                                                                      ASX: GLH

Justice Health Victoria signs up for MasterCare EMR

Global Health are pleased to announce the execution of a contract with Justice Health Victoria for the deployment of Global Health's MasterCare Electronic Medical Record (EMR).

Justice Health is a business unit of the Department of Justice & Community Safety responsible for the delivery of health services for persons in the Youth Justice Custodial and adult Correctional space in Victoria.

The initial deployment of MasterCare will support the clinical workflow of the mental health services, primary care, alcohol and drug services for persons in justice centres in Malmsbury, Parkville and other community outlets around Melbourne across the Youth Justice sector.

MasterCare EMR comprises of a complete Electronic Medical Record and Practice Management solution with integration to MasterCare Data Warehouse for data analytics and ReferralNet for the secure exchange of clinical documents with external colleagues.

MasterCare EMR's Product Manager, Kye Cherian said "It is validating to see our framework stand-up with such a broad scope in tight timelines, but it's important to note that our project with Justice Health does not end here. Global Health and Justice Health are committed to continuing the partnership in order to further improve client care and data capture to support the continued improvement of Youth Justice Health services in Victoria."

The agreement is for a minimum term of 3 years with two further extension options.

MasterCare EMR will be used by Justice Health clinicians to manage the assessment and management plans of clients, along with the monitoring and measuring of on-going service activity outcomes.

The increased efficiency of data collection in the course of clinical service delivery in MasterCare EMR has resulted in a wide range of benefits including ease of reporting and much decreased duplication of work.
