CHAIRMAN'S LETTER

~~27 April~~ 14 May 2018

Dear MDL Shareholder

Takeover bid for MDL

On behalf of ERAMET SA, I am pleased to provide you with this offer to acquire all of your shares in Mineral Deposits Limited (MDL).

ERAMET is offering to acquire all of the shares in MDL that it does not already own for the attractive cash price of \$1.46 per share (**Offer**).

As part of the Offer, ERAMET has acquired a relevant interest in 13.3% of MDL Shares on issue from key institutional shareholders of MDL at the same price as the Offer Price. This includes the acquisition of 8.0% via outright purchases and execution of a pre-bid acceptance agreement in relation to an additional 5.3% of MDL Shares on issue. [After the announcement of the Offer on 27 April 2018, ERAMET acquired an additional 0.08% of MDL Shares.](#)

ERAMET and MDL have each held a 50% interest in the TiZir Joint Venture since 2011. ERAMET is now seeking to increase its exposure to TiZir by consolidating the joint venture through this transaction.

The Offer provides MDL shareholders with compelling value and certainty at this point in time.

The Offer Price of \$1.46 per share represents an attractive premium to MDL's historical trading prices. Based on the price of MDL shares up to and including 26 April 2018, the last trading day prior to [the Announcement Date](#) ~~this Bidder's Statement~~, the Offer Price represents a premium of:

- 26% to \$1.16, the last closing price of MDL shares;
- 33% to \$1.10, the one-month Volume Weighted Average Price (VWAP)¹ of MDL shares;
- 30% to \$1.13, the three-month VWAP of MDL shares; and
- 37% to \$1.07, the six-month VWAP of MDL shares.

This premium is being provided to MDL shareholders after the MDL share price has experienced recent substantial growth, including 119% in the year up to and including 26 April 2018 [\(the last trading day prior to the Announcement Date\)](#).²

In addition, the Offer provides MDL shareholders with cash certainty compared to the uncertainty you may face if you remain an MDL shareholder, given the volatility in the mineral sands industry, TiZir Limited's high financial leverage and MDL's limited trading liquidity. Furthermore, MDL has not reported an annual net profit in over five years and has not paid a dividend since it commenced trading as MDL on the ASX in 1999.

The Offer is fully funded from ERAMET's existing cash reserves and subject to only limited conditions, including a 50.01% minimum acceptance condition. The full list of conditions is set out in section 9.7 of this Bidder's Statement.

I encourage you to read this Bidder's Statement carefully and in full, and to accept this attractive offer for the reasons outlined in this Bidder's Statement.

The Offer is open for acceptance until 7.00pm (Sydney time) on ~~[-]~~ [21 June 2018](#), unless extended. Instructions on how to accept the Offer are set out in section 9.3 and in the enclosed Acceptance Form. If you have any questions, please contact the Offer Information Line on 1800 218 694 (callers within Australia) or +61 1800 218 694 (callers outside Australia).

Thank you for your consideration.

Yours sincerely,

Christel Bories
Chairman and Chief Executive Officer
ERAMET SA

- 1 VWAPs in this Bidder's Statement are calculated on the basis of ASX trading data sourced from IRESS calculated over the specified period.
- 2 MDL share price growth calculated on the basis of MDL's closing share price of 26 April 2018 [\(the last trading day prior to the Announcement Date\)](#) (\$1.16) compared against MDL's closing share price of 26 April 2017 (\$0.53).

WHY YOU SHOULD ACCEPT THE OFFER

- 1** The Offer represents attractive value for Your Shares
- 2** The Offer provides you with certainty compared to the risks associated with an investment in MDL
- 3** ERAMET has acquired a Relevant Interest in 13.3% from some of MDL's largest shareholders
- 4** MDL's share price may fall if the Offer is not successful
- 5** No brokerage or stamp duty in accepting the Offer

WHY YOU SHOULD ACCEPT THE OFFER

1. The Offer represents attractive value for Your Shares

The Offer Price of \$1.46 cash per Share represents an attractive premium relative to recent trading prices of the Shares.

Based on the price of the Shares up to and including 26 April 2018, the last trading day prior to the Announcement Date, the Offer Price represents a premium of:

- 26% to \$1.16, the last closing price of the Shares;
- 33% to \$1.10, the one-month volume weighted average price (VWAP) of the Shares;
- 30% to \$1.13, the three-month VWAP of the Shares; and
- 37% to \$1.07, the six-month VWAP of the Shares.

In addition, the Offer Price represents a premium of 248% to the issue price of \$0.42 per share under MDL's capital raising in March 2017.

FIGURE 1: OFFER PREMIUM RELATIVE TO RECENT TRADING PRICES PRIOR TO THE ANNOUNCEMENT DATE

Source: IRESS.

This premium is being provided to MDL shareholders after the Share price has experienced recent substantial growth, including 119% in the year up to and including the last trading day prior to the Announcement Date. Accordingly, ERAMET believes that many MDL shareholders stand to make substantial gains from the Offer when combined with the recent strong growth in the Share price.

ERAMET notes that the MDL share price has traded at levels above the Offer Price following the announcement of the Offer on 27 April 2018. However, ERAMET believes that the share price increase has been a direct response to the Offer and that the MDL share price may trade at a material discount to the Offer Price if the Offer does not proceed and no alternative transaction emerges.

WHY YOU SHOULD ACCEPT THE OFFER

2. The Offer provides you with certainty compared to the risks associated with an investment in MDL

The Offer provides you with the certainty of an all-cash offer subject to limited conditions.

In comparison, if you remain a shareholder in MDL, the future value of Your Shares would be exposed to a number of risks including:

- the lack of diversification of MDL's asset portfolio, given MDL's only significant asset is its investment in the TiZir Joint Venture;
- the potential impact of operating risks and the volatility of commodity prices (in particular zircon, ilmenite, rutile, leucoxene and titanium products) on MDL's profitability;
- the high financial leverage of the TiZir Group, which, ~~as at 31 March 2018, had -is liable to-~~ total net debt ~~of US\$324 million~~ (excluding shareholder loans) of US\$324 million, noting MDL's 50% exposure to this net debt is US\$162 million, as at 31 March 2018, compared to MDL's market capitalisation of ~~\$228 million~~ (US\$173 million³) as at the Last Practicable Date; and
- the limited liquidity in the trading of MDL Shares, which may impact the ability of MDL shareholders to sell their MDL Shares without having an adverse impact on the share price received in the sale of those shares.

As a result, MDL shareholders may find it difficult to realise a fair cash return for their MDL Shares in the absence of either accepting the Offer or any competing offer.

Indicative of these risks is the fact that:

- MDL has made a net loss after tax in each financial year since 2012 (with net losses of US\$27.1 million and US\$20.6 million in the 2016 and 2017 financial years respectively);
- MDL has not paid a dividend since the company commenced trading as MDL on the ASX in 1999; and
- over the past 12 months up to and including 26 April 2018 (the last trading day prior to the Announcement Date), the average daily trading volume of MDL Shares was only 0.2% of total shares on issue. This represents average daily turnover of less than \$300,000.

3. ERAMET has acquired a Relevant Interest in 13.3% from some of MDL's largest shareholders

The Offer Price is the same as the price at which some of MDL's largest shareholders have sold Shares to ERAMET on the Announcement Date.

ERAMET has acquired a Relevant Interest in 13.3% of MDL from key institutional shareholders of MDL, comprising:

- unconditional purchases of 8.0% of MDL Shares on issue⁴ from key MDL shareholders at the Offer Price of \$1.46 per Share; and
- entry into a pre-bid acceptance deed in relation to 5.3% of MDL Shares on issue⁵ with Ellerston Capital Limited. As further detailed in section 4.6, Ellerston Capital Limited has agreed to accept the Offer for these Shares subject to the terms and conditions of the pre-bid acceptance deed.

After the announcement of the Offer on 27 April 2018, ERAMET acquired an additional 0.08% of MDL Shares.

3 Equal to \$228 million converted at ~~Based on~~ the AUD:USD exchange rate of 0.76 as at the Last Practicable Date. Source: IRESS.

4 Based on 196,985,649 Shares on issue as at the Announcement Date ~~date of this Bidder's Statement~~.

5 See note above.

WHY YOU SHOULD ACCEPT THE OFFER

4. MDL's share price may fall if the Offer is not successful

The Offer is at an attractive premium to the historical trading prices of the Shares prior to the announcement of the Offer.

As a result, if the Offer does not proceed and no alternative transaction is proposed, MDL's share price may fall significantly and trade at a material discount to the Offer Price.

If the Offer becomes unconditional but ERAMET does not acquire 100% of MDL, then, depending on the circumstances at the relevant time, the liquidity of the Shares may be substantially reduced which would further reduce your ability to readily dispose of Your Shares in the future.

[ERAMET notes that the MDL share price has traded at levels above the Offer Price following the announcement of the Offer on 27 April 2018. 5. No brokerage or stamp duty in accepting the Offer

In addition to the attractive premium in the Offer Price, you will not be obliged to pay stamp duty if you accept the Offer.

If Your Shares are registered in an Issuer Sponsored Holding, you will not incur any brokerage fees in accepting the Offer. If Your Shares are registered in a CHESS Holding, you will generally not incur any brokerage fees in accepting the Offer (although you should ask your Controlling Participant, normally your broker, to confirm).

If you sell Your Shares on the ASX instead of accepting the Offer, you may incur brokerage fees (and potentially GST on those fees).

INFORMATION ON ERAMET AND THE ERAMET GROUP

INFORMATION ON ERAMET AND THE ERAMET GROUP

2.1 OVERVIEW OF ERAMET AND THE ERAMET GROUP

ERAMET is the parent entity of the ERAMET Group, incorporated in Paris, France.

The ERAMET Group is a leading global mining and metallurgical business, which produces manganese, nickel, alloys and other non-ferrous metals for customers worldwide. The ERAMET Group currently has operations in almost 20 countries across five continents and employed approximately 12,600 employees (including non-consolidated companies and companies accounted for using the equity method) as at 31 December 2017.

The ERAMET Group was founded in 1880, as a large nickel mining operation conducted by Société Le Nickel in the French territory of New Caledonia. The current parent entity of the ERAMET Group, ERAMET, was incorporated under its former name of ERAMET-SLN in 1985 as part of a corporate re-structure.

Since that time, ERAMET has become one of the world's largest producers of manganese ore and alloys. The ERAMET Group's business also includes a 50% interest in the TiZir Joint Venture, which operates an integrated zircon and titanium business together with MDL (being the holder of the other 50% interest in the TiZir Joint Venture through its wholly owned Subsidiary, MDL (Mining) Limited), as further described in section 3.3 of this Bidder's Statement.

For the year ended 31 December 2017, ERAMET reported group consolidated earnings before interest, tax, depreciation and amortisation of €871 million, up 132% on the prior period, and group consolidated net income of €203 million, up from a net loss of €179 million in the prior period.

As at 31 December 2017, ERAMET's financial liquidity was €2.8 billion (on a pro forma basis, after taking into account ERAMET's repayment of €250 million under its revolving credit facility on 18 January 2018 as well as the extension of its revolving credit facility to 2023 on 13 February 2018). ERAMET's financial liquidity comprises:

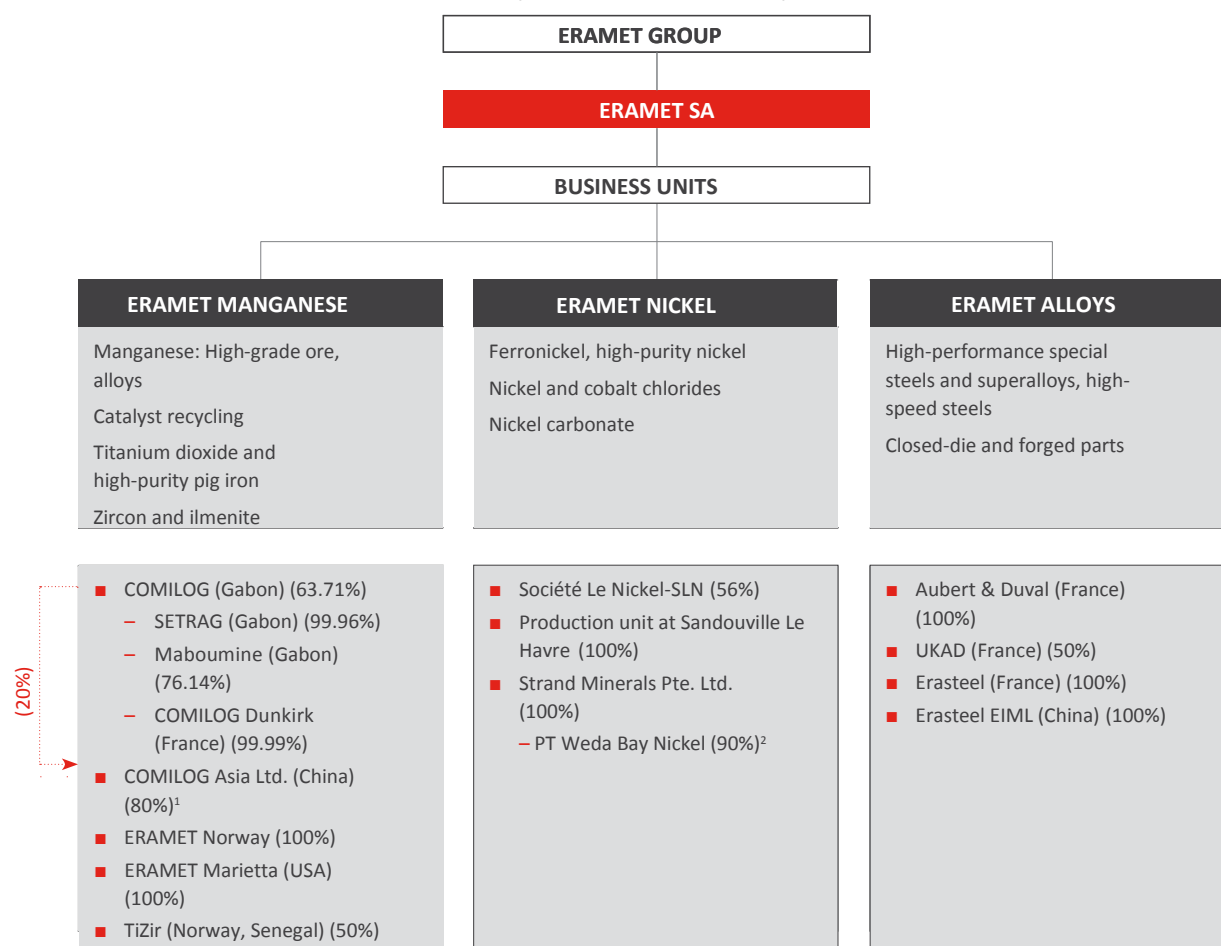

- total internal available cash of €1.8 billion; and
- €981 million of undrawn lines under its established revolving credit facility.

ERAMET's net debt of €376 million resulted in a net debt to equity ratio of 19% as at 31 December 2017.

ERAMET is headquartered in Paris and listed on the Euronext Paris exchange with a market capitalisation of approximately €3.9 billion as at the Last Practicable Date. ERAMET's major shareholders include SORAME (30.23%), FSI Equation (25.57%), and CEIR (6.70%) as at 31 December 2017. These shareholders act in concert in relation to their shareholding in ERAMET.

2.2 PRINCIPAL ACTIVITIES OF ERAMET AND THE ERAMET GROUP

(A) ERAMET MANGANESE

ERAMET, through its subsidiary COMILOG, is one of the world's largest producers of high grade manganese ore. COMILOG operates a manganese mine at Moanda in Gabon. Once extracted and prepared, the manganese ore is either immediately sold to consumers in markets that use manganese (mainly in the alloys and chemicals fields) or it is processed at ERAMET Group plants into alloys to meet the requirements of steelmaker customers.

ERAMET's manganese division also includes its 50% interest in the TiZir Joint Venture, which produces titanium dioxide products and zircon.

The division contributed 52.6% of ERAMET's aggregate sales in FY2017.

ERAMET Nickel pursues a strategy of developing ores and positioning itself in products with high added value, with reliance on the ERAMET Group's internal R&D. ERAMET Nickel is focussed on the following three main projects:

- Société Le Nickel-SLN in New Caledonia, ERAMET's 56% owned subsidiary and main nickel mining and metallurgical centre, produces high-grade ferronickel at the Doniambo plant;
- the Havre Sandouville nickel refinery, in France, specialises in high value-added products (nickel salts, high-purity electrolytic nickel and cobalt salts); and
- the Weda Bay project in Indonesia, developed in partnership with leading Chinese steel producer Tsingshan, is planning to produce a low-grade nickel pig iron from Weda Bay ore.

The division contributed 17.6% of ERAMET's aggregate sales in FY2017.

(C) ERAMET ALLOYS

ERAMET's alloys division designs and develops high-performance steels, superalloys, aluminium and titanium alloys using various development and transformation methods. These materials and products are then used to supply customers in high-technology markets, such as aerospace, energy, nuclear, medical and automotive.

The division contributed 29.8% of ERAMET's aggregate sales in FY2017.

(D) LITHIUM PROJECT

In addition to its three core businesses, ERAMET is developing a lithium project in Argentina. The project is based on a wholly-owned lithium brine deposit located at the Centenario-Ratones salt lake in the Salta Province and designed to produce lithium carbonate to an industrial scale. The project is in an advanced stage of development, with further testing work to be conducted throughout 2018. Subject to positive technical and economic studies, the intention is for the project to reach final investment decision in 2019, with production intended to commence in late 2021.

INFORMATION ON MDL AND THE MDL GROUP

3.1 IMPORTANT INFORMATION

The following information about MDL (other than section 3.3(b) and 3.3(c)) is based on publicly available information and has not been independently verified. Accordingly, ERAMET does not make any representation or warranty, express or implied, as to the accuracy or completeness of this information (other than section 3.3(b) and 3.3(c)).

3.2 OVERVIEW OF MDL

MDL is an integrated mining company listed on the ASX.

Since 2011, MDL's principal activities have been in relation to its 50% interest in the TiZir Joint Venture held through its wholly owned Subsidiary, MDL (Mining) Limited, alongside the 50% interest held by ERAMET.

In addition, as at 31 December 2017, MDL held a US\$87.3 million interest-bearing subordinated shareholder loan (as lender) to TiZir Limited. As at 31 March 2018, MDL held US\$11.2 million in cash⁶.

The TiZir Joint Venture operates an integrated zircon and titanium business at two main sites: the Grande Côte mineral sands mining operation in Senegal (**GCO**) and the TiZir Titanium & Iron ilmenite upgrading facility in Norway (**TTI**).

Further details about the TiZir Joint Venture are set out below in section 3.3.

3.3 OVERVIEW OF TIZIR

As noted above, MDL's principal activities have been in relation to its 50% interest in the TiZir Joint Venture.

(A) OVERVIEW AND BACKGROUND

The TiZir Joint Venture was formed in 2011 by ERAMET and MDL, and comprises two integrated, producing assets, being:

- GCO (Senegal, West Africa) – the TiZir Joint Venture owns a 90% interest in GCO, the other 10% being controlled by the Government of the Republic of Senegal. GCO is a mineral sands mining operation that extracts and produces zircon and titanium dioxide products (such as ilmenite, rutile and leucosene) from the sands at TiZir's concession along the Senegalese coastline through a single dredge operation.
- TTI (Tyssedal, Norway) – the TiZir Joint Venture owns 100% of TTI, which is an ilmenite upgrading and processing facility. The facility processes ilmenite (including ilmenite sourced from GCO) to produce titanium slag and high-purity pig iron products.

Together, GCO and TTI are a vertically integrated operation, whereby a significant portion of GCO's production is supplied as ilmenite feedstock to TTI.

MDL and ERAMET each hold a 50% interest in the TiZir Joint Venture through their 50/50 shareholding of TiZir Limited. MDL's shareholding in TiZir Limited is held through its wholly owned Subsidiary, MDL (Mining) Limited, and ERAMET's shareholding in TiZir Limited is held through its wholly owned subsidiary, Eralloys Holding AS.

When the TiZir Joint Venture was first established, ERAMET contributed 100% of TTI and cash of US\$30 million, and MDL contributed its 90% interest in GCO⁷.

INFORMATION ON MDL AND THE MDL GROUP

For the year ended 31 December 2017, TiZir Limited reported group consolidated earnings before interest, tax, depreciation and amortisation of US\$62.5 million, up 159% on the prior period and a group consolidated net loss of US\$32.7 million, compared to a net loss of US\$64.2 million in the prior period.

For the quarter ended 31 March 2018, sales revenue for the TiZir Group was approximately US\$61 million.

(2) Debt position

As at 31 March 2018, the TiZir Group had external net debt of US\$324 million, comprising:

- external borrowings (excluding shareholder loans) of US\$369.2 million (comprising US\$300 million in senior secured bonds (including accrued interest) and amounts drawn under TTI's and GCO's working capital facilities); and
- cash and cash equivalents of US\$45.2 million.

As at 31 December 2017, in addition to external net debt, the TiZir Group had US\$231 million in subordinated shareholder loans, being US\$144 million in loans from the ERAMET Group and a US\$87 million loan from MDL.

(3) Further information

Further financial information regarding TiZir Limited can be found in TiZir Limited's annual financial statements for the year ended 31 December 2017 available on the TiZir Limited website (<http://www.tizir.co.uk/>) and in MDL's statement of financial results for the year ended 31 December 2017, released on the ASX on 21 February 2018.

MDL's 1Q 2018 Operations Review was released on the ASX on 19 April 2018 and contains updates on the financial performance and operations of the TiZir Joint Venture and MDL.

(C) OPERATIONAL RISKS

A non-exhaustive list of operational risks relevant to the TiZir Joint Venture and therefore to MDL is set out below.

You should read MDL's Target's Statement when it is despatched as this will contain additional disclosures about operational and other risks that are relevant to your decision on whether to accept the Offer. For further information about the Target's Statement please refer to section 3.67 of this Bidder's Statement.

(1) Foreign operations, regulations and tax regimes

MDL's main asset is the TiZir Joint Venture which primarily operates in Senegal and Norway. The financial performance of MDL may be adversely impacted by current or future fiscal or regulatory regimes, local laws and regulations or changes to current political, judicial or administrative policies or conditions in those geographies.

GCO is currently the subject of a tax audit by the Senegalese tax authorities ([noting that GCO does get audited from time to time](#)), noting that no notification has been made at this stage and that the outcome of this is uncertain. Therefore this tax audit may or may not result in any liability for the TiZir Joint Venture.

(2) Industry and commodity cycles

The TiZir Joint Venture's and therefore MDL's financial performance is influenced by the level of activity in the mineral sands industry, which is impacted by a number of factors beyond the control of any party.

In particular, the TiZir Joint Venture and MDL are exposed to movements in commodity prices. Commodity prices are volatile and subject to factors beyond the TiZir Joint Venture's control.

INFORMATION ON MDL AND THE MDL GROUP

(3) Pre-reduction kiln at TTI

As announced by MDL, the pre-reduction kiln at TTI was shut down for a period of time due to a gearbox failure. The furnace operated at reduced levels during the shutdown, resulting in a loss of approximately six weeks of normal production. However, GCO was not impacted by the gearbox issue at TTI, with ilmenite volumes earmarked for TTI during the period of downtime being contracted for sale to external customers in the second quarter.¹⁰⁶ MDL confirmed that gearbox repairs were completed as planned and operations are now producing at rates approximating those achieved pre-shutdown.¹¹⁷

(4) Industrial incidents and disputes

An industrial incident may occur that results in serious injury or death, damage to property or contamination of the environment. Such incidents and any industrial disputes can adversely impact on operations. In addition to any negative impact to profitability from such an event, the TiZir Joint Venture, and therefore MDL, may suffer reputational damage from an industrial incident or dispute which may damage their ability to secure or retain clients.

(5) Insurance

The availability of insurance at an appropriate price and on appropriate terms is not guaranteed. It is possible that the occurrence of an event may not be fully covered, or covered at all, by insurance.

(6) Railway reconstruction works in Dakar, Senegal

As previously announced by ERAMET and MDL, some disruption to rail transport was expected during 2018 due to recently commenced high-speed rail works between Dakar and Blaise Diagne International Airport. Work is currently being undertaken with the relevant stakeholders (including to optimise logistics) to minimise the impact during the construction period. MDL has stated that since 1 February 2018 when GCO assumed responsibility for track maintenance during the fast rail construction period, there has been a significant improvement in rail utilisation. GCO remains confident that it will be in a position to transport its budgeted annual finished goods production to the port of Dakar.¹²⁸

(7) Industry specific risks

The TiZir Joint Venture's business is affected by a range of industry-specific and general legal and regulatory controls. Changes in these types of controls can have an adverse effect on financial performance of the TiZir Joint Venture. Further, any major shift in regulatory policy may impact on the profitability of the TiZir Joint Venture and therefore of MDL.

The TiZir Joint Venture's exploration, mining and processing activities are dependent upon the granting, maintenance and renewal of appropriate licences, concessions, leases, permits and regulatory consents which may be withdrawn, not granted or made subject to limitations or new conditions. Loss of such required licences, concessions, leases, permits and regulatory consents may directly impact the TiZir Joint Venture's (and indirectly MDL's) profitability.

INFORMATION ON MDL AND THE MDL GROUP

(D) SUMMARY OF SHAREHOLDERS' AGREEMENT

ERAMET owns 50% of TiZir Limited through its wholly owned subsidiary, Eralloys Holdings AS (**Eralloys**) and MDL owns 50% of TiZir Limited through its wholly owned subsidiary MDL (Mining) Limited (**MDL Mining**).

To govern their relationship in relation to the TiZir Joint Venture, ERAMET, Eralloys, MDL, MDL Mining, and TiZir Limited are parties to a shareholders' agreement dated 25 October 2011 (as amended) (**SHA**). Under the SHA, Eramet and MDL are the "Ultimate Parties" and MDL Mining and Eralloys are the "JV Shareholders".

Set out below is a non-exhaustive summary of the key terms of the SHA.

(1) Board composition, voting and decision making

The Board consists of an equal number of directors appointed by each JV Shareholder. The quorum for a Board meeting is generally two directors, being one director appointed by each JV Shareholder.

The Board makes all decisions with respect to development of projects and the operation and management of TiZir Limited, except for "Reserved Matters" (see below) which are decided by the JV Shareholders, or matters where shareholder approval is required by law. The Board currently delegates its authority to the Executive Management (see below).

Decisions of the Board are generally made by simple majority.

For so long as each JV Shareholder owns 50% in TiZir Limited, the directors for each JV Shareholder will hold an equal number of votes.

(2) Shareholder reserved matters

"Reserved matters" require consent of all JV Shareholders, including the following matters:

- registration of a new JV shareholder or altering TiZir Limited's name or constitutional documents;
- other than limited exceptions, altering the share capital of TiZir Limited or varying any class rights;
- repayment of capital or assets to JV Shareholders;
- listing TiZir Limited on a stock exchange;
- decisions relating to the winding-up of TiZir Limited or other corporate reconstructions;
- capitalisation of any amount standing to the credit of any reserve of TiZir Limited;
- amendment of "deadlock matters" (see below) or approval of the terms of non-recourse financing for the GCO (Senegal) project;
- decisions in relation to key matters such as a decision to change the business of TiZir Limited, the acquisition or disposal of any material asset or shares in another company, the participation in a partnership or joint venture or the merger with another entity;
- closure of any business operation; and
- distributions or repayment of shareholder loans other than in accordance with the agreed dividend policy.

INFORMATION ON MDL AND THE MDL GROUP

(3) Funding obligations

TiZir Limited can make cash calls on the JV Shareholders if:

- the amount is required to meet the expenditures in a budget and cash flow forecast which has been approved by the Board;
- the Board decides a cash call is required; or
- an expert determines that funding is required to implement its decision in relation to a matter that is in dispute.

If a JV Shareholder fails to contribute its full share of the cash call, the other JV Shareholder may elect to contribute the shortfall amount and this can lead to a dilution of the defaulting JV Shareholder's shareholding.

(4) Non-compete restrictions

Each JV Shareholder and their respective corporate groups may not invest in or contribute to any "Competing Project", without the prior written agreement of the other JV Shareholder unless it follows the prescribed process, which includes the relevant party undertaking to provide TiZir Limited with a right of first refusal with respect to the Competing Project.

A "Competing Project" is any worldwide business opportunity, which includes an investment in or contract with, a mining, smelting or associated project where an amount equal to more than 50% of its expected aggregate revenues based on the first 5 years of commercial operation are projected to be derived from operations on zircon or titanium minerals.

(5) Management of the JV

The TiZir Group is managed by a management team which is appointed by the Board. The management team consists of four officers, the CEO, CFO, the TTI CEO and GCO CEO (together, the **Executive Management**).

Each JV Shareholder proposes candidates for the positions. The Board, to the extent possible, selects 2 officers from each of the lists provided by the JV Shareholders.

If requested by a JV Shareholder, the Board must procure that at least one person nominated by that JV Shareholder (other than a member of the Executive Management) is appointed as a director to the Board of any subsidiary of TiZir Limited.

(6) Shareholder rights to market end product produced by the TiZir Group

TiZir Limited's marketing arrangements are not prescribed under the SHA.

However, in practice, product sales agreements are usually entered into by a subsidiary of TTI in respect of any end products. There are different delegations within the TiZir Group to approve and validate a decision to enter into any such agreement, depending on the value of the proposed sales agreement.

(7) Related party dealings

All contracts between the TiZir Group and a JV Shareholder or its corporate group must be approved by the Board of TiZir Limited and the other JV Shareholder in writing.

INFORMATION ON MDL AND THE MDL GROUP

(8) Deadlock and break-up procedure

Deadlock

Failure to agree any of the following matters are considered “deadlock matters”:

Board decisions

- approval of annual business plan;
- appointment and removal of the Executive Management;
- certain cash call decisions; and
- approval of TiZir Limited’s audited accounts and financial statements within the specified period.

Shareholder decisions

- approval of TiZir Limited’s audited accounts and financial statements within the specified period; and
- approval of the terms of non-recourse financing for the GCO (Senegal) project.

Expert determination

If a deadlock occurs and the JV Shareholders do not resolve the deadlock matter within a specified period, either JV Shareholder may refer the matter to an expert for its determination.

Break up procedure

A JV Shareholder (**Break-Up Shareholder**) may issue a notice (**Break-Up Notice**) to the other JV Shareholder of its intention to terminate its investment relationship with the other JV Shareholder, if:

- no later than one month following receipt of the notification of the expert’s decision, the Break-Up Shareholder reasonably considers that the expert’s decision is of strategic importance to it or its related Ultimate Party and will materially adversely affect its investment position in the TiZir Group; or
- an expert’s decision has not been delivered within one month following the date on which it was required, and the failure of the expert to deliver its decision is not attributable to the Break-Up Shareholder, then within one month following the expiry of such one month period, but only if the Break-Up Shareholder reasonably considers that the deadlock issue is of strategic importance to it or its related Ultimate Party and the absence of a resolution of the issue will materially adversely affect its investment position in the joint venture group.

A Break Up Notice must include:

- a cash offer by the Break-Up Shareholder to purchase in cash all of the other JV Shareholders’ shares in TiZir Limited and all of its shareholder loans (**Break-Up Price**); and
- a call option in favour of the other JV Shareholder at the Break-Up Price in respect of the Break-up Shareholder’s shares in TiZir Limited and all of its shareholder loans.

In the event that both JV Shareholders issue Break-Up Notices concurrently, then the Break-Up Procedure shall be commenced in respect of the Break-Up Notice which provides for the higher Break-Up Price.

INFORMATION ON MDL AND THE MDL GROUP

(9) Restriction on the transfer of shares in TiZir Limited

Shares in TiZir Limited may be transferred:

- if the transfer is a “permitted transfer” (see below);
- if the tag along and pre-empt processes described below are complied with; or
- from a non-defaulting JV Shareholder to a defaulting shareholder at the non-defaulting JV Shareholder’s election in accordance with the default provisions (see below).

Permitted transfers

A JV Shareholder is permitted to transfer all (but not some only) of its shares to a member of its corporate group.

Pre-emption process

Subject to certain limited exceptions, if a JV Shareholder wishes to transfer all (but not some only) of its shares and shareholder loans to a proposed buyer (**Buyer**), it must first offer to sell its shares and shareholder loans to the other JV Shareholder at the price offered by the Buyer (**Transfer Price**).

If the non-selling JV Shareholder does not accept the offer within 90 days (**Offer Period**), subject to complying with the tag along provisions summarised below, the selling JV Shareholder may transfer all (but not some only) of its shares and shareholder loans to the Buyer at a price that is at least equal to the Transfer Price within two weeks after the end of the Offer Period. If the non-selling JV Shareholder accepts the offer, the transfer must compete within 60 days after the non-selling JV Shareholder accepts the offer.

Tag-along right

If, after complying with the pre-emption process, a JV Shareholder wishes to transfer all its interest in TiZir Limited to a Buyer, the sale to the Buyer cannot proceed until the Buyer offers to also acquire the non-selling JV Shareholder’s interest in TiZir Limited (shares, shareholder loans and default loans owed by the selling JV Shareholder to the non-selling JV Shareholder) at a price which is at least equal to the highest price offered to the selling JV Shareholder by the Buyer. The non-selling JV Shareholder has 28 Business Days to accept this offer.

(10) Change of control

A change of control of MDL or ERAMET will not trigger any change of control restrictions under the SHA.

(11) Default and consequences of default

A JV Shareholder Default occurs:

- if a JV Shareholder is insolvent or steps are taken to wind-up the JV Shareholder; or
- if a JV Shareholder ceases to be a member of MDL Group or ERAMET Group respectively.

If a JV Shareholder Default occurs, the non-defaulting JV Shareholder can acquire the defaulting JV Shareholder’s shares and shareholder loans at a cash price that is either (1) based on TiZir Limited’s net asset value (subject to certain adjustments) multiplied by the defaulting JV Shareholder’s shareholding (**NAV Buy-Out Value**) or (2) the lower of the NAV Buy-Out Value and 80% of the fair market value of the defaulting JV Shareholder’s shares and shareholder loans as determined by an expert.

SOURCES OF CONSIDERATION

SOURCES OF CONSIDERATION

5.1 TOTAL CASH CONSIDERATION

The consideration for the acquisition of the Shares to which the Offer relates will be satisfied wholly in cash.

The maximum amount of cash that ERAMET would be required to pay under the Offer if acceptances are received in respect of all Shares on issue as at the [Announcement Date](#) ~~date of this Bidder's Statement~~ (other than those Shares which ERAMET owns) would be \$264,492,603 ~~725,947~~.

In addition, if all unvested Performance Rights and 2018 Performance Rights vest in accordance with the terms of their issue, and the holders exercise those Performance Rights and 2018 Performance Rights and accept the Offer in respect of the Shares issued to them, an additional \$4,439,711 will be payable by ERAMET under the Offer.

Accordingly, the maximum amount that ERAMET could be required to pay under the Offer is \$268,932,314 ~~269,165,658~~ (the **Maximum Offer Amount**), together with transaction costs.

5.2 SOURCES OF CASH CONSIDERATION

ERAMET intends to fund the Maximum Offer Amount and costs associated with the Offer from ERAMET's existing cash reserves.

As at 31 December 2017, ERAMET had total internal available cash of €1.8 billion¹⁸⁺⁹ (on a pro-forma basis, after taking into account ERAMET's repayment of €250 million of its revolving credit facility on 18 January 2018). This amount of existing cash reserves is well in excess of the Maximum Offer Amount. [ERAMET also confirms that, as at the date of this Bidder's Statement, it has existing cash reserves that are well in excess of the Maximum Offer Amount.](#)

ERAMET does not anticipate any restriction on the availability of funds for the purpose of funding the Offer.

¹⁸⁺⁹ This amount is equivalent to approximately \$2.9 billion based on an Australian Dollar to Euro exchange rate of 0.62 as at the Last Practicable Date. Source: IRESS.

**BIDDER'S
INTENTIONS
IN RELATION
TO MDL**

BIDDER'S INTENTIONS IN RELATION TO MDL

6.1 INTRODUCTION

The intentions of ERAMET are set out in this section 6 of the Bidder's Statement. Those intentions have been formed on the basis of facts and information concerning MDL, and the general business environment, which are known to ERAMET at the time of preparing this Bidder's Statement. Final decisions will only be reached by ERAMET in light of material information and circumstances at the relevant time. Accordingly, the statements set out in this section are statements of current intention only and accordingly may vary as new information becomes available or circumstances change.

By making the Offer, ERAMET is seeking to acquire shares in MDL in order to have, immediately after the close of the Offer, a greater level of economic exposure to the TiZir Joint Venture.

6.2 SPECIFIC INTENTIONS – PERFORMANCE RIGHTS AND 2018 PERFORMANCE RIGHTS

This Offer does not extend to any Performance Rights or 2018 Performance Rights. ERAMET encourages holders of Performance Rights to exercise their Performance Rights before the end of the Offer Period to the extent that they are entitled to do so and accept the Offer in respect of the Shares issued on exercise, ERAMET encourages holders of 2018 Performance Rights to do the same.

During the Offer Period, ERAMET may also seek (at its election) to acquire any Performance Rights or 2018 Performance Rights by making a private offer to holders of those Performance Rights or 2018 Performance Rights to acquire them.

After the end of the Offer Period, ERAMET may seek to acquire any remaining Performance Rights or 2018 Performance Rights by doing one or more of the following (at its election):

- (a) making a private offer to holders of Performance Rights and/or 2018~~those~~ Performance Rights to acquire them; or
- (b) where ERAMET becomes entitled under Part 6A.2 of the Corporations Act to compulsorily acquire all outstanding Shares, compulsorily acquiring the Performance Rights and/or 2018 Performance Rights.

6.3 INTENTIONS FOR MDL AS A WHOLLY OWNED CONTROLLED ENTITY

This section 6.3 describes ERAMET's intentions if ERAMET acquires a relevant interest in 90% or more of the Shares, and becomes entitled to proceed to compulsory acquisition of outstanding Shares in accordance with Part 6A.1 of the Corporations Act.

(A) CORPORATE MATTERS

If ERAMET becomes entitled to do so, it intends to:

- proceed with compulsory acquisition of the outstanding Shares in accordance with the provisions of Part 6A.1 of the Corporations Act, including any Shares which are issued after the close of the Offer as a result of the vesting and exercise of Performance Rights and 2018 Performance Rights (see section 4.2 of this Bidder's Statement);
- following completion of the compulsory acquisition of the outstanding Shares, apply for termination of official quotation of the Shares on the ASX and arrange for MDL to be removed from the official list of the ASX; and
- if ERAMET becomes entitled to compulsorily acquire any outstanding Performance Rights and/or 2018 Performance Rights in accordance with Part 6A.2 of the Corporations Act, ERAMET intends to proceed with compulsory acquisition of those securities, although it reserves the right not to do so.

BIDDER'S INTENTIONS IN RELATION TO MDL

If MDL becomes wholly owned by ERAMET, ERAMET intends to:

- replace the members of the Board with the nominees of ERAMET. Replacement board members have not yet been identified by ERAMET and their identity will depend on the circumstances at the relevant time. However, it is expected that the majority of the replacement board members will be members of the ERAMET management team; and
- review the MDL corporate structure with a view to potentially simplifying its corporate structure.

(B) OPERATIONS

ERAMET intends generally to continue MDL's primary business, namely, the continuation and further development of the activities of the TiZir Joint Venture.

ERAMET does not currently intend to make any major changes to the way the TiZir Joint Venture is operated.

(C) IMPACT ON EMPLOYEES

The majority of employees of the MDL Group relate to operational staff at the TiZir Joint Venture, and ERAMET has no immediate plans to change any of those roles.

However, as a result of the implementation of the above intentions, it is possible that the roles performed by employees of the MDL Group at the MDL corporate level (as opposed to the operational TiZir Joint Venture level) will become redundant.

If redundancies do occur, the relevant employees will receive benefits in accordance with their contractual and other legal entitlements.

6.4 INTENTIONS FOR MDL AS A PART OWNED CONTROLLED ENTITY

This section 6.4 describes ERAMET's intentions if MDL becomes a controlled entity of ERAMET, but ERAMET is not entitled to proceed to compulsory acquisition in accordance with Part 6A.1 of the Corporations Act.

In that circumstance, ERAMET's current intentions are as follows:

(A) CORPORATE MATTERS

After the end of the Offer Period, ERAMET intends to:

- seek to have MDL removed from the official list of the ASX (see further information below);
- (subject to the Corporations Act and the constitution of MDL) seek to replace members of the board of MDL with nominees of ERAMET, so that the board of MDL contains a majority of nominees of ERAMET. ERAMET would consider the recommendations in the ASX Corporate Governance Guidelines when determining the composition of the board, including whether to retain or appoint any independent directors. Replacement board members have not yet been finally decided by ERAMET and their identity will depend on the circumstances at the relevant time; however, it is expected that the majority of the replacement board members will be members of the ERAMET management team; and
- encourage the Board to continue to not make dividend payments in favour of retaining cash.

BIDDER'S INTENTIONS IN RELATION TO MDL

In relation to the removal of MDL from the official list of the ASX, ASX guidance indicates that the usual conditions that the ASX would expect to be satisfied in order for it to approve the removal of MDL from the official list in the context of a successful takeover bid include:

- at the end of the Offer, ERAMET owns or controls at least 75% of the Shares and the Offer has remained open for at least two weeks after ERAMET attained ownership or control of at least 75% of the Shares; and
- the number of MDL shareholders (other than ERAMET) having holdings with a value of at least \$500 is fewer than 150,

and in such case, the ASX will not usually require ERAMET to obtain MDL shareholder approval for MDL's removal from the official list of the ASX.

In addition, ASX may approve an application for MDL to be removed from the official list of the ASX with shareholder approval and, where such removal is sought later than 12 months after the close of the Offer, ERAMET would be entitled to vote on the resolution approving the removal.

If MDL is removed from the official list of the ASX, there may be risks related to remaining as a minority shareholder in MDL. These include reduced or non-existent liquidity if shareholders wish to sell their Shares.

It is possible that, even if ERAMET is not entitled to proceed to compulsory acquisition of minority holdings after the end of the Offer Period under Part 6A.1 of the Corporations Act, it may subsequently become entitled to exercise rights of general compulsory acquisition under Part 6D.2 of the Corporations Act; for example, as a result of acquisitions of Shares in reliance on the '3% creep' exception in item 9 of section 611 of the Corporations Act. If so, it intends to exercise those rights, although it reserves the right not to do so.

(B) OPERATIONS

ERAMET intends generally to continue MDL's primary business, namely, the continuation and further development of the activities of the TiZir Joint Venture.

ERAMET does not currently intend to make any major changes to the way the TiZir Joint Venture is operated.

(C) IMPACT ON EMPLOYEES

The majority of employees of the MDL Group relate to operational staff at the TiZir Joint Venture, and ERAMET has no immediate plans to change any of those roles.

However, as a result of the implementation of the above intentions, it is possible that the roles performed by employees of the MDL Group at the MDL corporate level (as opposed to the operational TiZir Joint Venture level) will become redundant. If redundancies do occur, the relevant employees will receive benefits in accordance with their contractual and other legal entitlements.

In the event that MDL is not wholly-owned, ERAMET expects that there would remain a need for MDL's head office function.

6.5 INTENTIONS FOR MDL IF NOT CONTROLLED BY ERAMET

The Offer includes a 50.01% minimum acceptance condition (see section 9.7). While ERAMET has no present intention to waive that condition, it reserves its right to declare the Offer free of that condition (or any other condition).

This section 6.5 sets out ERAMET's intentions if the Offer is declared free from the 50.01% minimum acceptance condition without ERAMET receiving acceptances in respect of at least 50.01% of the Shares (on a fully diluted basis).

BIDDER'S INTENTIONS IN RELATION TO MDL

In those circumstances, ERAMET's current intentions are as follows:

(A) CORPORATE MATTERS

It is intended that ERAMET would:

- maintain MDL's listing on the ASX, subject to the requirements for listing (including a sufficient spread of investors) continuing to be satisfied. However, the ASX may itself decide to remove MDL from the official list depending upon factors such as spread of MDL shareholders at that time, the level of liquidity in the Shares and the listing requirements of the ASX;
- subject to the Corporations Act and MDL's constitution, seek to appoint a number of nominees to the MDL Board such that the proportion which ERAMET's nominees represent of the total number of directors on the Board equals or exceeds ERAMET's proportionate ownership interest in MDL. ERAMET has not made any decision as to who would be nominated for appointment to the MDL Board in this case; and
- encourage the Board to continue to not make dividend payments in favour of retaining cash.

(B) IMPACT ON EMPLOYEES

The majority of employees of the MDL Group relate to operational staff at the TiZir Joint Venture, and ERAMET has no immediate plans to change any of those roles.

However, as a result of the implementation of the above intentions, it is possible that the roles performed by employees of the MDL Group at the MDL corporate level (as opposed to the operational TiZir Joint Venture level) will become redundant. If redundancies do occur, the relevant employees will receive benefits in accordance with their contractual and other legal entitlements.

In the event that MDL is not wholly-owned, ERAMET expects that there would remain a need for MDL's head office function.

6.6 OTHER INTENTIONS

Other than as set out in this section 6, it is the present intention of ERAMET to procure that MDL will:

- generally continue the business of MDL; and
- not make any major changes to the business of MDL nor redeploy any of the fixed assets of MDL.

6.7 LIMITATIONS ON INTENTIONS

The intentions and statements of future conduct set out in this section 6 must be read as being subject to:

- the law (including the Corporations Act) and the Listing Rules, including in particular the requirements of the Corporations Act and the Listing Rules in relation to conflicts of interest and 'related party' transactions given that, if ERAMET obtains control of MDL but does not acquire all of the Shares, it will be treated as a related party of MDL for these purposes; and
- the legal obligation of the MDL directors at the time, including any nominees of ERAMET, to act in good faith in the best interest of MDL and for proper purposes and to have regard to the interests of all MDL shareholders.

Dear Directors

Takeover Bid by ERAMET SA (Bidder) in relation to MDL Limited (MDL) - Australian Tax Implications

We have been instructed by the Bidder to prepare this letter for inclusion in the Bidder's Statement.

Capitalised terms not otherwise defined in this letter have the meaning given to them in the Bidder's Statement.

1 Scope

This letter contains a general description of the Australian income tax and goods and services (**GST**) consequences for MDL shareholders who either accept the Offer or whose MDL Shares are compulsorily acquired in accordance with Part 6A.1 of the *Corporations Act*.

This letter deals only with MDL shareholders who hold their MDL Shares on capital account for income tax purposes. This letter does not deal with MDL shareholders who:

- hold their MDL Shares for the purpose of speculation or a business of dealing in securities (e.g. as trading stock);
- acquired their MDL Shares pursuant to an employee share, option or rights plan;
- are taken for capital gains tax (**CGT**) purposes to have acquired their MDL Shares before 20 September 1985;
- are subject to the taxation of financial arrangement rules in Division 230 of the *Income Tax Assessment Act 1997* in relation to gains and losses on their MDL Shares; or
- are non-residents of Australia who hold their MDL Shares in carrying on a business through a permanent establishment in Australia.

The information in this letter is based upon the Australian law and administrative practice in effect at the date of this Bidder's Statement, but is general in nature and is not intended to be an authoritative or complete statement of the laws applicable to the particular circumstances of an MDL shareholder. MDL shareholders should seek independent professional advice in relation to their own particular circumstances.

TAX CONSIDERATIONS

GREENWOODS
+ HERBERT
SMITH
FREEHILLS

MDL shareholders who are tax residents of a country other than Australia (whether or not they are also residents, or are temporary residents, of Australia for tax purposes) should take into account the tax consequences of the Offer under the laws of their country of residence, as well as under Australian law.

2 Australian resident shareholders

2.1 MDL shareholders who accept the Offer

If the Offer becomes unconditional, acceptance of the Offer by an MDL shareholder will involve the disposal of their MDL Shares to the Bidder. This disposal of MDL Shares will constitute a CGT event for CGT purposes.

The date of the CGT event will be the date the contract to dispose of the MDL Shares is formed. If the Offer is accepted, the date the contract to dispose of the MDL Shares is formed will be the date that the Offer is accepted.

2.2 Compulsory Acquisition

If an MDL shareholder does not dispose of their MDL Shares under the Offer and their MDL Shares are compulsorily acquired in accordance with Part 6A.1 of the *Corporations Act*, those MDL shareholders will also be treated as having disposed of their MDL Shares for CGT purposes.

In this case, the date of the CGT event will be the date when the MDL shareholder ceases to be the owner of the MDL Shares.

2.3 Calculation of capital gain or capital loss

MDL shareholders will make a capital gain to the extent that the capital proceeds from the disposal of the MDL shares are more than the cost base of those MDL Shares. Conversely, MDL shareholders will make a capital loss to the extent that the capital proceeds are less than their reduced cost base of those MDL Shares.

2.4 Cost base

The cost base of the MDL Shares generally includes the purchase price paid for the shares and certain non-deductible incidental costs of their acquisition and disposal. The reduced cost base of the MDL Shares is usually determined in a similar, but not identical, manner.

If the MDL Shares were acquired (for CGT purposes) at or before 11.45am on 21 September 1999, an MDL shareholder who is an individual, a complying superannuation entity or the trustee of a trust may choose to adjust the cost base of their MDL Shares to include indexation by reference to changes in the consumer price index from (generally) the calendar quarter in which their MDL Shares were acquired until the quarter ended 30 September 1999.

MDL shareholders that are companies will include that indexation adjustment in their cost base if their MDL Shares were acquired (for CGT purposes) at or before 11.45am on 21 September 1999. Indexation adjustments are taken into account only for the purposes of calculating capital gains; they are ignored when calculating capital losses.

2.5 Capital proceeds

The capital proceeds for MDL shareholders in respect of the CGT event happening to their MDL Shares should be A\$1.46 per MDL Share.

2.6 CGT discount

Individuals, complying superannuation entities or trusts that have held their MDL Shares for at least 12 months before the CGT event but do not choose, or are not able, to index the cost base of the MDL Shares (refer section 2.4 above) may be entitled to discount the amount of the capital gain (after application of capital losses) from the disposal of MDL Shares by 50% in the case of individuals and trusts or by 33⅓% for complying superannuation entities. For trusts, the ultimate availability of the discount for beneficiaries of the trust will depend on the particular circumstances of the beneficiaries.

TAX CONSIDERATIONS

GREENWOODS
+ HERBERT
SMITH
FREEHILLS

2.7 Net capital gains or losses

Capital gains (prior to any CGT discount) and capital losses of a taxpayer in an income year are aggregated to determine whether there is a net capital gain or net capital loss. Any net capital gain is included in assessable income and is subject to income tax.

Net capital losses may not be deducted against other income for income tax purposes, but may be carried forward to offset against future capital gains (subject to satisfaction of loss recoupment tests for certain taxpayers).

3 Non-resident shareholders

For an MDL shareholder who:

- is not a resident of Australia for Australian tax purposes; and
- does not hold their MDL Shares in carrying on a business through a permanent establishment in Australia;

the disposal of MDL Shares will generally only result in Australian CGT implications if:

- (a) that MDL shareholder together with its associates held 10 percent or more of the MDL Shares at the time of the CGT event or for any continuous 12 month period within 2 years preceding the CGT event (referred to as a '**non-portfolio interest**'); and
- (b) more than 50% of MDL's value at the time of the CGT event is attributable to direct or indirect interests in Australian real property (as defined in the income tax legislation) (**TARP Test**).

Non-resident MDL shareholders who hold a non-portfolio interest should obtain independent advice as to the tax implications of a disposal of their MDL Shares.

The Bidder is entitled to withhold part of the consideration payable to MDL shareholders if several conditions are satisfied, including the TARP Test. The Bidder is currently of the view that the TARP Test should not be satisfied and therefore does not expect to withhold any amount in respect of tax from the consideration.

A non-resident individual MDL shareholder who has previously been a resident of Australia and who chooses to disregard a capital gain or loss on ceasing to be a resident will be subject to Australian CGT consequences on disposal of the MDL Shares as set out in section 2 of this letter.

4 GST

MDL shareholders should not be liable to GST in respect of a disposal of their MDL Shares. MDL shareholders may be charged GST on costs (such as advisor fees relating to their participation in the Offer) that relate to the Offer. MDL shareholders may be entitled to input tax credits or reduced input tax credits for such costs.

Yours sincerely

Greenwoods & Herbert Smith Freehills
