

ASX ANNOUNCEMENT, 12th February 2019

Capital Raising – Share Purchase Plan Completion

Vivid Technology Limited (ASX: VIV) (Vivid Technology or the Company)

Further to Company's announcement on 23 January 2019, the Company has now closed the Share Purchase Plan (SPP) offer for fully paid ordinary shares in Vivid Technology to existing eligible shareholders, raising \$0.21 million.

Combined with the previous Equity Placement to sophisticated investors announced on 19 December 2018, the company has raised a total of \$2.066 million (before costs) from the recent Capital Raising initiatives.

The SPP offered eligible shareholders the opportunity to acquire up to \$15,000 of new fully paid ordinary shares in Vivid Technology without incurring brokerage or other charges.

The success of both the SPP and the Equity Placement highlights the continued investor interest and acknowledgement of the company's technology and capability to scale up and grow across a range of customers, in differing market segments and geographies, from shareholders and the Directors alike.

The company would once again like to thank all existing and new shareholders for their support and will look forward to continuing to provide updates on our progress.
