## Vodafone Enables Recording for Fixed and Mobile in New Zealand

- Dubber platform fully integrated with Vodafone One Business Unified Service
- Dubber also added to Vodafone NZ's Ready Government Solutions Suite
- Combined Dubber/Vodafone Solutions demonstrated at Cisco BroadSoft's global user conference, BroadSoft Connections 2018, in Miami, Florida
- Dubber Services available on Vodafone's Fixed, Unified Communications (UC) and Mobile ("FMC"- Fixed-mobile convergence) Networks
- Vodafone NZ Customers Currently Live on the Dubber Platform

Dubber Corporation Limited (ASX: DUB) is pleased to announce that it is providing its call recording and analytics suite to Vodafone New Zealand for fixed and mobile services.

The Vodafone One Business service sees Dubber's call recording platform powering call recording for both fixed and mobile solutions as part of Vodafone's Fixed Mobile Convergence (FMC) strategy.

The recording service also forms part of Vodafone's 'Ready Government' programme.

### **Steve McGovern, CEO Dubber:**

"Vodafone's strategy has been at the forefront of innovation in the Unified Communications sector. The Fixed Mobile Convergence model provides a substantial opportunity for Dubber via expanded user cases, particularly for mobile users, a sector where Vodafone has substantial market share."

## **Glenn Johnstone, CEO Vodafone Next Generation Services:**

“We adopted Dubber’s platform because it uniquely meets the requirements of the telecommunications sector. The Vodafone recording service brings new functionality for our customers, such as the ability to record a mobile call on demand, a capability which has widespread opportunities across many of our market sectors. It demonstrates Vodafone’s commitment to providing easy to use, world class solutions for our customers.”

## **About Dubber:**

Dubber is the world’s most scalable call recording service which has been adopted as core network infrastructure by multiple global leading telecommunications carriers in North America, Europe and Asia Pacific. Dubber is a disruptive innovator in the multi-billion dollar call recording industry, its Software as a Service offering removes the need for hardware, productization or capital expenditure.

As the telecommunications sector moves towards Cloud services, Dubber has also been chosen by BroadSoft, Inc. for its global leading Cloud telecommunications platform, BroadCloud, as the recording and voice data capture service for its network of telecommunications Service Provider Customers.

Dubber provides the opportunity for the capture of voice data across these networks enabling further monetising opportunities, in addition to regulatory compliance, in the areas of analytics, artificial intelligence and ‘Big Data’ - expanding the potential market for call recording to every phone.
