AMCOR ANNOUNCES APPOINTMENT OF ERIC ROEGNER AS PRESIDENT AMCOR RIGID PLASTICS

Amcor announces today the appointment of Eric Roegner as President Amcor Rigid Plastics. Eric joins Amcor today and will succeed Mike Schmitt in this role in mid-November. Eric will be based in Ann Arbor, Michigan, in the United States.

Eric brings significant experience leading and growing large scale multi regional businesses, including 12 years of executive leadership roles with Arconic Inc., previously known as Alcoa Corporation. Arconic develops, engineers and makes materials and components for customers in the aerospace, automotive, commercial transportation, packaging and other industries. Most recently, Eric was Executive Vice President and Group President of the US\$6 billion Arconic Engineered Products and Solutions business. Earlier in his career, Eric was a partner at McKinsey & Co.

Eric holds a master's degree in Business Administration from Case Western Reserve University in Cleveland, Ohio, and a bachelor's degree in Aerospace and Mechanical Engineering from Princeton University.

Mike Schmitt has led Amcor Rigid Plastics through a period of strong growth since his appointment in June 2011, significantly increasing profitability and successfully integrating several strategic acquisitions. Following the transition period, Mike will become Executive Vice President, Amcor Limited. In this role, Mike will continue to manage the Bericap North America joint venture, remain executive sponsor of certain Amcor global customer relationships and, importantly, support the integration of the previously announced Bemis acquisition to leverage his prior 25 years of flexible packaging experience.

Mike and Eric will report to Ron Delia, Amcor Chief Executive Officer, and serve on Amcor's Global Management Team.
