AURA APPOINTS SP ANGEL AS JOINT BROKER

Aura Energy Limited (ASX: AEE, AIM: AURA) wishes to advise the market of the appointment of SP Angel Corporate Finance LLP (“SP Angel”) as joint broker to support its UK AIM listing alongside the Company’s existing brokers with immediate effect.

Aura is an Australian based minerals exploration and development company, listed on both the ASX and AIM, which has:

- a fully permitted uranium project in Mauritania;
- an advanced vanadium project in Sweden; and
- prospective gold, base and battery metal tenements in Mauritania.

Aura is very pleased that SP Angel, with its strong resource and mining focus will assist Aura in unlocking the value of its projects for its shareholders.

Peter Reeve, Aura’s Executive Chairman said: “Aura’s business is currently in its strongest position since inception, with our three distinct business areas of uranium, vanadium and gold, base and battery metals exploration each ready to advance. Aura will continue to methodically progress its projects to a high technical standard”.

“There are very few uranium companies that can claim to have a fully permitted mining project as Aura has with Tiris Uranium Project. This aspect combined with the ongoing scoping study of the Häggån Vanadium Project and the newly granted gold, base and battery metal exploration tenements in Mauritania provides Aura with a strong outlook for years to come. It is a position Aura has worked hard to achieve. Aura looks forward to working with SP Angel to realise the potential of its projects.” he said.
