Dear Jon

Request for Voluntary Suspension

Environmental Clean Technologies Limited (ASX: ECT) requests a voluntary suspension in the trading of its securities immediately following the expiry of its current trading halt today.

The voluntary suspension is requested pending the outcome of discussions with our project partners in India regarding a formal extension to the Project Agreement current sunset date of 31 August 2018.

The formal extension has been signed by ECT and NLC India Limited and is expected to be signed by NMDC Limited after the market closes on 14 August 2018. A joint statement is also expected to be approved for release by the project partners including details of why the extension is needed and what has been put in place to ensure the project meets the new timeframes for completion.

In accordance with Listing Rule 17.2, the Company provides the following information:

- A trading halt was granted on Friday 10 August 2018, pending discussions with our Indian partners.
- The details of these discussions shall be the subject of an announcement that the Company expects to make within the next 24 hours;
- The Company requests that the voluntary suspension remains in place until this announcement is made by the Company;
- The Company is not aware of any reason why the voluntary suspension should not be granted.

Yours sincerely
