A. CHAIRMAN'S LETTER

17 May 2019

NOT FOR DISTRIBUTION OR RELEASE IN THE UNITED STATES

Dear Shareholder,

On behalf of the directors of St Barbara Limited (**St Barbara**), I am pleased to invite you to participate in a 1-for-3.1 pro-rata accelerated non-renounceable entitlement offer of new fully paid ordinary shares in St Barbara (**New Shares**) at an offer price of \$2.89 (**Offer Price**) per New Share to raise approximately \$490 million (**Entitlement Offer**). The Entitlement Offer is underwritten.

The proceeds of the Entitlement Offer are intended to be used to partially fund the acquisition by St Barbara of Atlantic Gold Corporation (**Atlantic**) by way of a court-approved Canadian plan of arrangement (**Acquisition**).

The Acquisition

St Barbara has entered into, through its wholly owned subsidiary Nord Pacific Ltd., a Canadian Plan of Arrangement Agreement with Atlantic. Atlantic (TSX-V:AGB) is a TSX-listed low cost gold producer, which owns and operates Moose River Consolidated (**MRC** or **Moose River**) in Nova Scotia, Canada.

Moose River comprises one producing open-pit (Touquoy) and three others in development (Beaver Dam, Fifteen Mile Stream and Cochrane Hill). Moose River declared commercial production in March 2018 and produced 91 koz in CY18 from Touquoy at an AISC of C\$731/oz (A\$761/oz), with planned expansion of production to 200+ koz as the other three pits are developed. MRC has mineral resources of 2.4 Moz inclusive of mineral reserves of 1.9 Moz.

St Barbara will acquire 100% of all outstanding Atlantic shares (on a fully diluted basis) at an all cash offer price of C\$2.90 per Atlantic share, implying a total equity value of C\$722 M (A\$768 M)¹ and a total enterprise value of C\$802 M (A\$854 M).² This represents an attractive acquisition cost per ounce of reserves of C\$428/oz (A\$455/oz). The Acquisition excludes Atlantic's 36% interest in Velocity Minerals Ltd. (TSX-V: VLC) (market value C\$9 M (A\$9 M)), which will be spun out to existing Atlantic shareholders following completion.

Further information about the Acquisition, including its strategic and financial benefits, is in St Barbara's market release and investor presentation lodged with the ASX on Wednesday, 15 May 2019 (**Investor Presentation**), which is included in Section 4 of this Offer Booklet.

The Acquisition is subject to customary closing conditions, including regulatory and shareholder approvals, and is expected to be completed in July 2019.

Entitlement Offer

The Entitlement Offer comprises an institutional component (**Institutional Entitlement Offer**) and a retail component (**Retail Entitlement Offer**), as announced on Wednesday, 15 May 2019.

Under the Retail Entitlement Offer, Eligible Retail Shareholders (as defined in Section 1.2) are being offered the opportunity to subscribe for 1 New Share for every 3.1 existing fully paid ordinary shares in St Barbara (**Shares**) held at 7.00pm (AEST) on Friday, 17 May 2019 (**Record Date**), at the Offer Price of \$2.89 per New Share, which is the same price as paid by the institutional investors who participated in the Institutional Entitlement Offer. The Offer Price of \$2.89 per New Share represents an approximate 13% discount to the closing share price of \$3.32 on Tuesday, 14 May 2019 and a 10.1% discount to the theoretical ex-rights price (**TERP**) of A\$3.22 as at Tuesday, 14 May 2019.³

¹ Based on 236.9 million Atlantic shares outstanding and 20.5 million options outstanding valued at C\$35.0m based on Intrinsic Value on the C\$2.90 per share offer price.

² Enterprise value based upon Atlantic debt of C\$116.5 M and cash of C\$36.1 M.

³ TERP is the theoretical price at which St Barbara shares should trade after the ex-date for the Entitlement Offer. TERP is a theoretical calculation only based on St Barbara's share price of A\$3.32 as at market close on 14 May 2019 and the actual price at which St Barbara shares trade immediately after the ex-date for the Entitlement Offer will depend on many factors and may not be equal to TERP.

Under the Retail Entitlement Offer, Eligible Retail Shareholders that take up their full Entitlement may also apply for additional New Shares in excess of their Entitlement, up to a maximum of 25% of their Entitlement, at the Offer Price (**Oversubscription Facility**). Additional New Shares will only be available under the Oversubscription Facility to the extent that there are Entitlements under the Retail Entitlement Offer that are not taken up by Eligible Retail Shareholders. Applications under the Oversubscription Facility will be subject to scale back if Eligible Retail Shareholders apply for more additional New Shares than available under the Oversubscription Facility (see Section 2.2 of this Offer Booklet for further information). Directors of St Barbara are not entitled to participate in the Oversubscription Facility.

The Entitlement Offer is non-renounceable and the Entitlements will not be tradeable on the ASX or otherwise transferable. Shareholders who do not take up their Entitlement in full will not receive any value in respect of those Entitlements they do not take up. I encourage you to consider this offer carefully.

Any New Shares not taken up by the Closing Date may be made available to those Eligible Retail Shareholders who took up their full Entitlement and applied for additional New Shares under the Oversubscription Facility at the Offer Price, up to a maximum of 25% of their Entitlement. There is no guarantee that Eligible Retail Shareholders will receive the number of additional New Shares applied for under the Oversubscription Facility, or any. Additional New Shares will only be allocated to Eligible Retail Shareholders under the Oversubscription Facility if available and then only if and to the extent that St Barbara so determines, in its absolute discretion. Any scale-back will be applied by St Barbara in its absolute discretion. Directors of St Barbara are not entitled to participate in the Oversubscription Facility.

Note: The Entitlement stated on your personalised Entitlement and Acceptance Form may be in excess of the actual Entitlement you may be permitted to take up; for example, you are not permitted to take up an Entitlement to the extent you are holding Shares for the account or benefit of a person in the United States (see definition of Eligible Retail Shareholders in Section 1.2 of this Offer Booklet).

1.4 **Can you trade your Entitlement?**

Your Entitlement is personal and cannot be traded on ASX, transferred, assigned or otherwise dealt with. If you do not take up your entitlement by the Closing Date, being 5.00pm (AEST) on Tuesday, 4 June 2019, your rights will lapse.

By allowing your Entitlement to lapse you will forgo any exposure to increases or decreases in the value of the New Shares had you taken up your Entitlement. Your interest in St Barbara will also be diluted.

1.5 **Reconciliation**

The Entitlement Offer is a complex structure and in some instances investors may believe that they will own more Shares in St Barbara than they actually do on the Record Date. This results in a need for reconciliation. If reconciliation is required, it is possible that St Barbara may need to issue a small quantity of additional New Shares (**Top-Up Shares**) to ensure all Eligible Shareholders receive their full Entitlement.

These Top-Up Shares would be issued at the Offer Price.

1.6 **ASX quotation**

Subject to approval being granted, quotation of the New Shares is expected to commence on:

- Monday, 27 May 2019 for New Shares issued under the Institutional Entitlement Offer (on a normal settlement basis); and
- Thursday, 13 June 2019 for New Shares issued under the Retail Entitlement Offer (on a normal settlement basis).

Holding statements will be despatched in accordance with the Listing Rules. It is the responsibility of each applicant to confirm their holding before trading in New Shares. Any applicant who sells New Shares before receiving confirmation of their holding in the form of a holding statement will do so at their own risk. St Barbara and the Underwriter disclaim all liability (to the maximum extent permitted by law) to persons who trade New Shares before receiving their holding statements, whether on the basis of confirmation of the allocation provided by St Barbara, the Underwriter or the Share Registry or otherwise.

1.7 **Ineligible Retail Shareholders**

All Shareholders who are not Eligible Retail Shareholders, Eligible Institutional Shareholders or Ineligible Institutional Shareholders are ineligible Retail Shareholders (**Ineligible Retail Shareholders**). Ineligible Retail Shareholders will not be entitled to participate in the Retail Entitlement Offer.

St Barbara has determined that it would be unreasonable on this occasion to extend the Retail Entitlement Offer to Ineligible Retail Shareholders, having regard to the number of securities held by Ineligible Retail Shareholders, the number and value of New Shares that they would be offered and the costs of complying with the legal and regulatory requirements which would apply to an offer of securities to Ineligible Retail Shareholders in those places.

1.8 **Restrictions on exercise of Entitlements**

The Entitlements may not be taken up or exercised by persons in the United States or by persons who are acting for the account or benefit of persons in the United States.

In order to take up or exercise those Entitlements and subscribe for New Shares you:

- must be an Eligible Retail Shareholder; and
- must not be in the United States or acting for the account or benefit of a person in the United States.

In the event that holders are not able to take up their Entitlements, those Entitlements will be offered for sale in the Oversubscription Facility and holders may receive no value for them.

1.9 **Performance Rights holders**

As at the date of this Offer Booklet, St Barbara has 2,969,089 Performance Rights on issue.

Performance Rights holders are not entitled to participate in the Entitlement Offer in respect of their Performance Rights, unless their Performance Rights convert and they are registered as the holder of the resulting Shares by the Record Date and satisfy the other criteria detailed in Section 1.2 to be an Eligible Retail Shareholder.

1.10 **Rights of St Barbara in relation to adjustments**

Adjusting Entitlements

St Barbara reserves the right (in its absolute sole discretion) to reduce the number of New Shares allocated to Eligible Retail Shareholders, or persons claiming to be Eligible Retail Shareholders, if their claims prove to be overstated or they fail to provide information to substantiate their claims.

Adjusting for subscriptions in excess of Entitlement

If any Shareholder subscribes under the Entitlement Offer for New Shares in excess of its Entitlement then this amount cannot exceed 25% of the Shareholder's Entitlement and in the absolute discretion of St Barbara and the Underwriter, the relevant Shareholder may be required to transfer to the Underwriter the excess New Shares at the Offer Price of \$2.89.

Acknowledgement

By accepting their Entitlement, Shareholders irrevocably acknowledge and agree to do any of the above as required by St Barbara and the Underwriter in their absolute discretion. Shareholders also acknowledge that:

- there is no time limit on the ability of St Barbara and the Underwriter to require any of the actions set out above; and
- where St Barbara and the Underwriter exercise their right to correct a Shareholder's Entitlement, the Shareholder is treated as continuing to accept or not take up any remaining Entitlement.

2. HOW TO APPLY

2.1 What you may do – choices available

If you have any questions or are uncertain about any aspect of the Entitlement Offer, you should seek advice from your stockbroker, accountant or other independent professional adviser, or call the St Barbara Offer Information Line on 1300 653 935 (from within Australia) or +61 3 9415 4356 (from outside Australia) at any time between 8:30am and 5:00pm (AEST) on Monday to Friday during the Retail Entitlement Offer period. You should also refer to the “Key Risks” section of the Investor Presentation.

The number of New Shares to which Eligible Retail Shareholders are entitled is shown on the accompanying Entitlement and Acceptance Form. If you are an Eligible Retail Shareholder, you may do any one of the following:

- take up all of your Entitlement in full, and if you do so, you may apply for additional New Shares under the Oversubscription Facility (see Section 2.2 of this Offer Booklet);
- take up part of your Entitlement, in which case the balance of the Entitlement would lapse (see Section 2.3 of this Offer Booklet); or
- do nothing and let your Entitlement lapse (see Section 2.4 of this Offer Booklet).

You should note that if you do not take up all or part of your Entitlement, your percentage shareholding in St Barbara will be diluted.

St Barbara reserves the right to reject any Entitlement and Acceptance Form that is not correctly completed or that is received after the Closing Date.

The Closing Date for acceptance of the Retail Entitlement Offer is 5:00pm (AEST) on Tuesday, 4 June 2019 (however, that date may be varied by St Barbara, in accordance with the Listing Rules and the Underwriting Agreement).

2.2 If you wish to take up all of your Entitlement or take up all of your Entitlement and participate in the Oversubscription Facility

If you decide to take up **all** of your Entitlement and you wish to pay by cheque, bank draft or money order you should:

- complete the personalised Entitlement and Acceptance Form by following the instructions set out on the personalised Entitlement and Acceptance Form;
- attach payment for the full amount payable (being the Offer Price multiplied by the number of New Shares comprising your Entitlement) to the form; and
- return the Entitlement and Acceptance Form together with payment to the Share Registry so that it is received by 5.00pm (AEST) on Tuesday, 4 June 2019.

If you wish to take up **all** of your Entitlement and you wish to pay by BPAY® you should make your payment by BPAY® for the full amount payable (being the Offer Price multiplied by the number of New Shares comprising your Entitlement) so that it is received by 5.00pm (AEST) on Tuesday, 4 June 2019. If you choose to pay by BPAY® you are not required to submit the personalised Entitlement and Acceptance Form but are taken to make the statements on that form.

If you apply to take up **all** of your Entitlement, you may also apply for additional New Shares under the Oversubscription Facility at the Offer Price, up to a maximum of 25% of your Entitlement. Any Application Monies received for more than your full Entitlement of New Shares will be treated as applying for as many additional New Shares as it will pay for in full.

Any New Shares referable to Entitlements not taken up by the Closing Date may be made available to those Eligible Retail Shareholders who took up their full Entitlement and applied for additional New Shares under the Oversubscription Facility. If you apply for additional New Shares under the Oversubscription Facility, and if your application is successful (in whole or in part), your additional New Shares will be issued to you at the same time and on the same terms that other New Shares are issued under the Retail Entitlement Offer. If you apply for additional New Shares, there is no guarantee that you will be allocated any additional New Shares.

Additional New Shares will only be allocated to Eligible Retail Shareholders if available, and subject to the Corporations Act, Listing Rules and other applicable laws and regulations. If Eligible Retail Shareholders apply for more additional New Shares than available under the Oversubscription Facility, St Barbara will scale back applications for additional New Shares in its absolute discretion having regard to the pro-rata Entitlement of Eligible Retail Shareholders who apply for additional New Shares. Directors of St Barbara are not entitled to participate in the Oversubscription Facility.

No interest will be paid to applicants on any Application Monies received or refunded. Refund amounts, if any, will be paid in Australian dollars. You will be paid either by direct credit to the nominated bank account as noted on the share register as at the Closing Date or by cheque sent by ordinary post to your address as recorded on the share register (the registered address of the first-named in the case of joint holders). If you wish to advise or change your banking instructions with the Share Registry you may do so by going to www.investorcentre.com and logging into the Investor Centre.

If you take up and pay for your Entitlement before the Closing Date, you will be allotted your New Shares on Wednesday, 12 June 2019. St Barbara's decision on the number of New Shares allotted to you will be final.

2.3 **If you wish to take up part of your Entitlement**

If you decide to take up **part** of your Entitlement and reject the balance and you wish to pay by cheque, bank draft or money order you should:

- complete the personalised Entitlement and Acceptance Form by following the instructions set out on the personalised Entitlement and Acceptance Form indicating the number of New Shares you wish to take up. This will be less than your Entitlement as specified on the Entitlement and Acceptance Form;
- attach payment for the full amount payable (being the Offer Price multiplied by the number of New Shares you are taking up – you will need to calculate this number yourself) to the form; and
- return the Entitlement and Acceptance Form together with payment to the Share Registry so that it is received by 5.00pm (AEST) on Tuesday, 4 June 2019.

If you wish to take up **part** of your Entitlement and reject the balance and you wish to pay by BPAY® you should make your payment by BPAY® for the full amount payable (being the Offer Price multiplied by the number of New Shares you are taking up – you will need to calculate this number yourself). If you choose to pay by BPAY® you are not required to submit the personalised Entitlement and Acceptance Form but are taken to make the statements on that form.

If you take up and pay for your Entitlement before the Closing Date, you will be allotted your New Shares on Wednesday, 12 June 2019. St Barbara's decision on the number of New Shares allotted to you will be final.

2.4 **If you do not wish to take up your Entitlement**

If you do not wish to take up all or any part of your Entitlement, do not take any further action and all or that part of your Entitlement will lapse.

2.5 **Consequences of not taking up all or part of your Entitlement**

If you do not take up all or part of your Entitlement in accordance with the instructions set out above, your Entitlements will lapse and those New Shares for which you would have otherwise been entitled under the Retail Entitlement Offer (including New Shares that relate to the portion of your Entitlement that has not been taken up) may be acquired by Eligible Retail Shareholders under the Oversubscription Facility.

By allowing your Entitlement to lapse, you will forgo any exposure to increases or decreases in the value of the New Shares had you taken up your Entitlement and you will not receive any value for your Entitlement. Your interest in St Barbara will also be diluted to the extent that New Shares are issued under the Entitlement Offer.

2.6 **Payment**

General

The Offer Price of \$2.89 per New Share accepted is payable on acceptance of your Entitlement.

You can pay in the following ways:

- BPAY®; or
- cheque, bank draft or money order.

Cash payments will not be accepted. Receipts for payment will not be issued.

Application Monies received from Eligible Retail Shareholders will be held in the St Barbara Entitlement Offer Account solely for the purpose of holding the Application Monies.

St Barbara reserves the right to cancel the Entitlement Offer at any time prior to the allocation of New Shares under the Institutional Entitlement Offer. If the Entitlement Offer is cancelled, all Application Monies will be refunded without interest. To the fullest extent permitted by law, each Eligible Retail Shareholder agrees that any Application Monies paid by them to St Barbara will not entitle them to any interest against St Barbara and that any interest earned in respect of Application Monies will belong to St Barbara. This will be the case, whether or not all or none (if the Entitlement Offer is withdrawn) of the New Shares applied for by a person are issued to that person.

St Barbara will treat you as applying for as many New Shares as your payment will pay for in full up to your Entitlement, and in respect of any excess amount applying for as many additional New Shares under the Oversubscription Facility as it will pay for in full.

Any Application Monies received for more than your final allocation of New Shares will be refunded as soon as practicable after the close of the Retail Entitlement Offer. No interest will be paid to Applicants on any Application Monies received or refunded.

Payment by BPAY®

For payment by BPAY®, please follow the instructions on the personalised Entitlement and Acceptance Form (which includes the biller code and your unique reference number). You can only make a payment via BPAY® if you are the holder of an account with an Australian financial institution that supports BPAY® transactions.

If you are paying by BPAY®, please make sure to use the specific Biller Code and unique Customer Reference Number on your Entitlement and Acceptance Form. If you have multiple holdings and receive more than one Entitlement and Acceptance Form, when taking up your Entitlement in respect of one of those holdings, please only use the Customer Reference Number specific to the Entitlement on that form. If you do not use the correct Customer Reference Number specific to that holding, or inadvertently use the same Customer Reference Number for more than one of your Entitlements, your application will not be recognised as valid.

Please note that should you choose to pay by BPAY®:

- **you do not need to submit the personalised Entitlement and Acceptance Form** but are taken to have made the statements on that personalised Entitlement and Acceptance Form; and
- if you do not pay for your full Entitlement, you are deemed to have taken up your Entitlement in respect of such whole number of New Shares which is covered in full by your Application Monies.

It is your responsibility to ensure that your BPAY® payment is received by the Share Registry by no later than 5.00pm (AEST) on Tuesday, 4 June 2019 (subject to variation). You should be aware that your financial institution may implement earlier cut-off times with regard to electronic payment and you should therefore take this into consideration when making payment.

Payment by cheque, bank draft or money order

It is your responsibility to ensure that your payment by cheque, bank draft or money order is received by the Share Registry by no later than 5.00pm (AEST) on Tuesday, 4 June 2019. You must ensure that cleared funds are held in your account as your cheque, bank draft or money order will be banked as soon as it is received. You should consider postal and cheque clearance timeframes in order to meet this deadline.

Your cheque, bank draft or money order must be:

- for an amount equal to \$2.89 multiplied by the number of New Shares (and additional New Shares under the Oversubscription Facility, if applicable) that you are applying for;
- in Australian currency drawn on an Australian branch of a financial institution; and
- payable to "St Barbara Limited" and crossed "Not Negotiable".

If you wish to pay by cheque, bank draft or money order, you must also complete your personalised Entitlement and Acceptance Form in accordance with the instructions set out on that form and return it to the Share Registry accompanied by a cheque, bank draft or money order.

You should ensure that sufficient funds are held in relevant account(s) to cover the Application Monies as your cheque, bank draft or money order will be processed on the day of receipt. If the amount of your cheque, bank draft or money order for Application Monies (or the amount for which the cheque, bank draft or money order clears in time for allocation) is insufficient to pay in full for the number of New Shares you have applied for in your personalised Entitlement and Acceptance Form, you will be taken to have applied for such lower whole number of New Shares and additional New Shares under the Oversubscription Facility, if applicable, as your cleared Application Monies will pay for (and to have specified that number of New Shares on your personalised Entitlement and Acceptance Form). Alternatively, your Application will not be accepted.

2.7 Mail delivery

Shareholders who make payment via cheque, bank draft or money order should send their completed personalised Entitlement and Acceptance Form together with Application Monies to:

St Barbara Limited
c/o Computershare Investor Services Pty Ltd
GPO Box 505
Melbourne Vic 3001

2.8 Entitlement and Acceptance Form is binding

A payment made through BPAY® or a completed and lodged Entitlement and Acceptance Form together with the payment of requisite Application Monies constitutes a binding offer to acquire New Shares on the terms and conditions set out in this Offer Booklet and, once lodged or paid, cannot be withdrawn. If the Entitlement and Acceptance Form is not completed correctly it may still be treated as a valid Application for New Shares.

St Barbara's decision whether to treat an acceptance as valid and how to construe, amend or complete the Entitlement and Acceptance Form is final.

By completing and returning your personalised Entitlement and Acceptance Form or making a payment by BPAY®, or otherwise applying to participate in the Entitlement Offer, you:

- (a) declare that:

 - (ii) you are over 18 years of age and have full legal capacity and power to perform all your rights and obligations under the Retail Entitlement Offer;

 - (iii) the information contained in this Offer Booklet is not investment advice or a recommendation that the New Shares are suitable for you, given your investment objectives, financial situation or particular needs;
- (c) agree to:
 - (i) apply for, and be issued with up to, the number of New Shares that you apply for at the Offer Price of \$2.89 per New Share; and
 - (ii) be bound by the terms of this Offer Booklet and the provisions of St Barbara's constitution;
- (d) authorise St Barbara to register you as the holder of New Shares and authorise St Barbara and its officers or agents to do anything on your behalf necessary for the New Shares to be issued to you, including to act on instruction of St Barbara's Share Registry by using the contact details set out in the personalised Entitlement and Acceptance Form;
- (e) represent and warrant that:
 - (i) the law of any place (other than Australia and New Zealand) does not prohibit you from being given this Offer Booklet or making an application for New Shares; and
 - (ii) you are an Eligible Retail Shareholder.

By completing and returning your Entitlement and Acceptance Form with the requisite Application Monies or making a payment by BPAY® or otherwise applying to participate in the Retail Entitlement Offer you will also be treated as:

- (a) having represented and warranted that:
 - (i) you are not in the United States and are not applying for New Shares on behalf of, or for the account or benefit of, a person in the United States;
 - (ii) you and each person on whose account you are acting are not engaged in the business of distributing securities;
 - (iii) you and each person on whose account you are acting have not and will not send any materials relating to the Entitlement Offer, including this Offer Booklet and the Entitlement and Acceptance Form, to any person that is in the United States or that is acting for the account or benefit of a person in the United States; and
- (b) acknowledge on your own behalf and on behalf of each person on whose account you are acting that:

 - (ii) the Entitlements may not be taken up by, and the New Shares may not be offered or sold to, persons in the United States or persons who are acting for the account or benefit of a person in the United States (to the extent they are holding Shares for the account or benefit of a person in the United States); and
 - (iii) the New Shares to be offered and sold in the Retail Entitlement Offer may only be offered and sold outside the United States in "offshore transactions" (as defined in Rule 902(h) under the U.S. Securities Act) in compliance with Regulation S under the U.S. Securities Act.

3. AUSTRALIAN TAXATION CONSIDERATIONS

Set out below is a general summary of the potential Australian tax implications of the Retail Entitlement Offer for Eligible Retail Shareholders who are residents of Australia for tax purposes and who hold their Shares on capital account.

The summary below does not deal with the tax implications for Eligible Retail Shareholders who are not residents of Australia for tax purposes. It also does not deal with the tax implications for Eligible Retail Shareholders that do not hold their Shares on capital account or who are subject to special tax rules, such as Shareholders:

- (a) who hold their Shares (or will hold their New Shares) as revenue assets or trading stock such as banks, insurance companies and taxpayers carrying on a business of share trading;
- (b) who have acquired their Shares (or will hold their New Shares) for the purposes of resale at a profit;
- (c) who are subject to the Taxation of Financial Arrangements rules in Division 230 of the *Income Tax Assessment Act 1997* (Cth) in respect of Shares or New Shares.
- (d) who acquired their Shares (or will hold their New Shares) under an arrangement that constitutes an 'employee share scheme' for Australian tax purposes.

It is intended as a general guide only and is not an authoritative or complete statement of all potential tax implications for each Eligible Retail Shareholder.

The summary below is not advice and should not be relied on as such. It also does not take account of any individual circumstances of any particular Eligible Retail Shareholder. Taxation is a complex area of law and the taxation consequences for each Eligible Retail Shareholder may differ depending on their own particular circumstances. Accordingly, Eligible Retail Shareholders should seek specific advice applicable to their own particular circumstances from their own financial or tax advisers.

The summary below is based on the law in effect as at the date of this Information Booklet. Future changes in Australian taxation law, including changes in interpretation or application of the law by the courts or taxation authorities in Australia, may affect taxation treatment of an investment in Shares or the holding and disposal of Shares.

3.1 Issue of Entitlement

The issue of the Entitlement should not itself result in any amount being included in the assessable income of an Eligible Retail Shareholder.

3.2 Exercise of Entitlement and applying for additional New Shares under the Oversubscription Facility

If you exercise all or part of your Entitlement and, to the extent relevant, participate in the Oversubscription Facility, you will be allocated New Shares. In this case:

- (a) the Entitlement will cease to exist and a CGT event will occur, but any capital gain or loss made on the exercise of the Entitlement should be disregarded for tax purposes;
- (b) the New Shares acquired as a result of exercising the Entitlement will be treated for CGT purposes as having been acquired on the day on which the Entitlement is exercised;
- (c) the New Shares acquired as a result of participating in the Oversubscription Facility will be treated for CGT purposes as having been acquired on the day on which those New Shares are issued; and

- (d) the New Shares should have a cost base for CGT purposes equal to:
- (i) for New Shares acquired through participation in the Oversubscription Facility and for New Shares acquired as a result of exercising an Entitlement where your existing Shares were acquired (or are taken to be acquired) on or after 20 September 1985, the Offer Price payable by you for those New Shares plus certain non-deductible incidental costs you incur in acquiring them; or
 - (ii) for New Shares acquired as a result of exercising an Entitlement where your existing Shares were acquired (or are taken to be acquired) before 20 September 1985, the sum of the market value of the Entitlement when it was exercised and the Offer Price payable by you for those New Shares plus certain non-deductible incidental costs you incur in acquiring them.

3.3 **New Shares**

If you exercise all or some of your Entitlement and, to the extent relevant, participate in the Oversubscription Facility, you will acquire New Shares. Any future dividends or other distributions made in respect of those New Shares will be subject to the same taxation treatment as dividends or other distributions made on Shares held in the same circumstances.

On any future disposal of New Shares, you may make a capital gain or capital loss, depending on whether the capital proceeds of that disposal are more than the cost base or less than the reduced cost base of those shares. The cost base of those shares is described above.

Any capital gain arising to Eligible Retail Shareholders who are individuals and trusts (other than trusts that are complying superannuation funds) can generally be reduced by 50% (after first offsetting current year or prior year capital losses from other asset disposals) if the New Shares are held for at least 12 months between the date the New Shares are treated as having been acquired (as outlined in part 3.1 above) and the date of disposal. For Eligible Retail Shareholders which are complying superannuation funds, any capital gain can generally be reduced by one-third (after first offsetting current year or prior year capital losses from other asset disposals) if the New Shares are held for at least 12 months between the date the New Shares are treated as having been acquired (as outlined in part 3.1 above) and the date of disposal. The CGT discount is not available to Eligible Shareholders that are companies. Trustees should seek specific advice in relation to making distributions attributable to any capital gain to which the CGT discount applies.

3.4 **Other Australian taxes**

No GST or stamp duty is payable in respect of the grant or exercise of the Entitlements or the acquisition of New Shares. You may be charged GST on costs (such as adviser fees) incurred relating to the acquisition, redemption or disposal of the Shares or New Shares. You should seek independent professional tax advice in relation to your individual circumstances.

4. ASX ANNOUNCEMENTS (INCLUDING ST BARBARA INVESTOR PRESENTATION)

ASX Release / 15 May 2019

NOT FOR DISTRIBUTION OR RELEASE IN THE UNITED STATES

St Barbara agrees to acquire 100% of Atlantic Gold Corporation and announces underwritten A\$490 million pro rata accelerated non-renounceable entitlement offer

- Acquisition aligned with St Barbara's strategy
- Diversifies production base with a low-cost, long life mine in a favourable jurisdiction
- Growth potential through planned reserve and resource expansion

St Barbara Ltd. (ASX: SBM) ("St Barbara" or "Company") is pleased to announce that it has, through its wholly owned subsidiary Nord Pacific Ltd., entered into a Canadian Plan of Arrangement Agreement with Atlantic Gold Corporation ("Atlantic"). Atlantic (TSX-V:AGB) is a TSX-listed low cost gold producer, which owns and operates Moose River Consolidated ("MRC" or "Moose River") in Nova Scotia, Canada.

Moose River comprises one producing open-pit (Touquoy) and three others in development (Beaver Dam, Fifteen Mile Stream and Cochrane Hill). Moose River declared commercial production in March 2018 and produced 91 koz in CY18 from Touquoy at an AISC of C\$731/oz (A\$761/oz), with planned expansion of production to 200+ koz as the other three pits are developed. MRC has mineral resources of 2.4 Moz inclusive of mineral reserves of 1.9 Moz.

St Barbara will acquire 100% of all outstanding Atlantic shares (on a fully diluted basis) at an all cash offer price of C\$2.90 per Atlantic share, implying a total equity value of C\$722 M (A\$768 M)¹ (the "Transaction") and a total enterprise value of C\$802 M (A\$854 M)². This represents an attractive acquisition cost per ounce of reserves of C\$428/oz (A\$455/oz). The Transaction excludes Atlantic's 36% interest in Velocity Minerals Ltd. (TSX-V: VLC) (market value C\$9 M (A\$9 M)), which will be spun out to existing Atlantic shareholders following completion.

Atlantic's Directors control 32% of the register and as part of the Transaction have entered into a lock-up agreement³ to vote all shares they hold in favour of the Transaction. A C\$25 M termination fee is payable if a condition precedent is not satisfied due to an action by either party or if either party ceases to support the Transaction.

St Barbara intends to raise approximately A\$490 M through an underwritten pro-rata accelerated non-renounceable entitlement offer⁴ to partly fund the Transaction. The balance will be funded via St Barbara's existing cash reserves. St Barbara has also secured a new committed A\$200 M three year revolving loan facility with Westpac Banking Corporation ("Westpac") to support the combined company.

At completion of the Transaction, Atlantic and its associated entities will become part of St Barbara's corporate structure, with Atlantic shares de-listed from the TSX. In addition, experienced company director Mr Steven

Dean, currently Chairman and Chief Executive Officer of Atlantic, will be invited to join the St Barbara Board following completion. St Barbara is seeking to retain key Atlantic executives who have and will continue to play roles in the successful development of Moose River. Further, St Barbara intends retaining the current operating team, which has a track record of successful project development and operational delivery. Further information about Mr Dean and Ms Maryse Bélanger is set out in Attachment II.

The Transaction demonstrates St Barbara's disciplined approach to executing inorganic growth and the Company's ability to deliver on its strategic plan. Key highlights of the Transaction include:

- diversification of St Barbara's production base by adding a low cost asset in a favourable jurisdiction;
- further improves St Barbara's cost profile with MRC's low AISC position;
- addition of a sustainable long life operation, with an existing mine life of 12 years and substantial reserves and resources;
- significant growth potential at MRC through planned resource and reserve expansion as well as near mine exploration;
- provides St Barbara with a platform for future growth in an attractive mining jurisdiction with low geopolitical risk;
- retention of key Atlantic executives and the operating team to ensure continuity of operations and relationships with key Canadian stakeholders; and
- opportunities for St Barbara and Atlantic to leverage existing strengths and capabilities and establish a platform for growth in the region.

St Barbara Managing Director & Chief Executive Officer, Bob Vassie, noted:

"St Barbara has today announced the acquisition of Atlantic, owner and operator of Moose River Consolidated. St Barbara has consistently communicated to the market that the Company has been assessing a range of inorganic growth opportunities and the acquisition today demonstrates the Company's commitment to executing inorganic growth that is strongly aligned with St Barbara's strategic plan."

"The addition of Moose River to the portfolio diversifies St Barbara's production base with a low cost producing asset in a very favourable and prospective jurisdiction. It is a sustainable long life operation of scale with a low AISC position which generates impressive margins. The asset also has significant growth potential which St Barbara identifies as an exciting opportunity."

"Further, we are gaining an impressive team with an excellent track record of successfully bringing deposits into operation which gives us a great capability and platform for further opportunities in the region."

"St Barbara is confident that Moose River can successfully be integrated into St Barbara's existing asset portfolio and deliver long term value for St Barbara shareholders."

The Transaction is subject to customary commercial conditions, including court approvals and a successful Atlantic shareholder vote, no material adverse change to Atlantic and Nova Scotia regulatory approvals. St Barbara shareholders will be updated on the status of these conditions as and when they are satisfied. Further details of the Transaction conditions precedent are set out in Attachment I.

Completion is anticipated to occur in July 2019.

In respect of the acquisition of Atlantic, St Barbara was advised by Deutsche Bank AG, Sydney Branch, with Ashurst as Australian legal counsel and Fasken as Canadian legal counsel.

Equity raising

The Transaction will be partly funded via an underwritten 1 for 3.1 pro rata accelerated non-renounceable entitlement offer to raise approximately A\$490 M before costs (“Offer” or “Equity Raising”).

Eligible St Barbara shareholders will be invited to subscribe for 1 new fully paid ordinary share in St Barbara (“New Share”) for every 3.1 existing fully paid ordinary shares in St Barbara held as at 7.00pm AEST on Friday 17 May 2019 (“Record Date”), at the offer price of A\$2.89 per New Share (“Offer Price”), which represents a:

- 13.0% discount to the closing price of St Barbara of A\$3.32 on Tuesday 14 May 2019; and
- 10.1% discount to the theoretical ex-rights price⁵ of A\$3.22 as at Tuesday 14 May 2019.

The Equity Raising will result in the issue of approximately 169.7 M New Shares and will include:

- an accelerated institutional entitlement component (“Institutional Entitlement Offer”) which will open on Wednesday, 15 May 2019 and close at 12.00pm AEST on Thursday, 16 May 2019; plus
- a retail entitlement component (“Retail Entitlement Offer”) which is anticipated to open on Tuesday, 21 May 2019 and close at 5.00 pm AEST on Tuesday, 4 June 2019.

Entitlements to subscribe for New Shares under the Entitlement Offer cannot be traded.

Each New Share will rank equally with existing shares on issue and will be eligible for any dividend declared for the period ending 30 June 2019. St Barbara will apply for quotation of the New Shares on ASX.

Institutional Entitlement offer

Eligible institutional holders will be invited to participate in the Institutional Entitlement Offer, which is being conducted on Wednesday, 15 May 2019 and Thursday 16 May 2019. Eligible institutional holders can choose to take up all, part or none of their entitlement.

Institutional entitlements that eligible institutional holders do not take up, and institutional entitlements that would not otherwise have been offered to ineligible institutional holders, will be offered to eligible institutional holders who apply for New Shares in excess of their entitlement, as well as certain other eligible institutional investors, through an institutional shortfall book build to be conducted concurrently with the Institutional Entitlement Offer. It is expected that St Barbara will remain in trading halt while the Institutional Entitlement Offer is conducted.

Retail Entitlement offer

Eligible retail holders will be invited to participate in the Retail Entitlement Offer at the same Offer Price and offer ratio as under the Institutional Entitlement Offer. The Retail Entitlement Offer will open on Tuesday, 21 May 2019 and close at 5.00pm AEST on Tuesday, 4 June 2019 (“Retail Offer Period”).

Eligible retail shareholders can choose to take up all, part, or none of their entitlements. Eligible retail shareholders who take up their full entitlement will also be permitted to apply for New Shares in excess of their entitlement at the Offer Price (“Retail Oversubscription”) up to 25.0% of their entitlement. New Shares not applied for by eligible retail holders may be offered to other eligible retail holders through applications via the Retail Oversubscription facility. There is no guarantee that applicants under the Retail Oversubscription facility will receive all or any of the additional New Shares for which they apply.

Further details about the Retail Entitlement Offer will be set out in a booklet (“Retail Offer Booklet”), which St Barbara expects to lodge with the ASX on Friday, 17 May 2019, in advance of the despatch date (outlined below). The closing date for the receipt of Entitlement and Acceptance Forms, is 5.00pm AEST on Tuesday, 4 June 2019.

All the Directors of St Barbara who are shareholders have indicated they will participate in the Retail Entitlement Offer. Directors are not eligible to participate in the Retail Oversubscription facility.

Important information

This announcement does not constitute an offer to sell, or a solicitation of an offer to buy, securities in the United States or any other jurisdiction in which such an offer would be illegal. Accordingly, the entitlements may not be exercised or taken up by, and the New Shares may not be offered or sold, directly or indirectly, to, persons in the United States except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and any other applicable securities law of any state or other jurisdiction of the United States. There will be no public offer of the entitlements or the New Shares in the United States.

This announcement may not be released or distributed in the United States.

This announcement includes certain forward looking statements, including statements regarding the completion of the acquisition, the impact of the acquisition and the future strategies and results of the combined St Barbara and Atlantic groups and the opportunities available to it, the integration process and the timing and amount of synergies, the timing and outcome of the Entitlement Offer and the use of proceeds, as well as statements regarding projected earnings, revenue, growth, commodity prices, outlook, plans and strategies. Forward-looking statements can generally be identified by the use of forward-looking words such as “may”, “will”, “expect”, “intend”, “plan”, “estimate”, “anticipate”, “believe”, “continue”, “objectives”, “outlook”, “guidance” or other similar words and include statements regarding certain plans, strategies and objectives of management, trends and outlook. Indications of, and guidance on, future earnings and financial position and performance are also forward looking statements. These forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause St Barbara’s actual results, performance and achievements or industry results to differ materially from any future results, performance or achievements, or industry results, expressed or implied by these forward-looking statements.

Forward-looking statements are based upon management’s good faith assumptions relating to the financial, market, regulatory and other relevant environments that will exist and affect St Barbara’s business and operations in the future. No representation or warranty, express or implied, is given as to the accuracy, completeness, likelihood of achievement or reasonableness of any forecasts, projections or prospects referred to in this announcement.

Notes

1. Based on 236.9 million Atlantic shares outstanding and 20.5 million options outstanding valued at C\$35.0m based on Intrinsic Value on the C\$2.90 per share offer price.
2. Enterprise value based upon Atlantic debt of C\$116.5 M and cash of C\$36.1 M.
3. Customary lock-up agreement with Directors to vote in favour of the Transaction at the shareholder meeting in the absence of a superior proposal.
4. The Underwriting Agreement dated 15 May 2019 between St Barbara and the underwriter provides that the underwriter shall not be issued any shares that would either cause it to breach the 20% takeover threshold contained in Chapter 6D of the Corporations Act 2001 (Cth) or which would require notification under the Foreign Acquisitions and Takeovers Act 1975 (Cth). The issue size is approximately 169.7 million shares or 24.4% of the issued capital on a fully diluted basis. If the underwriter was required to take up more than 20% of the shares on issue, then, it notes for the purposes of ASIC Report 612 (March 2019), that it will still guarantee funding of the entire underwritten proceeds by the completion date, the number of excess shortfall shares would be c.30.5 million shares (being an equivalent to 4.4% of the company's fully diluted issued share capital) plus any additional interests the underwriter and its affiliates hold at the relevant settlement dates other than through its underwriting commitment, and it would enter into an arrangement for any such excess shares to be issued to it, or to third party investors, after close of the offer at the same offer price under the Entitlement Offer. No material impact on control is expected to arise as a consequence of these arrangements or from any shareholder taking up their entitlement where there is an excess shortfall.
5. The Theoretical Ex-Rights Price ("TERP") is the theoretical price at which St Barbara shares should trade after the ex-date for the Entitlement Offer. TERP is a theoretical calculation only based on St Barbara share price of A\$3.32 as at market close on 14 May 2019 and the actual price at which St Barbara shares trade immediately after the ex-date for the Entitlement Offer will depend on many factors and may not be equal to TERP
6. Some A\$ figures in this presentation converted from previously published C\$ figures using FX rates used per the below:
CADAUD average CY18 = 1.0405, CADAUD as per spot rate on 10 May 2019 of 1.0642 (Source: FactSet)

Attachment I – Details of Atlantic acquisition

St Barbara has entered into a binding Arrangement Agreement to acquire 100% of the outstanding common shares and options for cash consideration of C\$2.90 per share, representing total consideration (based on the in-the-money value of the options) of C\$722m (A\$768m) in cash. As at 15 May 2019, Atlantic had 236,911,065 ordinary shares on issues as well as 20,535,525 options outstanding. St Barbara has entered into foreign currency hedging arrangements to provide cover for the transaction consideration.

The Agreement does not include Atlantic's 36% interest in Velocity Minerals Ltd. (TSX-V: VLC), which will be spun out to existing Atlantic shareholders following completion.

Atlantic's Directors and officers control 32% of the register and as part of the Transaction have entered into a lock-up agreement³ to vote all shares they exercise control or direction over in favour of the Transaction.

Conditions precedent

Completion under the Arrangement Agreement is subject to customary closing conditions precedent for a transaction of this nature, including:

- obtaining interim and final court orders from the Supreme Court of British Columbia;
- obtaining key regulatory approvals which include:
 - TSX-V approval;
 - consent of the Nova Scotia Minister of Environment to the deemed transfer of Atlantic Gold's Nova Scotia environmental assessment approval and Nova Scotia industrial approval;
 - consent of the Nova Scotia Minister of Energy and Mines to the deemed transfer of Atlantic's Mineral Lease 11-1 and exploration licences;
- Atlantic shareholder approval of the Transaction (at least 66⅔% of the votes cast by all Atlantic Gold shareholders, and a simple majority of the votes cast by all shareholders excluding Steven Dean who is an interested party, in both cases by shareholders present in person or represented by proxy at the meeting);
- obtaining all key third party consents;
- there is no legal action or proceeding against Atlantic that is reasonably likely to prohibit or delay consummation of the Transaction;
- no material adverse change occurring in relation to Atlantic; and
- all covenants, representations and warranties of both St Barbara and Atlantic have been satisfied.

Termination

The Arrangement Agreement can be terminated by mutual agreement, by either party for material breach of the Agreement or by Atlantic in order to accept an unsolicited offer that is a superior proposal. A C\$25 M termination fee is payable if a condition precedent is not satisfied due to an action by either party or if either party ceases to support the transaction.

Important Notices and Disclaimer

Financial data: This Presentation contains pro forma financial information. The pro forma financial information and past information provided in this Presentation is for illustrative purposes only and is not represented as being indicative of St Barbara's views on its future financial condition and/or performance. The pro forma historical financial information included in this Presentation was not prepared with a view towards compliance with the published guidelines of the United States Securities and Exchange Commission (SEC) or the American Institute of Certified Public Accountants for the preparation and presentation of pro forma financial information and does not purport to be in compliance with Article 11 of Regulation S-X of the rules and regulations of the SEC.

Investors should be aware that certain financial measures included in this presentation are "non-IFRS financial information" under ASIC Regulatory Guide 230: "Disclosing non-IFRS financial information" published by ASIC and "non-GAAP financial measures" within the meaning of Regulation G under the US Securities Exchange Act of 1934 and, are not recognised under Australian Accounting Standards (AAS) and International Financial Reporting Standards (IFRS). The non-IFRS financial information/non-GAAP financial measures include EBITDA, EBITDA margin, EBIT, net debt/EBITDA, free cash flow, cash margin, sustaining expenditure, enterprise value, all-in sustaining cost (AISC) and total cash cost. Such non-IFRS financial information/non-GAAP financial measures do not have a standardised meaning prescribed by AAS or IFRS. Therefore, the non-IFRS financial information may not be comparable to similarly titled measures presented by other entities, and should not be construed as an alternative to other financial measures determined in accordance with AAS or IFRS. St Barbara also notes that the pro forma balance sheet as at 31 December 2018 presented on page 30 of this presentation is in a non-IFRS/non-GAAP format as it does not classify assets and liabilities between current and non-current. Although St Barbara believes these non-IFRS financial information/non-GAAP financial measures provide useful information to investors in measuring the financial performance and condition of its business for the reasons set out above, potential investors are cautioned not to place undue reliance on any non-IFRS financial information/non-GAAP financial measures included in this Presentation. The financial information in the Presentation is presented in an abbreviated form insofar as it does not include all of the presentation and disclosures required by the AAS and other mandatory professional reporting requirements applicable to general purpose financial reports prepared in accordance with the Corporations Act.

A number of figures, amounts, percentages, estimates, calculations of value and fractions in this Presentation are subject to the effect of rounding. Accordingly, the actual calculation of these figures may differ from the figures set out in this Presentation.

JORC Code and NI 43-101: It is a requirement of the ASX Listing Rules that the reporting of ore reserves and mineral resources in Australia comply with the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves' (the JORC Code), and the estimates of ore reserves and mineral resources for Moose River are reported in accordance with the National Instrument 43-101 (NI 43-101) by Atlantic. Mining companies in other countries may be required to report their mineral reserves and/or resources in accordance with other guidelines including applicable SEC rules on disclosure of mining operations (SEC Mining Disclosure Rules) in the United States. While the Company's reserve and mineral resource estimates may comply with the JORC Code and Atlantic's reserve and mineral resource estimates in this presentation may comply with NI 43-101, they may not comply with the relevant guidelines in other countries, including SEC Mining Disclosure Rules. Therefore, the estimates of reserves and resources included in the information that the Company is required to file under the ASX Listing Rules may differ from reserves and resources estimated using SEC Mining Disclosure Rules and may not be comparable to other issuers that report reserves under SEC Mining Disclosure Rules.

Foreign estimates – clarifying statements as required by ASX Listing Rule 5.12: The estimates of Ore Reserves and Mineral Resources for Moose River are qualifying foreign estimates under the ASX Listing Rules reported in accordance with NI 43-101 by Atlantic and filed on SEDAR (www.sedar.com) on 13 March 2019 and 25 March 2019, respectively. The categories of Mineral Resources classification used are in accordance with NI 43-101 and the CIM Standards. NI 43-101 is a 'qualifying foreign estimate' (Chapter 19, ASX Listing Rules) and has similar categories of resource classification as the JORC Code (Appendix 5A, Listing Rules).

St Barbara considers these estimates to be both material and relevant to St Barbara given that Moose River has the potential to be a material mining project to St Barbara. In accordance with NI 43-101 and CIM standards, Mineral Resources are not Mineral Reserves and do not have demonstrated economic viability. There is no certainty that all or any part of Mineral Resources will be converted to Mineral Reserves. Additional drilling will be required to verify geological and mineralisation continuity, and there is no certainty that all of the Inferred Resources will be converted to Measured and Indicated Resources. Quantity and grades are estimates and are rounded to reflect that the estimates are an approximation.

St Barbara believes that the information provided is the most recent publicly available. Following completion of the transaction it is St Barbara's intention to conduct a work program, including additional exploration and resource definition drilling and resource optimisation.

Future performance: This Presentation contains certain "forward-looking statements" and comments about future events, including St Barbara's expectations about the performance of its businesses, the effect of the funds raised under the Entitlement Offer on those businesses, the outcome of the transaction and the future performance of St Barbara and Atlantic post acquisition. Forward looking statements can generally be identified by the use of forward looking words such as, "expect", "should", "could", "may", "predict", "plan", "will", "believe", "forecast", "estimate", "target" and other similar expressions and include, but are not limited to, indications of, and guidance or outlook on, future earnings and financial position and performance of St Barbara, the outcome and effects of the Entitlement Offer and the use of proceeds.

The issue size is approximately 169.7 million shares or 24.4% of the issued capital on a fully diluted basis. If the underwriter was required to take up more than 20% of the shares on issue, then, it notes for the purposes of ASIC Report 612 (March 2019), that it will still guarantee funding of the entire underwritten proceeds by the completion date, the number of excess shortfall shares would be c.30.5 million shares (being an equivalent to 4.4% of the company's fully diluted issued share capital) plus any additional interests the underwriter and its affiliates hold at the relevant settlement dates other than through its underwriting commitment, and it would enter into an arrangement for any such excess shares to be issued to it, or to third party investors, after close of the offer at the same offer price under the Entitlement Offer. No material impact on control is expected to arise as a consequence of these arrangements or from any shareholder taking up their entitlement where there is an excess shortfall.

- Mineral Reserves are mined tonnes and grade, the reference point is the mill feed at the primary crusher
- Mineral Reserves are reported at a cut-off grade of 0.30 g/t Au for Touquoy, Fifteen Mile Stream and Cochrane Hill, and 0.5 g/t Au for Beaver Dam
- Cut-off grade assumes US\$1,300/oz. Au at a currency exchange rate of CAD/USD: 0.77; 99.9% payable gold; \$5.00/oz. offsite costs (refining and transport), a 2% royalty; and uses a 92% metallurgical recovery. The cut-off grade covers processing costs of \$11.00/t at Touquoy, \$8.22/t at Fifteen Mile Stream, \$8.64/t at Cochrane Hill, and \$18.00/t at Beaver Dam and general and administrative (G&A) costs of \$2.50/t
- Mining recovery of 98.4% and external mining dilution of 1.6% at 0.20 g/t Au grade is applied in addition to the modelled in-block dilution
- As Touquoy is an ongoing operation, a surveyed topographic surface dated December 31, 2018 is used as the basis for the Mineral Reserves

Section 8

Key Risks

Key Risks

The St Barbara Group (the **Group**) consists of St Barbara Limited and the entities it controls, which would extend to include Atlantic Gold Corporation (**Atlantic**) upon completion of the acquisition of Atlantic. There are a number of risks and factors, specific to the Group, specific to the acquisition of Atlantic (the **Acquisition**) and of a general nature, which may affect the future operating and financial performance of the Group, Atlantic and the industry in which they operate and the outcome of an investment in the Group.

This section describes some, but not all, of the material business risks associated with investment in the Group which potential investors should consider together with publicly available information (including this presentation) concerning the Group before taking up the Entitlement Offer or making an investment decision. Additional risks and uncertainties that the Group is unaware of, or that it currently considers to be immaterial, may also become important factors that adversely affect the future performance of the Group and the New Shares. Many of the circumstances giving rise to these risks are beyond the control of the Group.

RISKS ASSOCIATED WITH THE GROUP

1. Fluctuations in the United States Dollar (USD) spot gold price

Volatility in the gold price creates revenue uncertainty and requires careful management of business performance to ensure that operating cash margins are maintained despite a fall in the spot gold price.

Declining gold prices can also impact operations by requiring a reassessment of the feasibility of a particular exploration or development project. Even if a project is ultimately determined to be economically viable, the need to conduct such a reassessment could cause substantial delays and/or interrupt operations, which may have a material adverse effect on the results of operations and financial condition.

2. Government regulation

The Group's mining, processing, development and exploration activities are subject to various laws and statutory regulations governing prospecting, development, production, taxes, royalty payments, labour standards and occupational health, mine safety, toxic substances, land use, water use, communications, land claims of local people and other matters.

No assurance can be given that new laws, rules and regulations will not be enacted or that existing laws, rules and regulations will not be applied in a manner which could have an adverse effect on the Group's financial position and results of operations across the different jurisdictions in which it operates, including those relating to Atlantic. Any such amendments to current laws, regulations and permits governing operations and activities of mining and exploration, or more stringent implementation thereof, could have a material adverse impact on the Group. Failure to comply with any applicable laws, regulations or permitting requirements, or failure to renew any applicable licenses or permits, may result in enforcement actions against the Group, including orders issued by regulatory or judicial authorities causing operations to cease or be curtailed, and may include corrective measures requiring capital expenditures, installation of additional equipment, or remedial actions.

Furthermore, St Barbara has operations in a developing country that is subject to political, economic and other risks and uncertainties. The formulation and implementation of government policies or processes, such as in relation to mining permits and licences, in this country may be unpredictable.

3. Operational risks and hazards

The Group's mining operations, consisting of open pit and underground mines, generally involve a high degree of risk, and these risks increase when mining occurs at depth. The Group's operations are subject to all the hazards and risks normally encountered in the exploration, development and production of gold. Processing operations are subject to hazards such as equipment failure, toxic chemical leakage, loss of power, fast-moving heavy equipment, failure of deep sea tailings disposal pipelines and retaining dams around tailings containment areas, rain and seismic events which may result in environmental pollution and consequent liability. The impact of these events could lead to disruptions in production and scheduling, increased costs and loss of facilities, which may have a material adverse impact on the Group's results of operations, financial condition, license to operate and prospects.

Key Risks

4. Reliance on transportation facilities and infrastructure

The Group depends on the availability and affordability of reliable transportation facilities and infrastructure (e.g. roads, bridges, airports, power sources and water supply) to deliver consumables to site, and final product to market. Interruption in the provision of such infrastructure (e.g. due to adverse weather; community or government interference) could adversely affect St Barbara's operations, financial condition and results of operations.

5. Production, cost and capital estimates

The Group prepares estimates of future production, operating costs and capital expenditure relating to production at its operations. The ability of the Group to achieve production targets, or meet operating and capital expenditure estimates on a timely basis cannot be assured. The assets of the Group are subject to uncertainty with regards to ore tonnes, grade, metallurgical recovery, ground conditions, operational environment, funding for development, regulatory changes, accidents and other unforeseen circumstances such as unplanned mechanical failure of plant and equipment. Failure to achieve production, cost or capital estimates, or material increases to costs, could have an adverse impact on the Group's future cash flows, profitability and financial condition. The development of estimates is managed by the Group using a rigorous budgeting and forecasting process. Actual results are compared with forecasts to identify drivers behind discrepancies which may result in updates to future estimates.

6. Gwalia Extension Project

The project to install an underground paste aggregate fill plant and ventilation upgrade is important to enabling continuing mining at depth. Any material delays in completing the project, or material defects in the design or construction of the project, may have an adverse impact on the productivity of the mine due to ineffective handling of waste, or prevent mining at depth due to inadequate ventilation.

7. Changes in input costs

Mining operations and facilities are intensive users of electricity, gas and carbon-based fuels. Energy prices can be affected by numerous factors beyond the Group's control, including global and regional supply and demand, carbon taxes, inflation, political and economic conditions, and applicable regulatory regimes. The prices of various sources of energy may increase significantly from current levels.

The Group's production costs are also affected by the prices of commodities it consumes or uses in its operations, such as diesel, lime, sodium cyanide and explosives, and increases in labour rates. The prices of such commodities are influenced by supply and demand trends affecting the mining industry in general and other factors outside the Group's control. Increases in the price for materials consumed in St Barbara's mining and production activities could materially adversely affect its results of operations and financial condition.

The Group's operations use contractors for mining services at those operations, and some of its construction projects are conducted by contractors. As a result, the Group's operations are subject to a number of risks, including:

- negotiation and renewal of agreements with contractors on acceptable terms;
- failure of contractors to perform under their agreements, including failure to comply with safety systems and standards, contractor insolvency and failure to maintain appropriate insurance;
- failure of contractors to comply with applicable legal and regulatory requirements; and
- changes in contractors.

In addition, the Group may incur liability to third parties as a result of the actions of its contractors. The occurrence of one or more of these risks could have a material adverse effect on its results of operations and financial position.

The Group manages risks associated with input costs through a centralised procurement function which analyses market trends, supply environment, and operational demand planning, to establish appropriate sourcing strategies for spend categories.

The Group manages risks associated with contractors through a contractor management system.

Key Risks

8. Exploration and development risk

Although the Group's activities are primarily directed towards mining operations and the development of mineral deposits, its activities also include the exploration for mineral deposits and the possibility of third party arrangements including joint ventures, partnerships, toll treating arrangements or other third party contracts. An ability to sustain or increase the current level of production in the longer term is in part dependent on the success of the Group's exploration activities and development projects, and the expansion of existing mining operations.

The exploration for and development of mineral deposits involves significant risks that even a combination of careful evaluation, experience and knowledge may not eliminate. While the discovery of an ore body may result in substantial rewards, few properties that are explored subsequently have economic deposits of gold identified, and even fewer are ultimately developed into producing mines. Major expenses may be required to locate and establish mineral reserves, to establish rights to mine the ground, to receive all necessary operating permits, to develop metallurgical processes and to construct mining and processing facilities at a particular site. It is impossible to ensure that the exploration or development programs the Group plans will result in a profitable mining operation. Whether a mineral deposit will be commercially viable depends on a number of factors.

9. Ore Reserves and Mineral Resources

The Group's estimates of Ore Reserves and Mineral Resources are based on different levels of geological confidence and different degrees of technical and economic evaluation, and no assurance can be given that anticipated tonnages and grades will be achieved, that the indicated level of recovery will be realised or that Ore Reserves could be mined or processed profitably. The quality of any Ore Reserve or Mineral Resource estimate is a function of the quantity of available technical data and of the assumptions used in engineering and geological interpretation, and modifying factors affecting economic extraction. Such estimates are compiled by experienced and appropriately qualified geoscientists using mapping and sampling data obtained from bore holes and field observations, and subsequently reported by Competent Persons under the JORC Code.

Fluctuation in gold prices, key input costs to production, as well as the results of additional drilling, and the evaluation of reconciled production and processing data subsequent to any estimate may require revision of such estimates.

Actual mineralisation of ore bodies may be different from those predicted, and any material variation in the estimated Ore Reserves, including metallurgy, grade, dilution, ore loss, or stripping ratio at the Group's properties may affect the economic viability of its properties, and this may have a material adverse impact on the Group's results of operations, financial condition and prospects.

There is also a risk that depletion of reserves will not be offset by discoveries or acquisitions, or that divestitures of assets will lead to a lower reserve base. The reserve base of the Group may decline if reserves are mined without adequate replacement and the Group may not be able to sustain production beyond current mine lives, based on current production rates.

It is a requirement of the ASX Listing Rules that the reporting of ore reserves and mineral resources in Australia comply with the Australasian Code for Reporting of Exploration Results, the JORC Code, and the estimates of ore reserves and mineral resources for Moose River are reported in accordance with the National Instrument 43-101 (NI 43-101) by Atlantic. Mining companies in other countries may be required to report their mineral reserves and/or resources in accordance with other guidelines including applicable SEC Mining Disclosure Rules in the United States. While the Company's reserve and mineral resource estimates may comply with the JORC Code and Atlantic's reserve and mineral resource estimates in this presentation may comply with NI 43-101, they may not comply with the relevant guidelines in other countries, including SEC Mining Disclosure Rules. Therefore, the estimates of reserves and resources included in the information that the Group is required to file under the ASX Listing Rules may differ from reserves and resources estimated using SEC Mining Disclosure Rules and may not be comparable to other issuers that report reserves under SEC Mining Disclosure Rules.

10. Political, social and security risks

St Barbara has production and exploration operations in a developing country that is subject to political, economic and other risks and uncertainties. The formulation and implementation of government policies in this country may be unpredictable. Operating in developing countries also involves managing security risks associated with the areas where the Group has activities.

Key Risks

11. Foreign exchange

The Group has an Australian dollar presentation currency for reporting purposes. However, gold is sold throughout the world based principally on the US dollar price, and most of the Group's revenues are realised in, or linked to, US dollars. The Group is also exposed to US dollars and Papua New Guinea Kina in respect of operations located in Papua New Guinea as certain of its operating costs are denominated in these currencies. Following completion of the Acquisition, the Group will also be exposed to Canadian dollar risk in respect of the operations of Atlantic. There is a "natural" (but not perfect) hedge which matches to some degree US denominated revenue and obligations related to US dollar expenditure. The Group is therefore exposed to fluctuations in foreign currency exchange rates.

12. Interest rates

Changes in interest rates will affect borrowings which bear interest at variable rates to the extent these may not have been hedged against. An increase in interest rates will affect the costs of servicing these borrowings, which may adversely impact St Barbara's business, financial condition and financial performance.

13. Community relations

A failure to adequately manage community and social expectations within the communities in which the Group operates may lead to local dissatisfaction which, in turn, could lead to interruptions to production and exploration operations.

14. Insurance

The Group maintains insurance to protect against certain risks. However, the Group's insurance will not cover all the potential risks associated with a mining company's operations. The Group may also be unable to maintain insurance to cover these risks at economically feasible premiums. Insurance coverage may not continue to be available or may not be adequate to cover any resulting liability. Moreover, insurance against risks such as loss of title to mineral property, environmental pollution, or other hazards as a result of exploration and production is not generally available to the Group, or to other companies in the mining industry on acceptable terms. The Group might also become subject to liability for pollution or other hazards which may not be insured against, or which it may elect not to insure against because of premium costs or other reasons. Losses from these events may cause the Group to incur significant costs that could have a material adverse effect upon its financial performance and results of operations.

15. Climate change

Climate change related risks that may impact the Group include physical as well as regulatory and macro-economic impacts. The effects of changes in rainfall patterns, changing storm patterns and intensities have from time to time adversely impacted, and may in the future adversely impact, the cost, production levels and financial performance of the Group's operations. The Group's mining operations have been, and may in the future be, subject from time to time to severe storms and high rainfalls leading to flooding and associated damage, which has resulted, and may result in delays to, or loss of production at its mines (e.g. due to water ingress and flooding at the base of the mine at Leonora WA and tropical storms and/or sea level increases impacting logistics and mining operations at Simberi PNG). Carbon related regulatory impacts on the groups are currently low, but may increase adversely in future, for instance should a carbon trading scheme be introduced. Climate change related impacts on commodity markets are difficult to predict, but might include increased energy cost to the Group.

16. Other natural disasters

Seismic activity is of particular concern to mining operations. The Simberi mine in Papua New Guinea is in an area known to be seismically active and is subject to risks of earthquakes and the related risks of tidal surges and tsunamis. The Gwalia underground mine may be impacted by potential seismic events associated with operating at depth.

Key Risks

17. Risk of impairment

If the gold price suffers a significant decline, or the operations are not expected to meet future production levels, there may be the potential for future impairment write downs at any of the operations. The recoverability of the carrying value of the Group's assets is assessed on a regular basis using a range of assumptions and expectations as part of the business planning system.

RISKS ASSOCIATED WITH THE ACQUISITION

1. Completion risk

Completion of the Acquisition is conditional on customary closing conditions to a Canadian Plan of Arrangement including no material adverse change relating to Atlantic, Canadian regulatory approvals, court appearance and approval of at least two-thirds of the votes cast by Atlantic shareholders present in person or represented by proxy. There is no guarantee that St Barbara will obtain any or all of these approvals and as such, the Acquisition may not complete or be deferred if any of these conditions are not satisfied or waived. Pending conditionality of the Acquisition over an extended period could adversely affect the business and operations of Atlantic, including as a result of the potential impact on relationships with customers, suppliers and other counterparties. There is no certainty that all the closing conditions to the Canadian Plan of Arrangement will be satisfied. Failure to complete the Canadian Plan of Arrangement may negatively impact the market price for St Barbara Shares (including the New Shares). If the Acquisition does not complete for any reason, the Company will need to consider alternative uses for the proceeds of the Entitlement Offer, or ways to return proceeds from the Entitlement Offer to shareholders.

Atlantic has the right to terminate the transaction if the equity raise is not completed within the agreed timeframe and the Company does not have sufficient funds available to complete the transaction. If the transaction is terminated for this reason, the Company is required to pay a termination fee of C\$25 million to Atlantic. Failure to complete the Acquisition could adversely affect St Barbara's share price.

2. Debt Funding risk

The Acquisition is being funded by a combination of the underwritten pro-rata accelerated non-renounceable entitlement offer of New Shares documented in this presentation and the Group's existing cash. St Barbara received consent to waive change of control provision to rollover Atlantic's existing C\$100 million revolving credit facility. If the corporate acquisition facility were not available, or consent to rollover Atlantic existing debt facility is not obtained, the Group would fund the debt component of the Acquisition using existing cash reserves, or seek alternative funding under a different funding structure. Either alternative may limit the Group's operations and business strategy. St Barbara has also entered into a A\$200 million revolving loan facility with Westpac Banking Corporation (**Westpac**) which is not expected to be drawn upon to fund the acquisition, but rather used to support the Group post acquisition.

If the Acquisition completes, there will be an increase in St Barbara's net debt levels. The use of existing cash to fund the Acquisition and rollover of Atlantic's existing C\$100 million revolving credit facility means that St Barbara will be more exposed to risks associated with gearing. For example, St Barbara will be more exposed to any movements in interest rates. In addition, St Barbara will be more exposed to general risks relating to any refinancing of its debt facilities. It may be difficult for St Barbara to refinance all or some of these debt facilities and an inability to secure new debt facilities on acceptable terms may adversely affect the financial performance of the Group.

3. Underwriting risk

The Group has entered into an underwriting agreement pursuant to which the underwriter has agreed to underwrite the Entitlement Offer, subject to the terms and conditions of the underwriting agreement ("Underwriting Agreement"). The underwriter's obligations to underwrite the Entitlement Offer are conditional upon certain customary matters, including (but not limited to) St Barbara delivering certain certificates, due diligence documentation, opinions and shortfall certificates, and despatching certain documents to its shareholders.

Further, if certain events occur, some of which are beyond the control of St Barbara, the underwriter may terminate the Underwriting Agreement. Termination of the Underwriting Agreement would have an adverse impact on the amount of proceeds raised under the Entitlement Offer and could affect St Barbara's ability to pay the purchase price for the Acquisition. In these circumstances, St Barbara most likely will be unable to proceed with the Acquisition and will be required to pay the break fee of C\$25 million to Atlantic. Termination of the Underwriting Agreement could also materially adversely affect the Group's business, cash flow, financial performance, financial condition and share price.

Key Risks

The Underwriter's rights to terminate the Underwriting Agreement if certain events occur include, if:

- the Plan of Arrangement is terminated or amended in any material respect without the Underwriter's consent;
- ASX announced that St Barbara will be removed from the official list of ASX or that its shares will be suspended from quotation (for any reason other than a trading halt in connection with the Entitlement Offer);
- approval of the official quotation of the New Shares is not granted by ASX;
- there are certain delays to the timetable for the Entitlement Offer;
- the issuer is prevented from issuing the New Shares within the time required under the Entitlement Offer;
- there are material financial or economic disruptions in certain key markets or hostilities commence or escalate in certain key countries;
- an adverse change occurs in the assets, liabilities, financial position or performance, profits, losses or prospects of the Group from those disclosed by St Barbara prior to the date of the Underwriting Agreement.

4. Dilution

Investors who do not participate in the Entitlement Offer, or do not take up all of their entitlements under the Entitlement Offer, will have their percentage holding in St Barbara's issued capital diluted. Investors may also have their investment in St Barbara diluted by future capital raisings by St Barbara. St Barbara may issue new shares to finance future acquisitions or pay down debt which may, under certain circumstances, dilute the value of an investor's interest.

5. Reliance on information provided

The Group has prepared (and made assumptions in the preparation of) the financial information, information on Ore Reserves and Mineral Resources relating to the Acquisition, Atlantic and mining operations of Atlantic included in this presentation in reliance on financial information, tax information, information on Ore Reserves and Mineral Resources and other information provided by Atlantic. If any of the data or information relied upon by the Group in its due diligence process and its preparation of this presentation proves to be incomplete, incorrect, inaccurate or misleading, there is a risk that the actual financial position and performance of the Group may be materially different to the financial position and performance expected by the Group. Investors should also note that there is no assurance that the due diligence conducted by the Group and its advisors on Atlantic was conclusive and that all material issues and risks in respect of the acquisition have been identified. Therefore, there is a risk that unforeseen issues and risks may arise, which may also have a material impact on the Group.

6. Analysis of acquisition opportunity

The Group has undertaken financial, tax, legal and commercial analysis on Atlantic, in order to determine the attractiveness of Atlantic to the Group and whether to acquire it. It is possible that despite such analysis and the best estimate assumptions made by Atlantic, the conclusions drawn are inaccurate or are not realised. To the extent that the actual results achieved by the Acquisition are different to those indicated by the Group's analysis, there is a risk that the profitability and future earnings of the operations of the Group may be materially different from the profitability and earnings expected as reflected in this presentation.

7. Integration risk

The Acquisition involves the integration of Atlantic's business, which has previously operated independently to the Group. There is a risk that the integration may be more complex than currently anticipated, encounter unexpected challenges or issues, take longer than expected, divert management attention or not deliver the expected benefits.

8. Retention of personnel

The Group is committed to providing a continued attractive employment environment to assist in retaining the services of the majority of Atlantic personnel following the Acquisition. However, there can be no assurance that there will be no unintended loss of personnel, including key personnel leading up to and following the Acquisition. If key Atlantic personnel or a significant number of other personnel choose not to remain with the Group post-Acquisition, there is a risk that the integration may be more complicated than anticipated.

Key Risks

9. Acquisition accounting

St Barbara is required to undertake an assessment of fair value of the tangible and non-tangible assets acquired as well as the actual and contingent liabilities of Atlantic at the effective date of the Acquisition. Accounting standards provide 12 months from completion for this assessment to be finalised. The outcome of this assessment could give rise to difference values being applied that those used in the pro forma financial information contained in this Presentation. Such an outcome will impact the value of assets and liabilities reported in the consolidated balance sheet by St Barbara. There will also be differences in the depreciation and amortisation charges recognised in the consolidated profit and loss account which may impact reported profit before tax and net profit after tax.

10. Change of control

The Acquisition may trigger change of control clauses in some material contracts to which Atlantic is a party. Where triggered, a change of control clause may require St Barbara to seek the counterparty's consent in relation to the Acquisition. There is a risk that a counterparty may not provide consent which may trigger a termination right in favour of that counterparty or that the counterparty may require renegotiation of terms in order to obtain consent. If any of the material contracts containing a change of control clause are terminated by the counterparty or renegotiated on less favourable terms, it may have an adverse impact on St Barbara's financial performance and prospects in the future. There can be no assurance that St Barbara will be able to renegotiate such contracts on commercially reasonable terms, if at all.

11. Historical liabilities

If the Acquisition completes, the Group may become directly or indirectly liable for any liabilities that Atlantic has incurred in the past, which were not identified during its due diligence or which are greater than expected, and for which the market standard protection in the form of insurance turns out to be inadequate in the circumstances. Such liability may adversely affect the financial performance or position of the Group post-acquisition.

12. Foreign estimates

The estimates of Ore Reserves and Mineral Resources for Moose River are qualifying foreign estimates under the ASX Listing Rules reported in accordance with NI 43-101 by Atlantic and filed on SEDAR (www.sedar.com) on 13 March 2019 and 25 March 2019, respectively. The categories of Mineral Resources classification used are in accordance with NI 43-101 and the CIM Standards. NI 43-101 is a 'qualifying foreign estimate' for the purposes of the ASX Listing Rules (and has similar categories of resource classification as the JORC Code under Appendix 5A of the ASX Listing Rules).

St Barbara considers these estimates to be both material and relevant to the Group given that Moose River has the potential to be a material mining project to St Barbara. In accordance with NI 43-101 and CIM standards, Mineral Resources are not Mineral Reserves and do not have demonstrated economic viability. There is no certainty that all or any part of Mineral Resources will be converted to Mineral Reserves. Additional drilling will be required to verify geological and mineralisation continuity, and there is no certainty that all of the Inferred Resources will be converted to Measured and Indicated Resources. Quantity and grades are estimates and are rounded to reflect that the estimates are an approximation. Failure to convert Mineral Resources to Mineral Reserves, or failure to convert Inferred Resources to Measured and Indicated Resources, may have a material adverse effect on the Group's results of exploration, operations, financial condition and prospects.

Key Risks

Financial information and forecasts

The forward looking statements, opinion and estimates provided in this presentation, rely on various contingencies and assumptions. Various factors and risks, both known and unknown, many of which are outside the control of the Group, may impact upon the performance of the Group and cause actual performance to vary significantly from expected results. There can be no guarantee that the Group will achieve its stated objectives or that forward looking statements or forecasts will prove to be accurate.

GENERAL RISKS

General equity market and investment risk

The price of St Barbara's Shares may fluctuate widely in response to a variety of factors including:

- general movements in Australian and international stock markets (including volatility in comparable gold company share prices);
- investor sentiment;
- actual or anticipated variations in the Group's periodic operating results;
- mine production and development problems, including, cost over-runs, grade problems, high arsenic content, loss of key employees and other operating issues;
- volatility of gold prices;
- the impact of significant acquisitions or business combinations, strategic partnerships, joint ventures or capital commitments by or involving the Group or its competitors;
- Australian and international economic conditions and outlook;
- changes in interest rates and the rate of inflation;
- changes in government regulation and policies or in fiscal, monetary and regulatory policies (such as environmental and land management, regulation and interest rates); and
- geo-political instability, including international hostilities and acts of terrorism.

These and other factors may result in the market price for the New Shares being less or more than the Offer Price. No assurance can be given that the New Shares will trade at or above the Offer Price. None of St Barbara, its Board, the Group or any other person guarantees that market performance of the New Shares.

International Offer Restrictions

International Offer Restrictions

This document does not constitute an offer of New Shares in any jurisdiction in which it would be unlawful. In particular, this document may not be distributed to any person, and the New Shares may not be offered or sold, in any country outside Australia except to the extent permitted below.

Canada (British Columbia, Ontario and Quebec provinces)

This document constitutes an offering of New Shares only in the Provinces of British Columbia, Ontario and Quebec (the Provinces) and to those persons to whom they may be lawfully distributed in the Provinces, and only by persons permitted to sell such New Shares. No securities commission or similar authority in the Provinces has reviewed or in any way passed upon this document, the merits of the New Shares or the offering of New Shares and any representation to the contrary is an offence.

No prospectus has been, or will be, filed in the Provinces with respect to the offering of New Shares or the resale of such securities. Any person in the Provinces lawfully participating in the offer will not receive the information, legal rights or protections that would be afforded had a prospectus been filed and receipted by the securities regulator in the applicable Province. Furthermore, any resale of the New Shares in the Provinces must be made in accordance with applicable Canadian securities laws which may require resales to be made in accordance with exemptions from dealer registration and prospectus requirements. These resale restrictions may in some circumstances apply to resales of the New Shares outside Canada and, as a result, Canadian purchasers should seek legal advice prior to any resale of the New Shares.

The Company as well as its directors and officers may be located outside Canada and, as a result, it may not be possible for purchasers to effect service of process within Canada upon the Company or its directors or officers. Unless stated otherwise, all dollar amounts contained in this document are in Australian dollars.

Statutory rights of action for damages and rescission

Securities legislation in certain of the Provinces may provide purchasers with, in addition to any other rights they may have at law, rights of rescission or to damages, or both, when an offering memorandum that is delivered to purchasers contains a misrepresentation. These rights and remedies must be exercised within prescribed time limits and are subject to the defenses contained in applicable securities legislation. Prospective purchasers should refer to the applicable provisions of the securities legislation of their respective Province for the particulars of these rights or consult with a legal adviser.

The following is a summary of the statutory rights of rescission or to damages, or both, available to purchasers in Ontario. In Ontario, every purchaser of the New Shares purchased pursuant to this document (other than (a) a "Canadian financial institution" or a "Schedule III bank" (each as defined in NI 45-106), (b) the Business Development Bank of Canada or (c) a subsidiary of any person referred to in (a) or (b) above, if the person owns all the voting securities of the subsidiary, except the voting securities required by law to be owned by the directors of that subsidiary) shall have a statutory right of action for damages and/or rescission against the Company if this document or any amendment thereto contains a misrepresentation. If a purchaser elects to exercise the right of action for rescission, the purchaser will have no right of action for damages against the Company. This right of action for rescission or damages is in addition to and without derogation from any other right the purchaser may have at law. In particular, Section 130.1 of the Securities Act (Ontario) provides that, if this document contains a misrepresentation, a purchaser who purchases the New Shares during the period of distribution shall be deemed to have relied on the misrepresentation if it was a misrepresentation at the time of purchase and has a right of action for damages or, alternatively, may elect to exercise a right of rescission against the Company, provided that (a) the Company will not be liable if it proves that the purchaser purchased the New Shares with knowledge of the misrepresentation; (b) in an action for damages, the Company is not liable for all or any portion of the damages that the Company proves does not represent the depreciation in value of the New Shares as a result of the misrepresentation relied upon; and (c) in no case shall the amount recoverable exceed the price at which the New Shares were offered.

International Offer Restrictions

Section 138 of the *Securities Act* (Ontario) provides that no action shall be commenced to enforce these rights more than (a) in the case of any action for rescission, 180 days after the date of the transaction that gave rise to the cause of action or (b) in the case of any action, other than an action for rescission, the earlier of (i) 180 days after the purchaser first had knowledge of the fact giving rise to the cause of action or (ii) three years after the date of the transaction that gave rise to the cause of action. These rights are in addition to and not in derogation from any other right the purchaser may have.

Certain Canadian income tax considerations. Prospective purchasers of the New Shares should consult their own tax adviser with respect to any taxes payable in connection with the acquisition, holding or disposition of the New Shares as any discussion of taxation related matters in this document is not a comprehensive description and there are a number of substantive Canadian tax compliance requirements for investors in the Provinces.

5.2 Status of Offer Booklet

The Retail Entitlement Offer is being made pursuant to provisions of the Corporations Act (as notionally modified by ASIC Corporations (Non-Traditional Rights Issues) Instrument 2016/84) which allow rights issues to be conducted without a prospectus.

Neither this Offer Booklet nor the Entitlement and Acceptance Form are required to be lodged or registered with ASIC. This Offer Booklet is not a prospectus under the Corporations Act and no prospectus for the Entitlement Offer will be prepared. These documents do not contain, or purport to contain, all of the information that a prospective investor may require in evaluating an investment in St Barbara. They do not contain all the information which would be required to be disclosed in a prospectus.

As a result, it is important for Eligible Retail Shareholders to carefully read and understand the information on St Barbara and the Entitlement Offer made publicly available, prior to accepting all or part of their Entitlement. In particular, please refer to this Offer Booklet, the Investor Presentation and other announcements made available at <http://www.asx.com.au/>.

This Offer Booklet does not contain financial product advice and has been prepared without taking into account your investment objectives, financial circumstances or particular needs. St Barbara is not licensed to provide financial product advice in respect of the New Shares. Before deciding whether to apply for New Shares, you should consider whether they are a suitable investment for you in light of your own investment objectives and financial circumstances and having regard to the merits or risks involved. If, after reading the Offer Booklet, you have any questions about the Entitlement Offer, you should contact your stockbroker, accountant or other independent professional adviser.

This Offer Booklet (including the accompanying personalised Entitlement and Acceptance Form) may not be distributed or released to, or relied upon by, persons in the United States or that are acting for the account or benefit of a person in the United States.

5.4 **Notice to nominees and custodians**

The Retail Entitlement Offer is being made to all Eligible Retail Shareholders. Nominees and custodians with registered addresses in the eligible jurisdictions, irrespective of whether they participate under the Institutional Entitlement Offer, may also be able to participate in the Retail Entitlement Offer in respect of some or all of the beneficiaries on whose behalf they hold existing Shares, provided that the applicable beneficiary would satisfy the criteria for an Eligible Retail Shareholder.

If St Barbara believes you hold Shares as a nominee or custodian you will have received, or will shortly receive, a letter in respect of the Entitlement Offer from St Barbara. Nominees and custodians should consider carefully the contents of that letter and note in particular that the Retail Entitlement Offer is not available to:

- (a) beneficiaries on whose behalf they hold Existing Shares who would not satisfy the criteria for an Eligible Retail Shareholder;
- (b) Eligible Institutional Shareholders who received an offer to participate in the Institutional Entitlement Offer (whether they accepted their Entitlement or not);
- (c) Ineligible Institutional Shareholders who were ineligible to participate in the Institutional Entitlement Offer; or
- (d) Shareholders who are not eligible under all applicable securities laws to receive an offer under the Retail Entitlement Offer.

In particular, persons acting as custodians or nominees must not take up Entitlements or apply for New Shares on behalf of, or for the account or benefit of, a person in the United States and must not send any document relating to the Retail Entitlement Offer to, any person that is in the United States or that is acting for the account or benefit of any person in the United States.

St Barbara is not required to determine whether or not any registered holder is acting as a nominee or custodian or the identity or residence of any beneficial owners of Shares. Where any holder is acting as a nominee for a foreign person, that holder, in dealing with its beneficiary, will need to assess whether indirect participation by the beneficiary in the Retail Entitlement Offer is compatible with applicable foreign laws. Eligible Retail Shareholders who are nominees, trustees or custodians are therefore advised to seek independent advice as to how to proceed.

5.5 **No cooling off**

Cooling off rights do not apply to an investment in New Shares. You cannot withdraw your Application once it has been made.

5.6 **Withdrawal of the Entitlement Offer**

Subject to applicable law, St Barbara reserves the right to withdraw or vary all or part of the Entitlement Offer at any time, in which case St Barbara will refund any Application Monies already received in accordance with the Corporations Act and will do so without interest being payable to Applicants. In circumstances where allotment under the Institutional Entitlement Offer has occurred, St Barbara may only be able to withdraw the Entitlement Offer with respect to New Shares to be issued under the Retail Entitlement Offer.

To the fullest extent permitted by law, you agree that any Application Monies paid by you to St Barbara will not entitle you to receive any interest and that any interest earned in respect of Application Monies will belong to St Barbara.

The Underwriter has not authorised, approved or verified any forward-looking statements included in this Offer Booklet.

To the maximum extent permitted by law, each Underwriter Party excludes and disclaims all liability for any expenses, losses, damages or costs incurred by you as a result of your participation in the Entitlement Offer and this Offer Booklet being inaccurate or incomplete in any way for any reason, whether by negligence or otherwise, and make no representation or warranty, express or implied, as to the currency, accuracy, reliability or completeness of this Offer Booklet.

The Underwriter Parties take no responsibility for any part of the Offer Booklet or liability (including, without limitation, any liability arising from fault or negligence on the part of any person) for any direct, indirect, consequential or contingent loss or damage whatsoever arising from the use of any part of the Offer Booklet or otherwise arising in connection with it.

None of the Underwriter Parties make any recommendations as to whether you or your related parties should participate in the Entitlement Offer, nor do they make any representations or warranties, express or implied, to you concerning this Entitlement Offer or any such information and you represent, warrant and agree that you have not relied on any statements made by the Underwriter Parties in relation to the New Shares or the Entitlement Offer generally.

The Underwriting Agreement provides that the Underwriter shall not be issued any shares that would cause it to breach the 20% takeover threshold contained in Chapter 6D of the Corporations Act or which would require notification under the *Foreign Acquisitions and Takeovers Act 1975* (Cth). The size of the Entitlement Offer is approximately 169.7 million Shares or 24.4% of the issued capital on a fully diluted basis. If the Underwriter was required to take up more than 20% of the Shares on issue, then it notes for the purposes of ASIC Report 612 (March 2019), that it will still guarantee funding of the entire underwritten proceeds by the completion date, the number of excess shortfall Shares would be approximately 30.5 million shares (being equivalent to 4.4% of the company's fully diluted issued share capital) plus any additional interests the Underwriter and its affiliates hold at the relevant settlement dates other than through its underwriting commitment, and it would enter into an arrangement for any such excess shares to be issued to it, or to third party investors, after close of the Entitlement Offer at the Offer Price. No material impact on control is expected to arise as a consequence of these arrangements or from any Shareholder taking up their Entitlement where there is an excess shortfall.

Determination of eligibility of investors for the purposes of the institutional or retail components of the Entitlement Offer is determined by reference to a number of matters, including legal and regulatory requirements, logistical and registry constraints and the discretion of St Barbara and the Underwriter. To the maximum extent permitted by law, each of the Underwriter Parties disclaim any duty or liability (including for negligence) in respect of that determination and the exercise or otherwise of that discretion.

5.12 Disclaimer of representations

Except as required by law, and only to the extent so required, none of St Barbara, any Underwriter Parties or any other person, warrants or guarantees the future performance of St Barbara or any return on any investment made pursuant to this Offer Booklet.

Dear Shareholder

ST BARBARA LIMITED \$490 MILLION PRO-RATA ACCELERATED NON-RENOUCEABLE ENTITLEMENT OFFER

Notification to Ineligible Retail Shareholders

On Wednesday, 15 May 2019, St Barbara Limited (**St Barbara**) announced a pro-rata accelerated non-renounceable entitlement offer of new St Barbara shares (**New Shares**) at an offer price of \$2.89 per New Share (**Offer Price**) to raise approximately \$490 million (**Entitlement Offer**). St Barbara will offer eligible existing shareholders (**Eligible Shareholders**) the opportunity to subscribe for 1 New Share for every 3.1 existing St Barbara shares held on the Record Date of 7.00pm (AEST) on Friday, 17 May 2019 (**Record Date**).

Why are we sending you this letter?

This letter is to inform you about the Entitlement Offer and to explain to you why you will not be able to subscribe for shares under the Entitlement Offer.

No action required

This letter is not an offer to issue New Shares to you, nor an invitation for you to apply for New Shares. **You are not required to do anything in response to this letter.**

Details of the Entitlement Offer

The New Shares issued under the Entitlement Offer will comprise approximately 169,673,902 New Shares.

The Entitlement Offer comprises an offer to eligible institutional shareholders (**Institutional Entitlement Offer**) and an offer to eligible retail shareholders (**Retail Entitlement Offer**) to subscribe for New Shares at the same Offer Price and offer ratio.

The Entitlement Offer is being made pursuant to section 708AA of the *Corporations Act 2001* (Cth) (**Corporations Act**) (as modified by ASIC Corporations (Non-Traditional Rights Issues) Instrument 2016/84), meaning that no prospectus needs to be prepared in relation to the Entitlement Offer. The Institutional Entitlement Offer has already been completed and raised approximately A\$355 million.

The Entitlement Offer is being made by St Barbara without a disclosure document under section 708AA of the Corporations Act 2001 (Cth) as modified by ASIC Corporations (Non-Traditional Rights Issues) Instrument 2016/84 (Corporations Act).

Details and eligibility of the Retail Entitlement Offer

The Retail Entitlement Offer is being made to Eligible Retail Shareholders (as defined below) on the basis of 1 New Share for every 3.1 existing St Barbara shares held as at the Record Date. An offer booklet in relation to the Retail Entitlement Offer (**Retail Offer Booklet**) will be despatched to Eligible Retail Shareholders on or around Tuesday, 21 May 2019.

Eligible Retail Shareholders are those persons who:

- are registered as a holder of existing fully paid ordinary St Barbara shares as at 7.00pm (AEST) on the Record Date, being Friday, 17 May 2019;
- have a registered address on the St Barbara share register in Australia or New Zealand as at the Record Date;
- are not in the United States and are not acting for the account or benefit of a person in the United States (to the extent such person holds St Barbara shares for the account or benefit of such person in the United States);
- did not receive an offer to participate (other than as nominee in respect of other underlying holdings) in the Institutional Entitlement Offer and were not treated as ineligible institutional investors under the Institutional Entitlement Offer; and
- are eligible under all applicable securities laws to receive an offer under the Retail Entitlement Offer without any requirement for a prospectus or offer document to be lodged or registered.

Shareholders who are not Eligible Retail Shareholders and who did not participate in the Institutional Entitlement Offer are ineligible shareholders.

The restrictions upon eligibility to participate in the Retail Entitlement Offer arise because of legal and regulatory limitations in some countries other than Australia and New Zealand and the potential costs to St Barbara of complying with these legal and regulatory requirements compared with the relatively small number of shareholders there, the small number of shares they hold and the relatively low value of New Shares to which those shareholders would otherwise be entitled.

St Barbara has determined, pursuant to Listing Rule 7.7.1(a) of the ASX Listing Rules and section 9A(3) of the Corporations Act (as modified by ASIC Corporations (Non-Traditional Rights Issues) Instrument 2016/84), that it would be unreasonable to make or extend offers to shareholders in countries (other than Australia and New Zealand) in connection with the Retail Entitlement Offer.

Unfortunately, as you do not satisfy the criteria stated above, you are not an Eligible Retail Shareholder for the purposes of the Retail Entitlement Offer. Accordingly, in compliance with ASX Listing Rule 7.7.1(b) and section 9A(3)(b) of the Corporations Act, St Barbara wishes to notify you that St Barbara will not be extending the Retail Entitlement Offer to you and you will not be able to subscribe for New Shares under the Retail Entitlement Offer. Under the terms of the Retail Entitlement Offer, you are not eligible to apply for New Shares and you will not be sent a copy of the offer materials relating to the Retail Entitlement Offer.

Notwithstanding the above, St Barbara may agree to extend the Retail Entitlement Offer to certain Institutional Shareholders in foreign jurisdictions who did not participate in the Institutional Entitlement Offer subject to compliance with applicable laws.

As the Retail Entitlement Offer is non-renounceable, you will not receive any payment or value for entitlements in respect of any New Shares that would have been offered to you if you were an Eligible Retail Shareholder.

If you have any queries regarding the Retail Entitlement Offer, or if you believe you are an Eligible Retail Shareholder please call the St Barbara Offer Information Line on 1300 653 935 (within Australia) or +61 3 9415 4356 (outside Australia) between 8.30am to 5.00pm (AEST) Monday to Friday during the Retail Entitlement Offer period. For other questions, you should consult your stockbroker, accountant or other professional adviser.

On behalf of the Board and management of St Barbara, thank you for your continued support.

Yours sincerely

Rowan Cole

Company Secretary
