#### NOTES TO THE FINANCIAL STATEMENTS HALF YEAR ENDED 31 DECEMBER 2016

#### NOTE 1 - BASIS OF PREPARATION OF THE HALF-YEAR REPORT

This condensed interim financial report for the half year reporting period ended 31 December 2016 has been prepared in accordance with Accounting Standard AASB 134 Interim Financial Reporting.

This half year financial report of Titomic Limited (Formerly Titomic Pty Limited), ("the Company") does not include all notes of the type normally included in an annual financial report. Accordingly, this report is to be read in conjunction with the annual report for the year ended 30 June 2016 during the interim reporting period. Titomic is a company limited by shares, incorporated and domiciled in Australia. The address of the Company's registered office and principal place of business is Level 3, 62 Lygon Street, Carlton, Victoria, Australia 3053. The Company is a for-profit Company for the purpose of preparing the financial statements

Compliance with AASB 134 "Interim Financial Report" ensures that the financial statements and notes of the entity comply with International Financial Reporting Standard IAS 34 "Interim Financial Reporting."

#### **NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES**

All accounting policies adopted are consistent with the most recent Annual Financial Report for the year ended 30 June 2016.

#### **NOTE 3 - GOING CONCERN**

The Directors have prepared the half year financial report on a going concern basis, which contemplates continuity of normal business activities and the realisation of assets and the settlement of liabilities in the ordinary course of business.

From 1 July 2016 the Company has commenced start-up operations with loans from related parties and a short-term loan from the Company's broking firm PAC Partners.

Following the receipt of \$2,600,000 (before costs) from the November 2016 seed capital raisings, the Company began operations incurring expenses associated with research and commercialisation programs of the Company's technology.

The Company incurred a loss from ordinary activities of \$310,220 during the half year ended 31 December 2016. The Company had a net assets position of \$2,075,141 (June 2016 deficiency in net assets: \$36,893), and current assets exceed current liabilities by \$2,075,141 (June 2016: current liabilities exceeded current assets by \$36,893).

The Directors have concluded that the going concern basis is appropriate, based on analysis of the company's internal cash flow forecasts and a planned Initial Public Offering (IPO).

As an early stage business, there are often significant risks associated with product development and regulatory approvals required by technology companies to advance their products and the timing of these approvals are difficult to predict.

The Company's ability to continue as a going concern and meet its liabilities and future commitments as and when they fall due is dependent on:

- The ability to commercialise the Cold-Spray technology and generate future sales to enable the Company to generate profit and positive cash flows from operating activities; and
- Obtaining additional funding as and when required via the planned IPO.

Following execution of a Mandate and Underwriting Agreement with PAC Partners on 15 June 2017, the Company is seeking to raise \$6,500,000 (before costs) from an IPO anticipated to occur on or about 30 June 2017. The underwriting agreement includes a number of potential termination events, including being subject to the Company receiving formal approval and admission to the ASX and other potential adverse market and economic related events.

For the 2018 financial year, the Company has budgeted for operating cash outflows to exceed operating cash inflows as it continues the commercialisation of its Cold-Spray technology together with further research programs. The Directors believe that the funds raised from the IPO will be sufficient to sustain the Company for more than 12 months beyond the IPO.

As at the date of this report, the Directors are unaware of any factors that may result in termination of the underwriter's agreement or the IPO being unsuccessful. The Directors therefore consider the going concern basis of accounting appropriate for the Company.

Should the IPO not proceed as planned, there is a material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern. If the going concern basis of accounting is found to no longer be appropriate, the recoverable amounts of assets shown in the Condensed Statement of Financial Position are likely to be significantly less than the amounts disclosed and the extent of liabilities may differ significantly from those reflected in the Condensed Statement of Financial Position.

# NOTE 4 – ACCOUNTING STANDARDS ISSUED BUT NOT YET EFFECTIVE

New, revised or amending Accounting Standards and Interpretations adopted.

The Company has adopted all the new, revised or amending Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period.

The AASB has issued a number of new and amended Accounting Standards and Interpretations that have mandatory application dates for the future reporting periods. Some of which are relevant to the entity. The entity has decided not to early adopt any of these new and amended pronouncements.

The entity's assessment of the new and amended pronouncements that are relevant to the entity but applicable in future reporting periods is set out below:

Standard	Mandatory date for annual reporting periods beginning on or after	Reporting period standard adopted by the company
AASB 9 Financial Instruments and related standards	1 January 2018	1 July 2018
AASB 15 Revenue from Contracts with Customers and AASB 2014-5 Amendments to Australian. Accounting Standards arising from AASB 15	1 January 2018	1 July 2018
AASB 2014-9 Equity method in separate financial statements	1 January 2016	1 July 2016
AASB 16 - Leases	1 January 2019	1 July 2019

Although the Directors anticipate that the adoption of the aforementioned standards may have an impact on the Group's accounting and disclosures, the potential impact has not currently been considered.

#### **NOTE 10 - INTANGIBLE ASSETS**

Titomic's core technology is called Kinetic Fusion and is based on "Cold Spray Robotic Technology". Titanium powder is sprayed at supersonic speed (up to two times the speed of sound) onto a scaffold surface, resulting in the powder particles plastically deforming at the edges, on impact and then bonding at a particle level with the surrounding particles.

In August 2013, Force Industries Pty Ltd (a related party of Jeff Lang, Tim Fox and Richard Fox) ("Force") excercised an option to acquire an exclusive royalty bearing licence to exploit intellectual property owned by the Commonwealth Scientific and Industrial Research Organisation (CSIRO). The licence is in respect of Australian Patent Application No 2012901345 "Manufacturing Process", and any applicable Know-How and relevant subject matter. The term of the licence was to the expiration, lapsing or cessation of all licenced patents.

Force Industries Pty Ltd and CSIRO agreed in January 2016 to novate the licence to Titomic. All existing and accrued obligations of the Licence Agreement were novated to Titomic effective from this date. The novation was for nil consideration.

The license agreement provides for royalty payments payable to CSIRO on future sales. Under the agreement, Force must pay CSIRO 1.5% of attributable gross sales revenue and 20% of non-sales revenue attributable to products within the licensed field.

To remain exclusive, the license agreement is further subject to the satisfying the following performance criteria:

- Minimum \$350,000 of Research Fees payable by Titomic to CSIRO over a five-year period from license grant date; or
- Minimum royalty payments structured as following:

Period	Minimum Royalty
Year 1	\$-
Year 2	\$25,000
Year 3	\$50,000
Year 4 and every subsequent agreement year until the end of the license term	\$75,000

The value of the novated license agreement acquired from Force has been calculated with reference to the fair value of consideration given to acquire the license at the time of novation. This comprises the present value of contracted future cash outflows to maintain the license, which have been novated to Titomic. The minimum \$350,000 has been spread evenly over a five-year license term and discounted using an indicative discount rate of 7.50% pa, to determine the cost of the intangible asset acquired.

# INDEPENDENT AUDITOR'S REVIEW REPORT TO THE MEMBERS OF TITOMIC LIMITED

#### **Report on the Half-Year Financial Report**

We have reviewed the accompanying half-year financial report of Titomic Limited (Formerly Titomic Pty Ltd), "the Company", which comprises the condensed statement of financial position as at 31 December 2016, the condensed statement of profit or loss and other comprehensive income, condensed statement of changes in equity and condensed statement of cash flows for the half-year ended on that date, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration.

# Directors' Responsibility for the Half-Year Financial Report

The directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

# **Auditor's Responsibility**

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity,* in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including: giving a true and fair view of the Company's financial position as at 31 December 2016 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*. As the auditor of the Company, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

# <u>Independence</u>

In conducting our review, we have complied with the independence requirements of the Corporations Act 2001. We confirm that the independence declaration required by the Corporations Act 2001, which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's report.

#### INDEPENDENT AUDITOR'S REVIEW REPORT TO THE MEMBERS OF TITOMIC LIMITED CONTINUED...

# Conclusion

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Titomic Limited (Formerly Titomic Pty Ltd) is not in accordance with the *Corporations Act 2001* including: giving a true and fair view of the Company's financial position as at 31 December 2016 and of its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and *Corporations Regulations 2001*.

# **Emphasis of Matter**

Without modifying our conclusion expressed above, attention is drawn to the matters set out in Note 3 – Going Concern in the half year financial report.

These conditions, as set forth in Note 3 – Going Concern, indicated the existence of a material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern and therefore, the Company may be unable to realise its assets and discharge its liabilities in the normal course of business.
