**Melbourne, 15<sup>th</sup> December, 2017** – iSignthis Ltd (ASX : ISX : DE : TA8), the world leading RegTech for identity verification and payment services, is pleased to announce that the Poli Payments service (<https://www.polipayments.com>) is now integrated with the ISXPay® and Paydentity™ platforms.

Poli Payments provides consumers with an alternative payment method to make “instant” payment to merchants instead of using cards.

Poli Payments can be used to transfer funds from popular Australian and New Zealand Banks, including Bank of Melbourne, BOQ, BankSA, Bankwest, Bendigo Bank, Citibank, Commonwealth Bank, IMB Building Society, ME Bank, NAB, Newcastle Permanent, St. George Bank, Suncorp, Westpac, ASB, BankDirect, Bank of New Zealand, Kiwibank & TSB Bank.

ISXPay® will receive funds transferred by the consumer from any of the above banks, and will settle funds with its merchants directly. ISXPay® will charge a percentage based Merchant Services Fee (MSF) on the transaction value, plus a flat transaction fee for the service.

As a value added service, iSignthis® has incorporated its own unique Paydentity™ service to Poli Payments specifically for the high risk industries, including AML regulated sectors such as gaming, gambling, CFD's, Binaries, Securities, FX, foreign exchange and MSB's.

Paydentity™ integrated with Poli provides automated customer due diligence of end consumers, allowing AML/CFT regulated merchants to automatically onboard their customers.

ISXPay® and Paydentity™ are both also integrated with the Sofort payment method (<https://www.sofort.com>), providing a similar service for consumers wishing to pay merchants via EU banks.

These services are now live, with first merchants expected to be onboarded to Poli Payments before or just after the New Year, contributing immediately to revenue.
