2 July 2019

Dear Shareholder,

On behalf of the Board of Peako Limited ("Peako" or the "Company"), I invite you to participate in Peako's non-renounceable pro rata rights issue on the basis that for every two Shares held as at the Record Date, Eligible Shareholders will have the right to subscribe for one new Share at an issue price of \$0.02 (2 cents) per new Share. Each subscriber will also be entitled to receive 1 New Option (exercisable at \$0.025 on or before 30 April 2020) for every Share subscribed for and received under this Prospectus, for no additional consideration.

The New Options comprise a new class of quoted security, subject to satisfying the Official Quotation conditions.

The Rights Issue seeks to raise up to \$769,785 (before costs) to provide working capital for Peako and to fund drill-testing of IP anomalies detected at Peako's Eastman and Landrigan prospects in the East Kimberley which provide immediate "walk-up" drilling opportunities. If fully subscribed, a total of approximately 38,489,273 new Shares will be issued under the Rights Issue.

I encourage you to read this Prospectus in full before deciding whether to take up your Entitlement under the Rights Issue. Should you have any doubts about what action to take, you should consult your stockbroker, accountant or other professional advisor.

I intend to participate in the Offer, personally and in respect of entities that I control. I intend to take up my full personal Entitlement, and intend for the entities I control to take up a minimum of 60% of their aggregate total Entitlement.

For and on behalf of the Board.

This Prospectus is a 'transaction-specific' prospectus issued under section 713 of the Corporations Act. Section 713 allows the issue of a more concise prospectus in relation to an offer of continuously quoted securities. The Prospectus is therefore intended to be read in conjunction with the publicly available information in relation to the Company, which has been notified to the ASX; it does not include all information that would be included in a prospectus for an initial offering of securities in a company that is not already listed on the ASX. Accordingly, prospective investors should also have regard to other publicly available information in relation to the Company before deciding whether to apply for Securities under this Prospectus.

This Prospectus has not been, nor will it be, lodged, filed or registered with any regulatory authority under the securities laws of any country other than Australia. The Securities the subject of this Prospectus have not been, nor will they be, approved by or registered with any regulatory authority of any other country. This Prospectus does not constitute an offer or issue in any place in which, or to any person to whom, it would not be lawful to make such an offer or issue. Refer to sections 2.9 and 2.10 of this Prospectus for treatment of overseas shareholders. The Corporations Act prohibits any person passing onto another person an Entitlement and Acceptance Form unless it is attached to a hard copy of this Prospectus or it accompanies the complete and unaltered version of this Prospectus. During the Offer period any person may obtain a copy of this Prospectus free of charge by contacting the Company.

It is important that investors read this Prospectus in its entirety and seek professional advice where necessary. An investment in the Securities the subject of this Prospectus should be considered highly speculative.

Certain terms and abbreviations used in this Prospectus have defined meanings which are explained in the Glossary.

FORWARD-LOOKING STATEMENTS

These statements are based on an assessment of present economic and operating conditions, and on a number of assumptions regarding future events and actions that, as at the date of this Prospectus, are expected to take place.

Such forward-looking statements are not guarantees of future performance and involve known and unknown risks, uncertainties, assumptions and other important factors, many of which are beyond the control of the Company, its Directors and its management.

The Company cannot and does not give any assurance that the results, performance or achievements expressed or implied by the forward-looking statements contained in this Prospectus will actually occur and investors are cautioned not to place undue reliance on these forward-looking statements.

The Company has no intention to update or revise forward-looking statements, or to publish prospective financial information in the future, regardless of whether new information, future events or any other factors affect the information contained in this Prospectus, except where required by law.

2. DETAILS OF THE OFFER

2.1. The Offer

The Company is making a pro-rata non-renounceable issue of Securities to Eligible Shareholders who are registered as at 7.00 pm AEST on 5 July 2019 ("Record Date").

The Offer is made on the basis that for every 2 Shares held as at the Record Date, Eligible Shareholders will have the right to subscribe for 1 new Share at an issue price of \$0.02 each. Each Eligible Shareholder will also be entitled to receive 1 New Option for every Share subscribed for and received under this Prospectus for no additional consideration. The exercise price of the New Options is \$0.025 and the expiry date is 30 April 2020. The full terms of the New Options are set out in section 5.2 of this Prospectus.

In the calculation of any Entitlement, fractions will be rounded up to the nearest whole number.

Based on the capital structure of the Company at the date of this Prospectus, approximately 38,489,273 new Shares and 38,489,273 New Options will be offered under this Offer, to raise approximately \$769,785 (before the costs of the Offer).

This Offer is made on a non-renounceable basis which means that Eligible Shareholders may not sell or transfer all or part of the Entitlement. If an Entitlement is not taken up under the Offer by the Closing Date, the Entitlement will lapse. Any New Shares not applied for will form part of the Shortfall.

New Shares to be issued under this Offer are fully paid ordinary shares and will rank equally with all other ordinary shares on issue from the date of issue and allotment.

A personalised Entitlement and Acceptance Form, which sets out each Eligible Shareholder's entitlement to new Shares and the right to apply for Shortfall Shares, accompanies this Prospectus Document.

2.2. No Minimum Subscription

There is no minimum subscription.

2.3 Eligible Shareholders and Ineligible Shareholders

Eligible Shareholders are those Shareholders who:

- a) are registered as a holder of Shares as at the Record Date;
- b) have registered addresses on the Peako Share Register in Australia or New Zealand or are otherwise eligible under applicable securities laws to receive an offer to subscribe for new Shares under the Offer. In this context "*applicable securities laws*" include the securities laws of the jurisdiction in which the Shareholder (representing that the Shareholder is an Eligible Shareholder) is resident without this Prospectus being registered under such applicable securities laws; and
- c) are not in the United States and are not acting for the account or benefit of a person in the United States.

Peako reserves the right to determine whether a Shareholder is an Eligible Shareholder or an Ineligible Shareholder.

Where this Prospectus is dispatched to a Shareholder whose address in Peako's share register is outside of Australia or New Zealand and the Shareholder fails to take up its Entitlement in full or in part, Peako will determine that such Shareholder is an Ineligible Shareholder and the new Shares to which that Ineligible Shareholder had an Entitlement will be issued and allotted to the Nominee as provided in section 2.10 of this Prospectus.

Where a Shareholder whose address in Peako's share register is outside of Australia and New Zealand returns a completed personalised Entitlement and Acceptance Form or makes a payment by BPAY® and thus represents and warrants to Peako that the Shareholder satisfies each of the criteria listed above to be an Eligible Shareholder, Peako will accept such representation and determine that the Shareholder is an Eligible Shareholder as so represented.

Shareholders who are not Eligible Shareholders are Ineligible Shareholders.

By returning a completed personalised Entitlement and Acceptance Form or by making a payment by BPAY® you will be taken to have represented and warranted that you satisfy each of the criteria listed above to be an Eligible Shareholder.

Nominees, trustees and custodians are therefore advised to seek independent professional advice as to how to proceed.

Peako may (in its absolute discretion) accept Applications from Shareholders whose addresses in the share register are outside Australia and New Zealand who, if sent the Prospectus, represent, by acceptance of the Offer, that they are Eligible Shareholders in accordance with all applicable laws as referred to above. However, Peako will not send this Prospectus or any Entitlement and Acceptance Form to any person in the United States or accept Applications from United States residents or from persons in the United States or from persons who are acting for the account or benefit of United States residents or persons in the United States. Where Peako does not make an Offer to any shareholder who has a registered address outside of Australia and New Zealand, Peako will, in accordance with Listing Rule 7.7.1(b), send each holder to whom it will not offer the new Shares, details of the Rights Issue and an advice that Peako will not offer new Shares to those shareholders.

2.4 Action required

Eligible Shareholders who wish to take up all or part of their Entitlement can complete the accompanying Entitlement and Acceptance Form in accordance with the instructions set out on the form, and lodge the form together with their payment for the appropriate amount so that it reaches the Company's share registry:

By post:

Peako Limited
c/- Automic Registry Services
GPO Box 5193
Sydney NSW 2000

By delivery (between 9am to 5pm AEDT):

Peako Limited
c/- Automic Registry Services
Level 5, 126 Phillip Street
Sydney NSW 2000

Completed Entitlement and Acceptance Forms must reach the Company's share registry by no later than 5.00 pm AEST on **the Closing Date, being 2 August 2019.**

Cheques should be made payable to "Peako Limited" and crossed "Not Negotiable".

Alternatively, you can pay by BPAY in accordance with the instructions on the Entitlement and Acceptance Form. It is your responsibility to ensure the payment is received by the Company by no later than 5.00pm AEST on 2 August 2019. You should be aware that your own financial institution may implement earlier cut off times with regards to electronic payments and you should take this into consideration when making payment.

The Company accepts no responsibility for late or incorrectly completed BPAY payments.

If paying by BPAY there is no need to forward the completed Entitlement and Acceptance Form to the Company's share registry.

If the amount of your cheque(s) for application money (or the amount for which those cheque(s) clear in time for allocation) is insufficient to pay for the number of new Shares you have applied for in your Entitlement and Acceptance Form, you may be taken to have applied for such lower number of new Shares as your cleared application money will pay for (and to have specified that number of new Shares in your Entitlement and Acceptance Form) or your application may be rejected at the discretion of the Directors.

A completed and lodged Entitlement and Acceptance Form constitutes a binding offer to acquire new Shares on the terms and conditions set out in this Prospectus and, once lodged, cannot be withdrawn. Refer to section 6.8 of this Prospectus for further details.

If you decide not to accept your Entitlement, you do not need to take any action.

2.5 Shortfall Offer

Any new Shares and New Options not taken up by Eligible Shareholders in accordance with their respective Entitlements will form the Shortfall Securities.

All Eligible Shareholders, other than related parties of Peako and their Associates, are entitled to apply for Shortfall Securities.

The total number of Shortfall Securities comprises the “**Shortfall**”.

The Entitlement and Acceptance Form contains provisions for Eligible Shareholders to apply for Shortfall Securities in addition to their Entitlements.

Applications for Shortfall Securities will only be accepted to the extent of the Shortfall and no subscriber will be permitted to acquire Shortfall Securities to the extent that such acquisition would result in that subscriber having a voting power in Peako in excess of 20% (on a post Rights Issue and Shortfall basis).

Where Applications for Shortfall Securities are in excess of the Shortfall then, subject to the overriding discretion of the Board and to reject any Application for Shortfall Securities, such Applications will be accepted in part, on a pro rata basis.

2.6 Shortfall Placement

Shortfall Securities not taken up by Eligible Shareholders may be placed at the discretion of the Directors within 3 months of the Closing Date, to sophisticated and professional investors (“**Shortfall Placement**”).

To the extent that is commercially practicable and taking into account Peako’s requirement for funds, the Directors will endeavour to allot the Shortfall Placement to a spread of investors, in order to mitigate any control effects which may arise from issuing the Shortfall Securities to a single or small number of investors. In any event, no subscriber will be permitted to acquire Shares under the Shortfall Placement to the extent that such acquisition would result in that subscriber having a voting power in Peako in excess of 20% (on a post Rights Issue and Shortfall Placement basis).

2.7. No Underwriting

The Offer is not underwritten.

2.8. Effect of the Offer on the Control of the Company

(a) General

The maximum number of new Shares that will be issued under the Offer is approximately 38,489,273. This equates to approximately 33.3% of all the issued Shares in the Company following completion of the Offer (on an undiluted basis).

The potential effect the Offer will have on the control of the Company's undiluted share capital will depend on the extent to which Eligible Shareholders take up their Entitlements under the Offer.

If all Eligible Shareholders take up their Entitlements in full, the Offer will have no material effect on the control of the Company.

Shareholders should be aware that if they do not participate in the Offer and the Offer is fully subscribed, their holdings are likely to be diluted by approximately 44% (as compared to their holdings and number of Shares on issue as at the date of this Prospectus).

(b) Details of Substantial Shareholders

Based on lodged substantial shareholder notices or other publicly available information as at the date of this Prospectus, those persons which (together with their associates) have a relevant interest in 5% or more of the Shares on issue are set out below:

Shareholder	Shares	%
Albers Shareholders	44,019,895	57.18
RAM Platinum Pty Ltd	4,419,689	6.1

Mr E.G. Albers, Chairman of Peako, has indicated that he intends to participate in the Offer by taking up his full personal Entitlement and the other Albers Shareholders intend to take up a minimum of 60% of their aggregate Entitlement. See section (c) for further details.

RAM Platinum Pty Ltd is expected to take up some or all of its Entitlements but no material change in control issues are expected to result from its participation in the Offer.

No person (other than the Albers Shareholders) will have a voting power in the Company in excess of 20% of the total voting power attached to all Shares on issue subsequent to the close of the Offer.

(c) Controlling interest of Albers Shareholders

Mr E.G. Albers, Chairman, and his associated entities, referred to herein as the **Albers Shareholders**, presently own 57.18% of the Shares, as specified in the table below. The Albers Shareholders therefore collectively control the Company. Mr Albers has indicated that he intends to participate in the Offer by taking up his full personal Entitlement and the other Albers Shareholders intend to take up a minimum of 60% of their aggregate Entitlement. This would equate to an aggregate effective acceptance by Albers Shareholders (Including Mr Albers) of 63.8%

The following table calculates the effect (on an undiluted basis) on Albers Shareholders interests and voting power for four alternate cases given different acceptance rates by both Albers Shareholders and all other acceptances (including Shortfall and Nominee acceptances). See section 6.3 of this Prospectus for details of the Albers Shareholdings.

In the event that the Albers Shareholders take up 100% of their Entitlements and no other Entitlements are taken up, Albers voting power would increase from 57.18% to 66.70%. Other possible scenarios and their impact on control are shown in the table below.

2.9 Overseas Shareholders

This Prospectus has been prepared to comply with the requirements of the securities laws of Australia and New Zealand.

To the extent that you hold Shares on behalf of another person resident outside Australia or New Zealand, it is your responsibility to ensure that any participation (including for your own account or when you hold Shares beneficially for another person) complies with all applicable foreign laws and that each beneficial owner on whose behalf you are submitting the personalised Entitlement and Acceptance Form is not in the United States and not acting for the account or benefit of a person in the United States.

This Prospectus does not constitute an offer in any jurisdiction in which, or to any person to whom, it would not be lawful to make such an offer. No action has been taken to register or qualify the Offer, the Entitlements or the new Shares or New Options, or otherwise permit the public offering of the new Shares and New Options, in any jurisdiction other than Australia and New Zealand. This Offer of new Shares and New Options is non-renounceable and therefore the right to acquire new Shares and New Options cannot be acquired by or exercised by any person other than the Eligible Shareholder to whom the Offer is made.

All Overseas Shareholders should carefully consider whether they are or are not an Eligible Shareholder who is entitled under applicable securities laws to receive an offer to subscribe for new Shares and New Options under the Offer and entitled to subscribe for same without this Prospectus being registered under such applicable securities laws. If an Overseas Shareholder considers that they are so entitled and that Overseas Shareholder lodges an Entitlement and Acceptance Form accompanied by the applicable Application Moneys then Peakco will rely on the representation and warranty so made that the Overseas Shareholder is an Eligible Shareholder and

not an Ineligible Shareholder. In this context “applicable securities laws” include the securities laws of the jurisdiction in which the Shareholder (representing that the Shareholder is an Eligible Shareholder) is resident.

The distribution of this Prospectus (including an electronic copy and including any Entitlement and Acceptance Form) outside Australia and New Zealand may be restricted by law. If you come into possession of this Prospectus, you should observe all restrictions on your right to acquire the new Shares and New Options under the laws of the jurisdiction in which you are resident or by which you are bound and should seek your own advice on such restrictions.

Any non-compliance by you with those restrictions may contravene applicable securities laws.

New Zealand

The Offer contained in this Prospectus to Eligible Shareholders with registered addresses in New Zealand is made in reliance on the *Securities Act (Overseas Companies) Exemption Notice 2013* (New Zealand). Members of the public in New Zealand who are not existing Shareholders on the Record Date are not entitled to apply for any new Shares or New Options.

This Prospectus has been prepared in compliance with Australian law and has not been registered, filed with or approved by any New Zealand regulatory authority. This Prospectus is not a product disclosure statement under New Zealand law and is not required to, and may not, contain all the information a product disclosure statement under New Zealand law is required to contain.

United States

Entitlements (or Rights) and new Shares and New Options have not been and will not be registered under the US Securities Act or the securities laws of any state or other jurisdiction in the United States. Entitlements may not be purchased, taken up or exercised by persons in the United States or by persons who are acting for the account or benefit of persons in the United States. Neither the Entitlements nor the new Shares may be offered to or sold to persons in the United States or to persons who are acting for the account or benefit of persons in the United States except in a transaction exempt from, or not subject to, the registration requirements of the US Securities Act and the applicable securities laws of any state or other jurisdiction in the United States.

Entitlements and the new Shares and New Options the subject of the Offer will be sold only in 'offshore transactions' (as defined in Rule 902(h) under the US Securities Act of 1933 (“US Securities Act”)) in reliance on Regulation S under the US Securities Act. Because of these legal restrictions, you must not distribute, release or send copies of this Prospectus, any Entitlement and Acceptance Form or any other material relating to the Offer to any person in the United States.

2.10 Nominee Sale Procedure

To ensure that this Rights Issue falls within the “*rights issue*” exception in section 611 of the Corporations Act to the general prohibition on acquisition of shares contained in section 610 of the Act, the Company has, with the approval of ASIC, appointed Holdex Nominees Pty Ltd to act as the nominee (“**Nominee**”) to sell the new Shares that might have otherwise been issued to Shareholders resident outside of Australia and New Zealand (“**Ineligible Shareholders**”).

The Nominee sale procedure will be as follows:

- a) the Company will issue to the Nominee the new Shares and New Options that Ineligible shareholders would be entitled to if they were to participate in the Offer of new Shares and New Options under the Rights Issue;
- b) the Nominee will use its best endeavours to sell the new Shares and New Options at a price and otherwise in a manner determined by the Nominee in its sole discretion; and

- c) the net proceeds of the sale of the new Shares and New Options (after deducting the aggregate subscription price of the new Shares and the reasonable costs of the Nominee procedure under section 615 of the Act, including costs of sale), if any, will be distributed to the Ineligible Shareholders for whose benefit the new Shares and New Options are sold in proportion to their shareholdings as at the Record Date;
- d) If any such net proceeds of sale are less than such reasonable costs referred to above, such proceeds may be retained by the Company. Accordingly there is a possibility that Ineligible Shareholders may receive no net proceeds if the subscription price plus such costs are greater than the sale proceeds. The Company will not be held liable for the sale of any of the new Shares or New Options of Ineligible Shareholders at any particular price or the timing of such a sale; and
- e) The Nominee will not sell any of the new Shares or New Options to any related party of the Company or to any Associate of any such related party.

The Nominee will be paid a fee of \$500 (plus GST), brokerage at a rate of 7.5% on the sale of the new Shares and New Options together with its expenses of sale and of accounting for the proceeds of sale.

2.11 Allotment

The new Shares and New Options will be issued and allotted and issued as soon as practicable after the Closing Date.

Statements of holding for the new Shares and New Options will be mailed to applicants as soon as practicable after the Closing Date.

Prior to allotment of the new Shares and New Options, all application moneys will be held in trust for applicants. The Company will retain any interest earned on the application moneys.

No Securities will be allotted and issued on the basis of this Prospectus later than 13 months after the date of this Prospectus.

2.12 Official Quotation by ASX

Application to ASX for admission of the new Shares and New Options to Official Quotation will be made by the Company within 7 days of the date of this Prospectus.

If the application referred to above is not made within the 7 days, or the new Shares are not admitted to Official Quotation on ASX within 3 months after the Closing Date, or such longer period as is permitted by the Corporations Act, none of the Securities offered by this Prospectus will be issued. In that circumstance, all applications will be dealt with in accordance with section 724 of the Corporations Act.

The New Options will comprise a new class of quoted security, subject to satisfying the Official Quotation conditions. If the Official Quotation conditions are not satisfied, the New Options will remain unquoted until such time as those conditions are able to be satisfied.

The fact that ASX may grant Official Quotation to the Securities that may be issued under this Prospectus is not to be taken in any way as an indication of the merits of the Company or the Securities offered for subscription.

2.13 Risk Factors

Investors should carefully read the risk factors outlined in section 4 of this Prospectus. An investment of this kind involves a number of risks, some of which are specific to the Company and the industry in which it operates.

2.14 Rights Attaching to new Shares and New Options

Summaries of the rights attaching to new Shares and New Options are set out in sections 5.1 and 5.2 respectively of this Prospectus.

2.15 Taxation Implications

The Directors do not consider that it is appropriate to give Shareholders advice regarding the taxation consequences of the Company conducting the Issue or Shareholders applying for new Shares and New Options under this Prospectus, as it is not possible to provide a comprehensive summary of the possible taxation positions of Shareholders. The Company, its advisers and officers, do not accept any responsibility or liability for any taxation consequences to Shareholders arising from the Issue. Shareholders should, therefore, consult their own professional tax adviser in connection with the taxation implications of the Issue.

2.16. Notice to nominees and custodians

Nominees and custodians that hold existing Shares should note that the Offer is available only to Eligible Shareholders. The Company is not required to determine whether or not any registered holder is acting as a nominee or the identity or residence of any beneficial owners of securities. If any nominee or custodian is acting on behalf of a foreign person, that holder, in dealing with its beneficiary, will need to assess whether indirect participation by the beneficiary in the Offer is compatible with applicable foreign laws.

2.17. Summary

This section 2 is not intended to provide full details and information on the Offer. Shareholders must read this Prospectus in full in order to make a fully informed investment decision.

2.18. Enquiries

Any questions concerning the Offer should be directed to the Company's share registry in the first instance (Telephone: +61 1300 288 664) or otherwise to the Company (Telephone: +61 3 8610 4702).

3. PURPOSE AND EFFECT OF THE OFFER

3.1. Purpose of Offer and use of funds

The purpose of the Offer is to raise funds of up to \$769,785 (before expenses of the Offer). The proceeds of the offer will primarily be applied towards the Company's exploration activities including drill testing of new geophysical targets identified by its recently completed IP survey at its Eastman and Landrigan prospects in the East Kimberley.

3.1.1 Exploration Strategy Overview

Peako is pursuing a copper exploration strategy with the objective of leveraging from the forecast impending global copper supply shortfall.

While systematic exploration across most of Australia's Proterozoic provinces has resulted in the discovery of substantial copper resources (refer *Figure 1*), exploration in the East Kimberley has lagged behind. Peako considers the East Kimberley to hold the opportunity for discovery of substantial copper resources and is focussed on exploring for VHMS (volcanic-hosted massive sulphide) deposits at its East Kimberley tenements¹. Globally, VHMS deposits present a powerful value proposition; median grades of 1.75% and median tonnages of 2.5 million Mt² underpin the potential for rapid discovery-development timelines and high returns offered by this deposit style.

Sediment-hosted copper deposits are the focus of Peako's exploration of its tenement³ in the Rudall River area of the Paterson Province.

3.1.2 East Kimberley VHMS Exploration

Peako's East Kimberley tenements have historically been sparsely and sporadically explored for a wide range of mineralisation styles and commodities over a large area. Historical exploration was primarily guided by surface gossans and geochemical anomalies, with only the more significant geochemical anomalies tested by limited shallow drilling. Prior use of geophysical methods including VTEM survey, were ineffective at identifying mineralisation, including that identified by drilling.

Peako's initial focus is on its advanced Eastman and Landrigan VHMS prospects, identified by prior explorers based on outcropping mineralisation. Eastman and Landrigan are both defined by historic drillholes including:

Eastman: 12m @ 3.2% Cu, 5.7% Zn, 1.86% Pb, 26.5 g/t Ag & 0.41g/t Au²

Landrigan: 9.6m at 2.7% Cu, 1.5% Zn, 0.3% Pb, 12.6 g/t Ag and 1.5 g/t Au²

Peako determined that modern geophysical methods offered new potential and in late 2018 conducted an Induced Polarisation (IP) survey program consisting of both Gradient Array IP (GAIP) and Dipole-Dipole IP (DDIP) at each prospect. The IP surveys successfully detected the known mineralisation at each prospect, thus validating the induced polarisation (IP) method⁴.

Significantly, the IP surveys identified compelling geophysical targets at each prospect along strike from known mineralisation⁴ (see Figures 2 and 3). Drillholes have been designed to test these targets at both prospect areas. Programme of Work approval for the planned drillholes has been obtained from the Western Australian Department of Mines, Industry Regulation and Safety (DMIRS). Significantly, Peako was awarded a \$150,000 Environment Incentive Scheme drilling grant from the Western Australian government⁵ to test these prospects.

4. RISK FACTORS

4.1. Introduction

The Securities offered under this Prospectus and investment generally in the Company's securities is considered highly speculative, and involve investors being exposed to risk. The Directors strongly recommend investors examine the contents of this Prospectus and consult their professional advisers before deciding whether to apply for Securities under this Prospectus or make an investment generally in the Company's securities.

The following is a non-exhaustive list of the risks that may have a material effect on the financial position and performance of the Company and the value of its securities as well as the Company's exploration and development activities and an ability to fund those activities.

The specific risks below are some of the risks specific to the Company including by reason of its involvement in the mineral resource industry.

4.2. Risks relating to the Company's current operations

(a) Tenure and access for tenements

Mining and exploration tenements are subject to periodic renewal. If expenditure conditions are not met there is no guarantee that current or future tenements or future applications for mining tenements will be approved.

Generally speaking, exploration activities may only be undertaken on an exploration tenement once agreement has been reached with the relevant landowners and native title holders. Access to land for exploration purposes can be affected by land ownership, nature reserves and national parks, government regulation, native title and environmental restrictions. Access is critical for exploration and development to succeed and satisfactory commercial arrangements are required to be negotiated with the relevant landowners, traditional owners and occupiers.

(b) Contractual Risk

As at the date of this Prospectus, Peako, is not the registered owner of the Eastman Project, in which it is earning a 60% interest. Peako has registered a caveat over the tenement to protect its interest until such time as the interest in the tenement is transferred to it.

(c) Exploration Risks

None of the Company's projects currently contain a JORC Code compliant resource and there is no guarantee that a JORC Code compliant resource will be discovered on any of the projects.

Mineral exploration and development are high risk undertakings due to the high level of inherent uncertainty. There can be no assurance that exploration of the projects, or of any other projects that may be acquired by the Company in the future, will result in the discovery of economic mineralisation. Even if economic mineralisation is discovered there is no guarantee that it can be commercially exploited.

The future exploration activities of the Company may be affected by a range of factors including geological conditions, limitations on activities due to seasonal weather patterns, unanticipated operational and technical difficulties, industrial and environmental accidents, native title process, changing government regulations and many other factors beyond the control of the Company.

The success of the Company will also depend on the Company having access to sufficient development capital, being able to maintain title to the projects and obtaining all required approvals for its activities. In the event that

exploration programmes prove to be unsuccessful this could lead to a diminution in the value of the projects, a reduction in the cash reserves of the Company and possible relinquishment of part or all of the projects.

(d) Native Title and Title Risks

Interests in tenements in Australia are governed by respective State legislation and are evidenced by the granting of licences or leases. Each licence or lease is for a specific term and carries with it annual expenditure and reporting commitments, as well as other conditions requiring compliance. Consequently, the Company could lose title to or its interest in tenements if licence conditions are not met or if insufficient funds are available to meet expenditure commitments.

It is also possible that, in relation to tenements which the Company has an interest in or will be in the future acquire such an interest; there may be areas over which legitimate native title rights of Aboriginal Australians exist. If native title rights do exist, the ability of the Company to gain access to tenements, or to progress from the exploration phase to the development and mining phases of operations may be affected.

The Company may need to seek the consent of the Gooniyandi Aboriginal Corporation in order to conduct certain exploration activities at its East Kimberly Projects. The Company's exploration activities at its tenement in the Paterson province is subject to a Land Access and Mineral Exploration Agreement with the Western Desert Lands Aboriginal Corporation. The Directors closely monitor the potential effect of native title matters.

(e) Exploration Costs

The exploration costs of the Company (summarised in section 3 of this Prospectus) are based on certain assumptions with respect to the method and timing of exploration. By their nature these estimates and assumptions are subject to significant uncertainties and, accordingly, the actual costs may materially differ from these estimates and assumptions. Accordingly, no assurance can be given that the cost estimates and the underlying assumptions will be realised in practice, which may materially and adversely affect the Company's operating and financial performance and the value of the Shares.

(f) New Projects and Acquisitions

The Company will identify and evaluate additional projects and assets in the resources sector in Australia. If any are considered by the Board to have the potential to add Shareholder value, the Company will seek to acquire them by way of direct project acquisition, farm in, joint venture or direct equity in the project owners.

There can be no guarantee that any proposed acquisition will be secured, completed or successful. If the proposed acquisition is not completed, monies advanced or due diligence costs may not be recoverable, which may have a material adverse effect on the Company. This could affect the growth of the Company. If the Company is able to acquire such projects, there is a risk that if these projects do not perform to expectations such adverse performance will be detrimental to the performance of the Company and therefore the value of Shares and returns delivered to Shareholders.

4.3. General risks relating to the Company

(a) Trading Price of Shares

The Company's operating results, economic and financial prospects and other factors will affect the trading prices of the Company's Shares. In addition, the price of the Company's Shares is subject to varied and often unpredictable influences on the market for equities, including, but not limited to, general economic conditions including the performance of the Australian dollar and United States dollar on world markets, inflation rates, foreign exchange rates and interest rates, variations in the general market for listed stocks in general, changes to government policy, legislation or regulation, industrial disputes, general operational

and business risks and hedging or arbitrage trading activity that may develop involving the Company's Shares.

In particular, security prices for many companies have been and may in the future be highly volatile, which in many cases may reflect a diverse range of non-company specific influences. No assurances can be made that the Company's market performance will not be adversely affected by market fluctuations or factors.

(b) Failure to raise capital

The cash position of the Company is considered sufficient to meet the objectives of the Company in the near future. However, additional funding may be required by the Company to effectively implement the Company business and activities in the future, to take advantage of opportunities for acquisitions, joint ventures or other business opportunities, and to meet any unanticipated liabilities or expenses which the Company may incur.

The Company may seek to raise further funds through equity or debt financing, joint ventures, offtake or royalty arrangements or other means. Failure to obtain sufficient financing for the Company's activities and future projects may result in delay and indefinite postponement of exploration, development or production on the Company's projects or even loss of an interest. There can be no assurance that additional finance will be available when needed, or if available, the terms of the financing might not be favourable to the Company and might involve substantial dilution to Shareholders.

(c) No market sector diversification

As the Company is entirely exposed to the resources sector, its business performance may be affected should this sector perform poorly.

(d) Commodity price volatility and exchange rate risks

If the Company achieves success leading to mineral production, the revenue it will derive through the sale of commodities exposes the potential income of the Company to commodity price and exchange rate risks. Commodity prices fluctuate and are affected by many factors beyond the control of the Company. Such factors include supply and demand fluctuations for precious and base metals, technological advancements, forward selling activities and other macro-economic factors.

Furthermore, international prices of various commodities are denominated in United States dollars, whereas the income and expenditure of the Company are and will be taken into account in Australian currency, exposing the Company to the fluctuations and volatility of the rate of exchange between the United States dollar and the Australian dollar as determined in international markets.

(e) Environmental

Although the Company intends to conduct its activities in an environmentally responsible manner, if it is responsible for environmental damage it may incur substantial costs for environmental rehabilitation, damage control and losses by third parties resulting from its operations. Environmental and safety legislation may change in a manner that may require stricter or additional standards than those now in effect, a heightened degree of responsibility for companies and their directors and employees and more stringent enforcement of existing laws and regulations. This may lead to increased costs or other difficulties with compliance for the Company.

(f) Competition risk

The industry in which the Company will be involved is subject to domestic and global competition. Although the Company will undertake all reasonable due diligence in its business decisions and operations, the

Company will have no influence or control over the activities or actions of its competitors, which activities or actions may, positively or negatively, affect the operating and financial performance of the Company's projects and business.

(g) Economic

General economic conditions, introduction of tax reform, new legislation, movements in interest and inflation rates and currency exchange rates may have an adverse effect on the Company's exploration, development and production activities, as well as on its ability to fund those activities.

(h) Force Majeure

The Company's projects now or in the future may be adversely affected by risks outside the control of the Company including labour unrest, civil disorder, war, subversive activities or sabotage, fires, floods, explosions or other catastrophes, epidemics or quarantine restrictions.

(i) Government policy changes

Adverse changes in government policies or legislation may affect ownership of mineral interests, taxation, royalties, land access, labour relations, and mining and exploration activities of the Company. It is possible that the current system of exploration and mine permitting in Western Australia may change, resulting in impairment of rights and possibly expropriation of the Company's properties without adequate compensation.

4.4. Investment speculative

The above list of risk factors ought not to be taken as exhaustive of the risks faced by the Company or by investors in the Company. The above factors, and others not specifically referred to above, may in the future materially affect the financial performance of the Company and the value of the Company's securities.

Therefore, the Securities to be issued under this Prospectus carry no guarantee with respect to the payment of dividends, returns of capital or the market value of those Securities.

Potential investors should consider that the investment in the Company is highly speculative and should consult their professional advisers before deciding whether to apply for Securities under this Prospectus.

Lowest	\$0.018	8 April 2019, 23 April 2019, 28 June 2019

6.7. Continuous Disclosure Obligations

The Company is a "disclosing entity" (as defined in section 111AC of the Corporations Act) for the purposes of section 713 of the Corporations Act and, as such, is subject to regular reporting and disclosure obligations. Specifically, like all listed companies, the Company is required to continuously disclose any information it has to the market which a reasonable person would expect to have a material effect on the price or the value of the Company's securities. The Shares that will be issued under this Prospectus and the Shares that will be issued on exercise of the New Options offered under this Prospectus will be in the same class of Shares that have been granted official quotation by ASX during the 3 months prior to the issue of this Prospectus.

This Prospectus is a "transaction specific prospectus" to which the special content rules under section 713 of the Corporations Act apply. That provision allows the issue of a more concise prospectus in relation to an offer of securities, or options to acquire securities, in a class which has been continuously quoted by ASX in the three months prior to the date of the prospectus. In general terms "transaction specific prospectuses" are only required to contain information in relation to the effect of the Offer on the Company and the rights and liabilities attaching to the securities offered. It is not necessary to include general information in relation to all of the assets and liabilities, financial position, profits and losses or prospects of the issuing company.

This Prospectus is intended to be read in conjunction with the publicly available information in relation to the Company which has been notified to ASX and does not include all of the information that would be included in a prospectus for an initial public offering of securities in an entity that is not already listed on a stock exchange. Investors should therefore have regard to the other publicly available information in relation to the Company before making a decision whether or not to invest.

Having taken such precautions and having made such enquiries as are reasonable, the Company believes that it has complied with the general and specific requirements of ASX as applicable from time to time throughout the 3 months before the issue of this Prospectus which required the Company to notify ASX of information about specified events or matters as they arise for the purpose of ASX making that information available to the securities market conducted by ASX.

Information that is already in the public domain has not been reported in this Prospectus other than that which is considered necessary to make this Prospectus complete.

The Company, as a disclosing entity under the Corporations Act, states that:

- (a) it is subject to regular reporting and disclosure obligations;
- (b) copies of documents lodged with ASIC in relation to the Company (not being documents referred to in section 1274(2)(a) of the Corporations Act) may be obtained from, or inspected at, the offices of ASIC; and
- (c) it will provide a copy of each of the following documents, free of charge, to any person on request between the date of issue of this Prospectus and the Closing Date:
 - (i) the annual financial report for the year ended 30 June 2018; and
 - (ii) any continuous disclosure documents given by the Company to ASX in accordance with the Listing Rules as referred to in section 674(1) of the Corporations Act after the lodgement of the annual financial report referred to in (i) and before the lodgement of this Prospectus with ASIC.

for new Shares and New Options. The Directors' decision whether to treat an acceptance as valid and how to construe, amend or complete the Entitlement and Acceptance Form is final.

By completing and returning your Entitlement and Acceptance Form with the requisite application monies, you will be deemed to have represented that you are an Eligible Shareholder. In addition, you will also be deemed to have represented and warranted on behalf of yourself or each person on whose account you are acting that the laws in your place of residence and where you have been given this Prospectus do not prohibit you from being given this Prospectus and that you:

- agree to be bound by the terms of the Offer;

- acknowledge that the new Shares and New Options have not, and will not be, registered under the securities laws in any other jurisdictions outside Australia and accordingly, the new Shares and New Options may not be offered, sold or otherwise transferred except in accordance with an available exemption from, or in a transaction not subject to, the registration requirements of applicable securities laws in particular the US Securities Act.

Any person accessing the electronic version of this Prospectus for the purpose of making an investment in the Company must be an Australian resident and must only access this Prospectus from within Australia.

If you have received this Prospectus as an electronic prospectus, please ensure that you have received the entire Prospectus accompanied by the Application Form. 6.11. Clearing House Electronic Subregister System (CHES) and Issuer Sponsored holdings

Instead, investors whose holding changes in the course of a calendar month will be issued with a holding statement that sets out the changes in their Shareholding, including any Securities issued to them under this Prospectus. On issue a notice will be despatched by post advising holders of their Holder Identification Number or Securityholder Reference Number and the number of Securities issued.
