Chairman's Report

The Company's net revenue decreased by 12% to \$86.116m (2017: \$97.778m).

Profit after tax was \$0.503m (2017: \$8.481m), a decrease of 94%. Underlying EBITDA of \$5.386m was down from \$15.713m in 2017.

These results are reflective of the increased national egg supply throughout the year and the subsequent reduction in volumes and margins.

The increase in non-current debt at 30 June 2018 to \$10.053m (2017: \$0.005m) was applied to the purchase of property, plant and equipment associated with our factory upgrade and new farms.

On 6 August 2018 the Group entered into a new long-term financing facility arrangement with Westpac.

Net cash used in investing activities totalled \$20.040m in 2018 (2017: \$2.267m).

Inventory levels, although higher than ideal, have remained relatively stable over the last six months.

As our results show, it has been a difficult year. The national increase in egg production has led to a surplus of egg with downward pressure on price and profitability. This downward cycle over the last twelve months is typical of what is seen in many agricultural industries and it will be followed by a period of recovery.

To transition to cage free and free range the industry needs to generate sufficient returns to continue its investment in alternative egg production systems.

The next twelve months will see a continuation of downward pressure on returns. The cyclic nature of the industry means returns should improve over the longer term. The timing of those expected improvements has been complicated by the recovery from the drought conditions on the east coast of Australia.

The August 2018 Bureau of Meteorology climate outlook shows the first months of spring (September and October) are likely to be drier than average for most of northern, eastern and southern Australia.

Feed prices over the last three months have increased significantly and it is expected it could take twelve months before we see a return to lower costs. From the Company's perspective we have seen our ASW1 Wheat costs increase by 45% in the last three months.

Our free range and barn farm projects have progressed well. During 2019 the Company will also be upgrading its product egg processing plant.

As previously outlined, our longer-term strategy continues to focus on our brands, investment in alternative egg farming systems and the pursuit of growth opportunities.

Despite a pessimistic short-term outlook and a continuation of unfavourable industry conditions our longer-term outlook remains positive with population and per capita egg consumption expected to increase year on year.

Once again, the Board wishes to thank all our customers for their continued support and our employees who have worked hard to ensure that our business can continue to supply a product that we can all be proud of.

Peter Bell
Chairman

Directors' Report

The Directors present their report together with the financial report of the consolidated entity consisting of Farm Pride Foods Limited ('the Company') and the entities it controlled ('Farm Pride Foods', the 'consolidated entity or the 'Group'), for the financial year ended 30 June 2018 and auditor's report thereon.

Directors

The names of directors in office at any time during or since the end of the year are:

Peter Bell	Non-executive Director – Appointed 30 May 2008, Appointed Chairman 30 September 2016
Malcolm Ward	Non-executive Director – Appointed 30 May 2008
Bruce De Lacy	Executive Director – Appointed 30 April 2014

The directors have been in office since the start of the year to the date of this report unless otherwise stated.

Principal activities

The principal activities of the consolidated entity during the financial year were the production, processing, manufacturing and sale of egg and egg products.

There has been no significant change in the nature of these activities during the financial year.

Results and review of operations

Statutory consolidated net profit after tax attributable to the members of Farm Pride Foods Limited ("Statutory Profit") for the year ended 30 June 2018 was a profit of \$0.503 million (2017: \$8.481 million profit). Underlying earnings before interest, tax, depreciation and amortisation ("Underlying EBITDA") was \$5.386 million (2017: \$15.713 million).

Underlying EBITDA represents statutory earnings before interest, tax, depreciation and amortisation adjusted for items that are material to revenue or expense that are unrelated to the underlying performance of the business ('significant items'). Farm Pride believes that presenting Underlying EBITDA provides a better understanding of its financial performance by facilitating a more representative comparison of financial performance between financial periods. The results are presented with reference to the Australian Securities and Investment Commission Regulatory Guide 230 "Disclosing non-IFRS financial information".

The following table reconciles the Statutory Profit to Underlying EBITDA for the year ended 30 June 2018:

	30 June 2018	30 June 2017
	\$'000	\$'000
Statutory profit	503	8,481
Add back:		
- Interest (finance costs)	331	150
- Income tax	355	3,751
- Depreciation and amortisation	3,762	3,331
EBITDA	4,951	15,713
Significant items:		
Transaction costs on Darling Downs acquisition	435	-
Underlying EBITDA	5,386	15,713

Directors' Report (continued)

Results and review of operations (continued)

For further discussion of the review and results of operations of the Company reference should be made to the Chairman's Report dated 24 August 2018.

Significant changes in the state of affairs

There have been no significant changes in the consolidated entity's state of affairs during the financial year.

Subsequent events

On 6 August 2018 the Group entered into a new long term financing facility arrangement with its lender. Refer to Note 16 to the financial statements for further details.

There are no other matters or circumstances which have arisen since 30 June 2018 that have significantly affected or may significantly affect the operations of the Group, the results of those operations or the state of affairs of the Group in future financial periods.

Likely developments

The Company will continue to pursue its operating strategy to create shareholder value.

Environmental regulation

The consolidated entity's operations are not subject to any significant environmental, Commonwealth or State regulations or laws.

The consolidated entity is not aware of any significant breaches of environmental regulations during the financial year.

Dividend paid, recommended and declared

No dividends were paid, declared or recommended since the start of the financial year.

Share options

No options over unissued shares or interests in the consolidated entity were granted during or since the end of the financial year and there were no options outstanding at the end of the financial year.

Information on directors and company secretary

The qualifications, experience and special responsibilities of each person who has been a director of Farm Pride Foods Limited at any time during or since 1 July 2016 is provided below, together with details of the company secretary as at the year end.

Peter Bell

(Non-executive Chairman - Appointed 30 May 2008, Member of the Audit Committee)

Peter has been involved in the egg industry for more than 50 years and comes from a third generation poultry farming family. He continues to be directly involved in the management of commercial egg farms and has wide experience in all aspects of the egg industry.

He is the Managing Director of AAA Egg Company Pty Ltd and its subsidiary West Coast Eggs Pty Ltd, a director of Novo Foods Pty Ltd, a director of Days Eggs Pty Ltd, a director of Hy-Line Australia Pty Ltd, a director of Specialised Breeders Australia Pty Ltd, Lohmann Layers Australia Pty Ltd and Pure Foods Eggs Pty Ltd.

Directors' Report (continued)

Malcolm Ward

(Non-executive Director – Appointed 30 May 2008, Chairman of the Audit Committee)

Malcolm has been in the egg industry for over 25 years having owned and operated cage and free range farms and has served on industry related boards in the area of farm management and feed supply. He is also a director of AAA Egg Company Pty Ltd and its subsidiary West Coast Eggs Pty Ltd as well as being a director on a number of other private companies. Malcolm is the Managing Director of his family's independent supermarkets and also has commercial interests in property. He is also a director of Australian United Retailers Limited, appointed 17 November 2010.

Bruce De Lacy

(Company Secretary – Appointed 30 October 1997, Chief Financial Officer – Appointed 10 June 2013, Executive Director – Appointed 30 April 2014, Chief Executive Officer – Appointed 19 March 2015)

Bruce has over 35 years' experience in the egg industry and has previously been employed in a number of positions at the Company including General Manager and Chief Operating Officer.

Bruce has a Bachelor of Business Studies from Swinburne University, majoring in Accounting, is a CPA and is a Fellow of the Governance Institute of Australia.

Directors' Report (continued)

Indemnification and Insurance of directors and officers

During the financial year, the Company has paid premiums to insure each of the Directors against liabilities for costs and expenses incurred by them in defending any legal proceedings arising out of their conduct while acting in the capacity of Director of the Company.

The contracts as held by the Company do not permit premiums to be disclosed.

Further disclosure required under section 300(9) of the *Corporations Act 2001* is prohibited under the terms of the contract.

Auditor's independence declaration

A copy of the Auditor's Independence declaration as required under section 307C of the *Corporations Act 2001* in relation to the audit for the financial year is provided with this report.

Indemnification of auditors

To the extent permitted by law, the Company has agreed to indemnify its auditors, Ernst & Young Australia, as part of the terms of its audit engagement agreement against claims by third parties arising from the audit (for an unspecified amount). No payment has been made to indemnify Ernst & Young during or since the financial year.

Non audit services

Non-audit services are approved by resolution of the audit committee and approval is provided in writing to the board of directors. Non-audit services were provided by the auditors of entities in the consolidated group during the year, namely Ernst & Young Melbourne, network firms of Ernst & Young, and other non-related audit firms, as detailed below. The directors are satisfied that the provision of the non-audit services during the year by the auditor is compatible with the general standard of independence for auditors imposed by the *Corporations Act 2001*.

	2018 \$	2017 \$
Taxation services		
Ernst & Young	12,000	12,000
Capital and debt advisory services – Ernst & Young	-	8,472
	12,000	20,472

Remuneration report (Audited)

The directors present the consolidated entity's 2018 remuneration report which details the remuneration information for Farm Pride Foods' executive directors and non-executive directors.

This report outlines the remuneration arrangements for directors and executives of Farm Pride Foods and its controlled entities in accordance with the *Corporations Act 2001* and its Regulations ('Remuneration Report'). The Remuneration Report has been audited by Farm Pride Foods' external auditors, Ernst & Young.

Key management personnel

Key management personnel ('KMP') comprises the directors and the Chief Executive Officer ('CEO'), Chief Financial Officer ('CFO') and Company Secretary, Bruce De Lacy. The KMP are responsible for the implementation of Farm Pride Foods' vision, values, corporate strategies and risk management systems, as well as the day-to-day management of the business.

Bruce De Lacy	Appointed 30 October 1997 Appointed 10 June 2013 Appointed 30 April 2014 Appointed 19 March 2015	Company Secretary Chief Financial Officer Executive Director Chief Executive Officer

Remuneration policy

The performance of the Group depends upon the quality of its directors and executives. To be successful, the Group must attract, motivate and retain highly skilled directors and executives. To this end, the Group adopts the following principles in its remuneration framework:

- Provide competitive rewards to attract high calibre executives;
- Link executive rewards to the performance of the Group and the creation of shareholder value;
- Establish appropriate performance hurdles for variable executive remuneration;
- Meet the Company's commitment to a diverse and inclusive workplace;
- Promote the Company as an employer of choice;
- Comply with relevant legislation and corporate governance principles.

In accordance with best practice corporate governance, the structure of non-executive director and executive remuneration is separate and distinct.

The board of directors are responsible for determining and reviewing compensation arrangements for directors and executives. The board of directors assess the appropriateness of the nature and amount of remuneration of directors and executives on a periodic basis by reference to relevant market conditions, as well as whether performance targets have been met, with the overall objective of ensuring maximum shareholder benefit from the retention of a high quality board and executives.

Use of Remuneration Consultants

To ensure the board of directors are fully informed when making remuneration decisions, the Group seeks external remuneration advice. Remuneration consultants are engaged by, and report directly to, the Nominations & Remuneration Committee. In selecting remuneration consultants, the Nominations & Remuneration Committee considers potential conflicts of interest and requires independence from the Group's key management personnel and other executives as part of their terms of engagement.

During the year ended 30 June 2018, the Group did not engage external remuneration consultants.

Directors' Report (continued)

Non-Executive Director Remuneration

Objective

The board aims to set aggregate remuneration at a level which provides the Group with the ability to attract and retain directors of the highest calibre, whilst incurring a cost which is acceptable to shareholders.

Structure

The Group's Constitution and the ASX Listing Rules specify the aggregate remuneration of non-executive directors shall be determined from time to time by a general meeting. An amount not exceeding the amount determined is then divided between the directors as agreed.

The cap on aggregate non-executive directors remuneration (which requires shareholder approval), and the manner in which it is apportioned amongst non-executive directors, is reviewed annually. The board will consider advice from external consultants as well as fees paid to non-executive directors of comparable companies when undertaking the annual review process.

Superannuation contributions are made by the Group on behalf of non-executive directors in line with statutory requirements and are included in the remuneration package amount allocated to individual directors.

The remuneration of non-executive directors for the period ended 30 June 2018 is detailed in the table titled Remuneration of key management personnel on page 12 (the 'Remuneration Table').

Executive Remuneration

Objective

The Group aims to reward executives with a level and mix of remuneration commensurate with their position and responsibilities within the Group. This involves:

- Rewarding executives for company, business unit and individual performance against targets set by reference to appropriate benchmarks;
- Aligning the interest of executives with those of shareholders;
- Linking reward with the strategic goals and performance of the Group; and
- Ensuring total remuneration is competitive by market standards.

Structure

In determining the level and make-up of executive remuneration, the board of directors engage external consultants on market levels of remuneration for comparable roles. Remuneration consists of the following key elements:

- Fixed remuneration; and
- Variable remuneration.

The proportion of fixed remuneration and variable remuneration is established for each executive by the board of directors. The variable portion consists of a cash bonus which is performance-based and is disclosed separately in the Remuneration Tables.

The board of directors also considers current market conventions with regards to the splits between fixed, short-term and long-term incentive elements.

Executive Director Remuneration

Executive directors are paid for their services as part of their employment contracts. Each executive director appointment to the board is conditional on them being employed by the Group.

Directors' Report (continued)

Fixed Remuneration

Objective

The level of fixed remuneration is set to provide an appropriate and market-competitive base level of remuneration. Fixed remuneration is reviewed annually by the board of directors consisting of a review of Group, business and individual performance, relevant comparative remuneration in the market and internal and external advice on policies and practices where necessary.

Structure

Fixed remuneration is the non-variable component of an executive's annual remuneration. It consists of the base salary plus any superannuation contributions paid to a complying super fund on the executive's behalf, and the cost (including any component for fringe benefits tax) for other items such as novated vehicle lease payments. The amount of fixed remuneration is established based on relevant market analysis, and having regard to the scope and nature of the role and the individual executive's performance, expertise, skills and experience.

Linking remuneration to performance - variable remuneration

Remuneration is linked to performance to retain high calibre executives by motivating them to achieve performance goals which are aligned to Farm Pride Foods' interests.

Variable remuneration

Objective

The objective of executive variable remuneration is to link executive remuneration to the achievement of the Group's annual operational and financial targets through a combination of both company and individual performance targets.

Scheme Structure

Variable remuneration is expressed as a percentage of a participant's total fixed remuneration ('TFR') comprising base salary, superannuation contributions and any other non-cash benefits, and are based on the achievement of budgeted revenue and profit targets each financial year.

The board policy for determining the nature and amount of remuneration of KMP is agreed by the board of directors as a whole.

For executives, the Company provides a remuneration package that incorporates cash bonuses and may include share-based remuneration. The contracts for service between the Company and executives are on a continuing basis the terms of which are not expected to change in the immediate future. The remuneration policy is directly related to Company performance at the discretion of the board of directors.

Bonuses are payable at the discretion of the board of directors.

Non-executive directors receive fees and do not receive share-based remuneration or bonus payments.

The Company determines the maximum amount of remuneration for directors by resolution.

Employment Arrangements

Chief Executive Officer, Chief Financial Officer and Company Secretary

Bruce De Lacy is the Chief Executive Officer of the Company. Bruce is employed under a standard employment contract with no defined length of tenure. Under the terms of his employment contract:

- Bruce may resign from his position by providing the Group with four weeks written notice
- The Group may terminate this agreement by providing four weeks written notice or provide payment in lieu of the notice period, or the unexpired part of any notice period, based on Bruce's total remuneration
- The Group may terminate at any time without notice if serious misconduct has occurred

Details of Bruce De Lacy's salary are detailed in the Remuneration Table.

Details of all executive remuneration for KMPs are disclosed in the Remuneration Table.

Directors' Report (continued)

Group Performance

The relation of rewards to performance of directors and executives is discussed above. The Group's revenue, profit before tax and earnings per share for the last five financial years is presented in the table below:

	2018	2017	2016	2015	2014
	\$'000	\$'000	\$'000	\$'000	\$'000

Notes to the Consolidated Financial Statements

Note 1: Statement of significant accounting policies

The following is a summary of significant accounting policies adopted by the consolidated entity in the preparation and presentation of the financial report. The accounting policies have been consistently applied, unless otherwise stated. Farm Pride Foods Limited (the Company or parent entity) is a for profit company limited by shares incorporated in Australia whose shares are publicly traded on the Australian Stock Exchange.

(a) Basis of preparation of the financial report

This financial report is a general purpose financial report, which has been prepared in accordance with the requirements of the Corporations Act 2001, Australian Accounting Standards and other authoritative pronouncements of the Australian Accounting Standards Board.

The financial report has been prepared under the historical cost convention, as modified by revaluations to fair value for certain classes of assets as described in the accounting policies.

The financial report is presented in Australian dollars and all values are rounded to the nearest thousand (\$000), except when otherwise indicated.

The financial report was authorised for issue by the directors as at 24 August 2018.

Compliance with International Financial Reporting Standards (IFRS)

The consolidated financial statements of Farm Pride Foods Ltd also comply with the International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB).

Significant accounting estimates

The preparation of the financial report requires the use of certain estimates and judgements in applying the consolidated entity's accounting policies. Those estimates and judgements significant to the financial report are disclosed in Note 2.

(b) Going concern

The financial report has been prepared on a going concern basis.

(c) Basis of consolidation

The consolidated financial statements are those of the consolidated entity, comprising the financial statements of the parent entity and of all entities, which the parent entity controls. The parent entity controls an entity when it is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity.

The financial statements of subsidiaries are prepared for the same reporting period as the parent entity, using consistent accounting policies. Adjustments are made to bring into line any dissimilar accounting policies, which may exist.

All inter-company balances and transactions, including any unrealised profits or losses have been eliminated on consolidation. Subsidiaries are consolidated from the date on which control is established and are derecognised from the date that control ceases.

Note 1: Summary of Significant Accounting Policies (continued)

(d) Revenue

Revenue from the sale of goods is recognised when the significant risks and rewards of ownership of the goods have passed to the buyer and revenue can be measured reliably. Risks and rewards of ownership are considered to have passed to the buyer at time of delivery of the goods to the customer.

Revenue from the sale of goods is measured at fair value of the consideration received or receivable, net of promotional expenditure and rebates.

Interest revenue is recognised when it becomes receivable on a proportional basis taking into account the interest rates applicable to the financial assets.

All revenue is stated net of the amount of goods and services tax (GST).

(e) Cash and cash equivalents

Cash and cash equivalents include cash on hand and at banks short term deposits with an original maturity of three months or less held at call with financial institutions, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities on the consolidated statement of financial position.

(f) Inventories

Inventories are measured at the lower of cost and net realisable value. The cost of manufactured products includes direct material, direct labour and a proportion of manufacturing overheads based on normal operating capacity, but excluding borrowing costs.

Costs are assigned on a standard cost basis which approximates actual cost. The standard cost basis is reviewed by management regularly and adjusted to reflect current conditions, where necessary.

Net realisable value is an estimated selling price in the ordinary course of business less estimated costs of completion and estimated costs necessary to make the sale.

(g) Property, plant and equipment

Cost and valuation

Property, plant and equipment are stated at historical cost less accumulated depreciation and any accumulated impairment losses. Repairs and maintenance are recognised in profit or loss as incurred.

Depreciation

Land is not depreciated. The depreciable amounts of all other property, plant and equipment are calculated using the straight-line method over their estimated useful lives commencing from the time the asset is held ready for use.

Leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated useful lives of the improvements.

The useful lives for each class of assets are:

	2018	2017
Freehold land and land improvements	Up to 40 years	Up to 40 years
Buildings on freehold land and building improvements	Up to 40 years	Up to 40 years
Plant and equipment	1 to 20 years	1 to 20 years
Leased plant and equipment	5 to 20 years	5 to 20 years

Note 1: Summary of Significant Accounting Policies (continued)

(h) Impairment of non-financial assets

For impairment assessment purposes, assets are generally grouped at the lowest levels for which there are largely independent cash flows ('cash generating units'). Accordingly, most assets are tested for impairment at the cash-generating unit level. Because it does not generate cash flows independently of other assets or groups of assets, any goodwill recognised by the entity is allocated to the cash generating unit or units that are expected to benefit from the synergies arising from the business combination that gave rise to the goodwill.

An impairment loss is recognised where the carrying amount of the asset or cash generating unit exceeds the asset's or cash generating unit's recoverable amount. The recoverable amount of an asset or cash generating unit is defined as the higher of its fair value less costs to sell and value in use. Refer to Note 2 for a description of how management determines value in use.

Impairment losses in respect of individual assets are recognised immediately in profit or loss unless the asset is carried at a revalued amount such as property, plant and equipment, in which case the impairment loss is treated as a revaluation decrease in accordance with applicable Standard. Impairment losses in respect of cash generating units are allocated first against the carrying amount of any goodwill attributed to the cash generating unit with any remaining impairment loss allocated on a pro rate basis to the other assets comprising the relevant cash generating unit.

(i) Leases

Leases are classified at their inception as either operating or finance leases based on the economic substance of the agreement so as to reflect the risks and benefits incidental to ownership.

Finance leases

Leases of fixed assets, where substantially all of the risks and benefits incidental to ownership of the asset, but not the legal ownership, are transferred to the consolidated entity are classified as finance leases. Finance leases are capitalised, recording an asset and liability equal to the present value of the minimum lease payments, including any guaranteed residual values. The interest expense is calculated using the interest rate implicit in the lease and is included in financial costs in the statement of comprehensive income. Leased assets are depreciated on a straight line basis over their estimated useful lives where it is likely the consolidated entity will obtain ownership of the asset, or over the term of the lease. Lease payments are allocated between the reduction of the lease liability and the lease interest expense for the period.

Operating leases

Operating lease payments are recognised as an operating expense on a straight line basis over the term of the lease.

Lease incentives received under operating leases are recognised as a liability and amortised on a straight line basis over the term of the lease.

(j) Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is their fair value at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses. Internally generated intangibles, excluding capitalised development costs, are not capitalised and the related expenditure is reflected in profit or loss in the period in which the expenditure is incurred.

The useful lives of intangible assets are assessed as either finite or indefinite.

Intangible assets with finite lives are amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense on intangible assets with finite lives is recognised in the statement of profit or loss in the expense category that is consistent with the function of the intangible assets.

Note 1: Summary of Significant Accounting Policies (continued)

(k) Taxes

Current income tax

Current income tax expenses or revenue is the tax payable on the current period's taxable income based on the applicable income tax rate adjusted by changes in deferred tax assets and liabilities.

Deferred tax balances

Deferred tax assets and liabilities are recognised for temporary differences at the applicable tax rates when the assets are expected to be recovered or liabilities are settled. Deferred tax liabilities are not recognised if they arise from the initial recognition of goodwill. Deferred income tax is also not accounted for if it arises from the initial recognition of an asset or liability in a transaction, other than a business combination, that at the time of the transaction did not affect either accounting profit nor taxable profit or loss.

Deferred tax assets are recognised for deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Current and deferred tax balances attributable to amounts recognised directly in equity are also recognised directly in equity.

Tax consolidation

Farm Pride Foods Limited and its wholly owned Australian controlled entities have implemented the tax consolidation legislation and have formed a tax-consolidated group from 1 July 2005.

The head entity, Farm Pride Foods Limited and its controlled entities in the tax consolidated group continue to account for their own current and deferred tax amounts. The consolidated group has applied the group allocation approach in determining the appropriate amount of current taxes and deferred taxes to allocate to members of the tax consolidated group. In addition to its own current and deferred tax amounts, Farm Pride Foods Limited also recognises the current tax liabilities (or assets) and the deferred tax assets arising from unused tax losses and unused tax credits assumed from controlled entities in the tax consolidated group. Assets or liabilities arising under tax funding agreements with the tax consolidated entities are recognised as amounts receivable from or payable to other entities in the tax consolidated group. Any difference between the amounts assumed and amounts receivable or payable under the tax funding agreement are recognised as a contribution to (or distribution from) wholly-owned tax consolidated entities.

Goods and services tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST.

Revenues, expenses and purchased assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the taxation authority. In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense. Receivables and payables in the statement of financial position are shown inclusive of GST.

The net amount of GST recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the consolidated statement of financial position. Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to, the taxation authority.

Cash flows are presented in the consolidated statement of cash flows on a gross basis, except for the GST component of investing and financing activities, which are disclosed as operating cash flows.

Note 1: Summary of Significant Accounting Policies (continued)

(l) Provisions

Provisions are recognised when the consolidated entity has a legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

(m) Employee benefits

(i) Short term employee benefit obligations

Liabilities arising in respect of wages and salaries, annual leave, accumulated sick leave and any other employee benefits (other than termination benefits) expected to be settled wholly before twelve months after the end of the annual reporting period are measured at the (undiscounted) amounts based on remuneration rates which are expected to be paid when the liability is settled. The expected cost of short term employee benefits in the form of compensated absences such as annual leave and accumulated sick leave is recognised in the provision for employee benefits. All other short term employee benefit obligations are presented as payables in the consolidated statement of financial position.

(ii) Other long term employee benefit obligations

The provision for other long term employee benefits, including obligations for long service leave and annual leave, which are not expected to be settled wholly before twelve months after the end of the reporting period, are measured at the present value of the estimated future cash outflow to be made in respect of the services provided by employees up to the reporting. Expected future payments incorporate anticipated future wage and salary levels, duration of service and employee turnover, and are discounted at rates determined by reference to market yields as the end of the reporting period on high quality corporate bonds that have maturity dates that approximate the terms of the obligations. Any re-measurements for changes in assumptions of obligations for other long term employee benefits are recognised in profit or loss in the period in which the change occurs.

Other long term employee benefit obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting date, regardless of when the actual settlement is expected to occur. All other long term employee benefit obligations are presented as non-current liabilities in the statement of financial position.

(iii) Superannuation

The consolidated entity makes contributions to superannuation plans in respect of employee services rendered during the year. These superannuation contributions are recognised as an expense in the same period as when the employee services are received.

(n) Borrowing costs

Borrowing costs are expensed as incurred, except for borrowings directly incurred as part of the cost of the construction of a qualifying asset, in which case the costs are capitalised until the asset is ready for its intended use or sale.

Borrowing costs can include interest expense calculated using the effective interest method, finance charges in respect of finance leases and exchange differences arising from foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs and other costs that an entity incurs in connection with its borrowing of funds.

Note 1: Summary of Significant Accounting Policies (continued)

(o) Financial instruments

Classification

The consolidated entity classifies its financial instruments, at initial recognition, in the following categories: financial assets at fair value through profit or loss, loans and receivables, held to maturity investments, available for sale financial assets or as derivatives designated as hedging instruments in an effective hedge, as appropriate. The classification depends on the purpose for which the investments were acquired.

Derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently remeasured at fair value. Derivatives are carried as financial assets when the fair value is positive and financial liabilities when the fair value is negative.

Non-derivative financial instruments

Non-derivative financial instruments consist of investments in equity and debt securities, trade and other receivables, cash and cash equivalents, loans and borrowings, and trade and other payables.

Non-derivative financial instruments are initially recognised at fair value, plus directly attributable transaction costs (if any), except for instruments recorded at fair value through profit or loss. After initial recognition, non-derivative financial instruments are measured as described below.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Loans and receivables are subsequently measured at amortised cost using the effective interest rate method.

Financial Liabilities

Financial liabilities include trade payables, other creditors, loans from third parties, loans or other amounts due to director-related entities.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

Subsequent to initial recognition non-derivative financial liabilities, comprising of interest bearing loans and borrowings, are recognised at amortised cost, comprising original debt less principal payments and effective interest rate amortisation. The effective interest rate amortisation is included as finance costs in the statement of profit or loss.

Financial liabilities are classified as current liabilities unless the consolidated entity has an unconditional right to defer settlement of the liability for at least 12 months after the reporting date.

De-recognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the consolidated statement of financial position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

Note 1: Summary of Significant Accounting Policies (continued)

(p) Financial instruments (continued)

Hedge accounting

Certain derivatives are designated as hedging instruments and are further classified as either fair value hedges or cash flow hedges.

At the inception of each hedging transaction, the consolidated entity documents the relationship between the hedging instruments and hedged items, its risk management objective and its strategy for undertaking the hedge transaction. The consolidated entity also documents its assessment, both at hedge inception and on an ongoing basis, of whether the derivatives that are used in hedging transactions have been and will continue to be highly effective in offsetting changes in fair values or cash flows of hedged items.

(i) Fair value hedge

Changes in the fair value of derivatives that are designated and qualified as fair value hedges are recorded in profit and loss, together with any changes in the fair value of the hedged asset or liability that are attributable to the hedged risk.

(ii) Cash flow hedge

To qualify as a cash flow hedge the underlying transactions generating the cash flows must be highly probable.

Changes in the fair value of derivatives that are designated and qualified as cash flow hedges are recognised in equity in the cash flow hedging reserve. Any hedge ineffectiveness is recognised in profit or loss. This gain or loss is recorded in the cashflow hedging reserve and released to profit or loss in the same period as when the hedged transactions affects profit or loss.

Impairment of financial assets

Financial assets are tested for impairment at each financial year end to establish whether there is any objective evidence for impairment as a result of one or more events ('loss events') having occurred and which have an impact on the estimated future cash flows of the financial assets.

For loans and receivables or held-to-maturity investments carried at amortised cost, impairment loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate. The amount of the loss reduces the carrying amount of the asset and is recognised in profit or loss. The impairment loss is reversed through profit or loss if the amount of the impairment loss decreases in a subsequent period and the decrease can be related objectively to an event occurring after the impairment was recognised.

(q) Foreign currency translations and balances

The financial statements of each entity within the consolidated entity are measured using the currency of the primary economic environment in which that entity operates (the functional currency). The consolidated financial statements are presented in Australian dollars which is the consolidated entity's functional and presentation currency.

Transactions and balances

Transactions in foreign currencies of entities within the consolidated entity are translated into functional currency at the rate of exchange ruling at the date of the transaction.

Foreign currency monetary items that are outstanding at the reporting date (other than monetary items arising under foreign currency contracts where the exchange rate for that monetary item is fixed in the contract) are translated using the spot rate at the end of the financial year.

Except for certain foreign currency hedges, all resulting exchange differences arising on settlement or restatement are recognised as revenues and expenses for the financial year.

Note 1: Summary of Significant Accounting Policies (continued)

(r) Biological assets

Biological assets comprise of flocks of hens and are valued at fair value. Fair value is not adjusted for costs to sell because disposal of the asset does not occur by sale. As there is no active market for flocks of hens, the fair value is based upon capitalised cost of poultry and is amortised over the productive life of the flock, which is between 50 and 60 weeks. The poultry flock is held for the purposes of producing eggs.

Given the short productive life of the flock, an amortised cost approach has been adopted. The directors consider amortised cost to be an appropriate measure of fair value of the biological asset at the reporting date.

Refer to Note 4 for the details of the fair value measure key assumptions and inputs.

(s) Comparatives

Where necessary the comparative information has been reclassified and repositioned for consistency with current year disclosures.

(t) Rounding amounts

The parent entity and consolidated entity have applied for relief available under ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191 and accordingly, the amounts in the financial statements and in the directors' report have been rounded to the nearest thousand dollars, or in certain cases, to the nearest dollar (where indicated).

(u) New and amended standards and interpretations

The accounting policies adopted in the preparation of the consolidated financial statements are consistent with those followed in the preparation of the consolidated entity financial statements for the year ended 30 June 2017, except as follows:

- (i) AASB 2016-2 Amendments to Australian Accounting Standards – Disclosure Initiative: Amendments to AASB 107

The amendments to AASB 107 *Statement of Cash Flows* are part of the IASB's Disclosure Initiative and help users of financial statements better understand changes in an entity's debt. The amendments require entities to provide disclosures about changes in their liabilities arising from financing activities, including both changes arising from cash flows and non-cash changes (such as foreign exchange gains or losses).

The requirements of this amendment are disclosed in Note 20(c).

Note 1: Summary of Significant Accounting Policies (continued)

(v) Accounting standards issued but not yet effective at 30 June 2018

There are a number of Standards and Interpretations that will be mandatory in future reporting periods. We have not elected to early adopt these standards and interpretations.

The Standards and Interpretations that are most relevant to the consolidated entity are set out below:

(i) AASB 9 *Financial Instruments* – Effective date 1 January 2018 (application date 1 July 2018)

The standard includes a single approach for the classification and measurement of financial assets, based on cash flow characteristics and the business model used for the management of the financial instruments. It introduces the expected credit loss model for impairment of financial assets which replaces the incurred loss model used in AASB 139. The standard also amends the rules on hedge accounting to align the accounting treatment with the risk management practices of the business.

The consolidated entity is currently assessing the impact of the application of the new standard. The consolidated entity does not currently expect the impact of these changes to be material.

(ii) AASB 15 *Revenue from Contracts with Customers* – Effective date 1 January 2018 (application date 1 July 2018)

AASB 15 Revenue from contracts with customers and the related subsequent amendments replaces all existing requirements (AASB 111 Construction Contracts, AASB 118 Revenue and related interpretations) and applies to all revenue from contracts with customers. The new requirements provide a single, contract-based revenue recognition model. AASB 15 establishes principles for reporting the nature, amount and timing and uncertainty of revenue and cash flows arising from an entity's contracts with customers. The core principle of AASB 15 is that an entity recognises revenue when a customer obtains control of promised goods or services and is recognised in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The new standard requires new and expanded disclosures related to the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers and the key judgements made.

The consolidated entity has undertaken an impact assessment of the implementation of the standard. This included a detailed review of the performance obligations contained within a number of contracts from all material revenue streams. The assessment performed to date indicates that the standard is not expected to have a significant impact on the recognition and measurement of revenue by the consolidated entity. The new standard will result in increased financial report disclosures in respect of the Group's revenue streams. The consolidated entity will establish the transition approach ahead of reporting the 31 December 2018 interim financial statements.

(iii) AASB 16 *Leases* – Effective date 1 January 2019 (application date: 1 July 2019)

AASB 16 requires lessees to account for all leases under a single on-balance sheet model in a similar way to finance leases under AASB 117 Leases. The standard includes two recognition exemptions for lessees – leases of 'low-value' assets (e.g., personal computers) and short-term leases (i.e., leases with a lease term of 12 months or less). At the commencement date of a lease, a lessee will recognise a liability to make lease payments (i.e., the lease liability) and an asset representing the right-to-use the underlying asset during the lease term (i.e., the right-of-use asset).

Lessees will be required to separately recognise the interest expense on the lease liability and the depreciation expense on the right-of-use asset. Lessees will be required to remeasure the lease liability upon the occurrence of certain events (e.g., a change in the lease term, a change in future lease payments resulting from a change in an index or rate used to determine those payments). The lessee will generally recognise the amount of the re-measurement of the lease liability as an adjustment to the right-of-use asset.

Note 1: Summary of Significant Accounting Policies (continued)

(v) Accounting standards issued but not yet effective at 30 June 2018 (continued)

(ii) AASB 16 *Leases* – Effective date 1 January 2019 (application date: 1 July 2019)

This standard will have an impact on the consolidated entity's earnings and shareholders' funds at transition and in future years. It must be implemented retrospectively, either with the restatement of comparatives or with the cumulative impact of application recognised as at 1 July 2019 under the modified retrospective approach.

AASB 16 contains a number of practical expedients, one of which permits the classification of existing contracts as leases under current accounting standards to be carried over to AASB 16. Under the modified retrospective approach, on a lease-by-lease basis, the right of use of an asset may be deemed to be equivalent to the liability at transition or calculated retrospectively at inception of the lease. Under AASB 16 the present value of the consolidated entity's operating lease commitments as defined under the new standard, excluding low value leases and short term leases, will be shown as right of use assets and as lease liabilities on the balance sheet.

The changes in lease recognition requirements in AASB 16 may cause changes to the amount of interest and operating expenses, leased assets and lease liabilities recorded in the financial statements as well as additional disclosures.

The impact of AASB 16 has not yet been quantified. A detailed assessment will be performed during the year ended 30 June 2019.

(iii) AASB Interpretation 23 *Uncertainty over Income Tax Treatments* – Effective date: 1 January 2019 (application date: 1 July 2019)

The Interpretation clarifies the application of the recognition and measurement criteria in AASB 112 Income Taxes when there is uncertainty over income tax treatments. The Interpretation specifically addresses the following:

- Whether an entity considers uncertain tax treatments separately.
- The assumptions an entity makes about the examination of tax treatments by taxation authorities.
- How an entity determines taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates.
- How an entity considers changes in facts and circumstances.

The impact of the interpretation has not yet been quantified. A detailed assessment will be performed during the year ended 30 June 2019.

(iv) Conceptual Framework for Financial Reporting

The revised Conceptual Framework includes some new concepts, provides updated definitions and recognition criteria for assets and liabilities and clarifies some important concepts. It is arranged in eight chapters, as follows.

- Chapter 1 – The objective of financial reporting
- Chapter 2 – Qualitative characteristics of useful financial information
- Chapter 3 – Financial statements and the reporting entity
- Chapter 4 – The elements of financial statements
- Chapter 5 – Recognition and derecognition
- Chapter 6 – Measurement
- Chapter 7 – Presentation and disclosure
- Chapter 8 – Concepts of capital and capital maintenance

Amendments to References to the Conceptual Framework in IFRS Standards has also been issued, which sets out the amendments to affected standards in order to update references to the revised Conceptual Framework. The changes to the Conceptual Framework may affect the application of IFRS in situations where no standard applies to a particular transaction or event. In addition, relief has been provided in applying IFRS 3 and developing accounting policies for regulatory account balances using IAS 8, such that entities must continue to apply the definitions of an asset and a liability (and supporting concepts) in the 2010 Conceptual Framework, and not the definitions in the revised Conceptual Framework.

The AASB are yet to issue the equivalent pronouncement to IASB's Conceptual Framework for Financial Reporting.

Note 2: Significant accounting judgements, estimates and assumptions

Certain accounting estimates include assumptions concerning the future, which, by definition, will seldom represent actual results.

Estimates and assumptions based on future events have a significant inherent risk, and where future events are not as anticipated there would be a material impact on the carrying amounts of the assets and liabilities discussed below:

(a) Impairment of non-financial assets other than goodwill

All assets are assessed for impairment at each reporting date by evaluating whether indicators of impairment exist in relation to the continued use of the asset by the consolidated entity. Impairment triggers include declining product or manufacturing performance, technology changes, adverse changes in the economic or political environment or future product expectations. If an indicator of impairment exists the recoverable amount of the asset is determined.

(b) Income tax

Deferred tax assets and liabilities are based on the assumption that no adverse change will occur in the income tax legislation and the anticipation that the consolidated entity will derive sufficient future assessable income to enable the benefit to be realised and comply with the conditions of deductibility imposed by the law.

Deferred tax assets are recognised for deductible temporary differences and tax losses as management considers that it is probable that future taxable profits will be available to utilise those temporary differences.

(c) Biological assets

Biological assets comprise of flocks of hens and are valued at fair value. Fair value is not adjusted for costs to sell because disposal of the asset does not occur by sale. As there is no active market for flocks of hens, the fair value is based upon capitalised cost of poultry and is amortised over the productive life of the flock, which is between 50 and 60 weeks. The poultry flock is held for the purposes of producing eggs.

Given the short productive life of the flock, an amortised cost approach has been adopted. The directors consider amortised cost to be an appropriate measure of fair value of the biological asset at the reporting date.

Certain financial assets and liabilities are measured at fair value. Fair values have been determined in accordance with fair value measurement hierarchy. Refer to Note 4 for the details of the fair value measure key assumptions and inputs.

(d) Trade and other receivables

Collectability of trade receivables is reviewed on an ongoing basis at an operating unit level. Individual debts that are known to be uncollectible are written off when identified. An impairment provision is recognised when there is objective evidence that the consolidated entity will not be able to collect the receivable. Financial difficulties of the debtor, default payments or debts more than 90 days overdue are considered objective evidence of impairment. The amount of the impairment loss is the receivable carrying amount compared to the present value of estimated future cash flows, discounted at the original effective interest rate.

(e) Promotional expenditure and rebates

Promotional expenditure and rebates are costs incurred by the consolidated entity when dealing with certain customers. These costs are recorded as a reduction to revenue and are either settled monthly in connection with the invoice of the customer or accrued at balance sheet date depending on the exact timing of the customer claim. The accrual is based on previous claims made and current trends.

Note 3: Financial risk management

The consolidated entity is exposed to a variety of financial risks comprising:

- Currency risk
- Interest rate risk
- Credit risk
- Liquidity risk

The board of directors has overall responsibility for identifying and managing operational and financial risks.

The consolidated entity holds the following financial instruments:

	2018	2017
	\$'000	\$'000
Financial assets		
Cash and cash equivalents	7	8,038
Receivables	8,355	9,335
	8,362	17,373
Financial liabilities		
Payables	12,626	11,996
Borrowings	12,023	332
	24,649	12,328

(a) Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates.

Forward exchange contracts are entered into in order to buy and sell specified amounts of foreign currency in the future at stipulated exchange rates. The objective in entering into the forward exchange contracts is to protect against unfavourable exchange rate movements for both the contracted and anticipated transactions undertaken in foreign currencies. The accounting policy for forward exchange contracts is detailed in Note 1(p).

As at 30 June 2018 there were outstanding forward exchange contacts with a notional value of \$832,000 (2017: Nil).

Note 3: Financial risk management (continued)

(b) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate as a result of changes in market interest rates.

The exposure to interest rate risks in relation to future cash flows and the weighted average effective interest rates on classes of financial assets and financial liabilities is as follows:

Financial instruments	Interest bearing	Non-interest bearing	Total carrying amount	Weighted average effective interest rate	Fixed / variable rate
	\$'000	\$'000	\$'000	%	
2018					
<i>(i) Financial assets</i>					
Cash	7	-	7	-	Variable
Receivables		8,355	8,355	-	
Total financial assets	7	8,355	8,362		
<i>(ii) Financial liabilities</i>					
Payables	-	12,626	12,626	-	
Bank overdraft	1,826	-	1,826	3.19%	Variable
Lease liability	197	-	197	3.91%	Fixed
Bank loans	10,000	-	10,000	3.13%	Variable
Total financial liabilities	12,023	12,626	24,649		
2017					
<i>(iii) Financial assets</i>					
Cash	8,038	-	8,038	-	Variable
Receivables	-	9,335	9,335	-	
Total financial assets	8,038	9,335	17,373		
<i>(iv) Financial liabilities</i>					
Payables	-	11,996	11,996	-	
Lease liability	332	-	332	6.00%	Fixed
Total financial liabilities	332	11,996	12,328		

No other financial assets or financial liabilities are expected to be exposed to interest rate risk.

Note 3: Financial risk management (continued)

(c) Credit risk

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation.

The maximum exposure to credit risk, excluding the value of any collateral or other security, at balance date of recognised financial assets is the carrying amount of those assets, net of any provisions for impairment of those assets, as disclosed in consolidated statement of financial position and notes to the consolidated financial statements.

Credit risk for derivative financial instruments arises from the potential failure by counterparties to the contract to meet their obligations. The credit risk exposure to forward exchange contracts is the net fair value of these contracts.

The consolidated entity does not have any material risk exposure to any single debtor or group of debtors under financial instruments entered into by the consolidated entity.

The consolidated entity minimises concentrations of credit risk in relation to trade receivables by undertaking transactions with a large number of customers.

i) Cash deposits

Credit risk for cash deposits is managed by holding all cash deposits with major Australian banks.

ii) Trade receivables

Credit risk for trade receivables is managed by setting credit limits and completing credit checks for customers. Outstanding receivables are regularly monitored for payment in accordance with credit terms.

The aging analysis of trade and other receivables is provided in Note 10(b). As the consolidated entity undertakes transactions with a large number of customers and regularly monitors payment in accordance with credit terms, the financial assets that are neither past due nor impaired, are expected to be received in accordance with credit terms.

iii) Other financial instruments

The consolidated entity does not have any other material credit risk exposure for other receivables or other financial instruments.

Note 3: Financial risk management (continued)

(d) Liquidity risk

Maturity analysis

The tables below represents the undiscounted contractual settlement terms for financial instruments and managements expectation for settlement of undiscounted maturities.

	<6months	6 – 12 months	1-5 years	Total contractual cash flows	Carrying amount
	\$'000	\$'000	\$'000	\$'000	\$'000
Year ended 30 June 2018					
Cash and cash equivalents	7	-	-	7	7
Receivables	8,355	-	-	8,355	8,355
Payables	(12,626)	-	-	(12,626)	(12,626)
Borrowings	(1,960)	(10)	(10,053)	(12,023)	(11,992)
Net maturities	<u>(6,224)</u>	<u>(10)</u>	<u>(10,053)</u>	<u>(16,287)</u>	<u>(16,256)</u>
Year ended 30 June 2017					
Cash and cash equivalents	8,038	-	-	8,038	8,038
Receivables	9,335	-	-	9,335	9,335
Payables	(11,996)	-	-	(11,996)	(11,996)
Borrowings	(320)	(10)	(5)	(335)	(332)
Net maturities	<u>5,057</u>	<u>(10)</u>	<u>(5)</u>	<u>5,042</u>	<u>5,045</u>

The consolidated entity's approach to managing liquidity is to ensure, as far as possible, that at all times it has sufficient liquidity to meet its liabilities. The consolidated entity currently has cash reserves, maintains undrawn bank facilities and has reported positive cash flow from operations for the year ended 30 June 2018.

(e) Fair value compared with carrying amounts

The fair value of financial assets and financial liabilities approximates their carrying amounts as disclosed in the consolidated statement of financial position and notes to the consolidated financial statements.

(f) Working Capital Policy

Management and the Board monitor the consolidated entity's working capital and liquidity on the basis of expected cash flow. The information that is prepared by management and reviewed by the Board includes annual profit and loss, cash flow and balance sheet forecasts as well as forecast revisions to accommodate potential new projects. Forecasts take account of significant items such as capital expenditure projects.

(g) Other price risk

The consolidated entity does not currently have any direct exposure to other price risks, whilst exposure to commodity price risk relates to egg, grain and feed stock purchases.

The consolidated entity's main sales product is shell eggs which is a commodity that is subject to market conditions. The consolidated entity manages its exposure to surpluses and shortages of shell egg through appropriate management of its flock assets as well as sourcing from external suppliers.

Where appropriate, the consolidated entity forward buys grain and/or feed stock through its key suppliers for the purposes of providing an economic hedge against feed costs, subject to Board approval.

Note 4: Fair Value Measurements

(a) Fair value hierarchy

Assets and liabilities measured and recognised at fair value have been determined by the following fair value measurement hierarchy:

- Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: Input other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3: Inputs for the asset or liability that are not based on observable market data.

The following table provides the fair value classification of those assets and liabilities held by the consolidated entity that are measured either on a recurring or non-recurring basis at fair value.

30 June 2018	Level 1	Level 2	Level 3	Total
Recurring Fair Value Measurements	\$'000	\$'000	\$'000	\$'000
<i>Financial assets</i>				
Foreign exchange derivatives	-	-	-	-
Total financial assets	-	-	-	-
<i>Non-financial assets</i>				
Biological assets at fair value less cost to sell	-	-	8,981	8,981
Total non-financial assets	-	-	8,981	8,981
<i>Financial liabilities</i>				
Foreign exchange derivatives	-	-	-	-
Total financial liabilities	-	-	-	-
30 June 2017				
Recurring fair value measurements	Level 1	Level 2	Level 3	Total
	\$'000	\$'000	\$'000	\$'000
<i>Financial assets</i>				
Foreign exchange derivatives	-	-	-	-
Total financial assets	-	-	-	-
<i>Non-financial assets</i>				
Biological assets at fair value less cost to sell	-	-	8,152	8,152
Total non-financial assets	-	-	8,152	8,152
<i>Financial liabilities</i>				
Foreign exchange derivatives	-	-	-	-
Total financial liabilities	-	-	-	-

Note 4: Fair Value Measurements (continued)

(b) Valuation techniques and inputs used for level 3 fair value measurement

(i) Biological assets

Biological assets held by the consolidated entity comprise flocks of hens. The directors consider the amortised cost value of closing flock stock at balance date to be fair value. The capitalised cost of poultry is amortised over the productive life of the flock. The flock is held for the purposes of producing eggs.

(c) Significant unobservable inputs used in level 3 fair value measurements

The fair value of biological assets are based upon amortised cost over their productive life which is between 50-60 weeks.

(d) Reconciliation of recurring level 3 fair value movements

	Consolidated Entity	
	2018 \$'000	2017 \$'000
Biological assets at fair value less cost to sell		
Opening balance	8,152	7,601
Purchases	11,923	11,186
Amortisation (fair value adjustment)	(11,094)	(10,635)
Closing balance	8,981	8,152

(e) Sensitivity analysis for recurring level 3 fair value measurements

At balance date if the amount amortised (fair value adjustment) for the year had varied as illustrated below, post-tax profit and other comprehensive income would have been affected as follows:

+5% variation	388	372
-5% variation	(388)	(372)

Note 5: Revenue and other income

	Consolidated Entity	
	2018 \$'000	2017 \$'000
Revenues and other income from continuing operations		
<i>Sales revenue</i>		
Sale of goods	85,577	97,576
<i>Other income</i>		
Other income	539	202
	539	202

Note 6: Profit from continuing operations

Profit from continuing operations before income tax has been determined after the following specific expenses:

	Consolidated Entity	
	2018	2017
	\$'000	\$'000
Cost of goods sold		
Changes in inventories of finished goods and work in process	(2,347)	(1,150)
Raw materials and consumables used	62,816	63,555
	60,469	62,405
Employee benefits expenses		
Salaries and wages	12,756	12,035
Employee superannuation contributions	1,024	973
Total employee benefits expenses	13,780	13,008
Depreciation of non-current assets		
Land improvements	51	60
Buildings	904	482
Plant & equipment	2,807	2,789
Total depreciation of non-current assets	3,762	3,331
Foreign exchange translation loss	11	2
Fair value movement in poultry	11,094	10,635
Finance costs – interest expense	331	150
Operating lease rentals	3,492	3,500
Net loss on disposal of property, plant and equipment	3	4

Note 7: Income Tax

	Consolidated Entity	
	2018 \$'000	2017 \$'000
(a) Components of tax expense:		
Current tax expense	424	3,774
Deferred tax benefit	(68)	(82)
Under/(over) provision in prior years	(1)	59
Income tax expense	355	3,751
(b) Numerical reconciliation between income tax expense in the income statement and that calculated		
Profit before income tax	858	12,232
At the statutory income tax rate of 30% (2017: 30%)	258	3,670
Amounts which are not deductible in calculating taxable income	98	22
Under/(over) provision in prior years	(1)	59
Income tax expense	355	3,751
(c) Deferred tax assets and (liabilities) relate to the following:		
Employee benefits	650	660
Provisions and accruals	148	177
Fixed assets	86	22
Gross deferred tax assets	884	859
(d) Movement in deferred tax assets and (liabilities)		
Balance at beginning of year	859	777
Recognised in profit or loss	68	82
Deferred taxes acquired in business combinations	(43)	-
Balance at the end of the year	884	859
(e) Movement in current tax liability or (receivable):		
Balance at beginning of year	1,115	2,121
Current tax expense	424	3,774
Tax paid	(2,343)	(4,839)
Under/(over) provision in prior years	(1)	59
Balance at the end of the year	(805)	1,115

Note 8: Dividends

	Consolidated Entity	
	2018 \$'000	2017 \$'000
(a) Dividends proposed and recognised as a liability	Nil	Nil
(b) Franking credit balance		
Balance of franking account at year end	12,290	9,945

Note 9: Cash and cash equivalents

Cash at bank	7	607
Short term deposit	-	7,431
	<u>7</u>	<u>8,038</u>

Note 10: Receivables

Trade receivables	7,855	8,856
Allowance for impairment loss	(17)	(50)
	<u>7,838</u>	<u>8,806</u>
Other receivables	517	529
	<u>8,355</u>	<u>9,335</u>

(a) Terms and conditions

- (i) Trade receivables are non-interest bearing and generally on 30 to 60 day terms.
- (ii) Other receivables are non-interest bearing and have repayment terms between 30 and 60 days.

Note 10: Receivables (continued)**(b) Provision for impairment loss**

	Consolidated Entity	
	2018 \$'000	2017 \$'000
Movements in the provision for impairment were:		
Opening balance at 1 July	50	50
Decrease in provision for impairment of trade receivables	(33)	-
	17	50

Trade and other receivables ageing analysis at 30 June is:

	Gross 2018 \$'000	Impairment 2018 \$'000	Gross 2017 \$'000	Impairment 2017 \$'000
Not past due	8,198	17	9,292	-
Past due 31-60 days	-	-	11	11
Past due 61-90 days	112	-	82	39
Past due more than 91 days	62	-	-	-
	8,372	17	9,385	50

Due to the short term nature of these receivables, their carrying value is assumed to approximate their fair value. The maximum exposure to credit risk is the fair value of receivables. Collateral is not held as security.

Note 11: Inventories

	Consolidated Entity	
	2018 \$'000	2017 \$'000
Raw materials at cost	3,530	2,275
Finished goods	3,389	2,297
Total inventories	6,919	4,572

Of the total inventories \$643,000 is held at net realizable value (2017: \$341,000).

Note 12: Other current assets

Prepayments	1,359	1,045
-------------	-------	-------

Note 13: Biological assets

	Consolidated Entity	
	2018 \$'000	2017 \$'000
Current	8,565	7,730
Non-current	416	422
Total	8,981	8,152
(a) Poultry		
Flock stock at fair value as at 30 June	16,443	14,802
Less: Accumulated amortisation	(7,462)	(6,650)
	8,981	8,152
Opening flock stock written down value	8,152	7,601
Additions	11,923	11,186
Amortisation	(11,094)	(10,635)
Closing flock stock	8,981	8,152

The number of birds held by the Company as at 30 June 2018 was 1,563,656 (2017: 1,697,046).

The average output per hen is approximately 5 eggs per week during their productive period.

The flock stock at fair value for 2017 have been restated to reflect the current flocks not fully depreciated as at 30 June 2017.

Note 14: Property, plant and equipment

	Consolidated Entity	
	2018	2017
	\$'000	\$'000
<i>Freehold land and land improvements</i>		
At cost	11,220	7,834
Accumulated depreciation	(598)	(547)
Total freehold land	10,622	7,287
<i>Buildings and building improvements</i>		
At cost	21,587	14,013
Accumulated depreciation	(5,979)	(5,076)
Total buildings and building improvements	15,608	8,937
Total land and buildings	26,230	16,224
<i>Plant and equipment</i>		
At cost	43,100	39,349
Accumulated depreciation	(28,794)	(26,001)
Total plant and equipment	14,306	13,348
Projects under construction	6,113	710
Total property, plant and equipment		
Cost	82,020	61,906
Total accumulated depreciation	(35,371)	(31,624)
Total written down amount	46,649	30,282

Note 14: Property, plant and equipment (continued)

(a) Assets pledged as security

Included in the balances of freehold land and buildings and plant and equipment are assets over which first mortgages have been granted as security over bank loans (see note 16). The terms of the first mortgage preclude the assets from being sold or being used as security for further mortgages without the permission of the first mortgage holder. The mortgage also requires buildings that form part of the security to be fully insured at all times.

	Consolidated Entity	
	2018 \$'000	2017 \$'000
(b) Reconciliations		
Reconciliations of the carrying amounts of property, plant and equipment at the beginning and end of the current financial year.		
<i>Freehold Land and Land Improvements</i>		
Carrying amount at beginning	7,287	6,715
Additions (including transfers from projects under construction)	3,386	632
Depreciation Expense	(51)	(60)
	10,622	7,287
<i>Buildings on Freehold Land and Building Improvements</i>		
Carrying amount at beginning	8,937	4,554
Additions (including transfers from projects under construction)	7,575	4,865
Depreciation Expense	(904)	(482)
	15,608	8,937
<i>Plant and equipment</i>		
Carrying amount at beginning	13,348	13,823
Additions (including transfers from projects under construction)	3,767	2,339
Depreciation expense	(2,807)	(2,789)
Disposals	(2)	(25)
	14,306	13,348
<i>Projects under construction</i>		
Carrying amount at beginning	710	6,261
Additions	13,423	2,253
Amounts acquired in a business combination (Note 27)	6,708	-
Transfers	(14,728)	(7,804)
	6,113	710
<i>Total property, plant and equipment</i>		
Carrying amount at beginning	30,282	31,353
Additions	28,151	10,089
Amounts acquired in a business combination (Note 27)	6,708	-
Transfers	(14,728)	(7,804)
Depreciation expense	(3,762)	(3,331)
Disposals	(2)	(25)
Total	46,649	30,282

The carrying value of plant and equipment held under finance leases and hire purchase contracts as 30 June 2018 was \$234,000 (2017: \$1,837,000).

Note 15: Payables

	Consolidated Entity	
	2018 \$'000	2017 \$'000
Trade creditors	10,080	8,742
Other payables and accruals	2,546	3,254
	12,626	11,996

(a) Fair value

Due to the short term nature of these payables, their carrying value is assumed to approximate their fair value. Terms are 30 days from end of month.

(b) Related party payables

For terms and conditions relating to related party payables refer Note 26.

Note 16: Interest bearing liabilities

		Interest Rate	Maturity	Consolidated Entity	
				2018 \$'000	2017 \$'000
CURRENT					
<i>Secured</i>					
Borrowings	Lease liability	Various	Various	144	327
	Bank overdraft	BBOR+3.30%	On demand	1,826	-
				1,970	327
NON- CURRENT					
<i>Secured</i>					
Borrowings	Lease liability	Various	Various	53	5
	Bank loans	BBSY+1.30%	31 Jan 2020	10,000	-
				10,053	5

The carrying amounts of the consolidated entity's current and non-current borrowings approximate their fair value. The consolidated entity's interest bearing borrowings consist of variable interest rate loans.

Note 16: Interest bearing liabilities (continued)

(a) At the reporting date, the consolidated entity's financing are as follows.

	Consolidated Entity	
	2018	2017
	\$'000	\$'000
(i) Bank overdraft		
Facilities available	2,500	1,250
Facilities used	1,826	-
Facilities unused	674	1,250
(ii) Bank loan (multi-option)		
Facilities available	20,000	10,000
Facilities used	10,000	-
Facilities unused	10,000	10,000
(iii) Equipment finance		
Facilities available	1,000	1,000
Facilities used	-	-
Facilities unused	1,000	1,000

(b) Details of assets pledged as security

The consolidated entity's borrowings are secured by a fixed and floating charge (mortgage debenture) over all assets and uncalled capital.

(c) Financial covenants

The consolidated entity's banking facility is subject to various specific covenants that are related to the consolidated entity's financial performance and position. These covenants are monitored closely by management and the Board. During the year ended 30 June 2018, certain covenants were renegotiated. As at 30 June 2018 and during the year ended 30 June 2018, the consolidated entity was in compliance with financial covenants.

(d) New financing facilities

On 6 August 2018 the consolidated entity entered a new long term borrowing facility arrangement with its financiers. The new facilities comprise of \$2.5 million bank overdraft, \$16 million multi-option long-term loan facility comprising a cash advance and equipment finance facility and \$0.3 million equipment finance facility for specified capital expenditure items. From September 2019 the facility limit of the multi-option long-term loan facility is permanently reduced by \$0.75 million per quarter until the maturity date of the facility on 31 January 2020.

Note 17: Provisions

	Consolidated Entity	
	2018 \$'000	2017 \$'000
CURRENT		
<i>Employee benefits</i>		
Annual leave	1,147	1,158
Long service leave	790	899
	<u>1,937</u>	<u>2,057</u>
NON-CURRENT		
<i>Employee benefits</i>		
Long service leave benefits	230	143
	<u>230</u>	<u>143</u>
Total employee benefits provisions	<u>2,167</u>	<u>2,200</u>

Note 18: Contributed Equity

	Consolidated Entity	
	2018 \$'000	2017 \$'000
(a) Issued and paid up capital		
55,180,175 (2017 : 55,180,175) Ordinary shares fully paid	29,578	29,578
Each share is entitled to 1 vote per share.		
	<u>29,578</u>	<u>29,578</u>

(b) Capital management

When managing capital, management's objective is to ensure the consolidated entity continues to maintain optimal returns to shareholders and benefits for other stakeholders. This is achieved through the monitoring of historical and forecast performance and cash flows.

During the year ended 30 June 2018 no dividends were paid (2017: Nil)

Note 19: Reserves and Retained Earnings

	Consolidated Entity	
	2018 \$'000	2017 \$'000
(a) Retained earnings	17,565	17,062
(a) Retained earnings		
Balance at beginning of year	17,062	8,581
Net profit after tax for the year	503	8,481
Balance at end of year	<u>17,565</u>	<u>17,062</u>

Note 20: Cash Flow Information**Consolidated Entity**

	2018 \$'000	2017 \$'000
(a) Reconciliation of cash flow from operations with profit after tax:		
Profit from ordinary activities after tax	503	8,481
Non-cash items		
Depreciation	3,762	3,331
Flock amortisation	11,094	10,635
Inventory revaluation adjustment	-	2
Net loss on foreign exchange	-	2
Loss on disposal of property, plant and equipment	3	4
Non-cash movement on loan	22	(13)
Changes in assets and liabilities		
(Increase) / decrease in trade and other receivables	980	(993)
(Increase) / decrease in inventory	(2,231)	(1,151)
(Increase) / decrease in biological asset	(11,923)	(11,186)
(Increase) / decrease in current tax receivable	(805)	-
(Increase) / decrease in deferred tax asset	(68)	3,751

Total liabilities from financing activities	1,139	(794)	(13)	-	-	332

Note 21: Commitments

Consolidated Entity

	2018 \$'000	2017 \$'000
Lease expenditure commitments		
(i) <i>Operating leases (non-cancellable)</i>		
Minimum lease payments		
Not later than one year	4,050	3,443
Later than one year and not later than five years	12,339	6,262
Later than five years	3,404	4,815
Aggregate lease expenditure contracted for at reporting date	19,793	14,520

The property leases are non-cancellable leases with terms varying from one to eleven years, with rent payable monthly in advance. Contingent rental provisions within the lease agreements require the minimum lease payments shall be increased with reference to the CPI or market.

(ii) *Finance leases (manufacturing equipment)*

The Group has finance leases and hire purchase contracts for various items of plant and machinery. The Group's obligations under finance leases are secured by the lessor's title to the leased assets. Future minimum lease payments under finance leases and hire purchase contracts, together with the present value of the net minimum lease payments are, as follows:

Consolidated Entity

	2018 \$'000		2017 \$'000	
	Minimum payment	Present value of payments	Minimum payments	Present value of payments
Within one year	144	119	330	327
After one year but not more than five years	53	47	5	5
More than five years	-	-	-	-
Total minimum lease payments	197	166	335	332
Less amounts representing finance charges	(31)	-	(3)	-
Present value of minimum lease payments	166	166	332	332

Consolidated Entity

	2018 \$'000	2017 \$'000
Current liability	119	327
Non-current liability	47	5
Total	166	332
(iii) <i>Other commitments</i>		
Farm cost commitments	3,054	2,854

Farm commitments relate to commitments for flock replenishment and other farm operating expenditure commitments.

Note 22: Earnings per share

The following reflects the income and share data used in calculations of basic and diluted loss/earnings per share computations:

Consolidated Entity

- (a) Messrs. Bell and Ward through their related entities provide birds, eggs and egg products to and acquire eggs, egg product and packaging from Farm Pride Foods Limited and its controlled entities.

Director's administrative expenses are reimbursed at cost.

Note 27: Business Combinations

(a) Acquisition of Darling Downs Fresh Eggs

On 6 November 2017, the Company acquired the business and associated assets of Darling Downs Fresh Eggs from Clearmedal Pty Ltd (Administrators Appointed) ('Darling Downs Fresh Eggs'). Darling Downs Fresh Eggs is based in Queensland.

Identifiable assets acquired and liabilities assumed

The fair value of the identifiable assets and liabilities of Darling Downs Fresh Eggs at the date of acquisition were:

	\$'000
Assets	
Inventories	116
Property, Plant and equipment	6,708
Total assets	6,824
Liabilities	
Borrowings	165
Deferred tax liability	43
Total liabilities	208
Total identifiable net assets at fair value (i)	6,616
Purchase consideration transferred	6,616
Net cash outflow on acquisition of businesses	
Purchase consideration paid in cash	6,616
	6,616

- (i) The initial accounting has only been provisionally determined at 30 June 2018. The valuation of property, plant and equipment is to be finalised. Any changes to the fair value of the identifiable assets and liabilities will result in any residual amount being recognised as goodwill or a gain on acquisition. In accordance with the requirements of AASB 3 Business Combinations the consolidated entity has 12 months to finalise its acquisition accounting, and therefore the information presented should be considered provisional.

From the date of acquisition, Darling Downs Fresh Eggs contributed nil revenue and nil to profit before tax of the Group.

From the date of acquisition, the Group has undertaken various activities including the upgrade of the site to meet the Group's production standards.

It is impractical to measure the contribution of Darling Downs Fresh Eggs to the revenue and profit before tax of the Group if the acquisition had taken place at the beginning of the year (1 July 2017) as the business was not operational.

Transaction costs of \$0.435m have been recognised within other expenses in the Consolidated Statement of Profit or Loss and Other Comprehensive Income and recognised within operating cash flows in Consolidated Statement of Cash Flows.

Note 28: Auditor's remuneration

136,500	142,472

Note 29: Subsequent Events

On 6 August 2018 the Group entered into a new long term financing facility arrangement with this lender. Refer to Note 16 to the financial statements for further details.

There are no other matters or circumstances which have arisen since 30 June 2018 that have significantly affected or may significantly affect the operations of the Group, the results of those operations or the state of affairs of the Group in future financial periods.

Note 30: Company details

The registered office of the Company is:

Farm Pride Foods Ltd
551 Chandler Road
Keysborough, Victoria 3173
Australia

Directors' Declaration

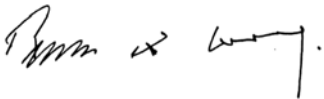

The Directors declare that the financial statements and notes set out on pages 17 to 53 in accordance with the *Corporations Act 2001*:

- (a) Comply with Australian Accounting Standards and the *Corporations Regulation 2001*, and other mandatory professional reporting requirements;
- (b) As stated in Note 1(a) the consolidated financial statements also comply with International Financial Reporting Standards and;
- (c) Give a true and fair view of the financial position of the consolidated entity as at 30 June 2018 and of its performance for the year ended on that date.

In the Directors' opinion there are reasonable grounds to believe that Farm Pride Foods Limited will be able to pay its debts as and when they become due and payable.

This declaration has been made after receiving the declarations required to be made by the Chief Executive Officer / Chief Financial Officer to the Directors in accordance with sections 295A of the Corporations Act 2001 for the financial year ending 30 June 2018.

This declaration is made in accordance with a resolution of the Directors.

Bruce De Lacy
Director

24 August 2018
Melbourne

Independent Auditor's Report to the Members of Farm Pride Foods Limited

Report on the Audit of the Financial Report

Opinion

We have audited the financial report of Farm Pride Foods Limited (the Company) and its subsidiaries (collectively the Group), which comprises the consolidated statement of financial position as at 30 June 2018, the consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, notes to the financial statements, including a summary of significant accounting policies, and the directors' declaration.

In our opinion, the accompanying financial report of the Group is in accordance with the *Corporations Act 2001*, including:

- a) giving a true and fair view of the consolidated financial position of the Group as at 30 June 2018 and of its consolidated financial performance for the year ended on that date; and
- b) complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial report of the current year. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, but we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the financial report. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying financial report.

Going concern

Why significant

The Group's financial performance for the year ended 30 June 2018 has been significantly impacted by the surplus shell egg in the Australian market resulting in a reduction in revenues, profitability and cash flows from operations.

The Group has access to various borrowing facilities to fund ongoing working capital and capital expenditure requirements as disclosed in Note 16 to the financial statements.

The Group's earnings and cash flow forecasts indicate that the Group requires access to the available financing facilities disclosed in Note 16 to the financial statements to pay its debts as and when they all due.

How our audit addressed the key audit matter

In assessing management's cash flow forecasts prepared for the purpose of the going concern assessment our audit procedures included the following:

- Analysed the key assumptions in the Group's cash flow forecasts, such as expected cash inflows from the sale of shell egg and egg product and cash outflows from purchases of hens, feed costs and other operating and capital expenditure.
- Considered the Group's access to long term funding facilities having regard to the limits of the facilities disclosed in Note 16 and compliance with the relevant financial covenants in the forecast period.
- Compared the inputs and assumptions in the cash flow forecasts to other information used to prepare the financial statements for the year ended 30 June 2018.
- Assessed the possible mitigating actions identified by the Group in the event that actual cash flows are below forecast.

Valuation of flock assets

Why significant

The carrying value of flock assets at 30 June 2018 was \$8.9 million in accordance with Australian Accounting Standards, as disclosed in Note 13.

We focused on this area because flock assets is significant relative to total assets and the valuation of flock assets involved judgement by the Group in relation to the estimated productive life of the flock and capitalisation of directly attributable costs of establishing the flock.

How our audit addressed the key audit matter

Our audit procedures in respect of the valuation of flock assets included the following:

- Selected a sample of costs capitalised in flock costs during the year and agreed costs to supporting documentation such as supplier invoices. We also assessed the appropriateness of the capitalisation of these costs.
- Assessed the Group's assumptions in respect of the productive life of the flock by considering the age of the specific flock, the Group's prior experience and industry studies.

Net realisable value of inventories

Why significant

As at 30 June 2018, the Group held \$6.9 million in inventories representing 9.4% of total assets of the Group.

As detailed in Note 1(f) of the financial report, inventories are valued at the lower of cost and net realisable value.

Judgement was required to be exercised by the Group to determine the net realisable value for items which may be ultimately sold below cost. These judgements include consideration of expectations for future sales based on historical experience.

How our audit addressed the key audit matter

Our audit procedures in respect of the valuation of inventories included the following:

- Selected a sample of inventory items and agreed the cost price of inventory recorded to supporting documentation such as supplier invoices.
- Assessed the basis for inventory provisions recorded by the Group for slow moving and surplus inventories. In doing so, we assessed the Group's judgements in identifying slow moving and surplus inventories.
- Considered the impact of sales subsequent to year end on the value of inventories at balance date by comparing the actual selling price to the carrying value of the relevant product line.

Waste and markdown rebates

Why significant

Certain customer sales agreements require the Group to rebate the customer in respect of waste as well as price markdowns the customer records in store. The rebate is recorded as a reduction to revenue and is either settled monthly in connection with the invoicing of the customer or the obligation accrued at balance sheet date depending on the exact timing of the customer claim.

This was considered a key audit matter as the calculation of the rebate accrual involves judgement and estimation by the Group.

How our audit addressed the key audit matter

Our audit procedures in respect of waste and markdown rebates included the following:

- Selected a sample of rebate transactions during the year and agreed the rebate amount to customer claim documentation.
- Assessed the rebate accrual by considering key assumptions having regard to past claims experience and customer claim documentation received after balance date. Where possible, we agreed the accrual to the amount settled post year end.

Information Other than the Financial Report and Auditor's Report Thereon

The directors are responsible for the other information. The other information comprises the information included in the Company's 2018 Annual Report, but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon, with the exception of the Remuneration Report and our related assurance opinion.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Report

The directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the financial report. We are responsible for the direction, supervision and performance of the Group audit. We remain solely responsible for our audit opinion.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated to the directors, we determine those matters that were of most significance in the audit of the financial report of the current year and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on the Audit of the Remuneration Report

Opinion on the Remuneration Report

We have audited the Remuneration Report included in pages 7 to 13 of the directors' report for the year ended 30 June 2018.

In our opinion, the Remuneration Report of Farm Pride Foods Limited for the year ended 30 June 2018, complies with section 300A of the *Corporations Act 2001*.

Responsibilities

The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.
