### **AVA Appendix 4C**

- Quarter on quarter improvement in revenues and cash flows
- Consolidated cash position of \$3.9m, with no debt
- One-off cash flows relating to AVA and MSP share buybacks of \$0.1m

Ava Risk Group Limited (ASX: AVA), a market leader of risk management services and technologies, today released its Appendix 4C for the quarter ended 30 September 2018.

Net operating cash flows were negative \$1.3m for the quarter, a \$200k improvement on the previous quarter. Cash receipts from customers were \$7.3m for the quarter, a \$900k increase on the previous quarter.

At 30 September 2018 the Company has \$4.0m cash at bank and no debt.

Gross forecast cash outflows of around \$8.9m are expected for next quarter, a reflection of increasing product manufacturing costs due to the anticipated revenue growth in the quarter. This excludes cash inflows from customer payments and government R&D rebates .

Ava Group Chief Executive, Chris Fergus said: "Ava's strategic growth plans are progressing well with recent customer wins providing additional confidence in our FY2019 performance. Ava's first quarter revenue and cash flow was broadly in line with expectations. The timing of cash flow receipts was impacted by the lower Q4 FY2018 revenue and the timing of invoicing being weighted towards end of quarter. The Company's investment in its sales & marketing capability has created a strong platform for growth in FY19 and beyond."
