ASX Announcement  
27 November 2017

## 5G Networks Secures Carrier License, Telstra, HP and Microsoft Partnerships

- Australian Carrier License granted to provide telephone and internet services
- Telstra Business Partnership appointment for 5GN as Reseller
- Microsoft Tier 1 partnership for Cloud service provider
- HP confirms 5GN as Silver Status Business Partner

5G Networks Ltd (ASX: 5GN, the Company), newly listed high-speed internet and cloud infrastructure company, is pleased to announce it was granted an Australian Carrier Licence on the 13<sup>th</sup> September 2017, to provide data telephony and internet services. Being a network owner, 5GN is able to deploy and manage telecommunication infrastructure to service our customers for all data, telephony and internet requirements. This is a core pillar of the business model, enabling the Company to provide its services in accordance with its strategic plans, whilst remaining consistent with all prevailing legislation and sector guidelines.

To complement the carrier licence, 5G Networks subsidiary, Enspire Australia, have extended relationships with industry leaders Microsoft, HP and Telstra.

### Enspire and Microsoft

Microsoft have remained a core partner of Enspire Australia, allowing an astute partnership to be formed, with Enspire recently becoming a Microsoft Tier 1 Cloud Service Provider. Microsoft has assessed Enspire as meeting the high standards required to service businesses who use the Microsoft product suite, giving clients a direct line to Microsoft.

### Enspire and HP

HP have acknowledged the efforts Enspire sustain in satisfying the needs of its customers that utilise HP technology. The efforts have resulted in naming Enspire Australia as a Silver Status Business Partner under the Partner First Program. *"We are pleased to have our relationship with HP ratified in this manner"* - Mr Garry White, Group Sales Director, Enspire Australia. Enspire's partnership with HP further underpins the commitment in providing a full range of IT products and services that build business efficiency and reinforces the client's competitive edge.

### Enspire Telstra

Enspire further add to their array of successful partnerships with the appointment of a Telstra

and cloud infrastructure.

5G

Business Partnership. The agreement will see Enspire and its team of consultants working with its own, and Telstra's customers, in the roll out of a range of Telstra products and services, providing Enspire with full end to end to support for its clients. This partnership acts as a major milestone in the business where the skills and commitment of the Enspire team have opened up a scope of opportunities moving forward.
