Please see the relevant PDS for information regarding how to apply.

2. Managing your investment

Authorised signatories

You can appoint a person, partnership or company as your authorised signatory. To do so, please nominate them on the Application Form and have them sign the relevant sections. If a company is appointed, the powers extend to any director and officer of the company. If a partnership is appointed, the powers extend to all partners. Such appointments will only be cancelled or changed once we receive written instructions from you to do so.

Once appointed, your authorised signatory has full access to operate your investment account for and on your behalf. This includes the following:

- (where applicable), distribution and tax statements

The annual audited financial accounts are available on Equity Trustees' website.

3. Withdrawing your investment

Withdrawal cut-off times

If we receive a withdrawal request:

- before 2pm on a Business Day and your withdrawal request is accepted, you will receive the Withdrawal Price calculated for that Business Day; or
- on or after 2pm on a Business Day and your withdrawal request is accepted, you will receive the Withdrawal Price calculated for the next Business Day. If you acquired your units through mFund settlement service, you must place your withdrawal request through mFund by placing a sell order for units with your licensed broker.

We reserve the right to accept or reject withdrawal requests in whole or in part at our discretion. We have the discretion to delay processing withdrawal requests where we believe this to be in the best interest of the Funds' investors.

Please see the relevant PDS for information regarding how to request a withdrawal.

Withdrawal terms

Once we receive your withdrawal request, we may act on your instruction without further enquiry if the instruction bears your account number or investor details and your (apparent) signature(s), or your authorised signatory's (apparent) signature(s).

We may contact you to check your details before processing your withdrawal request. This may cause a delay in finalising payment of your withdrawal money. No interest is payable for any delay in finalising payment of your withdrawal money.

We are not responsible or liable if you do not receive, or are late in receiving, any withdrawal money that is paid according to your instructions.

When you are withdrawing, you should take note of the following:

- Withdrawals will only be paid to the investor.
- We reserve the right to fully redeem your investment if, as a result of processing your request, your investment balance in the Fund falls below the minimum balance set out in the PDS.
- If we cannot satisfactorily identify you as the withdrawing investor, we may reject your withdrawal request or payment of your withdrawal proceeds will be delayed. We are not responsible for any loss you consequently suffer.
- As an investor who is withdrawing, you agree that any payment made according to instructions received by post, courier, email or fax, shall be a complete satisfaction of our obligations, despite any fact or circumstances such as the payment being made without your knowledge or authority.
- You agree that if the payment is made according to these terms you, and any person claiming on your behalf, shall have no claim against us with regards to such payment.
- We will not investigate whether a withdrawal request received by Equity Trustees via mFund has been made with the authority of the unitholder.

Withdrawal restrictions

Under the Corporations Act, you do not have a right to withdraw from the Fund if the Fund is illiquid. In such circumstances, you will only be able to withdraw your investment if Equity Trustees makes a withdrawal offer in accordance with the Corporations Act. Equity Trustees is not obliged to make such offers.

The Fund will be deemed liquid if at least 80% of its assets are liquid assets (generally cash and marketable securities). In addition, should Equity Trustees be unable to realise sufficient assets to meet withdrawal payments, it may suspend the calculation of the NAV and withhold withdrawal proceeds.

4. Performance fees

Performance fee example

The example below is provided for illustrative purposes only and does not represent any actual or prospective performance of the Fund. We do not provide any assurance that the Fund will achieve the performance used in the example and you should not rely on this in determining whether to invest in the Fund.

A Performance fee is payable to the Investment Manager where the investment performance of the relevant Fund exceeds the performance of the relevant Funds' Benchmark. The performance fee varies between 20 - 20.50% of this excess, calculated daily and paid annually in arrears from the Fund and calculated based on the beginning NAV of the Fund over the relevant period. No performance fees are payable until any accrued underperformance (in dollar terms) from prior periods has been made up (this feature is sometimes referred to as a high-watermark).

Alpha Enhanced Yield Fund - Performance Fee Example

It is not possible to estimate the actual performance fee payable in any given period, as we cannot forecast what the performance of the Fund will be, but it will be reflected in the management costs for the Fund for the relevant year. Information on current performance fees will be updated from time to time and available at www.eqt.com.au/insto.

Equity Trustees does not consider there is any reasonable basis on which it may estimate performance fee expenses for the Fund. To estimate performance fee expenses would involve speculation about the return of the Fund against the Fund's performance hurdle. Equity Trustees therefore considers that to estimate performance fee expenses may potentially be misleading.

Example of how the performance fee may affect your investment

The following is an example of the performance fee expense for a 12 month period ending 30 June ("Performance Fee Period") payable on the Fund. Terms referred to below have the same meaning as detailed in Section 6. Fees and costs of the PDS for the Fund.

Assumptions:

- The percentage movement in the Funds Benchmark from the start of the Performance Fee Period to the end of the Performance Fee Period is the Bloomberg AusBond Bank Bill Index +1%;
- the Fund's performance hurdle for the Performance Fee Period is the Bloomberg AusBond Bank Bill Index +1%;
- the Fund's 'investment return' for the Performance Fee Period is 2.25%;
- the Fund's 'investment return' for the Performance Fee Period is assumed to accrue evenly over the course of the Performance Fee Period;
- the Fund's 'investment return' with reference to which the performance fee is calculated is a return prior to any deduction for Management costs; and
- there is no negative performance fee amounts for previous Performance Fee Periods to be carried forward.

On the basis of the above assumptions and if you had an investment in the Fund of \$50,000 at the beginning of the Performance Fee Period and no withdrawals were effected during the Performance Fee Period, your investment would bear a performance fee expense of approximately \$227 (Based on outperformance of 2.25% above 'Performance Hurdle' x Performance Fee 20.15% x \$50,000 investment = \$227) for the Performance Fee Period.

Please note that the 'investment return' specified in this example:

- is only an example to assist investors to understand the effect of the performance fee expense on the investment return of the Fund; and
- is not a forecast of the expected investment return for the Fund.

Underlying investment managers

Performance fees may also be payable to certain investment managers of the underlying investments into which the Fund invests. These fees are calculated in various ways and may involve fees of up to 20.5% p.a. (net of GST and RITC) of the amount by which the performance of the underlying fund exceeds a specified performance hurdle. Such fees are reflected in the unit price for the underlying funds.

Indirect Costs

The management cost figure disclosed in the table of fees and costs in section 6 of the PDS incorporates the indirect costs incurred in connection with managing the underlying investment assets of the Fund based on estimates for the financial year ended 30 June 2017. These indirect costs are reflected in the unit price of your investment in the Fund and include any underlying (indirect) management costs and other indirect costs. The indirect costs may vary from year to year, including to the extent that they rely on estimates.

These indirect costs may include:

- Indirect management costs (any underlying funds): Managers of underlying funds will typically charge management fees and these fees are deducted from the underlying funds and the impact is included as part of their unit price. To the extent such underlying funds are managed by an affiliate of the Investment Manager, we will typically offset these fees in the Fund to ensure they are not an additional cost to you.
- Indirect performance fees (any underlying funds): Managers in underlying funds may also receive performance fees and if they apply they will reduce the unit price of the underlying funds. These indirect performance fees will be an indirect cost to you.
- Other indirect costs: In managing the assets of the Fund, the manager(s) may engage in trading activity in certain types of derivative financial products which are not used for hedging purposes but rather to gain or reduce market exposure e.g. derivatives such as forwards, over-the-counter (OTC) options and swap arrangements. Engaging in trade activity of these types of products may give rise to other indirect costs.

The Constitution

The Fund is governed by a Constitution that sets out the Fund’s operation (the “Constitution”). This Constitution, together with the Fund’s PDS, the Corporations Act and other laws, regulate our legal relationship with investors in the Fund. If you invest in the Fund, you agree to be bound by the terms of the Fund’s PDS and the Fund’s Constitution. You can request a copy of the Constitution free of charge from Equity Trustees. Please consider these documents before investing in the Fund.

We may amend the Constitution from time to time in accordance with the provisions in the Constitution and the Corporations Act.

Attribution Managed Investment Trusts (“AMITs”)

The Constitution allows, where separate classes of units are on issue in respect of the Fund, for income allocation to take into account any impact of the currency overlay that may be in place for the respective classes. The quantum of the distribution is sought to be determined on a standalone basis. Prior to the AMIT multi-class election being made (as described below), the Fund is treated as a single taxpayer. As any separate classes of units would not currently be treated as separate taxpayers, it is possible under the current taxation regime that the tax character of distributions made to a particular class may be impacted by transactions associated with another class. The Constitution provides a mechanism to seek to minimise this outcome. Insofar as possible, where separate classes of units are on issue, the Constitution seeks to quarantine the income associated with a particular class to that class.

In May 2016, the Australian Federal Government enacted legislation establishing a new tax system for AMITs. Trusts that meet the eligibility criteria to be an AMIT may elect into the AMIT rules. An election into AMIT has been made in respect of the Fund and therefore the following will apply:

Fair and reasonable attribution: Each year, the Fund’s determined trust components of assessable income, exempt income, non-assessable non-exempt income and tax offsets (i.e. credits) will be allocated to investors on a “fair and reasonable” attribution basis, rather than being allocated proportionally based on each investor’s present entitlement to the income of the Fund.

Unders or overs adjustments: Where the Fund’s determined trust components for a year are revised in a subsequent year (e.g. due to actual amounts differing to the estimates of income, gains / losses or expenses), then unders and overs may arise. Unders and overs will generally be carried forward and adjusted in the year of discovery.

Cost base adjustments: Where the distribution made is less than (or more than) certain components attributed to investors, then the cost base of an investor’s units may be increased (or decreased). Details of cost base adjustment will be included on an investor’s annual tax statement, referred to as an AMIT Member Annual Statement (“AMMA”).

Large redemptions: In certain circumstances, gains may be attributed to a specific investor, for example, gains on disposal of assets to fund a large redemption being attributed to the redeeming investor.

Multi-class AMITs: A choice is available to elect to treat separate classes of units as separate AMITs. Equity Trustees is intending that the AMIT multi-class election be made in respect of the Fund.

Penalties: In certain circumstances (e.g. failure to comply with certain AMIT rules), specific penalties may be imposed.

The new rules are intended to reduce complexity, increase certainty and reduce compliance costs for managed investment trusts and their investors.

Anti-Money Laundering and Counter Terrorism Financing (“AML/CTF”)

Australia’s AML/CTF laws require Equity Trustees to adopt and maintain an AML/CTF Program. A fundamental part of the AML/CTF Program is that Equity Trustees knows certain information about investors in the Fund.

To meet this legal requirement, we need to collect certain identification information and documentation (“KYC Documents”) from new investors. Existing investors may also be asked to provide KYC Documents as part of a re-identification process to comply with AML/CTF laws. Processing of applications will be delayed or refused if investors do not provide the applicable KYC Documents when requested.

Under the AML/CTF laws, Equity Trustees is required to submit regulatory reports to AUSTRAC. This may include the disclosure of your personal information. Equity Trustees may not be able to tell you when this occurs.

The Responsible Entity shall not be liable for any loss you may suffer because of compliance with the AML/CTF laws.

If you apply for units via mFund you may be required to provide the KYC documents to your broker (rather than the Administrator).

Indirect Investors

You may be able to invest indirectly in the Fund via an IDPS by directing the IDPS Operator to acquire units on your behalf. If you do so, you will need to complete the relevant forms provided by the IDPS Operator. This will mean that you are an Indirect Investor in the Fund and not an investor or member of the Fund. Indirect Investors do not acquire the rights of an investor as such rights are acquired by the IDPS Operator who may exercise, or decline to exercise, these rights on your behalf.

Indirect Investors do not receive reports or statements from us and the IDPS Operator’s application and withdrawal conditions determine when you can direct the IDPS Operator to apply or redeem. Your rights as an Indirect Investor should be set out in the disclosure document issued by the IDPS Operator.

Information on underlying investments

Information regarding the underlying investments of the Fund will be provided to an investor of the Fund on request, to the extent Equity Trustees is satisfied that such information is required to enable the investor to comply with its statutory reporting obligations. This information will be supplied within a reasonable timeframe having regard to these obligations.

NAV for the Fund

The NAV for the Fund is available at <http://www.eqt.com.au/business-partners/mfund-product-issuer>.

Foreign Account Tax Compliance Act ("FATCA")

In April 2014, the Australian Government signed an intergovernmental agreement ("IGA") with the United States of America ("U.S."), which requires all Australian financial institutions to comply with the FATCA Act enacted by the U.S. in 2010.

Under FATCA, Australian financial institutions are required to collect and review their information to identify U.S. residents that invest in assets through non-U.S. entities. This information is reported to the Australian Taxation Office ("ATO"). The ATO may then pass that information onto the U.S. Internal Revenue Service.

In order to comply with the FATCA obligations, we may request certain information from you. Failure to comply with FATCA obligations may result in the Fund, to the extent relevant, being subject to a 30% withholding tax on payment of U.S. income or gross proceeds from the sale of certain U.S. investments. If the Fund suffers any amount of FATCA withholding and is unable to obtain a refund for the amounts withheld, we will not be required to compensate unitholders for any such withholding and the effect of the amounts withheld will be reflected in the returns of the Fund.

Common Reporting Standard ("CRS")

The CRS is a standardised set of rules developed by the Organisation of Economic Co-operation and Development that requires certain financial institutions resident in a participating jurisdiction to document and identify reportable accounts and implement due diligence procedures. These financial institutions will also be required to report certain information on reportable accounts to their relevant local tax authorities.

Australia signed the CRS Multilateral Competent Authority Agreement and has enacted provisions within the domestic tax legislation to implement CRS in Australia. Australian financial institutions need to document and identify reportable accounts, implement due diligence procedures and report certain information with respect to reportable accounts to the ATO. The ATO may then exchange this information with foreign tax authorities in the relevant signatory countries.

In order to comply with the CRS obligations, we may request certain information from you. Unlike FATCA, there is no withholding tax that is applicable under CRS. However, penalties may apply for failing to comply with the CRS obligations.
