AVA secures new FFT Aura Ai-2 contracts valued at A\$1.07M

- Recently launched Aura Ai-2 secures new contracts in the Middle East
- Aura Ai-2 selected to protect perimeter of highly sensitive airbase
- Major international airport to upgrade to next generation Aura Ai-2

AVA Risk Group Limited (ASX: AVA) announces that following the A\$5M contract announced on 24 May 2019 regarding Aura Ai-2's selection as part of a major security upgrade across 23 Indian Military Airbases, it has secured further orders for its FFT Aura Ai-2 product valued at A\$1.07M. These orders further confirm FFT's dominance as the preferred Perimeter Intrusion Detection System of choice for high security Military and Critical Infrastructure applications. Details of the orders received are as follows:

- FFT's Aura Ai-2 has been selected to protect the perimeter of a highly sensitive airbase in the Middle East. The product is due for delivery and installation in Q1 FY20.
- FFT's Aura Ai-2 has been selected to protect a major international airport in the Middle East. This long-standing customer will be migrating from their existing FFT Secure Fence solution to the next generation Aura Ai-2 technology, as part of significant airport security upgrade.

Commenting on the announcement, AVA Group CEO Scott Basham says: "FFT's fibre optic perimeter intrusion technology has long been used to protect military airbases and major civilian airports all around the globe. Recent orders from the Middle East and India indicate that FFT remains the preferred solution for protecting the people and critical national assets housed inside these highly sensitive perimeters. Both new and existing customers alike are embracing the enhanced benefits and value that our new Aura Ai-2 platform offers these vital infrastructure security operations."

"Aura Ai-2 now clearly leads the market with its unrivalled high-sensitivity detection, location accuracy, cut resilience capability, low nuisance alarms, and the longest linear range of any solution currently available," Mr Basham adds, "These orders, and other recent announcements, reflect the security industry's belief in the direction we are taking our world leading technology, and affirm that our laser focus on delivering value to customers is resonating with end user sectors".

About the Ava Group

The Ava Group, comprising world leading technology divisions Future Fibre Technologies (FFT) and BQT Solutions (BQT) is a market leader in the provision of risk management services and technologies, trusted by some of the most security conscious commercial, industrial, military and government clients in the world.

The Group features a range of complementary solutions including intrusion detection for perimeters, pipelines and data networks, biometric and card access control as well as the secure international logistics and storage of high value assets. Through decades of innovation, the Ava Group continues to build upon a comprehensive portfolio of premium services and technologies for the most complex and demanding markets.

Our business truly serves a global market, with our knowledgeable team spread across six continents, providing market and industry expertise directly to customers. With thousands of sites protected, the Ava Group is proven to deliver first class services and technologies that surpass the expectations of our partners and end users.
