**About us**

Zenitas is a community-based healthcare operator providing integrated care solutions that are primarily aimed at reducing the reliance on high cost acute and post-acute institutional care. Zenitas' strategy is to provide Allied Health, Home Care and Primary Care services in Australia.

**Allied Health:** The Allied Health segment consists of clinics across the physiotherapy services, chiropractic and osteopathic services, optometry and optical dispensing and other Allied Health services. It provides a range of Allied Health services to medical practitioners who provide healthcare services including physiotherapy, exercise physiology, occupational therapy and podiatry.

**Home Care:** The Home Care segment provides a range of consumer-directed home and respite community-based care covering disability, aged and 24-hour care services. The Home Care industry is largely operated by not for profit organisations with a smaller portion of providers being government and for profit organisations.

**Primary Care:** Primary Care segment provides services to medical practitioners who provide general practitioner services, complementary care services, and lower acuity procedures.
