

## Rights Issue Completion and Placement

- Rights Issue completed with shortfall heavily oversubscribed
- Excess demand partially met through additional placement of \$500,000

**Metal Bank Limited (ASX: MBK)** is pleased to announce that following very strong investor interest, the Company has completed its pro-rata non-renounceable rights issue (**Rights Issue**) with the Shortfall Shares and Options allocated by the Underwriter to raise \$1,094,663.76 (before costs).

The Shortfall was heavily over-subscribed and in order to partially meet the strong demand from investors, the Company has decided to issue a further 25,000,000 shares and options (**Placement Shares and Options**) to professional and sophisticated investors, raising an additional \$500,000 (**Placement**). The Placement Shares and Options will be issued at the same price and on the same terms as the New Shares and New Options offered under the Rights Issue and within the Company's existing 15% placement capacity under Listing Rule 7.1.

In total, the Company will raise \$3,355,365.70 (before costs) from the Rights Issue and the Placement.

The funds raised will be used to accelerate and expand the Company's exploration programs at the Triumph and Eidsvold Projects and for general working capital, including costs of the Rights Issue and Placement.

The Company's Managing Director, Tony Schreck said: *'The support shown by our existing shareholders and the strong demand for the shortfall from new investors is a great vote of confidence in MBK's exploration success to date and future strategy, as we move to deliver a JORC resource and open pit mining plan for the Triumph Project in 2018. We are grateful to existing shareholders and welcome the new shareholders to Metal Bank'*

It is expected that the Shortfall and Placement Shares and Options will be issued this week.
