## Chairman's letter

Fellow Shareholders,

2018 has been transformative for Davenport Resources and it give me great pleasure to present this annual report to you.

The South Harz basin has produced more than 180 million tonnes of potash, as  $K_2O$ , historically and was a major producer until the late 1980s. After the reunification of Germany in the early 1990s, the region suffered considerable retraction and now hosts only two mines. But it remains highly prospective for premium Potash and the provincial government of Thuringia is supportive of efforts by Davenport to reinvigorate what was once a thriving industry.

The purchase of 3 mining licences in the basin, completed during the year, is transformative for Davenport. They have been extensively drilled and a very large amount of exploration and geological data has been acquired by Davenport. Review of that is still in progress, but results to date increase our confidence that we now are owners of a very large, high grade resource, spread over several licences within the field.

Chris Gilchrist, based in Europe has taken on the role of Managing Director. He has several decades of potash experience, as a Mine Manager and project developer. He is ably supported by Jason Wilkinson, also Europe based, who has potash exploration and feasibility study experience.

Davenport's rationale for focusing on potash relates to the role the commodity will play in helping to feed the world's growing population. Potash's ability to vastly improve crop yields will be vital as demand for food rises and the amount of arable land available worldwide falls. The combination of these factors is forecast to result in the global potash market growing by as much as 3% per annum. There has an expectation that the supply-side response will ensure potash prices remain soft, at least in the short-term. But this view fails to take into account that many of the world's potash mines have been operating for decades and capacity will come out of the market over time. Western Europe remains a nett importer of potash. Over the last 12 months there are strong signs that the MOP market has reversed its weakness, with prices 40 to 50% up from the ten year lows in late 2016.

I would like to record my appreciation of the executives of the Company, including the outgoing MD, Chris Bain, who managed the listing of Davenport, and still oversees the Australian activities of the Company. And to thank you, the shareholders, for your support of Davenport. I urge you to maintain it as we look to begin drilling in the South Harz basin and build a significant German potash business.

Yours Sincerely,

Patrick McManus

## Review of activities

Financial year 2018 has seen Davenport Resources Limited (“Davenport” or “The Company”) significantly expand its potash portfolio in the South Harz Potash basin in Germany. In April 2017, Davenport submitted an offer to purchase a package of three perpetual mining licences from Bodenverwertungs-undverwaltungs GMBH (“BVVG”), a German government agency charged with divesting former German Democratic Republic (GDR) assets. The licences - Mühlhausen-Nohra, Ebeleben and Ohmgebirge - adjoin Davenport’s existing Exploration Licences (Küllstedt & Gräfen-tonna) and have extensive historic drilling and potash resources which were estimated under the system of the former GDR.

Following negotiation, an agreement was signed with BVVG in August 2017. Final government approvals relating to the transfer of the licences to EE GmbH was given in October 2017 and in July 2018, Davenport announced the completion of all regulatory processes relating to the transfer of ownership of the licences.

All three Mining Licences have been comprehensively drilled with historic resource estimates that date back to the former GDR era when potash was extensively mined in the South Harz region. In total, more than 100 deep drill holes have been sunk on the licences leading to the creation of an extensive exploration database that would cost in excess of €100 million to replicate today based on current industry costs.

The review of historic exploration data began in September 2017 using potash and salt engineering consultants Ercosplan, based in Erfurt in Germany. On all three licences, historic resources had been estimated in accordance with the Russian Federation System applicable at that time in the former GDR.

Review work identified an historic sylvinite resource at Ebeleben of 356 million tonnes at 16.1% K<sub>2</sub>O (57.4 million tonnes of contained K<sub>2</sub>O). At Mühlhausen-Nohra, the known historic resource base for the overall Mining Licence was identified at 1.11 billion

Figure 1 Location of Davenport projects with historic resources and Ebeleben JORC Inferred Resource

tonnes at 10.4% K<sub>2</sub>O containing 114.9 million tonnes of K<sub>2</sub>O. At Ohmgebirge, previous work had defined a sylvinite-rich historic resource of 149.1 million tonnes at 13.5% K<sub>2</sub>O containing 20.1 million tonnes of K<sub>2</sub>O.

Davenport engaged leading mineral industry consultancy Micon International Co Limited (Micon) based in Norwich, UK, to undertake a further review of historic exploration data from Ebeleben and Mühlhausen-Nohra in January 2018. The primary objective of the Micon review, and subsequent geological modelling, was to establish resource estimates for both projects that comply with the 2012 edition of the Joint Ore Reserves Committee (JORC) Code, which governs the reporting of mineral resources to the Australian Securities Exchange.

In April 2018, Davenport released its first Maiden JORC-compliant potash resource covering the Ebeleben Mining Licence totalling 576.6 million tonnes at 12.1% K<sub>2</sub>O of Inferred Resources. The resource comprises mostly Sylvinite (324 million tonnes at 15.6% K<sub>2</sub>O) and Carnallite (252 million tonnes at 7.5% K<sub>2</sub>O). Consultants Micon continues to model data from Davenport's adjoining South Harz licences with a view to confirming additional JORC resources. These are expected in the fourth quarter of 2018.

Davenport's combined land holdings in Germany now cover a combined area exceeding 650 km<sup>2</sup>. Historic drilling and mining in the basin demonstrate that the licences are underlain by a continuous potash horizon.

Davenport is working towards validating historic exploration information to upgrade JORC 2012 Inferred Resources to Indicated Resource by twinning selected historic drill holes. Earlier plans for drilling on Küllstedt was suspended following the acquisition of the three perpetual mining licences. Plans are now well underway to begin confirmation and further evaluation drilling on several areas within the Küllstedt, Ebeleben and Gräfenonna licence areas. Environmental studies have begun, which once completed will allow the company to submit its application for drilling to the Thüringen State Mining Authority. The aim is to commence drilling in spring 2019 which will be followed immediately with the commencement of economic studies.

#### Australian Tenements

Davenport owns two exploration tenements EL28045 and EL30090 in Australia's Northern Territory. Covering an area of approximately 600 km<sup>2</sup> and located in the Arunta region approximately 75km north east of Alice Springs, the area is prospective for copper and contains a known copper prospect – Johnny's Reward. During the year Davenport completed a detailed aeromagnetic survey over the tenements and undertook limited follow-up of anomalous areas.

A maiden gold-copper resource for Johnnies Reward of 2.2 million tonnes at 1.4g/t gold equivalent (101,000 ounces gold equivalent) was declared in March 2018, (ASX announcement 28 March 2018). The resource was prepared by Conarco Consulting and includes 52,000 ounces gold at 0.7g.t Au and 9,000 tonnes of copper at 0.4%. The Company is reviewing its options for realising value from Southern Cross Bore, which contains the Johnnies Reward gold-copper deposit.

## Directors report

The directors present their report, together with the financial statements, on the consolidated entity (referred to hereafter as the 'consolidated entity') consisting of Davenport Resources Limited (referred to hereafter as the 'company' or 'parent entity') and the entities it controlled for the year ended 30 June 2018.

### Directors

The following persons were directors of Davenport Resources Limited during the whole of the financial year and up to the date of this report, unless otherwise stated:

Mr Patrick McManus  
Dr Chris Gilchrist  
Mr Christopher Bain  
Mr Rory Luff

### Company Secretary

Mr Rajan Narayanasamy

### Principal activities

During the financial year the principal continuing activities of the consolidated entity consisted of development of mineral exploration assets:

### Dividends

There were no dividends paid or declared during the current or previous financial year.

### Review of operations

The loss for the consolidated entity after providing for income tax amounted to \$1,481,872 (30 June 2017: \$2,734,788). Included in the loss for the previous financial year is an expense of \$1,825,364 incurred on the deemed reverse acquisition by the shareholders of East Exploration Pty Ltd to acquire a substantial interest in the Company. Further details relating to the previous financial period's expense of \$1,825,364 are provided in Note 5 to the financial statements.

A review of the Company's activities is provided in the activities report that directly precedes this Directors' Report.

### Significant changes in the state of affairs

During the financial year, Davenport, through its 100% German subsidiary, East Exploration GmbH, acquired for 1.2 million Euros, three highly prospective potash mining licences in the South Harz region of Germany adjoining the then existing two exploration licences in the region.

There were no other significant changes in the state of affairs of the consolidated entity during the financial year.

## Directors report

### Matters subsequent to the end of the financial year

- i. On 5 July 2018, the Company issued 26,496,700 fully paid ordinary shares at \$0.07 each under an Initial Placement raising \$1,854,769 before costs, of which \$1,840,769 were received in June 2018 and included the 30 June 2018 Statement of financial position as 'Monies held in trust – share applications'.
- ii. On 27 July 2018, the Company issued 4,085,693 fully paid ordinary shares at \$0.07 each to subscribers of a share purchase plan raising \$286,000 before costs.
- iii. On 11 September 2018, the Company issued 3,853,571 fully paid ordinary shares at \$0.07 each under a Second Placement (2,425,000 shares) and a placement (1,428,571 shares) to Rory Luff, a director of the Company, raising \$269,750 before costs. The shares were issued after obtaining shareholder approval at a general meeting held on 30 August 2018.
- iv. On 11 September 2018, the Company issued, and obtained official quotation, 33,221,680 options exercisable at \$0.20 each, expiring 31 July 2023. The options were issued to eligible participants in the capital raising described in (i) to (iii) above who applied for the options pursuant to a prospectus dated 17 July 2018.
- v. On 11 September 2018, the Company issued for nil consideration 7,500,000 unlisted options exercisable at \$0.20 each, expiring 11 September 2023 to a broker as part consideration for services provided in the capital raisings.

No other matter or circumstance has arisen since 30 June 2018 that has significantly affected, or may significantly affect the consolidated entity's operations, the results of those operations, or the consolidated entity's state of affairs in future financial years

### Likely developments and expected results of operations

In future financial years the Directors expect to continue the principal activities of the consolidated entity consisting of development of mineral exploration assets.

### Environmental regulation

The consolidated entity is subject to significant environmental regulation both in Australia and Germany. There have been no known breaches of regulations.

## Directors report

| Name:                                       | <b>Mr Patrick McManus</b>  |
| Title:                                      | Non-Executive Chairman   |
| Appointment Date:                           | 9 January 2017   |
| Experience and expertise:                   | Patrick McManus has a degree in mineral processing and an MBA. A mining professional for more than 30 years, his work has taken him to many sites within Australia and overseas, including Eneabba and the Murray Basin in Australia, and Madagascar, Indonesia and the United States. During that time, Patrick has worked in operational, technical and corporate roles for RioTinto, RGC Limited and Bemax Resources Limited. He was a founding director and, from January 2007 to March 2010, managing director of ASX-listed Corvette Resources Limited. Patrick McManus is the Managing Director of Parkway Minerals NL.   |
| Other current directorships:                | Parkway Minerals NL  |
| Former directorships (in the last 3 years): | None   |
| Name:                                       | <b>Dr Chris Gilchrist</b>  |
| Title:                                      | Managing Director, appointed 01 March 2018   |
| Appointment Date:                           | 28 February 2017, Non-Executive Director up to 01 March 2018.  |
| Experience and expertise:                   | Chris Gilchrist is a highly experienced international mining executive with over 35 years mining management and director level experience. He has successfully built and managed large mining operations in Europe and Africa. Dr Gilchrist has significant experience in potash mining, processing and marketing. He was General Manager and Operations Director for Cleveland Potash Limited (UK) now part of the Israel Chemicals group. From 2011 to 2014, he was a Non-Executive Director of South Boulder Mines (now Danakali Ltd) managing feasibility work on the Colluli potash project in Eritrea. More recently he has acted as Project Manager and adviser to Circum Minerals on their Ethiopian potash project. |
| Other current directorships:                | None   |
| Former directorships (in the last 3 years): | None   |

## Directors report

|   |  |

| Mr Rory Luff        | 6        | 7    |

Held: represents the number of meetings held during the time the director held office.

## Directors' Report

### Remuneration report (audited)

The remuneration report, which has been audited, outlines the director and executive remuneration arrangements for the consolidated entity and the company, in accordance with the requirements of the Corporations Act 2001 and its Regulations.

The remuneration report is set out under the following main headings:

- A Principles used to determine the nature and amount of remuneration
- B Details of remuneration
- C Service agreements
- D Share-based compensation
- E Additional information

#### *A Principles used to determine the nature and amount of remuneration*

##### *Remuneration philosophy*

The performance of the company depends upon the quality of its directors and executive officers. To prosper, the company must attract, motivate and retain highly skilled directors and executive officers.

The directors' remuneration is comparable to similar sized companies in the junior mining industry. There is no formal link between the consolidated entity's performance and the Directors' remuneration.

##### *Remuneration Committee*

Company does not have a separate Remuneration Committee at this stage and the Board as a whole performs the function of this Committee. A separate Remuneration Committee will be constituted when the Company achieves certain milestones in relation to its size and scale of operations.

##### *Incentive Plans*

Ultimately the shareholders approve any incentive plans however the Board is to:

- (a) review and make recommendations concerning long-term incentive compensation plans, including the use of share options and other equity-based plans. Except as otherwise delegated, the Board will administer equity-based and employee benefit plans, and as such will discharge any responsibilities under those plans, including making and authorising issues of equity, in accordance with the terms of those plans;
- (b) ensure that incentive plans are designed around appropriate and realistic performance targets, either at an individual or company level, that measure relative performance and provide rewards when they are achieved; and
- (c) continually review and if necessary improve any existing benefit programs established for employees.

##### *Authority and Resources*

The Board may seek input from individuals on remuneration policies, but no individual should be directly involved in deciding their own remuneration. The Board may, when it considers it necessary or appropriate, obtain advice from external consultants or specialists in relation to remuneration related matters.

In accordance with best practice corporate governance, the structure of non-executive directors and executive remunerations are separate.

##### *Non-executive directors remuneration*

The constitution of the Company provides for a maximum aggregate amount that may be paid to non-executive

## Directors' Report

### Remuneration report (continued)

directors (referred to as a “non-executive director’s remuneration pool”) to be determined by shareholders at a general meeting. ASX requires the non- executive director’s remuneration pool amount to be specified.

A maximum non-executive director’s remuneration pool amount of \$500,000 per annum was adopted at the 2016 General Meeting.

The non-executive director’s remuneration pool is a maximum and does not mean that non-executive directors will be paid a total of \$500,000 per annum. In the first two years following listing the non-executive directors remuneration pool is limited to no more than \$160,000 per annum. The amount of each non-executive director’s remuneration and allocations among non-executive directors within the pool limit are determined by the Board, and the process of determining non-executive director’s remuneration is subject to compliance with corporate governance policies.

Payment to non-executive directors for specific services beyond the ordinary role of a non-executive director, such as consulting or professional services, are excluded from the total pool amount, as is reimbursement of expense.

Any future change to the non-executive director’s remuneration pool will require a further shareholder approval.

Non-executive directors are eligible to participate in the Company’s Employee Security Ownership Plan, upon obtaining shareholder approval. During the financial year, non-executive directors were granted performance rights as detailed in the table below.

#### *Executive remuneration*

The company aims to reward its executives with a level and mix of remuneration commensurate with their position and responsibilities within the consolidated entity, so as to reward executives for meeting or exceeding targets set by reference to appropriate benchmarks; align the interests of executives with those of shareholders; and ensure remuneration is competitive by market standards.

It is the Company’s remuneration policy that employment contracts must be entered into with the Chief Executive Officer and senior executives. Remuneration presently consists only of fixed remuneration. The level of fixed remuneration is set so as to provide a base level of remuneration which is both appropriate to the position and competitive in the market. Fixed remuneration is reviewed annually by the Board as part of an assessment on that executive’s performance. Although the Board has access to external independent advice if necessary, no such advice was sought during the year.

#### *Employee Security Ownership Plan*

An employee incentive scheme (“the Employee Security Ownership Plan” or “the plan”) was adopted at the 2016 General Meeting. The purpose of the Employee Security Ownership Plan is to enable eligible directors, officers and employees (including executive and non-executive directors of the Company or its subsidiaries) to receive shares, options to acquire shares in the Company or other securities or interests such as performance rights.

The objects of the Plan are to:

- provide participants (eligible persons within the meaning of the Plan) with an additional incentive to work to improve the performance of the company;
- attracting and retaining eligible persons essential for the continued growth and development of the Company;

## Directors' Report

### Remuneration report (continued)

- to promote and foster loyalty and support amongst eligible persons for the benefit of the Company; and
- to enhance the relationship between the Company and eligible persons for the long term mutual benefit of all parties.

No directors or their associates can or will participate in the Plan or receive any shares, options, other securities or interests such as performance rights unless and until further shareholder approval of specific issues to them is obtained.

During the year, non-executive directors and the managing director were granted two classes of Performance Rights as detailed in the table D below, upon obtaining shareholder approval at a general meeting held on 10 April 2018.

#### B Details of remuneration

##### Amounts of remuneration

Details of the remuneration of the directors, other key management personnel (defined as those who have the authority and responsibility for planning, directing and controlling the major activities of the consolidated entity) and specified executives of Davenport Resources Limited are set out in the following tables.

| 2018             | Short-term Benefits   |                       |                    | Post-employment Benefits | Share-based Payments                  |                           |             |

### C Service Agreements

Remuneration and other terms of employment for key management personnel are formalised in service agreements. Details of these agreements are as follows:

#### Managing Director

On 15/12/2017 the Company entered into an agreement with Dr Chris Gilchrist for his services as Managing Director. Dr Gilchrist is entitled to an all-inclusive annual salary of A\$350,000, subject to an annual review. The agreement is for an initial term of two years with an option to extend the term, by mutual agreement, to three years. The agreement can be terminated by either party giving three months written notice or, in the case of the Company, by paying three months' salary in lieu.

#### Project Director

On 27 December 2017, the Company entered into an employment agreement with Jason Wilkinson for his services as Project Director of the South Harz project in Germany. Mr Wilkinson is entitled to a gross remuneration 138,000 Euros.

In addition, Mr Wilkinson was entitled to a sign-on bonus of 85,000 Euros as compensation for contributions to the Company prior to entering into the employment agreement. Mr Wilkinson is a resident of Greece and the terms for either party terminating this agreement is governed by the provisions of the Greek employment legislation applicable at the time.

## Directors' Report

### Remuneration report (continued)

#### D Share-based compensation

##### Issue of Shares

On 26 April 2018, Mr J Wilkinson was issued 500,000 fully paid ordinary shares under the Employee Securities Option Plan as part compensation for his services prior to entering into a service agreement. The shares were valued at \$47,000 at a deemed issued price of \$0.094, being the closing trading price on 20 April 2018.

The value of the shares comprises 14.5% of remuneration.

##### Issue of Performance Rights

During the year the Company issued two classes of Performance Rights to directors and officers under the Employee Security Ownership Plan.

The terms and conditions of each grant of Rights over ordinary shares affecting remuneration of directors and key management personnel in this financial year or future reporting years are as follows:

| Name           | Number of Rights Granted | Grant Date    | Class    | Fair value per Right at grant date (cents) | Value of Rights Granted \$ |
|----------------|--------------------------|---------------|----------|--|----------------------------|
| P McManus      | 500,000                  | 10 April 2018 | Series A | 8.85                                       | 44,250                     |
| P McManus      | 500,000                  | 10 April 2018 | Series B | 8.85                                       | 44,250                     |
| C Gilchrist    | 1,000,000                | 10 April 2018 | Series A | 8.85                                       | 88,500                     |
| C Gilchrist    | 1,000,000                | 10 April 2018 | Series B | 8.85                                       | 88,500                     |
| R Luff         | 375,000                  | 10 April 2018 | Series A | 8.85                                       | 33,188                     |

| R Narayanasamy | 250,000                  | 26 April 2018 | Series B | 9.48                                       | 23,700                     |
| <b>TOTAL</b>   | <b>6,250,000</b>         |               |          |  | <b>568,876</b>             |

All Rights were granted over unissued fully paid ordinary shares in the Company. Rights vest based on the following performance conditions:

##### Series A:

- The Company, within 12 months of the date of issue, completing drilling of one (1) hole intersecting the potash horizon of the South Harz project (First Hurdle)

##### Series B:

- The Company, within 24 months of the date of issue and subject to satisfaction of the First Hurdle, completing drilling of two (2) holes intersecting the potash horizon of the South Harz project (Second Hurdle)

The performance rights in each series above convert automatically upon achievement of the Hurdle applicable to that series any without payment of any consideration.

The Performance Rights lapse upon the recipient ceasing to be an officer or executive, subject to the discretion of the Board.

## Directors' Report

### Remuneration report (continued)

In addition, the Performance Rights will convert automatically to shares upon the occurrence of:

- An offeror under a takeover offer in respect of the Company's shares announcing that it has achieved acceptances in respect of more than 50% of the Company's shares and that takeover bid becoming conditional;
- A person (alone or in conjunction with their associates) acquiring voting power (within the meaning of section 610 of the Corporations Act) of more than 50% of the ordinary shares in the Company;
- The Company disposes of all or a substantial part of its assets or undertaking; or
- A Court granting orders approving a compromise or arrangement for the purposes of or in connection with a scheme or arrangement for the reconstruction of the Company or its amalgamation with any other company or companies.

There has not been any alteration to the terms or conditions of the grant since the grant date. There are no amounts paid or payable by the recipient in relation to the granting of such Rights.

Values of Performance Rights expensed, exercised and lapsed for directors and officers as part of compensation during the year ended 30 June 2018 are set out below:

| Name           | Value of Rights<br>expensed during<br>the year<br>\$ | Value of Rights<br>vested during<br>the year<br>\$ | Value of Rights<br>lapsed during<br>the year<br>\$ | Remuneration<br>consisting of<br>options for the<br>year<br>% |
|----------------|--|--|--|---|
| P McManus      | 14,206   | -  | -  | 24.0%   |

There were no performance rights issued to key management personnel as part of compensation during the year ended 30 June 2017.

There were no options issued to key management personnel as part of compensation during the years ended 30 June 2018 or 30 June 2017.

No members of key management personnel have held options over ordinary shares in the parent entity during the year ended 30 June 2017.

## Directors' Report

### Shares under option

Unissued ordinary shares of Davenport Resources Limited under option at the date of this report are as follows:

| Grant date        | Expiry date       | Exercise price | Number under option |
|-------------------|-------------------|----------------|---------------------|
| 19 January 2017   | 20 January 2020   | \$0.25         | 6,158,000           |
| 11 September 2018 | 31 July 2023      | \$0.20         | 33,221,680          |
| 11 September 2018 | 11 September 2023 | \$0.20         | 7,500,000           |

### Shares issued on the exercise of options

No shares of Davenport Resources Limited were issued on the exercise of options during the year ended 30 June 2018.

### Indemnity and insurance of officers

The company has indemnified the directors of the Company for costs incurred, in their capacity as a director, for which they may be held personally liable, except where there is a lack of good faith.

During the financial year, the company paid a premium in respect of a contract to insure the directors of the company against a liability to the extent permitted by the Corporations Act 2001. The contract of insurance prohibits disclosure of the nature of liability and the amount of the premium.

### Indemnity and insurance of auditor

The company has not otherwise, during or since the financial year, indemnified or agreed to indemnify the auditor of the company or any related entity against a liability incurred by the auditor. During the financial year, the company has not paid a premium in respect of a contract to insure the auditor of the company or any related entity.

No person has applied to the Court under section 237 of the Corporations Act 2001 for leave to bring proceedings on behalf of the company, or to intervene in any proceedings to which the company is a party for the purpose of taking responsibility on behalf of the company for all or part of those proceedings.

### Non-audit services

There were no non-audit services provided during the financial year by the auditor aside from as disclosed in Note 19 to the financial statements.

### Officers of the company who are former audit partners of Advantage Advisors

There are no officers of the company who are former audit partners of Advantage Advisors.

### Auditor's independence declaration

A copy of the auditor's independence declaration as required under section 307C of the Corporations Act 2001 is set out on the following page.

This report is in accordance with a resolution of directors, pursuant to section 298(2)(a) of the Corporations Act 2001.

On behalf of the directors:

The financial statements should be read in conjunction with the accompanying notes.

## Notes to the financial statements

30 June 2018

### Note 1. Significant accounting policies

The principal accounting policies adopted in the preparation of the financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

#### Basis of preparation

These general purpose financial statements have been prepared in accordance with Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') and the Corporations Act 2001, as appropriate for-profit oriented entities. These financial statements also comply with International Financial Reporting Standards as issued by the International Accounting Standards Board ('IASB').

#### *Historical cost convention*

The financial statements have been prepared under the historical cost convention, except for, where applicable, the revaluation of available-for-sale financial assets, financial assets and liabilities at fair value through profit or loss and certain classes of property, plant and equipment.

#### *Critical accounting estimates*

The preparation of the financial statements requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the consolidated entity's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in note 2.

#### Going concern

For the year ended 30 June 2018, the consolidated entity incurred an operating loss of \$1,418,872 and incurred negative cash flows from operations of \$1,325,615.

Having successfully raised approximately \$2.41 million as described in Note 25, the directors believe that the consolidated entity will continue to operate as a going concern to effectively manage its operations and working capital requirements and that it is appropriate to prepare the financial statements on a going concern basis which assumes the realisation of assets and the extinguishment of liabilities in the normal course of business at the amounts stated in the financial statements.

#### Parent entity information

In accordance with the Corporations Act 2001, these financial statements present the results of the consolidated entity only. Supplementary information about the parent entity is disclosed in note 23.

#### Principles of consolidation

The consolidated financial statements incorporate the assets and liabilities of all subsidiaries of Davenport Resources Limited ('company' or 'parent entity') as at 30 June 2018 and the results of all subsidiaries for the year then ended. Davenport Resources Limited and its subsidiaries together are referred to in these financial statements as the 'consolidated entity'.

Subsidiaries are all those entities over which the consolidated entity has the power to govern the financial and operating policies, generally accompanying a shareholding of more than one-half of the voting rights. The effects of potential exercisable voting rights are considered when assessing whether control exists. Subsidiaries are fully consolidated from the date on which control is transferred to the consolidated entity. They are de-consolidated from the date that control ceases.

## Notes to the financial statements

30 June 2018

**Note 1. Significant accounting policies (continued)****Principles of consolidation (continued)***Reverse asset acquisition*

On 9 January 2017, Davenport Resources Ltd (“Davenport Resources”) completed the acquisition of German exploration licences holder East Exploration Pty Ltd and its subsidiary (together “East Exploration”) (“Acquisition”). The Acquisition has been accounted for using the principles for reverse acquisitions in AASB 3 Business Combinations because, as a result of the Acquisition, the former shareholders of East Exploration obtained accounting control of the Davenport Resources (the legal parent).

The Acquisition did not meet the definition of a business combination in accordance with AASB 3 Business Combinations as the acquiree was deemed not to be a business for accounting purposes and, therefore, the transaction was not a business transaction using the principles of share based payment transactions in AASB 2, and in particular the guidance in AASB 2 that any difference between the fair value of the shares issued by the accounting acquirer (East Exploration) and the fair value of the accounting acquiree’s (Davenport Resources) identifiable net assets represents a service received by East Exploration, including payment for a service of an ASX stock exchange listing which will be expensed through the consolidated entity’s profit and loss statement in the 2017 financial year.

Accordingly, the consolidated financial report of Davenport Resources has been prepared as a continuation of the business and operations of East Exploration. As the deemed accounting acquirer has accounted for the acquisition from 9 January 2017. The comparative information for the 12 months ended 30 June 2016 presented in the financial report is that of East Exploration. The impact of the reverse asset acquisition on each of the primary statements is as follows:

## Consolidated statement of comprehensive income:

- The statement for the period ended 30 June 2017 comprises 12 months of operating results of East Exploration and the operating results of Davenport Resources from 9 January 2017.
- The statement for the period to 30 June 2016 comprises 12 months of operating results of East Exploration.

## Consolidated statement of financial position:

- The consolidated statement of financial position at 30 June 2017 contains the assets and liabilities of East Exploration and Davenport Resources as at that date.
- The consolidated statement of financial position at 30 June 2016 represents the assets and liabilities of East Exploration as at that date.

## Statement of changes in equity:

- The consolidated statement of changes in equity for the period ended 30 June 2017 comprises the East Exploration balance at 1 July 2016, its loss for the 12 months and transactions with equity holders for 12 months. It also comprises Davenport Resources transactions with equity holders for the period from Acquisition to 30 June 2017 and the equity balances of East Exploration and Davenport Resources at 30 June 2017.

## Notes to the financial statements

30 June 2018

### Note 1. Significant accounting policies (continued)

#### Principles of consolidation (continued)

- The consolidated statement of changes in equity for the period to 30 June 2016 comprises 12 months of East Exploration's change in equity.

#### Statement of cash flows:

- The consolidated cash flow statement for the period ended 30 June 2017 comprises the cash balance of East Exploration, as at 1 July 2016, the cash transactions for the 12 months (12 months for East Exploration and the period from Acquisition to 30 June 2017 for Davenport Resources and the cash balances of East Exploration and Davenport Resources at 30 June 2017)
- The consolidated cash flow statement for the period ended 30 June 2016 comprises 12 months of East Exploration cash transactions.

References throughout the financial statements to "reverse acquisition" or "reverse takeover" are in reference to the above mentioned Acquisition and the accounting treatment described above.

Intercompany transactions, balances and unrealised gains on transactions between entities in the consolidated entity are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of the impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the consolidated entity.

The acquisition of subsidiaries is accounted for using the acquisition method of accounting. Refer to the 'business combinations' accounting policy for further details. A change in ownership interest, without the loss of control, is accounted for as an equity transaction, where the difference between the consideration transferred and the book value of the share of the non-controlling interest acquired is recognised directly in equity attributable to the parent.

Where the consolidated entity loses control over a subsidiary, it derecognises the assets including goodwill, liabilities and non-controlling interest in the subsidiary together with any cumulative translation differences recognised in equity. The consolidated entity recognises the fair value of the consideration received and the fair value of any investment retained together with any gain or loss in profit or loss.

#### Foreign Currency Translation

Transactions in foreign currencies are initially recorded in the functional currency by applying the exchange rates ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated at the rate of exchange ruling at the end of the reporting period.

All exchange differences in the consolidated financial report are taken to profit or loss with the exception of differences on foreign currency borrowings that provide a hedge against a net investment in a foreign entity. These are taken directly to equity until the disposal of the net investment, at which time they are recognised in profit or loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rate as at the date of the initial transaction. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined.

## Notes to the financial statements

30 June 2018

### Note 1. Significant accounting policies (continued)

#### Foreign Currency Translation (continued)

The functional currencies of the Group are European Dollars (EURO) and Australian Dollars (AUD). The presentation currency is Australian Dollars (AUD).

As at reporting date the assets and liabilities of the subsidiaries are translated into the presentation currency of Davenport Resources at the rate of exchange ruling at the end of the reporting period and income and expenses are translated at the weighted average exchange rate for the year.

The exchange differences arising on the translation are taken directly to a separate component of equity, being recognised in the foreign currency translation reserve.

On disposal of a foreign entity, the deferred cumulative amount recognised in equity relating to that particular foreign operation is recognised in profit or loss.

#### Income tax

The income tax expense or benefit for the period is the tax payable on that period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and unused tax losses and the adjustment recognised for prior periods, where applicable.

Deferred tax assets and liabilities are recognised for temporary differences at the tax rates expected to apply when the assets are recovered or liabilities are settled, based on those tax rates that are enacted or substantively enacted, except for:

- When the deferred income tax asset or liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and that, at the time of the transaction, affects neither the accounting nor taxable profits; or
- When the taxable temporary difference is associated with investments in subsidiaries, associates or interests in joint ventures, and the timing of the reversal can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred tax assets are recognised for deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

The carrying amount of recognised and unrecognised deferred tax assets are reviewed each reporting date. Deferred tax assets recognised are reduced to the extent that it is no longer probable that future taxable profits will be available for the carrying amount to be recovered. Previously unrecognised deferred tax assets are recognised to the extent that it is probable that there are future taxable profits available to recover the asset.

Deferred tax assets and liabilities are offset only where there is a legally enforceable right to offset current tax assets against current tax liabilities and deferred tax assets against deferred tax liabilities; and they relate to the same taxable authority on either the same taxable entity or different taxable entity's which intend to settle simultaneously.

#### Revenue recognition

Revenue is recognised when it is probable that the economic benefit will flow to the consolidated entity and the revenue can be reliably measured. Revenue is measured at the fair value of the consideration received or receivable.

## Notes to the financial statements

### 30 June 2018

#### Note 1. Significant accounting policies (continued)

##### Trade and other receivables

Trade receivables are initially recognised at fair value and subsequently measured at amortised cost using the effective interest method, less any provision for impairment. Trade receivables are generally due for settlement within 30 days.

Collectability of trade receivables is reviewed on an ongoing basis. Debts which are known to be uncollectable are written off by reducing the carrying amount directly. A provision for impairment of trade receivables is raised when there is objective evidence that the consolidated entity will not be able to collect all amounts due according to the original terms of the receivables. Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganisation and default or delinquency in payments (more than 60 days overdue) are considered indicators that the trade receivable may be impaired. The amount of the impairment allowance is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate. Cash flows relating to short-term receivables are not discounted if the effect of discounting is immaterial.

Other receivables are recognised at amortised cost, less any provision for impairment.

##### Investments and other financial assets

Investments and other financial assets are measured at either amortised cost or fair value depending on their classification. Classification is determined based on the purpose of the acquisition and subsequent reclassification to other categories is restricted.

Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the consolidated entity has transferred substantially all the risks and rewards of ownership.

##### *Loans and receivables*

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are carried at amortised cost using the effective interest rate method. Gains and losses are recognised in profit or loss when the asset is derecognised or impaired.

##### *Impairment of financial assets*

The company assesses at the end of each reporting period whether there is any objective evidence that a financial asset or group of financial assets is impaired. Objective evidence includes significant financial difficulty of the issuer or obligor; a breach of contract such as default or delinquency in payments; the lender granting to a borrower concessions due to economic or legal reasons that the lender would not otherwise do; it becomes probable that the borrower will enter bankruptcy or other financial reorganisation; the disappearance of an active market for the financial asset; or observable data indicating that there is a measurable decrease in estimated future cash flows.

The amount of the impairment allowance for loans and receivables carried at amortised cost is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate. If there is a reversal of impairment, the reversal cannot exceed the amortised cost that would have been had the impairment not been recognised and is reversed to profit or loss.

## Notes to the financial statements

### 30 June 2018

#### Note 1. Significant accounting policies (continued)

##### Property, plant and equipment

Plant and equipment is stated at historical cost base less accumulated depreciation and impairment. Historical cost includes expenditure that is directly attributable to the acquisition of the items

Depreciation is calculated on a diminishing value basis to write off the net cost of each item of property, plant and equipment (excluding land) over their expected useful lives as follows:

|                        |             |
|------------------------|-------------|
| Plant and equipment    | 3 - 5 years |
| Leasehold improvements | 10 years    |

Residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each reporting date. An item of property, plant and equipment is derecognised upon disposal or when there is no future economic benefit to the consolidated entity. Gains and losses between the carrying amount and the disposal proceeds are taken to profit or loss.

##### Employee Benefits

###### *Wages and salaries, annual leave and sick leave*

Liabilities for wages and salaries, including non-monetary benefits and annual leave expected to be settled within 12 months of the reporting date are recognised in current liabilities in respect of employees' services up to the reporting date and are measured at the amounts expected to be paid when the liabilities are settled. Non-accumulating sick leave is expensed to profit or loss when incurred.

###### *Equity settled compensation*

The Group operates an employee share, share rights and option plan. Share-based payments to employees are measured at the fair value of the instruments at grant date and amortised over the vesting periods. Share-based payments to non-employees are measured at the fair value of goods or services received or the fair value of the equity instruments issued, if it is determined the fair value of the goods or services cannot be reliably measured and are recorded at the date the goods or services are received. The corresponding amounts are recognised in the option reserve and statement of profit and loss respectively. The number of shares, share rights and options expected to vest is reviewed and adjusted at the end of each reporting period such that the amount recognised for services received as consideration for the equity instruments granted is based on the number of equity instruments that eventually vest.

##### Fair value measurement

When an asset or liability, financial or non-financial, is measured at fair value for recognition or disclosure purposes, the fair value is based on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date; and assumes that the transaction will take place either in the principal market; or in the absence of a principal market, in the most advantageous market.

Fair value is measured using the assumptions that market participants would use when pricing the asset or liability assuming they act in their economic best interests. For non-financial assets, the fair value measurement is based on its highest and best use. Valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value are used, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

## Notes to the financial statements

30 June 2018

**Note 1. Significant accounting policies (continued)****Issued Capital**

Ordinary shares are classified as equity.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

**Exploration and evaluation assets**

Exploration and evaluation expenditure in relation to separate areas of interest for which rights of tenure are current is carried forward as an asset in the statement of financial position where it is expected that the expenditure will be recovered through the successful development and exploitation of an area of interest, or by its sale; or exploration activities are continuing in an area and activities have not reached a stage which permits a reasonable estimate of the existence or otherwise of economically recoverable reserves. Where a project or an area of interest has been abandoned, the expenditure incurred thereon is written off in the year in which the decision is made.

**Trade and other payables**

These amounts represent liabilities for goods and services provided to the consolidated entity prior to the end of the financial year and which are unpaid. Due to their short-term nature they are measured at amortised cost and are not discounted. The amounts are unsecured and are usually paid within 30 days of recognition.

**Provisions**

Provisions are recognised when the consolidated entity has a present (legal or constructive) obligation as a result of a past event, it is probable the consolidated entity will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the reporting date, taking into account the risks and uncertainties surrounding the obligation. If the time value of money is material, provisions are discounted using a current pre-tax rate specific to the liability. The increase in the provision resulting from the passage of time is recognised as a finance cost.

**Business combinations**

The acquisition method of accounting is used to account for business combinations regardless of whether equity instruments or other assets are acquired.

The consideration transferred is the sum of the acquisition-date fair values of the assets transferred, equity instruments issued or liabilities incurred by the acquirer to former owners of the acquiree and the amount of any non-controlling interest in the acquiree. For each business combination, the non-controlling interest in the acquiree is measured at either fair value or at the proportionate share of the acquiree's identifiable net assets. All acquisition costs are expensed as incurred to profit or loss.

On the acquisition of a business, the consolidated entity assesses the financial assets acquired and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic conditions, the consolidated entity's operating or accounting policies and other pertinent conditions in existence at the acquisition-date.

Where the business combination is achieved in stages, the consolidated entity remeasures its previously held equity interest in the acquiree at the acquisition-date fair value and the difference between the fair value and the previous carrying amount is recognised in profit or loss.

Contingent consideration to be transferred by the acquirer is recognised at the acquisition-date fair value. Subsequent changes in the fair value of contingent consideration classified as an asset or liability is recognised in profit or loss. Contingent consideration classified as equity is not remeasured and its subsequent settlement is accounted for within equity.

## Notes to the financial statements

30 June 2018

**Note 1. Significant accounting policies (continued)****Business combinations (continued)**

The difference between the acquisition-date fair value of assets acquired, liabilities assumed and any non-controlling interest in the acquiree and the fair value of the consideration transferred and the fair value of any pre-existing investment in the acquiree is recognised as goodwill. If the consideration transferred and the pre-existing fair value is less than the fair value of the identifiable net assets acquired, being a bargain purchase to the acquirer, the difference is recognised as a gain directly in profit or loss by the acquirer on the acquisition-date, but only after a reassessment of the identification and measurement of the net assets acquired, the non-controlling interest in the acquiree, if any, the consideration transferred and the acquirer's previously held equity interest in the acquirer.

Business combinations are initially accounted for on a provisional basis. The acquirer retrospectively adjusts the provisional amounts recognised and also recognises additional assets or liabilities during the measurement period, based on new information obtained about the facts and circumstances that existed at the acquisition-date. The measurement period ends on either the earlier of (i) 12 months from the date of the acquisition or (ii) when the acquirer receives all the information possible to determine fair value.

**Earnings per share***Basic earnings per share*

Basic earnings per share is calculated by dividing the profit attributable to the owners of Davenport Resources Limited, excluding any costs of servicing equity other than ordinary shares, by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the financial year.

*Diluted earnings per share*

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account the after income tax effect of interest and other financing costs associated with dilutive potential ordinary shares and the weighted average number of shares assumed to have been issued for no consideration in relation to dilutive potential ordinary shares.

**Comparative figures**

When required by Accounting Standards, comparative figures have been restated or repositioned to conform to changes in presentation for the current period.

**Goods and Services Tax ('GST') and other similar taxes**

Revenues, expenses and assets are recognised net of the amount of associated GST, unless the GST incurred is not recoverable from the tax authority. In this case it is recognised as part of the cost of the acquisition of the asset or as part of the expense.

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the tax authority is included in other receivables or other payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to the tax authority, are presented as operating cash flows.

Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to, the tax authority.

## Notes to the financial statements

30 June 2018

**Note 1. Significant accounting policies (continued)****New, revised or amending Accounting Standards and Interpretations adopted**

The consolidated entity has adopted all of the new, revised or amending Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period.

Any new, revised or amending Accounting Standards or Interpretations that are not yet mandatory have not been early adopted. Any significant impact on the accounting policies of the consolidated entity from the adoption of these Accounting Standards and Interpretations are disclosed below. The adoption of these Accounting Standards and Interpretations did not have any significant impact on the financial performance or position of the consolidated entity.

**New Accounting Standards and Interpretations not yet mandatory or early adopted**

Australian Accounting Standards and Interpretations that have recently been issued or amended but are not yet mandatory have not been early adopted by the Consolidated Entity for the annual reporting period ended 30 June 2018. The Consolidated Entity's assessment of the impact of these new or amended Accounting Standards and Interpretations, most relevant to the Consolidated Entity, are set out below.

*AASB 15 Revenue from Contracts with Customers*

This standard is applicable to annual reporting periods beginning on or after 1 January 2018. The standard provides a single standard for revenue recognition. The core principle of the standard is that an entity will recognise revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The standard will require: contracts (either written, verbal or implied) to be identified, together with the separate performance obligations within the contract; determine the transaction price, adjusted for the time value of money excluding credit risk; allocation of the transaction price to the separate performance obligations on a basis of relative stand-alone selling price of each distinct good or service, or estimation approach if no distinct observable prices exist; and recognition of revenue when each performance obligation is satisfied. Credit risk will be presented separately as an expense rather than adjusted to revenue. For goods, the performance obligation would be satisfied when the customer obtains control of the goods. For services, the performance obligation is satisfied when the service has been provided, typically for promises to transfer services to customers. For performance obligations satisfied over time, an entity would select an appropriate measure of progress to determine how much revenue should be recognised as the performance obligation is satisfied. Contracts with customers will be presented in an entity's statement of financial position as a contract liability, a contract asset, or a receivable, depending on the relationship between the entity's performance and the customer's payment. Sufficient quantitative and qualitative disclosure is required to enable users to understand the contracts with customers; the significant judgements made in applying the guidance to those contracts; and any assets recognised from the costs to obtain or fulfil a contract with a customer. The consolidated entity will adopt this standard from 1 July 2018. The impact of its adoption is yet to be assessed in detail by the consolidated entity but is not expected to have material impact on the consolidated entity.

*AASB 16 Leases*

This standard is applicable to annual reporting periods beginning on or after 1 January 2019.

This standard:

- replaces AASB 117 Leases and some lease-related Interpretations;
- requires all leases to be accounted for 'on-balance sheet' by lessees, other than short-term and low value asset leases;

## Notes to the financial statements

30 June 2018

**Note 1. Significant accounting policies (continued)****AASB 16 Leases (continued)**

- provides new guidance on the application of the definition of lease and on sale and lease back accounting;
- largely retains the existing lessor accounting requirements in AASB 117;
- requires new and different disclosures about leases.

The consolidated entity will adopt this standard from 1 July 2019. The entity is yet to undertake a detailed assessment of the impact of AASB 16. However, based on the entity's preliminary assessment, the likely impact on the first time adoption of the Standard for the half year ending 31 December 2019 includes:

- there will be a significant increase in lease assets and financial liabilities recognised on the balance sheet;
- the reported equity will reduce as the carrying amount of lease assets will reduce more quickly than the carrying amount of lease liabilities;
- EBIT in the statement of profit or loss and other comprehensive income will be higher as the implicit interest in lease payments for former off balance sheet leases will be presented as part of finance costs rather than being included in operating expenses; and
- Operating cash outflows will be lower and financing cash flows will be higher in the statement of cash flows as principal repayments on all lease liabilities will now be included in financing activities rather than operating activities.

**Note 2. Critical accounting judgements, estimates and assumptions**

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts in the financial statements. Management continually evaluates its judgements and estimates in relation to assets, liabilities, contingent liabilities, revenue and expenses. Management bases its judgements, estimates and assumptions on historical experience and on other various factors, including expectations of future events, management believes to be reasonable under the circumstances. The resulting accounting judgements and estimates will seldom equal the related actual results. The judgements, estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

*Income tax*

The consolidated entity is subject to income taxes in the jurisdictions in which it operates. Significant judgement is required in determining the provision for income tax. There are many transactions and calculations undertaken during the ordinary course of business for which the ultimate tax determination is uncertain. The consolidated entity recognises liabilities for anticipated tax audit issues based on the consolidated entity's current understanding of the tax law. Where the final tax outcome of these matters is different from the carrying amounts, such differences will impact the current and deferred tax provisions in the period in which such determination is made.

*Recovery of deferred tax assets*

Deferred tax assets are recognised for deductible temporary differences only if the consolidated entity considers it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

## Notes to the financial statements

30 June 2018

**Note 2. Critical accounting judgements (continued)***Exploration and evaluation assets*

The consolidated entity has recognised an asset for exploration and evaluation work conducted on projects in Germany and the Northern Territory. The directors have determined that the activities of the projects have not reached a stage which permits a reasonable estimate of the existence or otherwise of economically recoverable reserves. The expenditure incurred has therefore been carried forward as an asset in accordance with the consolidated entity's accounting policy.

**Note 3. Operating segments***Identification of reportable operating segments*

The consolidated entity is organised into one operating segment being exploration operations. This operating segment is based on the internal reports that are reviewed and used by the Board of Directors (who are identified as the Chief Operating Decision Makers ('CODM')) in assessing performance and in determining the allocation of resources.

## Notes to the financial statements

### 30 June 2018

#### Note 4. Revenue

|                                    | Consolidated |        |
|------------------------------------|--------------|--------|
|                                    | 2018         | 2017   |
|                                    | \$           | \$     |
| <b>From continuing operations</b>  |              |        |
| <i>Other revenue</i>               |              |        |
| Interest                           | 29,759       | 24,013 |
| Rent income                        | 93,562       | 31,407 |
| Revenue from continuing operations | 123,321      | 55,420 |

#### Note 5. Listing expense on reverse acquisition

|                 | Consolidated |           |
|-----------------|--------------|-----------|
|                 | 2018         | 2017      |
|                 | \$           | \$        |
| Listing expense | -            | 1,825,364 |

The steps for calculating the acquisition account items reflect the following rationale:

- East Exploration Pty Ltd ("East Exploration") is deemed to make a share-based payment to acquire the existing shareholders' interest in the net assets of Davenport Resources Ltd ("Davenport Resources") following the Acquisition;
- The total consideration deemed to be paid by East Exploration at the Acquisition (by way of the share-based payment) is calculated as follows:
  - Nature of deemed consideration – shares in East Exploration;
  - Value of East Exploration shares – cannot be determined as no active market for East Exploration shares at time of acquisition;
  - Therefore assess value of East Exploration shares deemed to be issued by reference to the fair value of Davenport Resources assets acquired;
  - Fair value of Davenport Resources assets acquired (number of Davenport Resources shares on issue prior to Acquisition being 12,000,262 multiplied by the fair value of each Davenport Resources immediately prior to Acquisition being \$0.20) (20 cents).

As the shares of Davenport Resources were not being traded at the time of the Acquisition there was no active market for those shares. Accordingly the fair values of the shares was determined as 20 cents per share, this being the price at which Davenport Resources shares had been issued pursuant to the Replacement Prospectus dated 24 October 2016 (as amended by the first and second supplementary prospectus), which was the last transaction for Davenport Resources shares immediately prior to the Acquisition.

The total consideration deemed to be paid by East Exploration was then compared to the net assets of Davenport Resources at the Acquisition, as calculated below. The excess of the consideration paid over the value of the net assets of Davenport Resources is expensed as a listing fee in the consolidated statement of profit or loss and other comprehensive income.

## Notes to the financial statements

30 June 2018

**Note 5. Listing expense on reverse acquisition (continued)****Calculation of listing expense on reverse acquisition**

|   | 2018 | Consolidated<br>2017 |
|---|------|----------------------|
| Deemed fair value of consideration shares paid on acquisition (12,000,262 fully paid ordinary shares @ \$0.20 (20 cents)) | -    | 2,400,052            |
| Cash and cash equivalents   | -    | (268,716)            |
| Trade and other receivables   | -    | (161,979)            |
| Prepayments   | -    | (74,944)             |
| Other financial assets  | -    | (330,000)            |
| Property, plant and equipment   | -    | (11,226)             |
| Trade and other payables  | -    | 219,506              |
| Current tax liabilities   | -    | 40,671               |
| Provisions  | -    | 12,000               |
| Listing expense recognised on reverse acquisition   | -    | 1,825,364            |

**Note 6. Income tax expense***Numerical reconciliation of income tax expense and tax at the statutory rate*

## Loss before income tax expense from continuing operations

|  |           |           |
|--|-----------|-----------|
| Tax at the statutory tax rate of 27.5% (2017: 27.5%)                                 | 390,190   | 763,251   |
| Tax effect amounts which are not deductible/(taxable) in calculating taxable income: |           |           |
| Non-deductible expenses  | (2,180)   | (458)     |
| Listing fee expense  | -         | (501,975) |
| Share based payments   | (36,276)  |           |
| Tax losses not brought into account  | (351,734) | (220,147) |
| Income tax expense   | -         | 40,671    |
| Current tax expense  | (351,734) | 40,671    |
| Deferred tax expense   | 351,734   | -         |
| Income tax expense   | -         | 40,671    |
| Tax assets not recognised at 27.5% (2017: 27.5%)                                     | -         | -         |
| Unused tax losses for which no deferred tax asset has been recognised                | 475,391   | 134,756   |
| Temporary differences  | 164,942   | 268,142   |
| Potential tax benefit  | 640,333   | 402,898   |

The above potential tax benefit for tax losses and temporary differences has not been recognised in the statement of financial position. Tax losses can only be utilised in the future if the continuity of ownership test is passed, or failing that, the same business test is passed. The above potential tax benefit not recognised relates to activities from the Australian operations only.

## Notes to the financial statements

### 30 June 2018

#### Note 7. Current assets - cash and cash equivalents

|              | 2018<br>\$ | Consolidated<br>2017<br>\$ |
|--------------|------------|----------------------------|
| Cash at bank | 721,862    | 4,318,245                  |

#### Note 8. Current assets - trade and other receivables

|                                   | 2018<br>\$ | Consolidated<br>2017<br>\$ |
|-----------------------------------|------------|----------------------------|

| Balance                              | 30 June 2017   | 33,854,167 | - | 33,854,167 |

#### Milestone 1

The Milestones for the first performance shares are as follows:

The announcement to ASX by Davenport within four (4) years after 9 January 2017 of the first JORC Code compliant inferred resources of one of the following:

- (a) 250 million tonnes of potash at or above 11.0% K<sub>2</sub>O by content, or

## Notes to the financial statements

### 30 June 2018

#### Note 13. Equity - issued capital (continued)

- (b) 150 million tonnes of potash at or above 12.0% K<sub>2</sub>O by content, or
- (c) 100 million tonnes of potash at or above 13.0% K<sub>2</sub>O by content, or
- (d) 75 million tonnes of potash at or above 15.0% K<sub>2</sub>O by content, or
- (e) 50 million tonnes of potash at or above 18.0% K<sub>2</sub>O by content.

#### Milestone 2

The Milestone for the second performance shares are as follows:

The announcement to ASX by Davenport within five (5) years after 9 January 2017 of satisfaction of all mining approvals and utility contracts required to construct and operate a minimum 500,000 tonnes per annum potash mine on the South Harz Project (including all government approvals, water and energy contracts necessary to operate the mine).

#### Ordinary shares

Ordinary shares entitle the holder to participate in dividends and the proceeds on the winding up of the company in proportion to the number of and amounts paid on the shares held. The fully paid ordinary shares have no par value.

On a show of hands every member present at a meeting in person or by proxy shall have one vote and upon a poll each share shall have one vote.

#### Share buy-back

There is no current on-market share buy-back.

#### Capital risk management

The consolidated entity's objectives when managing capital are to safeguard its ability to continue as a going concern, so that it can provide returns for shareholders and benefits for other stakeholders and to maintain an optimum capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the consolidated entity may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

The consolidated entity would look to raise capital when an opportunity to invest in a business or company was seen as value adding relative to the current parent entity's share price at the time of the investment. The consolidated entity is not actively pursuing additional investments in the short term as it continues to integrate and grow its existing businesses to maximise synergies.

#### Note 14. Equity - reserves

|                                      | Consolidated   |              |
|--------------------------------------|----------------|--------------|
|                                      | 2018           | 2017         |
|                                      | \$             | \$           |
| Foreign currency translation reserve | 128,415        | (783)        |
| Performance rights reserve           | 84,911         | -            |
|                                      | <u>213,326</u> | <u>(783)</u> |

#### Foreign currency reserve

The reserve is used to recognise exchange differences arising on translation of the financial statements of foreign subsidiaries recorded in their functional currency (EURO) into presentation currency at balance date.

## Notes to the financial statements

30 June 2018

## Equity – reserves (continued)

*Performance rights reserve*

The reserve is to recognise the fair value of share-based remuneration granted under the Company's Employee Security Ownership Plan

**Note 15. Equity - Options**

Set out below are details of options on issue:

2018

| Grant date | Expiry date | Exercise price | Balance at the start of the year | Other | Issued on IPO costs | Expired | Balance at the end of the year |
|------------|-------------|----------------|----------------------------------|-------|---------------------|---------|--------------------------------|
| 19/01/2017 | 20/01/2020  | \$0.25         | -                                | -     | 6,158,000           | -       | 6,158,000                      |

There were no movements on options since the previous financial year

**Note 16. Share-based payments***Performance Rights*

During the year, 6,250,000 Performance Rights were issued to Directors and Officers at a gross transactional value of \$568,876 as identified in key management personnel disclosures in the remuneration report in the Directors' Report.

An Employee Security Ownership Plan was established by the Company and approved by shareholders at a general meeting held in September 2016, whereby the Company may grant rights over ordinary shares in the Company to Directors and Officers of the consolidated entity.

Set out below are summaries of Performance Rights granted under the plan:

2018

| Grant date | Type     | Expiry date | Granted          | Balance at the end of the year | Probability of Vesting | Fair Value \$  | Expensed \$   |
|------------|----------|-------------|------------------|--------------------------------|------------------------|----------------|---------------|
| 10/04/2018 | Series A | 26/04/2019  | 1,875,000        | 1,875,000                      | 75%                    | 165,938        | 35,278        |
| 10/04/2018 | Series B | 26/04/2020  | 1,875,000        | 1,875,000                      | 75%                    | 165,938        | 17,993        |
| 26/04/2018 | Series A | 26/04/2019  | 1,250,000        | 1,250,000                      | 75%                    | 118,500        | 21,103        |
| 26/04/2018 | Series B | 26/04/2020  | 1,250,000        | 1,250,000                      | 75%                    | 118,500        | 10,537        |
|            |          |             | <u>6,250,000</u> | <u>6,250,000</u>               |                        | <u>568,876</u> | <u>84,911</u> |

All Rights were granted over unissued fully paid ordinary shares in the company. Rights vest based on the following performance conditions:

## Series A:

The Company, within 12 months of the date of issue, completing drilling of one (1) hole intersecting the potash horizon of the South Harz project (First Hurdle)

## Notes to the financial statements

### 30 June 2018

#### Note 16. Share-based payments (continued)

##### Series B:

The Company, within 24 months of the date of issue and subject to satisfaction of the First Hurdle, completing drilling of two (2) holes intersecting the potash horizon of the South Harz project (Second Hurdle)

The performance rights in each series above convert automatically upon achievement of the Hurdle applicable to that series without payment of any consideration.

The Performance Rights lapse upon the recipient ceasing to be an officer or executive, subject to the discretion of the Board.

In addition, the Performance Rights will convert automatically to shares upon the occurrence of prescribed events. For the Performance Rights granted during the current financial year, the fair value at the grant date per Right was based on the volume weighted average share price (VWAP) for the 5 business days prior to the grant date.

##### *Ordinary shares*

On 26 April 2018, the Company issued 500,000 fully paid ordinary shares at no cost to Jason Wilkinson, a key management personnel. The shares were issued under the Employee Securities Ownership Plan as part remuneration for services provided by Mr Wilkinson. The shares were valued at \$47,000 at a deemed issued price of \$0.094, being the closing trading price on 20 April 2018, and is disclosed in the remuneration report in the Directors' Report

#### Note 17. Financial instruments

##### *Financial risk management objectives*

The consolidated entity's activities expose it to a variety of financial risks: market risk (including price risk and interest rate risk), credit risk and liquidity risk. The consolidated entity's overall risk management program focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the financial performance of the consolidated entity. Derivatives are not used as trading or other speculative instruments. The consolidated entity uses different methods to measure different types of risk to which it is exposed. These methods include sensitivity analysis in the case of interest rate and other price risks, ageing analysis for credit risk.

Risk management is carried out under policies approved by the Board of Directors ('Board'). These policies include identification and analysis of the risk exposure of the consolidated entity and appropriate procedures, controls and risk limits.

##### *Credit risk*

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the consolidated entity. The consolidated entity has a strict code of credit. The consolidated entity obtains guarantees where appropriate to mitigate credit risk. The maximum exposure to credit risk at the reporting date to recognised financial assets is the carrying amount, net of any provisions for impairment of those assets, as disclosed in the statement of financial position and notes to the financial statements. The consolidated entity does not hold any collateral.

An impairment charge of \$22,867 has been recognised in relation to trade receivables for the previous financial year

##### *Fair value of financial instruments*

Unless otherwise stated, the carrying amounts of financial instruments reflect their fair value. The carrying amounts of trade receivables and trade payables are assumed to approximate their fair values due to their short-term nature.

## Notes to the financial statements

### 30 June 2018

#### Note 18. Key management personnel disclosures

##### *Directors*

The following persons were directors of Davenport Resources Limited during the financial year:

Mr Patrick McManus  
Dr Chris Gilchrist  
Mr Chris Bain  
Mr Rory Luff

##### *Other key management personnel*

The following persons also had the authority and responsibility for planning, directing and controlling the major activities of the consolidated entity, directly or indirectly, during the 2018 financial year:

Mr Jason Wilkinson – project director, appointed full-time on 27 December 2017, previously consulting project director.

Mr Rajan Narayanasamy – company secretary.

##### *Compensation*

The aggregate compensation made to directors and other members of key management personnel of the consolidated entity is set out below:

|                              | <b>Consolidated</b> |                |
|------------------------------|---------------------|----------------|
|                              | <b>2018</b>         | <b>2017</b>    |
|                              | <b>\$</b>           | <b>\$</b>      |
| Short-term employee benefits | 675,656             | 277,234        |
| Post-employment benefits     | 11,083              | 5,935          |
| Share-based payments         | 131,911             | -              |
|                              | <u>818,650</u>      | <u>283,169</u> |

#### Note 19. Remuneration of auditors

During the financial year the following fees were paid or payable for services provided by the auditor of the company:

|   | <b>Consolidated</b> |               |
|---|---------------------|---------------|
|   | <b>2018</b>         | <b>2017</b>   |
|   | <b>\$</b>           | <b>\$</b>     |
| Audit or review of the financial statements | 29,800              | 24,500        |
| Other audit services                        | -                   | 21,950        |
|   | <u>29,800</u>       | <u>46,450</u> |

## Notes to the financial statements

30 June 2018

**Note 20. Contingent liabilities**

The consolidated group has guaranteed a rental bond for leased premises. At 30 June 2018 the extent of possible consolidated group exposure is \$104,212 (2017: \$104,212).

The lease expired on 31 July 2018 and was not renewed. On 27 August 2018, the Company settled with the landlord the Company's make good obligations for \$56,418.50 (excluding GST), with the guarantee for the rental bond subsequently released.

**Note 21. Commitments**

|   | <b>Consolidated</b> |                |
|---|---------------------|----------------|
|   | <b>2018</b>         | <b>2017</b>    |
|   | <b>\$</b>           | <b>\$</b>      |
| <i>Exploration expenditure</i>  |                     |                |
| Committed at the reporting date but not recognised as liabilities, payable: |                     |                |
| Within one year   | 89,650              | 217,022        |
|   | <u>89,650</u>       | <u>217,022</u> |
| <i>Operating leases</i>   |                     |                |
| Committed at the reporting date but not recognised as liabilities, payable: |                     |                |
| Within one year   | 25,724              | 159,512        |
| One to five years   | -                   | 15,796         |
|   | <u>25,724</u>       | <u>175,308</u> |

If the consolidated entity decides to relinquish certain exploration leases and/or does not meet its obligations, assets recognised in the statement of financial position may require review to determine the appropriateness of the carrying values. The sale, transfer and/or farm-out of explorations rights to third parties will reduce or extinguish these obligations.

Operating lease commitments are the non-cancellable operating lease on office space at Level 14, 31 Queen Street, Melbourne. This lease is effective from 1 August 2015 for a three-year term. Included in lease commitments and with effect from September 2017, is a lease entered into for 12 months for premises occupied by the Company at a business centre. At the same time, the Company sub-leased the larger premises at 31 Queen Street, Melbourne. The lease at the business centre was extended to expire in December 2018.

**Note 22. Related party transactions***Parent entity*

Davenport Resources Limited is the parent entity.

| Reserves                  | 84,911      | -           |
| Accumulated losses        | (2,208,270) | (1,216,514) |
| Total equity              | 3,620,128   | 4,446,973   |

##### *Contingent liabilities*

The parent entity contingent liabilities as at 30 June 2018 and 30 June 2017 are disclosed in Note 20.

##### *Commitments*

Commitments of the parent are identical to those of the consolidated entity as disclosed in Note 21.

##### *Significant accounting policies*

The accounting policies of the parent entity are consistent with those of the consolidated entity, as disclosed in note 1, except for the following:

- Investments in subsidiaries are accounted for at cost, less any impairment

## Notes to the financial statements

30 June 2018

**Note 24. Subsidiaries**

The consolidated financial statements incorporate the assets, liabilities and results of the following subsidiaries in accordance with the accounting policy described in note 1:

| Name of entity           | Country of incorporation | Equity holding |           |
|--------------------------|--------------------------|----------------|-----------|
|                          |                          | 2018<br>%      | 2017<br>% |
| East Exploration Pty Ltd | Australia                | 100.00         | 100.00    |
| East Exploration GmbH    | Germany                  | 100.00         | 100.00    |

Effective 9 January 2017, the Company acquired 100% of the issued capital of East Exploration Pty Ltd ("East Exploration"), completed a capital raising of \$5.11 million (before costs) at 20 cents per share and listed on the Australian Stock Exchange ("ASX") on 20 January 2017. East Exploration holds two exploration licences in Germany, together with three mining licences acquired in the current financial year, in the region referred to as the South Harz Project through a wholly owned and controlled German subsidiary.

**Note 25. Events after the reporting period**

- i. On 5 July 2018, the Company issued 26,496,700 fully paid ordinary shares at \$0.07 each under an Initial Placement raising \$1,854,769 before costs, of which \$1,840,769 were received in June 2018 and included the 30 June 2018 Statement of financial position as 'Monies held in trust – share applications'.
- ii. On 27 July 2018, the Company issued 4,085,693 fully paid ordinary shares at \$0.07 each to subscribers of a share purchase plan raising \$286,000 before costs.
- iii. On 11 September 2018, the Company issued 3,853,571 fully paid ordinary shares at \$0.07 each under a Second Placement (2,425,000 shares) and a placement (1,428,571 shares) to Rory Luff, a director of the Company, raising \$269,750 before costs. The shares were issued after obtaining shareholder approval at a general meeting held on 30 August 2018.
- iv. On 11 September 2018, the Company issued, and obtained official quotation, 33,221,680 options exercisable at \$0.20 each, expiring 31 July 2023. The options were issued to eligible participants in the capital raising described in (i) to (iii) above who applied for the options pursuant to a prospectus dated 17 July 2018

No other matters or circumstance has arisen since 30 June 2018 that has significantly affected, or may significantly affect the consolidated entity's operations, the results of those operations, or the consolidated entity's state of affairs in future financial years.

## Notes to the financial statements

| (Increase) in trade and other receivables   | (1,167)            | (40,512)         |
| Decrease in prepayments                     | 6,798              | 38,752           |
| (Decrease) in tax liability                 | (42,846)           | (40,671)         |
| Increase in trade and other payables        | 16,920             | 28,184           |
| Increase in provisions                      | -                  | 50,000-          |
| Net cash used in operating activities       | <u>(1,325,615)</u> | <u>(588,707)</u> |

#### Note 27. Non-cash investing and financing activities

##### *Acquisition of Controlled Entities*

Effective 9 January 2017, the Company acquired 100% of the issued capital of East Exploration Pty Ltd (“East Exploration”), completed a capital raising of \$5.11 million (before costs) at 20 cents per share and listed on the Australian Stock Exchange (“ASX”) on 20 January 2017. East Exploration holds two exploration licences in Germany, referred to as the South Harz Project, through a wholly owned and controlled German subsidiary.

The acquisition of East Exploration (the legal subsidiary) by the Company (the legal parent) is deemed to be a reverse acquisition, since the substance of the transaction is such that the former shareholders of East Exploration have obtained substantial control of the Company.

Notes to the financial statements  
30 June 2018

**Note 28. Earnings per share**

|   | <b>Consolidated</b> |                    |
|---|---------------------|--------------------|
|   | <b>2018</b>         | <b>2017</b>        |
|   | <b>\$</b>           | <b>\$</b>          |
| <i>Earnings per share from continuing operations</i>  |                     |                    |
| Loss after income tax attributable to the owners of Davenport Resources Limited                     | <u>(1,418,872)</u>  | <u>(2,738,788)</u> |
| Weighted average number of ordinary shares used in calculating basic and diluted earnings per share | <u>82,571,229</u>   | <u>48,502,427</u>  |
| Basic earnings per share  | (1.72)              | (5.64)             |
| Diluted earnings per share  | (1.72)              | (5.64)             |

In accordance with the principles of reverse acquisition accounting, the weighted average number of ordinary shares outstanding during the period ended 30 June 2017 has been calculated as the weighted average number of ordinary shares of Davenport Resources Limited outstanding during the period before acquisition multiplied by the exchange ratio established in the acquisition accounting, and the actual number of ordinary shares of Davenport Resources Limited outstanding during the period after acquisition.

Directors' declaration  
30 June 2018

In the directors' opinion:

- the attached financial statements and notes thereto comply with the Corporations Act 2001, the Accounting Standards, the Corporations Regulations 2001 and other mandatory professional reporting requirements;
- the attached financial statements and notes thereto comply with International Financial Reporting Standards as issued by the International Accounting Standards Board as described in note 1 to the financial statements;
- the attached financial statements and notes thereto give a true and fair view of the consolidated entity's financial position as at 30 June 2018 and of its performance for the financial year ended on that date; and
- there are reasonable grounds to believe that the company will be able to pay its debts as and when they become due and payable.

The directors have been given the declarations required by section 295A of the Corporations Act 2001.

Signed in accordance with a resolution of directors made pursuant to section 295(5) of the Corporations Act 2001.

On behalf of the directors

**INDEPENDENT AUDITOR'S REPORT  
TO THE MEMBERS OF DAVENPORT RESOURCES LIMITED**

**Opinion**

We have audited the accompanying financial report of Davenport Resources Limited and its subsidiaries (the Group), which comprises the consolidated statement of financial position as at 30 June 2018, and the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, and the directors' declaration.

In our opinion the financial report of the Group is in accordance with the *Corporations Act 2001*, including:

- (a) giving a true and fair view of the Group's financial position as at 30 June 2018 and of its performance for the year then ended; and
- (b) complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

**Basis for Opinion**

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Report section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

**Key Audit Matters**

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

**INDEPENDENT AUDITOR'S REPORT  
TO THE MEMBERS OF DAVENPORT RESOURCES LIMITED (Continued)**

| Key audit matter  | How our audit addressed the key audit matter  |
|---|---|
| <b>Capitalisation of exploration expenditures</b><br><i>Refer to Note 1 and Note 11 "Non-current Assets"</i>  |   |
| <p>This is a key audit matter due to:</p> <ul style="list-style-type: none"> <li>Davenport and its controlled entities incurred significant amount of exploration costs which were capitalised during the year.</li> <li>As a result, the capitalised exploration and evaluation expenditure were required to be considered for impairment indicators in accordance with AASB 6 Exploration for and Evaluation of Mineral Resources.</li> </ul> | <p>Our procedures included, amongst others:</p> <ul style="list-style-type: none"> <li>Obtain schedules of the areas of interest held by the Group and assessing whether the rights to tenure remain current at balance date;</li> <li>Review the Company's capitalisation of exploration expenditures in the current year, ensuring that it is consistent with the criteria as stated under AASB 6. This included discussions with management, reviewing Group exploration budgets, ASX announcements and director's minutes</li> <li>Review and noted details of exploration costs and ensure that these costs are allowed to be capitalised in accordance with AASB 6 and consider whether any facts or circumstances existed to suggest impairment testing was required.</li> </ul> |

**Other Information**

The directors are responsible for the other information. The other information comprises the information included in the Group's annual report for the year ended 30 June 2018, but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

## **INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF DAVENPORT RESOURCES LIMITED (Continued)**

### **Responsibilities of the Directors for the Financial Report**

The directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

### **Auditor's Responsibilities for the Audit of the Financial Report**

Our responsibility is to express an opinion on the financial report based on our audit. Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit.

We identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

We obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.

We evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.

**INDEPENDENT AUDITOR'S REPORT  
TO THE MEMBERS OF DAVENPORT RESOURCES LIMITED (Continued)**

We conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

We evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

We obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the financial report. We are responsible for the direction, supervision and performance of the Group audit. We remain solely responsible for our audit opinion.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the financial report of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

**INDEPENDENT AUDITOR'S REPORT  
TO THE MEMBERS OF DAVENPORT RESOURCES LIMITED (Continued)**

**Report on the Remuneration Report**

**Opinion on the Remuneration Report**

We have audited the Remuneration Report included in pages 6 to 12 of the directors' report for the year ended 30 June 2018.

In our opinion, the Remuneration Report of Davenport Resources Limited, for the year ended 30 June 2018, complies with section 300A of the *Corporations Act 2001*.

**Responsibilities**

The directors of the company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.
