Re: Go Green Holdings partners with Zukaz LLP to disrupt traditional advertising world

Further to the ASX release on 1 October 2018 regarding the strategic partnership between Go Green Holdings and Zukaz LLP ("the Parties"), Go Green Holdings has advised that the Parties have agreed to integrate the Go Green Holdings Augmented Reality ("AR") hologram chat technology GoARChat with the Zukaz AR cash voucher technology to deliver substantial utility value to the users. The combined breakthrough technology is also expected to generate significant viral effect on their adoption.

ASX listed GoConnect Ltd owns 44% of Go Green Holdings.

Zukaz is the world's first Augmented Reality cash voucher application. Zukaz aims to capture a significant share of the current US\$500 billion plus advertising revenue generated by Facebook, Google, Instagram, etc. By gamifying advertising, Zukaz appeals to the millennials in a similar manner that attracted them to Pokémon Go from 2016. The Zukaz phenomenon like Pokémon Go is expected to revolutionize and totally disrupt the advertising world.

Zukaz delivers customer traffic directly to the merchants online or offline without any wastage on advertising spend. With the Zukaz application, merchants incur no cost unless their cash voucher is redeemed and a sale is registered. Merchants will earn Zucoins as reward for their loyalty. Zucoins is also a utility token that can be used for purchases with merchants. The Zukaz AR cash voucher technology has been undergoing live testing in the

past 6 weeks in and around the Albury, NSW region with tremendous success and excitement generated, with local consumers hunting and collecting electronic cash vouchers for redemption with merchants.

Upon completion of the current live testing, the Zukaz application will go nationwide Australia before a global launch. A number of major merchants from a range of industries including telcos, retailers, payment systems, hospitality operators, sports club, etc, have shown interest to adopt Zukaz and its crypto token Zucoins to conduct their marketing campaigns. Discussion has also been initiated by Go Green Holdings on behalf of Zukaz to position Zukaz into the China market.

Zukaz and Go Green Holdings have been advised by crypto exchange trade.io and now expect that Zucoins will be listed and tradable on the trade.io exchange in about 4 weeks.
