## Mayfield Childcare Limited - Financial Results for the Half Year ended 30 June 2019

Mayfield Childcare Limited (ASX:MFD) is pleased to announce its results for the first half of Calendar Year 2019.

Revenue from continuing operations was \$15.9m (up 13.6%) delivering a Reported NPAT of \$0.9m (down 36.1%). Statutory results reflect the application of new Australian Accounting Standard for Leases (AASB 16 *Leases*) from 1 January 2019.

After reversing the impact of AASB 16 *Leases*, Underlying Results are as follows:

### CY 2019 First Half Underlying Results:

	CY 2019 First Half	PCP Variance %
<b>Revenue from continuing operations</b>	<b>\$15.9m</b>	<b>+13.6%</b>
<b>Centre EBITDA</b>	<b>\$3.0m</b>	<b>+20.9%</b>
<b>Group EBITDA</b>	<b>\$2.0m</b>	<b>+18.8%</b>
<b>Group EBIT</b>	<b>\$1.8m</b>	<b>+14.0%</b>
<b>NPAT</b>	<b>\$1.1m</b>	<b>+7.5%</b>

First half results reflect the flow through of CY2018 acquisitions and price increases, continued centre investment, along with focused operational cost control. While occupancy is up 0.3% on the prior corresponding period (pcp), a slow April combined with a small number of underperforming centres, (which now has been addressed) affected the Group average.

Centre operating margins have continued to strengthen up 1.1% to 19.2%. Wages as a percentage of revenue, continue to trend favourably down to 59.9%.

As part of the ongoing centre refurbishment program, substantial improvements have been made to a number of the centres, reflecting the company's commitment to its Quality Improvement Program as an occupancy driver, while maintaining a competitive position to greenfield developments. These works have been complemented with increased investment in local marketing and community programs.

The most recent centre acquisition as previously advised in May 2019, was completed during the 2<sup>nd</sup> quarter. The transaction was partly cash funded, which contributed to the lower cash balance, coupled with tighter cash management strategies to offset financing costs. Net operating cash flows continue to strengthen.

With the continued support of Westpac, the Company restructured its debt facility, extending the terms of its individual loans by 5 years through to May 2024, while adding additional redraw flexibility.

In March 2019, Mayfield Childcare paid its annual dividend for the year ended 31 December 2018 of \$2.8m. Cash dividend payments totalled \$1.9m and 869,647 ordinary shares were issued under the Dividend Reinvestment Plan (DRP) at \$0.97 per share.

Effective 1 July 2019, the business put through its 2019/2020 price increases reflecting an overall increase of 3.9% or approx. \$5/day. This was on the back of the Award wage rate increases of 3.0%, down from last year's 3.5%. Overall lease rentals are expected to hold at 2.9% for 2019.

Mayfield CEO Dean Clarke said:

"The financial outlook for CY 2019 is for revenue of approx. \$34.0m, delivering Group EBIT in the range of \$5.8m - \$6.2m.

The July 2018 Government funding package is taking pressure off many families and enabling them to provide important educational and social activities for their children through childcare in the critically important early learning years. Mayfield, for its part, is passionate about providing a high-quality childcare service and we are constantly looking at ways to improve a child's experience at a Mayfield Childcare Centre".

## 02 AASB 16 *Leases* Standard

- › 1 January 2019 saw the implementation of the new Accounting Standard, AASB 16 *Leases*. With the exception of short-term and low-value asset leases, all leases are now recognised on the balance sheet, with the following implications:
  - › Lease liabilities (current and non-current) matched by corresponding right-of-use assets (non-current) upon implementation;
  - › Right-of-use asset depreciated on a straight line basis over the life of the lease; and
  - › Lease payments apportioned between principal (repayment of liability B/S) and interest (P&L) components resulting in lower profits in the early years and higher profits in the later years of each lease.
  
- › In keeping with the sector, Mayfield is reporting the reversal of AASB 16 *Leases* to highlight its underlying business, the economics of which remain unchanged.
  - › CY 2019 First Half NPAT impact of (\$189K)
  - › CY 2019 Full Year NPAT impact estimated at (\$371K)
  
- › The table below highlights the key financial statutory metrics impacted by AASB 16 and the underlying business result:

### 03      Operational Performance: Occupancy, Revenue & Wage Performance

### 03 Occupancy, Revenue and Wage Performance

While occupancy is up 0.3% on pcp, a slow April combined with a small number of underperforming centres, now addressed, affected the Group average.

Weekly revenues continue to strengthen on the back of favourable occupancy and occupancy mix, along with higher fee levels

Improved operating margins reflect tighter control of wages, rostering and staffing mix

## 04 Acquisitions:

## 04 Acquisitions

- › Mayfield continues to seek acquisition opportunities with a number of prospects under consideration, though stocks of suitable sites are low
- › Selection criteria - the business remains committed to its selection criteria, and will not compromise for acquisition sake:
  - › Brownfield
  - › Minimum of 60 licensed places, ideally not greater than 100 places
  - › Minimum overall lease term, including options, of 20 years
  - › Occupancy at or above 65% or EBIT exceeding \$225K p.a.
  - › Average fee equal to or greater than \$100/day
  - › Compliant with National Regulations
  - › Qualifications and staffing arrangements to ratio and pay rates at award
- › Market insights
  - › Purchase multiples for the above profile centres range from 4.0 to 4.3, with inner suburban, high margin, high occupancy centres upwards of 5x
  - › Typical vendor remains husband and wife duo, looking to retire, and probably own the freehold
  - › Small group sales happening off-market and therefore difficult to get visibility of
  - › Stocks of suitable centres in Victoria below levels of NSW and Qld
  - › Greenfield developments / sales continue to slow
  - › Council reviewing demand / supply metrics on new applications, and in some cases seeking input from existing operators on occupancy levels

## 05 Industry:

## 05 Industry

### › Government Funding - 2019

- › We are now 12 months into the new CCS system, and both existing and new families, are well versed in the machinations of the system
- › It's clear that families with an 'activity test' below full time in the main have been disadvantaged, which presents in the lower socio/economic areas
- › Conversely there are families who under utilise their subsidies with respect to entitled hours of care
- › While rebate capping issues have significantly reduced, some full-time care families reached their thresholds before 30 June
- › Long day hourly cap increased by 1.8% to \$11.98 effective 1 July 2019
- › The Department of Education is currently working through its implementation plans for 3yr old Kindergarten and funding, which will mirror the 4 yr old structure

### › Industry supply

- › As stated previously, declining developer margins, tighter lending requirements and a decreasing pool of new tenants have all contributed to a slow down in Victorian developments
- › More recently, some Local Councils have taken steps to assess the commercial viability and impact on existing services, of new development applications, by seeking validation of demand / supply metrics from applicants as well as surrounding childcare operators
- › From a competitive perspective
  - › Only 2 new developments have opened in close proximity to Mayfield centres during the period, with little or no impact to performance
  - › Mayfield's Quality program seeks to create a point of difference and enhance a child's learning experience relative to other services
  - › Continued investment in our centre refurbishment programs, particularly in the outdoor environments, aims to mitigate the appeal of new builds

## 06 2019 Outlook:

## 06 Full Year 2019 Outlook

- › Market guidance remains unchanged and excludes impact of AASB 16 Leases
  - › Revenues of approx. \$34.0m
  - › EBIT of \$5.8m to \$6.2m
  - › Occupancy up +1%
  
- › Guidance is prefaced on
  - › **Earnings** – Improvement on CY 2018 earnings
  - › **Pricing** – Comparatively higher pricing, award wage rate increases of 3.0% and rental cost increases of 2.9%
  - › **Occupancy** – Continued investment in Centre Refurbishment and Quality programs
  - › **Wage Ratios** – Performance improvements and wage ratios back to prior year levels
  - › **Managed Services** – Marginal increases in Managed Services fees
  - › **Acquisitions** – Continuation of our acquisition strategy
