Options vest in three equal tranches from the issue date: the first tranche 12 months from the issue date, the second tranche 24 months from the issue date, and the third tranche 36 months from the issue date.
- Should options vest, they expire 4 or 5 years from issue date.
- Options lapse 60 days following resignation or termination of employment, other than death, permanent medical disability, mental incapacity or retirement upon achievement of the customary retirement age.
- The sum of all unexpired options issued under this plan may not at any time exceed 15% of the issued share capital of Sienna.
- As an ASX listed entity, the exercise price of new options will be set at a price that is greater than:
 - the weighted average price at which ordinary shares in Sienna have traded on the ASX over the 30 days before the date on which the option is granted, and
 - \$0.20.
- The Directors may, from time to time add to or vary the plan rules, provided that the additions or variations do not reduce a participants' rights or entitlements in respect of any option granted before the date of alteration or addition unless prior written approval is obtained from the affected participant.

Note 20 to the financial statements provides details of the options issued under the ESOP.

Non-executive Director Remuneration

The Remuneration Committee considers the level of remuneration necessary to attract and retain Directors with the skills and experience required by the Company at its stage of development. The Committee makes recommendations to the Board.

Non-executive Directors fees are paid within an aggregate limit which is approved by the shareholders from time to time. The current limit of \$300,000 for Non-executive Director fees was approved by shareholders at the 2015 Annual General Meeting (AGM). No retirement payments are made to Non-executive Directors. Non-executive Directors do not receive any additional remuneration for being Board Committee members. Non-executive Directors participate in the company's ESOP.

For the 2017 financial year, the Australian based Non-executive Chairman's fees were \$50,000 per annum plus 9.5% superannuation while the Australian based Non-executive Directors' fees were \$25,000 per annum plus 9.5 % superannuation. The United States based Non-executive Directors' fees were \$27,375 per annum. No options were issued to Directors under the ESOP during the 2017 financial year and no ordinary shares were issued to Directors on exercise of any options issued under ESOP.

DIRECTORS' REPORT REMUNERATION REPORT (AUDITED)

Key Management Personnel Remuneration

Key Terms of the CEO's employment contract

Matthew Hoskin is employed under an executive employment agreement dated 1 April 2017. The key terms of the agreement are:

- Remuneration: Total fixed remuneration at the rate of \$240,000 per annum until the date Sienna listed on the ASX (3 August 2017), at which time his salary increased to \$280,000 per annum, plus mandatory statutory superannuation contributions payable under the Superannuation Guarantee Act.
- Short Term Incentive: A maximum cash payment of 20% of base salary earned for the calendar year can be attained on the achievement of annual corporate goals set by the Board.
- Intellectual Property: All intellectual property developed by Matthew in connection with his services remains the property of the Company.
- Termination: The agreement may be terminated by either party by the giving of 3 months' notice.

Mr. Hoskin is eligible to participate in Sienna's ESOP and holds a total of 4,300,000 options under the plan at the date of this report:

- 1,500,000 issued in November 2014, exercisable at 22 cents, expiring in February 2018.
- 2,500,000 issued in April 2017 (at the commencement of his role as CEO), exercisable at 24.3 cents, expiring in April 2022; (Any shares issued from the exercise of these options will be compulsorily escrowed by the ASX until 3 August 2019).
- 300,000 issued in August 2017, exercisable at 25 cents, expiring in August 2021.

Details of the remuneration of Directors and Key Management Personnel for the 2017 financial year are provided below:

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2017

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

The consolidated financial statements and notes represent those of Sienna Cancer Diagnostics Limited and Controlled Entities (the 'Consolidated Group' or 'Group').

The separate financial statements of the parent entity, Sienna Cancer Diagnostics Limited have not been presented within this financial report as permitted by amendments made to the Corporations Act 2001.

The financial report covers the economic entities of Sienna Cancer Diagnostics Limited and its controlled entities as an economic entity.

The financial statements were authorised for issue on 30th August 2017 by the Directors of the Company.

Statement of Compliance

These financial statements are general purpose financial statements which have been prepared in accordance with the Corporations Act 2001, Accounting Standards and Interpretations, and comply with other requirements of the law. The financial statements comprise the consolidated financial statements of the Group. For the purposes of preparing the consolidated financial statements, the Company is a for-profit entity. Accounting Standards include Australian Accounting Standards. Compliance with Australian Accounting Standards ensures that the financial statements and notes of the company and the Group comply with International Financial Reporting Standards ('IFRS').

Basis of Preparation

Australian Accounting Standards set out accounting policies that the AASB has concluded would result in a financial report containing relevant and reliable information about transactions, events and conditions to which they apply. Compliance with Australian Accounting Standards ensures that the financial statements and notes also comply with International Financial Reporting Standards. Material accounting policies adopted in the preparation of this financial report are presented below. They have been consistently applied unless otherwise stated.

The financial report has been prepared on an accruals basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets, and financial liabilities.

Accounting Policies

a. Going Concern

The financial report has been prepared on a going concern basis. At 30 June 2017, the Group had net assets of \$2,644,130 (2016: \$2,183,297) and cash reserves of \$720,399 (2016: \$1,080,657). During the reporting period the Company received \$1,159,383 from the issue of new ordinary shares via a rights issue to existing shareholders.

Sienna Cancer Diagnostics Ltd lodged a prospectus with the Australian Securities and Investment Commission (ASIC) on 25 May 2017. The prospectus details an offer to issue up to 30 million new ordinary shares at 20 cents per share, to raise a minimum of \$4 million and a maximum of \$6 million. On 3 August 2017, subsequent to the end of the financial year, Sienna listed on the Australian Securities Exchange (ASX) having raised a total of \$4,597,600 of new capital. The Board believes the new capital provides the Group with sufficient funding to execute the strategy detailed in the prospectus for approximately 2 years.

**NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2017**

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**b. Income Tax**

Income tax expense represents the sum of the tax currently payable and deferred tax.

Deferred tax is accounted for using the balance sheet liability method in respect of temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. No deferred income tax will be recognised from the initial recognition of an asset or liability, excluding a business combination, where there is no effect on accounting or taxable profit or loss.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the asset is realised or liability is settled. Deferred tax is credited in the income statement except where it relates to items that may be credited directly to equity, in which case the deferred tax is adjusted directly against equity.

Deferred income tax assets are recognised to the extent that it is probable that future tax profits will be available, against which deductible temporary differences can be utilised. No deferred tax assets have been recognised on the balance sheet as at 30 June 2017, as the probability of deriving a benefit is uncertain.

The amount of benefits brought to account or which may be realised in the future is based on the assumption that no adverse change will occur in income taxation legislation and the expectation that the Group will derive sufficient future assessable income to enable the benefit to be realised and comply with the conditions of deductibility imposed by the law.

c. Revenue Recognition

Revenue is recognised at the fair value of the consideration received net of the amount of goods and services tax (GST) payable to the taxation authority.

Interest Income

Interest income is recognised as it accrues, taking into account the effective yield on the financial asset.

Product Revenue

Revenue from product agreements is made up of:

- Royalties based on the number of laboratory tests conducted by commercial partners. Royalty revenue is recognised in the period in which the laboratory tests occur.
- Revenue from the supply of product. Revenue from the supply of product is recognised in the period in which the product is supplied.
- Revenue arising as the result of a milestone (such as the signing of a commercial agreement). Revenue relating to milestones is recognised upon achievement of the milestone, which is the trigger point for the right to receive the revenue.

Revenue from the refund of the federal government's Research and Development Tax Incentive program is recognised when it is received.

Other revenue is recognised as received or over the period to which it relates.

d. Goods and services tax

Revenue, expenses and assets are recognised net of the amount of goods and services tax (GST), except where the amount of GST incurred is not recoverable from the taxation authority. In these circumstances the GST is recognised as part of the cost of acquiring the asset or as part of an item of expense.

Receivables and payables are stated with the amount of GST included.

The net amount of GST recoverable from, or payable to, the taxation authority is included as a current asset or liability in the statement of financial position.

Cash flow is included in the statement of cash flow on a gross basis. The GST components of cash flow arising from investing and financing activities, which are recoverable from, or payable to, the taxation authority, are classified as operating cash flow.

**NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2017**

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**e. Property, Plant and Equipment**

Each class of property, plant and equipment is carried at cost or fair value less, where applicable, any accumulated depreciation and impairment.

Plant & Equipment

The carrying amount of plant and equipment is reviewed annually by the Directors to ensure it is not in excess of the recoverable amount from these assets. The recoverable amount is assessed on the basis of the expected net cash flows that will be received from the assets' employment and subsequent disposal. The expected net cash flows have been discounted to their present values in determining recoverable amounts.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the income statement during the financial period in which they are incurred.

Depreciation

The depreciable amount of all fixed assets, including building and capitalised lease assets but excluding freehold land, is depreciated on a straight line basis over their useful lives to the Group commencing from the time the asset is held ready for use. Leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated useful lives of the improvements. Items of property, plant and equipment, are depreciated over their estimated useful lives.

The depreciation rates for each class of asset are:

<i>Class of Non-Current Asset</i>	<i>Depreciation Rate</i>
Office Furniture and Equipment	5.00% - 50.00% straight line
Research Equipment	25.00% straight line

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each end of reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains or losses are included in the income statement. When revalued assets are sold, amounts included in the revaluation reserve relating to that asset are transferred to retained earnings.

f. Impairment of Assets

At each reporting date the Group reviews the carrying values of its tangible and intangible assets to determine whether there is any indication that those assets have been impaired. If such an indication exists, the recoverable amount of the asset, being the higher of the asset's fair value less costs to sell and value in use, is compared to the asset's carrying value. Any excess of the asset's carrying value over its recoverable amount is expensed to the statement of comprehensive income.

Impairment testing is performed annually for intangible assets with both finite and indefinite lives.

Where it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

g. Cash and Cash Equivalents

Cash and cash equivalents include cash on hand and deposits held at call with banks.

h. Investments

Non-current investments are measured at cost. The carrying amount of non-current investments is reviewed annually by Officers of the Group to ensure it is not in excess of the recoverable amount of these investments. The recoverable amount is assessed from the underlying net assets of the investment. The expected net cash flows from investments have not been discounted to their present value in determining the recoverable amounts.

**NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2017**

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**i. Intangibles***Patents*

Patents are recognised at cost of acquisition. Patents have a finite life and are carried at cost less any accumulated amortisation and any impairment losses. No amortisation expenses has been recognised in the Consolidated Statement of Profit and Loss and Other Comprehensive Income for the year ending 30 June 2017 (2016: Nil), as no patent had been granted at 30 June 2017.

The amortisable amount of patents is amortised on a straight line basis over the term of the patent commencing from the time the patent is registered.

Research and development

Research and Development Expenditure during the research phase of a project is recognised as an expense when incurred. Product development costs are capitalised only when each of the following specific criteria has been satisfied;

1. Technical feasibility of completing development of the product and obtaining approval by regulatory authorities.
2. Ability to secure a commercial partner for the product.
3. Availability of adequate technical, financial and other resources to complete development of the product, obtain regulatory approval and secure a commercial partner.
4. Reliable measurement of expenditure attributable to the product during its development.
5. High probability of the product entering a major diagnostic market.

Capitalised development costs have a finite life and are amortised on a systematic basis over the period from when the product becomes available for use and ceases at the earlier of the date the asset is expected to exit the market or that the asset is classified as held for sale (or included in a disposal group that is classified as held for sale) in accordance with AASB 5.

Capitalised development expenditure for SCD-A7 began the process amortisation on 21 December 2016, the date the product became available for sale. A 20-year period of amortisation has initially been determined for the development expenditure of SCD-A7. This is the period in which the Group is expected to derive economic benefits. The basis of amortisation is to be reviewed annually to assess whether it remains an appropriate amortisation period.

j. Payables

Liabilities are recognised for amounts to be paid in the future for goods or services received. Trade accounts payable and other creditors are normally settled within 60 days.

k. Employee Entitlements*Short-term and long-term employee benefits*

A liability is recognised for benefits accruing to employees in respect of wages and salaries and annual leave in the period the related service is rendered.

Liabilities recognised in respect of short-term employee benefits, are measured at their nominal values using the remuneration rate expected to apply at the time of settlement. Liabilities recognised in respect of long term employee benefits are measured as the present value of the estimated future cash outflows to be made by the Group in respect of services provided by employees up to reporting date.

Contributions are made by the Group to employee superannuation funds and are charged as expenses when incurred.

Share-based compensation

The Group operates a share-based compensation plan. This consists of an employee share option plan. The total amount to be expensed over the vesting period is determined by reference to the fair value of the shares of the options granted.

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2017

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

l. Financial Instruments

Recognition

Financial instruments are initially measured at cost on transaction date, which includes transaction costs, when the related contractual rights or obligations exist. Subsequent to initial recognition these instruments are measured as set out below.

Receivables

Receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and are stated at amortised cost using the effective interest rate method.

Financial liabilities

Non-derivative financial liabilities are recognised at amortised cost, comprising original debt less principal payments and amortisation.

Impairment

At each reporting date, the Group assesses whether there is objective evidence that a financial instrument has been impaired. Impairment losses are recognised in the statement of comprehensive income.

m. Comparative Figures

When required by Accounting Standards, comparative figures have been adjusted to conform to changes in presentation for the current financial year.

n. Critical Accounting Estimates and Judgments

The Directors evaluate estimates and judgments incorporated into the financial report based on historical knowledge and best available current information. Estimates assume a reasonable expectation of future events and are based on current trends and economic data, obtained both externally and within the Group.

Key Estimates

Capitalised development expenditure

The Board and Officers of the Group are required to use judgement when determining whether the recognition requirements for the capitalisation of development expenditure are met. The Intangible Asset balance on the Consolidated Statement of Financial Position includes a total of \$2,168,026 (2016: \$1,570,979) of capitalised development expenditure for SCD-A7. Capitalised development expenditure is disclosed in Note 11 'Intangible Assets'. The Board and Officers periodically assess whether there are any indicators that capitalised expenditure may be impaired. During the reporting period \$655,609 (2016: \$880,642) of development expenditure was capitalised as an intangible asset on the basis that the Board and Officers expect future economic benefits to be derived from the asset. No further expenditure for SCD-A7 is to be capitalised, as the product became available for sale to customers on 21 December 2016. The Board and officers have initially determined a 20 year period of amortisation for these development expenditures, the period in which the Group expects to derive future economic benefits.

Impairment

The Group assesses impairment at each reporting date by evaluating conditions specific to the Group that may lead to impairment of assets. Where an impairment trigger exists, the recoverable amount of the asset is determined. No impairment expense was recorded for the 2017 or 2016 financial years.

Share-based payments

Sienna operates an Employee Share Option Plan (ESOP). The non-cash expense of issuing these options is calculated using a Binomial option pricing model. This model requires the input of a number of variables including an estimate of future volatility and a risk-free interest rate. Volatility is calculated using the historical volatility of the shares of an ASX listed company operating in the same industry as the Group. The risk free interest rate used is the federal government's 10 year bond rate on the options grant date plus 2.5%.

Employee entitlements

The calculation of long service leave benefits requires estimation of the retention of staff, future remuneration levels and timing of the settlement of these benefits. Historical trends are used to estimate these factors.

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2017

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

o. Adoption of New and Revised Accounting Standards

During the current year, the Group has adopted all of the new and revised Australian Accounting Standards and Interpretations applicable to its operations which became mandatory.

The adoption of these Standards has not impacted the financial statements.

p. New Accounting Standards for Application in Future Periods

The Board has assessed the impact of the new, but not yet mandatory, accounting standards issued by Australian Accounting Standards Board (AASB). The standards assessed include AASB 9: Financial Instruments and associated Amending Standards (applicable to annual reporting periods beginning on or after 1 January 2018), AASB 15: Revenue from Contracts with Customers (applicable to annual reporting periods beginning on or after 1 January 2018), and AASB 16: Leases (applicable to annual reporting periods beginning on or after 1 January 2019). The two new standards that could have an impact on reporting the Group's financial performance, if the Group's operations were to remain constant in the future, are AASB 15: Revenue from Contracts with Customers, and AASB 16: Leases. The Group have elected not to early adopt these accounting standards. If they were to be adopted early, the application of AASB 15 would have no impact on the Group's transactions for the 2017 and 2016 financial years, while the application of AASB16 would require the recognition of a 'right to use' asset and associated lease liability on the balance sheet for the lease held for 1 Dalmore Drive, Scoresby, Victoria.

Other receivables	70,195	69,433
	128,235	127,619

Credit Risk – Trade Debtors

The Group recognised an allowance of \$202,635 for doubtful debts in March 2017, following the announcement that Bostwick Laboratories Inc., a significant debtor, had entered Chapter 11 bankruptcy protection. The Directors are unsure as to what amount, if any, will eventually be recovered from this debtor. As a result, the full amount owed by the debtor has been recognised as a doubtful debt. The entity earned this revenue from the United States. There are no other impaired assets within Receivables, these balances are expected to be received. At 30 June 2016, the Group had a material credit risk exposure to a single Trade Debtor; the total amount due from this debtor was within the 30 day trading terms and subsequently paid.

* Includes 2,273,314 options granted to shareholders pursuant to the 30 November 2016 rights issue.

Options Reserve

The fair value of issued employee share options is calculated to be \$132,762 (2016: \$140,911). The number of options granted during the year pursuant to the ESOP was 2,500,000 (2016: 5,700,000), while 4,700,000 employee share options either expired or were forfeited during the financial year (2016: 7,780,000).

Included under employees and contractor costs in the income statement is a share-based payments credit of \$1,949 (2016: expense of \$64,882), the combination of the expense for the current reporting period and the reversal of prior period charges for options that were forfeited.

The value of employee share options issued during the financial year has been calculated by using a modified binomial option pricing model applying the following inputs:

Exercise price	\$0.243
Underlying share price	\$0.17
Days to expiration	1,817
Days to vesting	356 to 1,087
Expected share price volatility	26.77%
Risk free interest rate	5.08%

Historical volatility of the shares for a company listed on the ASX which operates in the same industry group as Sienna Cancer Diagnostics Limited (SCD) has been used as a basis for determining expected share price volatility for Sienna Cancer Diagnostics Ltd (SCD). The Directors believe this to be fair representation of SCD volatility.

Historical volatility is assumed to be indicative of future volatility however future volatility may not replicate historical volatility. The life of the options is based on the contracted expiry date.

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2017

NOTE 21: FINANCIAL RISK MANAGEMENT

The Group's financial instruments consist mainly of deposits with banks and trade receivables and payables.

The totals for each category of financial instruments, measured in accordance with AASB 139 as detailed in the accounting policies to these financial statements, are as follows:

	Note	2017 \$	2016 \$
Financial Assets			
Cash and cash equivalents	8	720,399	1,080,657
Trade and other receivables	9	128,235	127,619
		<u>848,634</u>	<u>1,208,276</u>
Financial Liabilities			
Trade and other payables	13	622,601	614,582

The Group recognised an allowance of \$202,635 for doubtful debts in March 2017, following the announcement that Bostwick Laboratories, a significant debtor, had entered Chapter 11 bankruptcy protection. The Directors are unsure as to what amount, if any, will eventually be recovered from this debtor. As a result, the full amount owed by the debtor has been recognised as a doubtful debt. There are no other impaired assets within trade and other receivables; these balances, and the balance of trade and other payables, are expected to be settled within 1 year.

Financial assets pledged as collateral

No financial assets have been pledged as security for any financial liability.

Financial Risk Management Policies

The Board are responsible for, among other issues, monitoring and managing financial risk exposures of the Group. The Board monitors the Group's transactions and reviews the effectiveness of controls relating to credit risk, financial risk, and interest rate risk. Discussions on monitoring and managing financial risk exposures are held regularly by the Board. The Board's overall risk management strategy seeks to ensure that the Group meets its financial targets, while minimising potential adverse effects of cash flow shortfalls.

The Group did not have any derivative instruments at 30 June 2017.

Specific Financial Risk Exposures and Management

The main risk the Group is exposed to through its financial instruments is liquidity risk.

a. Credit risk

- Exposure to credit risk relating to financial assets arises from the potential non-performance by counterparties of contract obligations that could lead to a financial loss to the Group.

- Credit risk is managed through maintaining procedures ensuring, to the extent possible, that members and counterparties to transactions are of sound credit worthiness.

Credit risk exposures

- Cash reserves form the majority of the Group's financial assets. At 30 June 2017, cash was deposited with three financial institutions, including two large Australian banks and one foreign exchange market specialist, in order to spread risk and ensure interest rate competitiveness.

- On 16 March 2017, the Group became aware that Bostwick Laboratories Inc., a significant customer of the Company, had filed for chapter 11 bankruptcy protection in the United States on 15 March 2017. As part of an auction and sale process facilitated by the bankruptcy courts, Poplar Healthcare PLLC completed the acquisition of the assets of Bostwick on 4 May 2017. Sienna has registered with the courts as an unsecured creditor of the chapter 11 filing invoices for product incomes earned in December 2016, January 2017, February 2017 and the first 15 days of March 2017, representing USD155,370 of revenue. As the Board are unsure as to what amount, if any, will eventually be recovered from the chapter 11 filing, an allowance for doubtful debts for this amount was recorded in March 2017. The Company has received payment of invoices from Poplar for product incomes earned post the chapter 11 filing date. At 30 June 2017, the Group had a material credit risk exposure to a single trade debtor, the United States distributor of the Company's invitro diagnostic product (IVD). The receivables recorded on the consolidated entity's balance sheet includes an amount of US\$45,000 from this trade debtor and is within the debtor's payment terms. Management regularly communicate with this debtor's senior staff and monitor the financial health of this debtor. At 30 June 2016 the Group had a material credit risk exposure to a single trade debtor; the total amount due from this debtor was within the 30 day trading terms and subsequently paid.

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2017

NOTE 21: FINANCIAL RISK MANAGEMENT (CONT.)

Specific Financial Risk Exposures and Management (Cont.)

b. Liquidity risk

Liquidity risk arises from the possibility that the Group might encounter difficulty in settling its debts or otherwise meeting its obligations related to financial liabilities. The Group manages this risk through the following mechanisms:

- preparing forward-looking cash flow analysis in relation to its operational, investing and financing activities;
- only investing surplus cash with major financial institutions.

c. Market risk

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate as a result of changes in market interest rates. Exposure to interest rate risk arises on interest earned on cash equivalents only.

Price risk

Price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate as a result of changes in market prices. The Group is not exposed to price risk.

Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in foreign exchange rates. The Group is exposed to currency risk due to revenue denominated in US dollars. A bank account denominated in US dollars is maintained in order to facilitate receipts and payments. During the reporting period, exchange rate risk was managed by exchanging revenue in excess of US dollar expenditures using spot sales of US dollars.

Cash and cash equivalents at 30 June 2017 included \$10,865 (2016: \$437,117) denominated in US dollars and \$2,994 (2016: Nil) denominated in Euros. A change of 10% in the AUD/USD and AUD/EURO exchange rates at 30 June 2017 would change the comprehensive loss and equity of the Group by approximately \$1,400 (2016: \$43,700).

The balance of receivables at 30 June 2017 includes an amount of \$58,040 from a US debtor (2016: \$58,186). A change of 10% in the AUD/USD exchange rate at 30 June 2017 would change the comprehensive loss and equity of the Group by approximately \$5,850 (2016: \$5,800).

Sensitivity analysis

The Board considers that, other than currency risk, there are no other material market risks requiring sensitivity analysis.

d. Fair Values

Fair value estimation

The fair values of financial assets and financial liabilities are equal to their carrying value in the statement of financial position.

The fair values have been determined based on the following methodologies:

- Cash and cash equivalents, trade and other receivables and trade and other payables are short term instruments in nature whose carrying value is equivalent to fair value. Trade and other payables excludes amounts provided for / relating to annual leave which is not considered a financial instrument.
- All financial assets and liabilities are designated level 3 hierarchy fair value items except for 'cash and cash equivalents' which is designated a level 1 hierarchy fair value item.

NOTE 22: SEGMENT REPORTING

In accordance with Australian Accounting Standard AASB 8 Operating Segments, the Company has determined that it has one reporting segment, consistent with the manner in which the business is managed. This is the manner in which the chief operating decision maker receives information for the purpose of resource allocation and assessment of performance. The Group operates predominantly in one business and geographical segment being the research and development of cancer diagnostics in Victoria, Australia.

NOTE 23: KEY MANAGEMENT PERSONNEL COMPENSATION

The following responsible positions were Key Management Personnel of the entity at any time during the reporting period:

Non-executive Chairman: Dr Geoffrey Cumming

Non-executive Directors: Mr Carl Stubbings, Dr David Earp and Dr John Chiplin, Mr David Neate (resigned 23 May 2017).

Chief Executive Officer: Mr Matthew Hoskin (commenced 4 February 2014 as COO, appointed CEO 1 April 2017).

Chief Executive Officer and Managing Director: Dr Clifford Holloway – Interim CEO from 1 February 2015, permanent CEO from 1 May 2015, appointed Managing Director 5 November 2015, resigned 11 August 2016.

37,593	19,312

NOTE 25: EVENTS SUBSEQUENT TO REPORTING DATE

On 3 August 2017, Sienna Cancer Diagnostics Ltd listed on the Australian Securities Exchange (ASX) having lodged a prospectus with the Australian Securities and Investment Commission (ASIC) on 25 May 2017. The company raised a total of \$4,597,600, before equity raising costs, in new capital pursuant to the prospectus and 22,988,000 new ordinary shares at 20 cents per share were issued on 31 July 2017. The total number of ordinary shares on issue following the new allotment of shares was 180,262,327. The ASX determined that 24,426,629 of this total be subject to escrow for a period of 24 months from listing date.

There has been no other matter or circumstance, which has arisen since 30 June 2017 that has significantly affected or may significantly affect:

- The operations, in financial years subsequent to 30 June 2017, of the consolidated entity, or
- The results of those operations, or
- The state of affairs, in financial years subsequent to 30 June 2017, of the consolidated entity.

NOTE 26: COMMITMENTS

The Group has an operating lease for the office and laboratory facilities at 1 Dalmore Drive, Scoresby, Victoria. This lease is not capitalised in the accounts. The lease is current until 30 November 2017, and as a result the Group has a commitment at 30 June 2017 to pay 5 monthly lease payments totaling \$29,177. The lease agreement provides the leasee with the option to extend the agreement for a further two (2) years and contains provisions for annual price increases in line with the Consumer Price Index (CPI).

To the Directors' knowledge, the Group had no further material commitments as at 30 June 2017 not otherwise disclosed in these financial statements.

NOTE 27: COMPANY DETAILS

The registered office and principal place of business of the Company is: 1 Dalmore Drive, Scoresby VIC 3179, Australia

DIRECTORS' DECLARATION

The Directors of the Company declare that:

1. The financial statements and notes, as set out on pages 15 to 36 are in accordance with the Corporations Act 2001:
 - a. comply with Accounting Standards as detailed in Note 1 to the financial statements and the Corporations Regulations 2001; and
 - b. give a true and fair view of the Company's financial position as at 30 June 2017 and of the performance for the year ended on that date in accordance with the accounting policies described in Note 1 to the financial statements.
2. In the Directors' opinion there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

This declaration is made in accordance with a resolution of the Directors.

Dated this 30th day of August 2017

Independent auditor's report

TO THE SHAREHOLDERS OF SIENNA CANCER DIAGNOSTICS LIMITED

**REPORT ON THE FINANCIAL REPORT
OPINION**

We have audited the accompanying financial report of Sienna Cancer Diagnostics Limited (the Company), which comprises the consolidated statement of financial position as at 30 June 2017, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, notes 1 to 27, comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration of the Group comprising the Company and the entity it controlled at the year's end or from time to time during the financial year.

In our opinion:

(a) the accompanying financial report of the Group is in accordance with the Corporations Act 2001, including:

- I. giving a true and fair view of the Group's financial position as at 30 June 2017 and of its performance for the year ended on that date; and
- II. complying with Australian Accounting Standards and the Corporations Regulations 2001.

(b) the financial report also complies with International Financial Reporting Standards as disclosed in note 1.

BASIS FOR OPINION

We conducted our audit in accordance with Australian Auditing Standards. Those standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance about whether the financial report is free from material misstatement. Our responsibilities under those standards are further described in the Auditor's responsibility section of our report. We are independent of the Group in accordance with the Corporations Act 2001 and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the Corporations Act 2001, which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

KEY AUDIT MATTERS

The key audit matters, are the matters that, in our professional judgement, were of most significance in our audit of the financial report for the current year. The matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matters	How our audit addressed the key audit matter
<p>Intangible assets (Note 11)</p> <p>The Group has an intangible asset recorded on the Statement of Financial Position totalling \$2,168,026, relating to the Capitalised Development Costs associated with SCD-A7. The asset became ready for use on 21 December 2016.</p> <p>AASB 138: Intangible Assets sets out the specific requirements to be met in order to capitalise development costs.</p> <p>Management have advised that the capitalised development costs be amortised over a period of 20 years, as this is the period over which management expects to generate future economic benefits from product sales.</p> <p>This area is a key audit matter due to the:</p> <ul style="list-style-type: none"> • Subjectivity and management judgement applied in the assessment of whether costs meet the development phase criteria prescribed in AASB 138 • Subjectivity and management judgement applied in determining the useful life of the product which forms the amortisation period. 	<p>Our procedures included; amongst others:</p> <ul style="list-style-type: none"> • Assessing the Group's accounting policy in respect of product development costs for adherence to AASB 138; • Testing a sample of amounts capitalised to supporting documentation and assessing compliance with the recognition criteria of AASB 138; • Reviewing historical sales data in order to assess whether economic benefits are being derived from the product development activities; • Recalculating the amortisation expense of assets available for use; • Assessing the reasonableness of the amortisation period by reference to comparable market data • Assessing the adequacy of related disclosures within the financial statements
<p>Provision for doubtful debts (Note 9, 21)</p> <p>The Group recognised a provision for doubtful debts of \$202,635 following the announcement that Bostwick Laboratories Inc, a significant debtor had entered Chapter 11 bankruptcy protection. OTHER INFORMATION

The directors are responsible for the other information. The other information comprises the information included in the Company's financial report for the year ended 30 June 2017, but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

DIRECTORS' RESPONSIBILITY FOR THE FINANCIAL REPORT

The directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australia Accounting Standards and the Corporations Act 2001 and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error. In Note 1, the directors also state, in accordance with Australian Accounting Standards AASB 101 Presentation of Financial Statements, that the financial report complies with International Financial Reporting Standards.

In preparing the financial report, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on the financial report based on our audit. Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the financial report. We are responsible for the direction, supervision and performance of the Group audit. We remain solely responsible for our audit opinion.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the financial report of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

REPORT ON THE REMUNERATION REPORT

We have audited the Remuneration Report included in the Directors' Report on pages 8 to 12 for the year ended 30 June 2017. The Directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with Section 300A of the Corporations Act 2001. Our responsibility is to express an opinion on the Remuneration Report, which based on our audit, is in accordance with Australian Auditing Standards.

OPINION

In our opinion, the Remuneration Report of Sienna Cancer Diagnostics Limited for the year ended 30 June 2017, complies with Section 300A of the Corporations Act 2001.

RESPONSIBILITIES

The Directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with Section 300A of the Corporations Act 2001. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australia Auditing Standards.
