

VIVA ENERGY REIT - APPENDIX 4D FOR THE PERIOD ENDED 30 JUNE 2019

Viva Energy REIT is Australia's largest listed REIT owning solely service station properties with a high quality portfolio across all Australian states and mainland territories. Viva Energy REIT's objective is to maximise the long-term income and capital returns from its portfolio.

Viva Energy REIT is a stapled entity comprising one share in Viva Energy REIT Limited ABN 35 612 986 517 and one unit in Viva Energy REIT Trust ARSN 613 146 464 and their controlled entities ('Group').

REPORTING PERIOD

This Financial Report details the consolidated results of Viva Energy REIT for the half-year ended 30 June 2019. The comparative period shown is for the half-year ended 30 June 2018.

RESULTS FOR ANNOUNCEMENT TO THE MARKET

Statutory net profit was \$56.9 million, compared to \$59.6 million in the prior half-year.

	Half-year ended 30 June 2019	Half-year ended 30 June 2018	Change
Revenue from ordinary activities	\$87.7 million	\$81.9 million	7.1%
Net profit from ordinary activities after tax attributable to Group investors	\$59.0 million	\$61.0 million	(3.3%)
Net profit after tax attributable to Group investors (statutory net profit)	\$56.9 million	\$59.6 million	(4.5%)
Net operating profit before tax (distributable income)	\$55.7 million	\$50.7 million	9.9%
Total assets	\$2,575.9 million	\$2,365.3 million	8.9%
Net assets	\$1,692.2 million \$2.18 per security	\$1,598.5 million \$2.13 ¹ per security	5.9%

¹ For comparability purposes, this value is shown after adjusting for the cash distribution paid on 10 August 2018 for the period ended 30 June 2018; actual reported at 30 June 2018 was \$2.20.

HIGHLIGHTS

- Statutory net profit was \$56.9 million, compared to \$59.6 million in the prior half-year. Statutory net profit is lower than the prior half-year primarily due to increased rental income (up \$6.9 million) being offset by costs of restructuring the interest rate swaps (\$9.2 million)
- Distributable income² of \$55.7 million compared to the prior half-year of \$50.7 million is higher due to rental increases and rental income from property acquisitions
- Guidance for FY19 remains on track with growth in Distributable Earnings per security of 3.00%-3.75% over FY18
- Net tangible assets per security at 30 June 2019 increased by 5.9% to \$2.18 (30 June 2018: \$2.13 (adjusted for distribution paid on 10 August 2018))
- \$110m of equity raised (before costs) at \$2.32 per security from an institutional placement and security purchase plan.
- 10 property acquisitions for \$27.8 million settled in the half-year
- Invested \$16.5m in redevelopment fund-through projects with a maximum additional \$21.2m committed in 2019 for these projects
- Gearing was 33.4%³ at 30 June 2019, at the lower end of the target gearing range of 30% to 45%
- \$368m interest rate swap restructure cost of \$9.2m reflects forward start interest rate swaps entered into in February 2019 resulting in a ~65 bps improvement in interest rate
- Weighted average maturity of drawn debt facilities of \$801.7 million was 3.7 years, and \$796.7 million of fixed interest rate swaps in place with a weighted average of 3.3 years

DISTRIBUTIONS

	Cents per security	Franked amount per security	Date paid or payable
Final for the year ended 31 December 2018 (record date 31 December 2018)	7.03	-	28 February 2019
Interim for the half-year ended 30 June 2019 (record date 28 June 2019)	7.18	-	29 August 2019

These distributions are 100% from Australian sourced income.

As advised on 17 December 2018, the Group's Distribution Reinvestment Plan is now activated. Security holders who submitted a valid election notice prior to 5pm on 5 July 2019, will receive the interim distribution for the half-year ended 30 June 2019 as new stapled securities (to be issued at \$2.6057 per security).

This information should be read in conjunction with the 30 June 2019 Interim Financial Report of Viva Energy REIT and any public announcements made during the period in accordance with the continuous disclosure requirements of the *Corporations Act 2001* and ASX Listing Rules. The 30 June 2019 Interim Financial Report of Viva Energy REIT includes additional Appendix 4D disclosure requirements and commentary on the results for the half-year ended 30 June 2019.

This report is based on the Viva Energy REIT 30 June 2019 Interim Financial Report which has been reviewed by PricewaterhouseCoopers. The Independent Auditor's Review Report provided by PricewaterhouseCoopers is included in the 30 June 2019 Interim Financial Report.

Laurence Brindle
Chairman

22 August 2019

² This non-AIFRS measure represents the underlying cash-based profit of the Group for the relevant period excluding fair value changes from asset and derivative revaluations and items of income or expense not considered by the directors to be representative of the Group's underlying operating earnings or cash flow.

³ Gearing is calculated as total liabilities/total assets but excluding any mark-to-market valuations of derivative assets/liabilities.

DIRECTORS' REPORT

Your directors of Viva Energy REIT Limited ('Company') and VER Limited ('Responsible Entity'), the responsible entity of Viva Energy REIT Trust ('Trust'), present their report and the financial statements for the half-year ended 30 June 2019 for Viva Energy REIT.

Viva Energy REIT ('Group') is a stapled group consisting of the Company and the Trust and controlled entities. The Trust owns the portfolio of service station properties, either directly or through its 100% controlled entities. The Company owns all of the shares in VER Limited (the Responsible Entity).

Directors of Viva Energy REIT Limited

The following persons were directors of Viva Energy REIT Limited during the whole of the half-year and up to the date of this report:

Laurence Brindle	Independent Non-executive Chairman
Georgina Lynch	Independent Non-executive Director
Stephen Newton	Independent Non-executive Director
Lachlan Pfeiffer	Non-independent Non-executive Director.

Jevan Bouzo was appointed a director on 14 May 2019 and continues in office at the date of this report.

Scott Wyatt was appointed a director on 14 June 2016 and resigned effective 14 May 2019.

Directors of VER Limited

The following persons were directors of VER Limited during the whole of the half-year and up to the date of this report:

Laurence Brindle	Independent Non-executive Chairman
Georgina Lynch	Independent Non-executive Director
Stephen Newton	Independent Non-executive Director
Lachlan Pfeiffer	Non-independent Non-executive Director.

Principal activities

During the period, the principal activity of Viva Energy REIT was investment in service station property.

Viva Energy REIT owns a portfolio of 464 freehold service station properties located in all Australian states and mainland territories. The properties in the portfolio are leased to Viva Energy Australia Pty Limited, other fuel operators and various convenience or fast food stores under long-term leases.

VIVA ENERGY REIT

30 JUNE 2019 INTERIM FINANCIAL REPORT

Distribution to security holders

Distributions paid to or provided for during the financial period were as follows:

	2019 \$'000	2018 \$'000
Final distribution for year ended 31 December 2018		
– 7.03 cents per security paid on 28 February 2019	51,020	-
Final distribution for the year ended 31 December 2017		
– 6.60 cents per security paid on 15 February 2018	-	47,899
Total distributions paid	51,020	47,899
Estimated distribution for half-year ended 30 June 2019		
– 7.18 cents per security	55,694	-
Total distributions provided for or paid	106,714	47,899

On 12 June 2019 the directors announced an estimated distribution of \$55.7 million for the half-year ended 30 June 2019. This represents 7.18 cents per stapled security and is expected to be paid on 29 August 2019.

Operating and financial review

Key highlights

Viva Energy REIT's investment objective is to own a portfolio of high quality and strategically located service station properties located throughout Australia, subject to long-term leases to tenants with strong financial credit profiles. Carrying values of investment properties were reviewed by the directors and considered to be appropriate for financial reporting at 30 June 2019. Independent valuations were last completed over 150 investment properties as at 31 December 2018 and for properties acquired during the half-year ended 30 June 2019.

Statutory net profit was \$56.9 million, compared to \$59.6 million in the prior period. The statutory net profit is lower than the prior half-year primarily due to increased rental income (up \$6.9 million) being offset by costs of restructuring the interest rate swaps (\$9.2 million).

Distributable income of \$55.7 million compared to the prior period of \$50.7 million is higher due to rental increases and rental income from property acquisitions.

During February 2019 the Group completed an institutional placement raising \$100.0 million (before costs). In addition, the Group raised \$10.0 million via a Security Purchase Plan that was completed in March 2019 and the Distribution Reinvestment Plan raised \$5.6m in February 2019.

Gearing was 33.4% at 30 June 2019 (30 June 2018: 32.5%), at the lower end of the target gearing range of 30% to 45%.

Net Tangible Assets ('NTA') per security at 30 June 2019 was \$2.18 (30 June 2018: \$2.20; \$2.13 when adjusted for the distribution paid on 10 August 2018).

The management expense ratio was 0.23% (2018: 0.21%) for the period, being the ratio of operating expenses incurred (excluding finance costs) over average total assets (excluding derivative financial assets).

VIVA ENERGY REIT
30 JUNE 2019 INTERIM FINANCIAL REPORT

Key financial metrics

	2019	2018
Statutory net profit	\$56.9 million	\$59.6 million
Net operating profit before tax (distributable income)	\$55.7 million	\$50.7 million
Distributable income per security	7.18 cents	6.99 cents
Total assets	\$2,575.9 million	\$2,365.3 million
Investment properties	\$2,536.9 million	\$2,327.3 million
Borrowings	\$801.7 million	\$764.7 million
Net assets	\$1,692.2 million	\$1,598.5 million
NTA per security ⁽¹⁾	\$2.18	\$2.13
Gearing ⁽²⁾	33.4%	32.5%
Management expense ratio ⁽³⁾	0.23%	0.21%

⁽¹⁾ NTA per security comparative is amended to exclude the cash distribution of \$50.7 million in relation to the half-year ended 30 June 2018 which was distributed to security holders on 10 August 2018.

⁽²⁾ Gearing is calculated as total liabilities/total assets but excluding any mark-to-market valuations of derivative assets/liabilities.

⁽³⁾ The management expense ratio is shown on an annualised basis; and is calculated as the ratio of operating expenses incurred (excluding finance costs and initial transaction costs) over average total assets (excluding derivative financial assets).

Financial results

	2019 \$'000	2018 \$'000
Rental income	74,318	67,449
Finance income	490	363
Total operating income	74,808	67,812
Management and administration expenses	(3,245)	(2,671)
Interest paid or payable	(15,842)	(14,424)
Income tax expense	-	(105)
Net operating profit (distributable income)⁽¹⁾	55,721	50,612
Non-distributable items		
Fair value adjustment to investment properties	(2,129)	(1,417)
Straight-line rental income	12,942	14,051
Amortisation of borrowing costs	(444)	(3,680)
Interest rate swap cancellation expense	(9,189)	-
Statutory net profit	56,901	59,566

⁽¹⁾ Net operating profit (distributable income) is not a statutory measure of profit. Distributable income is calculated as net profit adjusted to remove transaction costs, specific non-recurring item and non-cash items, including straight-lining of rental income, the amortisation of debt establishment fees and any fair value adjustment to investment properties and derivatives.

VIVA ENERGY REIT
30 JUNE 2019 INTERIM FINANCIAL REPORT

Investment property portfolio

	30 June 2019	30 June 2018
Total value of investment properties	\$2,536.9 million	\$2,327.3 million
Total properties in portfolio	464	442
Portfolio occupancy	100%	100%
Weighted average lease expiry	12.1 years	13.2 years

Capital management

On 22 February 2019 the Group completed an institutional placement raising \$100.0 million (before costs). In addition, the Group raised \$10.0 million via a Security Purchase Plan that was completed on 22 March 2019. For these equity raisings, new securities were issued at \$2.32 each.

The Group paid a final distribution of \$51.0 million on 28 February 2019 for the year ended 31 December 2018, including \$5.6 million issued as new securities via the Distribution Reinvestment Plan.

The Group announced an estimated distribution for the half-year ended 30 June 2019 of \$55.7 million on 12 June 2019.

At 30 June 2019 gearing was 33.4% which is at the lower end of the target range of 30% to 45%.

Interest rate management

During the period, the Group managed its interest rate risk in accordance with its interest rate risk management policy.

At 30 June 2019, the Group's borrowings were hedged via interest rate swaps with a notional principle of \$796.7 million, excluding interest rate swaps with a deferred start date. The average fixed interest rate at 30 June 2019 was 2.1% per annum excluding the margin and with a weighted average term of 3.3 years.

2019 outlook

The Group is Australia's largest ASX listed REIT owning solely service station properties with a high quality portfolio across all Australian states and mainland territories. Its objective is to maximise the long-term income and capital returns from its portfolio.

As at 30 June 2019, the Group owned 464 freehold service station properties. The Group has committed to contracts for the construction of service stations on seven properties for an aggregate of \$21.2 million.

The Group expects rental income from the existing service station portfolio to grow in line with contracted annual rental increases and will consider opportunities to acquire new service station properties that satisfy its investment objectives and guidelines.

Guidance for the year to 31 December 2019 issued on 22 February 2019 remains unchanged with growth in Distributable Earnings per security at 3.00%-3.75% over FY18.

VIVA ENERGY REIT

30 JUNE 2019 INTERIM FINANCIAL REPORT

Significant changes in state of affairs

There was no significant change in the state of affairs of the Group that occurred during the half-year ended 30 June 2019.

Matters subsequent to the end of the financial period

Subsequent to the end of the financial period:

- The directors have confirmed the payment of a distribution for the half-year ended 30 June 2019 of \$55.7 million which will be paid on 29 August 2019; and,
- The purchase of Lot 322 Ranford Road, Canning Vale, Western Australia for \$5.7m which was contracted after 30 June 2019, was settled on 20 August 2019.

No other matter or circumstance has arisen since 30 June 2019 that has significantly affected, or may significantly affect:

- the operations of the Group in future financial years;
- the results of those operations in future financial years; or
- the state of affairs of the Group in future financial years.

Likely developments and expected results of operations

The Group will continue to be managed in accordance with its existing investment objectives and guidelines.

The results of the Group's operations will be affected by a number of factors, including the performance of investment markets in which the Group invests. Investment performance is not guaranteed and future returns may differ from past returns. As investment conditions change over time, past returns should not be used to predict future returns.

Material business risks

The Responsible Entity has adopted a compliance plan which sets out the key processes, systems and measures that the Responsible Entity will apply in operating the Trust. The compliance plan also includes a compliance management and reporting structure. The material business risks that could adversely affect the achievement of the Group's financial prospects include the following:

Tenant concentration risk, financial standing and sector concentration risk

As Viva Energy Australia Pty Limited ('Viva Energy Australia') is presently the tenant of 94% of the investment properties, 94% of the Group's rental income is received from Viva Energy Australia. If Viva Energy Australia's financial standing materially deteriorates, Viva Energy Australia's ability to make rental payments to Viva Energy REIT may be adversely impacted, which may have a materially adverse impact on the Group's results of operations, financial position and ability to service and/or obtain financing.

Termination of Viva Energy Australia's right to use Shell branding could adversely affect Viva Energy Australia's ability to meet its rental obligations and therefore the value of Viva Energy REIT's portfolio of investment properties and its ability to service and/or obtain financing.

Furthermore, a material decline in the profitability of Viva Energy Australia's business could affect the perceived stability of the rental income of Viva Energy REIT and may affect Viva Energy REIT's ability to obtain financing on acceptable terms, and lead to lower market rents when renewal options are exercised and a decline in the values of Viva Energy REIT's investment properties.

VIVA ENERGY REIT
30 JUNE 2019 INTERIM FINANCIAL REPORT

Investment property value

The value of the Group's portfolio of investment properties may be adversely affected by a number of other factors, including a number of factors outside the control of the Group, such as supply and demand for service station properties, general property market conditions, the availability of credit, the ability to attract and implement economically viable rental arrangements, Viva Energy Australia's financial condition deteriorating or occupiers not extending the term of leases, re-leasing of properties, capitalisation rates and general economic factors such as the level of inflation and interest rates. The valuation of properties may fall. As changes in valuations are recorded on the statutory net profit statement, any decreases in value will have a negative impact on the statutory net profit statement and in turn the market price of the Group's securities may fall.

Environmental risk

The Group depends on its tenants to perform their obligations under the environmental indemnification arrangements in relation to the leased properties. If the tenants were to fail to meet their obligations under these arrangements (including due to their insolvency), Viva Energy REIT may incur significant costs to rectify contamination on (and in respect of) its properties.

The Group is subject to a range of regulatory regimes that cover the specific assets of the Group and how they are operated. These regulatory regimes are subject to ongoing review and change which may increase the cost of compliance, reporting and maintenance of the Group's assets.

Extreme weather and other climate change related events have the potential to damage the Group's assets and disrupt the tenants' operations. Such events may increase costs for maintenance and insurance of the Group's assets, and may affect the ability to re-lease the Group's investment properties in the future and the rent levels for which they can be leased, thereby affecting future investment property valuations and rental cash flows.

The precise nature of these risks is uncertain as it depends on complex factors such as policy change, technology development, market forces, and the links between these factors and climatic conditions.

Cash flow and fair value interest rate risk

The Group's cash and cash equivalents, floating rate borrowings and interest rate swaps expose it to a risk of change in fair value or future cash flows due to changes in interest rates. The Group economically hedges some or all of its exposure to changes in interest rates on variable rate borrowings by using floating-to-fixed interest rate swaps. By hedging against changes in interest rates, the Group has limited its exposure to changes in interest rates on its outward cash flows.

Liquidity risk

Liquidity risk is the risk that the Group may not be able to generate sufficient cash resources to settle its obligations in full as they fall due or can only do so on terms that are materially disadvantageous. The Group monitors its exposure to liquidity risk by ensuring that there is sufficient cash on hand as required or debt facility funding available to meet financial liabilities as they fall due.

Debt agreement and refinancing risk

The Group has outstanding debt facilities. General economic and business conditions that impact the debt or equity markets could impact the Group's ability to refinance its debt facilities when required. If the covenants in these facilities are breached by the Group this may result in the Group being subject to increased interest rate margins and covenants restricting its ability to engage in certain types of activities or to pay distributions to unitholders.

VIVA ENERGY REIT
30 JUNE 2019 INTERIM FINANCIAL REPORT

The directors regularly monitor the debt facility covenants to ensure compliance and consider the refinancing options and timing available to the Group.

AFSL compliance risk

VER Limited, a subsidiary of Viva Energy REIT Limited, holds an Australian Financial Services Licence ('AFSL') and acts as a responsible entity for the Group's managed investment scheme. The AFSL requires minimum levels of net tangible assets, liquid assets, cash reserves and liquidity, which may restrict the Group in paying distributions that would breach these requirements.

On a quarterly basis, the directors review and monitor VER Limited's balance sheet to ensure compliance with its AFSL requirements.

Excessive reliance on the Manager and its personnel risk

Viva Energy REIT is managed by VER Manager Pty Limited ('Manager'), which is a subsidiary of Viva Energy Australia.

Viva Energy REIT does not have direct employees (other than non-executive directors) and consequently is reliant on the expertise and experience of the key executives of Viva Energy Australia made available to the Manager which provides the services to Viva Energy REIT under the Management Agreement. As a consequence, loss of such key personnel could potentially have an adverse impact on the management and the financial performance of Viva Energy REIT and in turn may affect the returns to security holders.

Auditor's independence declaration

A copy of the auditor's independence declaration as required under section 307C of the *Corporations Act 2001* is set out on page 9.

Rounding of amounts to the nearest thousand dollars

The Group is of a kind referred to in ASIC Legislative Instrument 2016/191, relating to the "rounding off" of amounts in the Directors' Report. Amounts in the Directors' Report have been rounded off in accordance with that instrument to the nearest thousand dollars, or in certain cases, to the nearest dollar.

The report is made in accordance with a resolution of Directors.

Laurence Brindle
Chairman

22 August 2019

Auditor's Independence Declaration

As lead auditor for the review of Viva Energy REIT for the half-year ended 30 June 2019, I declare that to the best of my knowledge and belief, there have been:

- (a) no contraventions of the auditor independence requirements of the *Corporations Act 2001* in relation to the review; and
- (b) no contraventions of any applicable code of professional conduct in relation to the review.

This declaration is in respect of Viva Energy REIT and the entities it controlled during the period.

A handwritten signature in black ink, appearing to read 'Charles Christie'.

CONDENSED CONSOLIDATED STATEMENT OF CASH FLOWS
FOR THE HALF-YEAR ENDED 30 JUNE 2019

	NOTES	2019 \$'000	2018 \$'000
Cash flows from operating activities			
Rental income from investment properties (inclusive of goods and services tax)		80,426	72,838
Payments to suppliers and employees (inclusive of goods and services tax)		(8,922)	(10,846)
		71,504	61,992
Interest received		490	497
Interest paid		(16,199)	(22,772)
Income taxes paid		-	(105)
Net cash inflow from operating activities		55,795	39,612
Cash flows from investing activities			
Payments for acquisition of investment properties		(47,813)	(27,449)
Deposits paid for property acquisitions		-	(50)
Net cash outflow from investing activities		(47,813)	(27,499)
Cash flows from financing activities			
Proceeds from issue of securities (net of costs)		107,811	-
Proceeds from borrowings		54,000	28,000
Repayments of borrowings		(105,000)	-
Payments for upfront borrowing costs		(728)	(2,042)
Payment for interest rate swap cancellation		(9,189)	
Distributions paid to security holders	6	(45,409)	(47,899)
Net cash inflow/(outflow) from financing activities		1,485	(21,941)
Net increase/(decrease) in cash and cash equivalents		9,467	(9,828)
Cash and cash equivalents at beginning of the half-year		12,330	43,631
Cash and cash equivalents at end of the half-year		21,797	33,803

The above condensed consolidated statement of cash flows should be read in conjunction with accompanying notes.

VIVA ENERGY REIT
30 JUNE 2019 INTERIM FINANCIAL REPORT

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

1. CORPORATE STRUCTURE AND GENERAL INFORMATION

These consolidated financial statements cover Viva Energy REIT ('Group'). Viva Energy REIT is listed on the Australian Securities Exchange ('ASX') (code: VVR) and registered and domiciled in Australia.

Viva Energy REIT is a stapled group consisting of the Company and the Trust and their wholly owned entities. The Trust indirectly owns the investment property portfolio through its 100% ownership of the trusts which own the investment properties and receive rent under leases. The Company directly owns all of the shares in VER Limited ('Responsible Entity').

These condensed consolidated financial statements contain the results of the Group for the half-year ended 30 June 2019. The comparative period shown is for the half-year ended 30 June 2018.

The financial statements were authorised for issue by the directors on 22 August 2019. The directors have the power to amend and reissue the financial statements.

(a) Basis of preparation

These general purpose financial statements have been prepared in accordance with Australian Accounting Standards and interpretations issued by the Australian Accounting Standards Board and the *Corporations Act 2001*. Viva Energy REIT is a for-profit entity for the purpose of preparing the financial statements.

The financial report has been prepared on an accruals and historical cost basis except for investment properties and derivative financial instruments which are measured at fair value. Cost is based on the fair value of consideration given in exchange for assets.

The condensed consolidated financial statements of the Group are prepared and presented in Australian dollars (the presentation currency).

The accounting policies adopted are consistent with those of the previous financial period.

(b) Going concern

As at 30 June 2019, the Group had a net current asset deficiency of \$38.9 million. The Group uses cash at bank to pay for distribution and expenses (including property purchases), drawing down on revolving debt facilities when required. Revolving debt facilities are then repaid when there is excess cash available. The Group has \$295.0 million of unused debt facilities at 30 June 2019, which can be drawn upon to fund the Group's cashflow requirements.

After taking into account all available information, the directors have concluded that there are reasonable grounds to believe:

- The Group will be able to pay its debts as and when they fall due; and
- The basis of preparation of the financial report on a going concern basis is appropriate.

(c) Compliance with International Financial Reporting Standards

The consolidated financial statements of the Group also comply with International Financial Reporting Standards ('IFRS') as issued by the International Accounting Standards Board ('IASB').

VIVA ENERGY REIT
30 JUNE 2019 INTERIM FINANCIAL REPORT

(d) New and amended standards adopted by the Group

The Group has applied the following standards and amendments for the first time for the reporting period commencing 1 January 2019:

- AASB 16 *Leases*.

AASB 16 establishes a comprehensive framework for the accounting policies and disclosures applicable to leases, both for lessees and lessors. The Group has applied this standard effective 1 January 2019, and, as a lessor, there is no impact on the operations or financial reporting of the Group. Lessors continue to classify leases as operating or finance, with AASB 16's approach to lessor accounting substantially unchanged from AASB 117 *Leases*.

The adoption of this standard did not result in any adjustments to the values included in the financial statements for the period ended 30 June 2019. The disclosure requirements of the above standards and amendments have been incorporated into this financial report.

(e) Critical accounting estimates and judgements

The Group makes estimates and judgements that affect the reported amounts of assets and liabilities. Estimates are continually evaluated and based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Estimates and judgements which are material to the financial report are found in the following notes:

- Investment properties – note 3; and
- Derivative financial instruments – note 5

2. FINANCE COSTS

	2019 \$'000	2018 \$'000
Interest paid or payable	15,842	14,424
Amortisation of borrowing costs	444	741
Interest rate swap cancellation expense	9,189	-
Write-off of loan establishment costs due to refinancing	-	2,939
Total finance costs	25,475	18,104

Accounting policy – Finance costs

Finance costs include interest expense on debt financing arrangements, settlements (including cancellation costs) of interest rate swaps and amortisation of upfront borrowing costs incurred in connection with the arrangement of borrowings available to the Group.

3. INVESTMENT PROPERTIES

(a) Valuations and carrying amounts

	30 June 2019 \$'000	30 June 2018 \$'000
Service station properties	2,536,850	2,327,314
Total investment properties	2,536,850	2,327,314

VIVA ENERGY REIT

30 JUNE 2019 INTERIM FINANCIAL REPORT

The directors have reviewed the carrying values of all investment properties and determined they are appropriate to adopt as at 30 June 2019.

Independent valuations were performed on 150 investment properties during the year ended 31 December 2018 and for properties acquired during the half-year ended 30 June 2019.

The key inputs into valuations are:

- passing rent;
- market rents;
- capitalisation rates; and
- lease terms.

The key inputs into the valuation are based on sales, rental and rent review information for comparable properties. The independent valuers have experience in valuing similar assets and have access to market evidence to support their conclusions. Comparable assets are considered to be those in similar markets, of similar scale and condition and with similar lease terms to the subject property.

Key assumptions	30 June 2019	30 June 2018
Weighted average capitalisation rate	5.8%	5.8%
Weighted average passing yield	5.8%	5.8%

Investment properties have been classified as level 3 in the fair value hierarchy (refer to note 9(a)). There have been no transfers between the levels in the fair value hierarchy during the period.

(b) Movements during the financial period

	2019	2018
At fair value	\$'000	\$'000
Opening balance	2,496,128	2,280,967
Property acquisitions and capital expenditure	29,909	33,713
Straight-line rental asset	12,942	14,051
Fair value adjustment to investment properties	(2,129)	(1,417)
Closing balance	2,536,850	2,327,314

(c) Amounts recognised in profit or loss for investment properties

	2019	2018
	\$'000	\$'000
Rental income	74,318	67,449
Other rental income (recognised on a straight-line basis)	12,942	14,051
Fair value adjustment to investment properties	(2,129)	(1,417)

(d) Leasing arrangements

Investment properties are leased to Viva Energy Australia Pty Limited (94% of rental income), other fuel operators (5% of rental income) and various convenience or fast food stores (1% of rental income) under long-term operating leases.

VIVA ENERGY REIT
30 JUNE 2019 INTERIM FINANCIAL REPORT

Minimum lease receivables under non-cancellable operating leases of investment properties not recognised in the financial statements are receivable as follows:

	30 June 2019	30 June 2018
	\$'000	\$'000
Within one year	151,681	137,258
Later than one year but not later than five years	641,946	586,262
Later than five years	1,399,880	1,478,647
Total	2,193,507	2,202,167

Accounting policy – Investment properties

The Group carries its investment properties at fair value with changes in the fair values recognised in the consolidated statement of profit or loss. The fair value of investment property is determined based on real estate valuation experts using recognised valuation techniques and the principles of AASB 13 *Fair Value Measurement*.

The fair values of the properties are reviewed by the directors at each reporting date. The directors' assessment of fair value is periodically assessed by engaging an independent valuer to assess the fair value of individual properties at least once every three consecutive years with at least one-third of the properties within the portfolio being independently valued on an annual rolling basis. Valuations may occur more frequently if there is reason to believe that the fair value of a property has materially changed from its carrying value (e.g. as a result of changes in market conditions, leasing activity in relation to the property or capital expenditure).

Valuations are derived from a number of factors that may include a direct comparison between the subject property and a range of comparable sales, the present value of net future cash flow projections based on reliable estimates of future cash flows, existing lease contracts, external evidence such as current market rents for similar properties, and using capitalisation rates and discount rates that reflect current market assessments of the uncertainty in the amount and timing of cash flows.

Key estimate – Valuation of investment properties

All of Viva Energy REIT's properties are treated as investment properties for the purpose of financial reporting. Under Australian Accounting Standards, investment property buildings and improvements are not depreciated over time. Instead, investment properties are initially valued at cost, including transaction costs, and then at the end of each accounting period the carrying values are restated at their fair value at the time. Gains and losses arising from changes in the fair value of investment properties are recognised as a non-cash gain or loss in the statutory net profit in the accounting period in which they arise. As a result of this accounting policy, changes in the fair value of Viva Energy REIT's investment properties may have a significant impact on its reported statutory net profit in any given period.

At the end of each reporting period, the directors assess the carrying value of Viva Energy REIT's investment properties, and where the carrying value differs materially from the assessed fair value an adjustment is made to the carrying value of such investment properties.

VIVA ENERGY REIT
30 JUNE 2019 INTERIM FINANCIAL REPORT

4. BORROWINGS

	30 June 2019 \$'000	30 June 2018 \$'000
Non-current liabilities		
Syndicated bank facilities	716,687	739,687
Bilateral bank facility	25,000	25,000
Institutional term loans	60,000	-
Sub-total	801,687	764,687
Unamortised borrowing costs	(3,628)	(3,688)
Total unsecured borrowings	798,059	760,999
Total undrawn facilities available	295,000	192,000

Debt facility overview

All facilities are denominated in Australian dollars, and are interest only facilities with any drawn balance payable at maturity.

The weighted average tenure of the drawn facilities as at 30 June 2019 was 3.7 years (30 June 2018: 4.2 years), and maturity dates range from 3 June 2021 to 6 September 2028.

The interest rate applying to the drawn amount of the facilities is set on a periodic basis (each three or six months) at the prevailing market interest rate at the commencement of the period (bank bill swap rate), plus the applicable margin.

Subject to compliance with the Group's financial covenants, the undrawn amount of the debt facilities may be drawn at any time providing that gearing does not exceed 45%. The covenants over the Group's debt facilities require an interest cover ratio of not less than 2.0 times (actual at 30 June 2019 of 5.3 times) and a gearing ratio of not more than 50% (actual at 30 June 2019 of 33.4%). The Group was in compliance with its covenants throughout the period.

Accounting policy – Borrowings

Borrowings are initially recognised at fair value and subsequently measured at amortised cost using the effective interest rate method. Under the effective interest rate method, any transaction fees, costs, discounts and premiums directly related to borrowings are recognised in the profit and loss over the expected life of the borrowings. Borrowings are removed from the consolidated balance sheet when the obligation specified in the contract is discharged, cancelled or expired.

Borrowings with maturities greater than 12 months after reporting date are classified as non-current liabilities.

5. DERIVATIVE FINANCIAL INSTRUMENTS

The Group has the following derivative financial instruments:

	30 June 2019 \$'000	30 June 2018 \$'000
Current assets		
Interest rate swaps – cash flow hedges	327	-
Non-current assets		
Interest rate swaps – cash flow hedges	-	2,762
	327	2,762

VIVA ENERGY REIT
30 JUNE 2019 INTERIM FINANCIAL REPORT

Non-current liabilities

Interest rate swaps – cash flow hedges	24,423	-
	24,423	-

The Group has entered into interest rate swap contracts under which it receives interest at variable rates and pays interest at fixed rates to protect interest-bearing liabilities from exposure to changes in interest rates.

Swaps currently in effect (that is, those not subject to a deferred start date) have a notional principle amount of \$796.7 million. The weighted average fixed interest swap rate at 30 June 2019 was 2.1% per annum, and the weighted average term was 3.3 years.

The notional principal amounts and periods of expiry of the interest rate swap contracts are as follows, including interest rate swaps that have a deferred start date:

	30 June 2019	30 June 2018
	\$'000	\$'000
Less than 1 year	368,343	-
1 to 2 years	-	368,343
2 to 3 years	368,344	-
3 to 4 years	368,000	368,344
4 to 5 years	-	368,000
5 to 6 years	-	-
6 to 7 years	-	-
7 to 8 years	40,000	-
8 to 9 years	-	-
9 to 10 years	20,000	-
	1,164,687	1,104,687

Accounting policy – Derivative financial instruments

Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently remeasured to their fair value at the end of each reporting period. The accounting for subsequent changes in fair value depends on whether the derivative is designated as a hedging instrument, and if so, the nature of the item being hedged. The Group designates certain derivatives as either:

- hedges of the fair value of recognised assets or liabilities or a firm commitment (fair value hedges); or
- hedges of a particular risk associated with the cash flows of recognised assets and liabilities and highly probable forecast transactions (cash flow hedges).

The Group documents at the inception of the hedging transaction the relationship between hedging instruments and hedged items, as well as its risk management objective and strategy for undertaking various hedge transactions. The Group also documents its assessment, both at hedge inception and on an ongoing basis, of whether the derivatives that are used in hedging transactions have been and will continue to be highly effective in offsetting changes in fair values or cash flows of hedged items.

(a) Cash flow hedges

The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognised in other comprehensive income and accumulated in reserves in equity. The gain or loss relating to the ineffective portion is recognised immediately in profit or loss within other income or other expense.

VIVA ENERGY REIT
30 JUNE 2019 INTERIM FINANCIAL REPORT

Amounts accumulated in equity are reclassified to profit or loss in the periods when the hedged item affects profit or loss (for instance when the forecast sale that is hedged takes place). The gain or loss relating to the effective portion of interest rate swaps hedging variable rate borrowings is recognised in profit or loss within finance costs.

When a hedging instrument expires or is sold or terminated, or when a hedge no longer meets the criteria for hedge accounting, any cumulative gain or loss existing in equity at that time remains in equity and is recognised when the forecast transaction is ultimately recognised in profit or loss. When a forecast transaction is no longer expected to occur, the cumulative gain or loss that was reported in equity is immediately reclassified to profit or loss.

(b) Derivatives that do not qualify for hedge accounting

Certain derivative instruments do not qualify for hedge accounting. Changes in the fair value of any derivative instrument that does not qualify for hedge accounting are recognised immediately in profit or loss and are included in other income or other expenses.

Key estimate – Valuation of derivative financial instruments

The Group's financial instruments are over-the-counter derivatives for which there are no quoted market prices. Valuation techniques (including, pricing models which estimate the present value of estimated future cash flows based on observable yield curves) are used to determine fair values. These pricing models are validated and periodically reviewed by experienced personnel of the Responsible Entity and the relevant instrument's counterparty.

Models use observable data, to the extent practicable. However, areas such as credit risk (both own and counterparty), volatilities and correlations require management to make estimates. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

6. DISTRIBUTIONS TO SECURITY HOLDERS

	2019	2018
	\$'000	\$'000
Final distribution for the year ended 31 December 2018		
– 7.03 cents per security paid on 28 February 2019	51,020	-
Final distribution for the year ended 31 December 2017		
– 6.60 cents per security paid on 15 February 2018	-	47,899
Total distributions paid	51,020	47,899
Estimated distribution for the half-year ended 30 June		
2019 – 7.18 cents per security – announced on 12 June		
2019 to be paid on 29 August 2019	55,694	-
Total distributions provided for or paid	106,714	47,899

Other than the above, no distributions to security holders were declared or paid during the period.

Accounting policy – Distributions to security holders

The Group distributes distributable income, being net profit adjusted to remove transaction costs and non-cash items, including straight-lining of rental income, the amortisation of debt establishment fees and any fair value adjustment to investment properties and derivatives. A provision is made for any distribution amount declared but not distributed, being appropriately disclosed and no longer at the discretion of the entity, on or before the reporting date. When declared, the distributions are recognised within the consolidated balance sheet and consolidated statement of changes in equity as a reduction in equity.

VIVA ENERGY REIT
30 JUNE 2019 INTERIM FINANCIAL REPORT

7. CONTRIBUTED EQUITY

(a) Securities

	30 June 2019		31 December 2018	
	Number of securities		Number of securities	
	'000	\$'000	'000	\$'000
Ordinary securities				
Fully paid	775,677	1,610,477	725,750	1,496,958

(b) Movement in ordinary securities

		Number of securities	
		'000	\$'000
1 January 2017	Opening balance	690,152	1,416,344
28 June 2017	Issue of securities under institutional placement	34,632	80,000
28 June 2017	Equity raising costs	-	(1,618)
24 July 2017	Issue of securities under Security Purchase Plan	966	2,232
31 December 2017		725,750	1,496,958
31 December 2018		725,750	1,496,958
27 February 2019	Issue of securities under institutional placement	43,103	100,000
27 February 2019	Equity raising costs	-	(2,089)
28 February 2019	Issue of securities under Distribution Reinvestment Plan	2,515	5,611
26 March 2019	Issue of securities under Security Purchase Plan	4,309	9,997
30 June 2019		775,677	1,610,477

Accounting policy – Contributed equity

Ordinary securities are classified as equity. Incremental costs directly attributable to the issue of new securities are shown in equity as a deduction, net of tax, from the proceeds.

VIVA ENERGY REIT

30 JUNE 2019 INTERIM FINANCIAL REPORT

8. NON-CONTROLLING INTERESTS

The financial statements reflect the consolidation of Viva Energy REIT. For financial reporting purposes, one entity in the stapled group must be identified as the acquirer or parent entity of the others. The Company has been identified as the acquirer of the Trust, resulting in the Trust being disclosed as non-controlling interests.

	2019 \$'000	2018 \$'000
Opening balance	1,593,507	1,587,950
Contributions of equity, net of transaction costs	114,036	-
Profit for the half-year	56,773	59,671
Effective portion of changes in fair value of cash flow hedges	(17,235)	(2,601)
Distributions paid or provided for	(55,694)	(47,899)
Closing balance	1,691,387	1,597,121

9. FINANCIAL RISK MANAGEMENT

(a) Fair value hierarchy

(i) Classification of financial assets and financial liabilities

AASB 13 *Fair Value Measurement* requires disclosure of fair value measurements by level of fair value hierarchy. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1);
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2); and
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The determination of what constitutes observable requires significant judgement by the directors. The directors consider observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

The following table presents the Group's financial assets and liabilities (by class) measured at fair value according to the fair value hierarchy at 30 June 2019 on a recurring basis:

30 June 2019	Level 1 \$'000	Level 2 \$'000	Level 3 \$'000	Total \$'000
Investment properties	-	-	2,536,850	2,536,850
Interest rate swaps	-	(24,096)	-	(24,096)
Total	-	(24,096)	2,536,850	2,512,754

VIVA ENERGY REIT

30 JUNE 2019 INTERIM FINANCIAL REPORT

30 June 2018	Level 1 \$'000	Level 2 \$'000	Level 3 \$'000	Total \$'000
Investment properties	-	-	2,327,314	2,327,314
Interest rate swaps	-	2,762	-	2,762
Total	-	2,762	2,327,314	2,330,076

The Group's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period. There were no transfers between levels during the period.

The Group did not measure any financial assets or financial liabilities at fair value on a non-recurring basis as at 30 June 2019.

(ii) Valuation techniques used to derive level 2 and level 3 values

The fair value of financial instruments that are not traded in an active market (for example, over-the-counter derivatives) is determined using valuation techniques. These valuation techniques maximise the use of observable market data where it is available and rely as little as possible on entity specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

The fair value of interest rate swaps is calculated as the present value of the estimated future cash flows based on observable yield curves, taking into account any material credit risk.

(b) Investment risk

(i) Tenant concentration risk, financial standing and sector concentration risk

Viva Energy REIT's rental income is 94% derived from leases with Viva Energy Australia Pty Limited (Viva Energy Australia). If Viva Energy Australia's financial standing materially deteriorates, Viva Energy Australia's ability to make rental payments to Viva Energy REIT may be adversely impacted, which may have a materially adverse impact on the Group's results of operations, financial position and ability to service and/or obtain financing.

Termination of Viva Energy Australia's right to use Shell branding could adversely affect Viva Energy Australia's ability to meet its rental obligations and therefore the value of Viva Energy REIT's portfolio of investment properties and its ability to service and/or obtain financing.

Furthermore, a material decline in the profitability of Viva Energy Australia's business could affect the perceived stability of the rental income of Viva Energy REIT and may affect Viva Energy REIT's ability to obtain financing on acceptable terms, and lead to lower market rents when renewal options are exercised and a decline in the values of Viva Energy REIT's investment properties.

(ii) Investment property value

The value of the Group's portfolio of investment properties may be adversely affected by a number of other factors, including a number of factors outside the control of the Group, such as supply and demand for service station properties, general property market conditions, the availability of credit, the ability to attract and implement economically viable rental arrangements, Viva Energy Australia's financial condition deteriorating or occupiers not extending the term of leases, re-leasing of properties, capitalisation rates and general economic factors such as the level of inflation and interest rates. The valuation of properties may fall. As changes in valuations are recorded on the statutory net profit statement, any decreases in value

VIVA ENERGY REIT
30 JUNE 2019 INTERIM FINANCIAL REPORT

will have a negative impact on the statutory net profit statement and in turn the market price of the Group's securities may fall.

(iii) Environmental risk

The Group depends on its tenants to perform their obligations under the environmental indemnification arrangements in relation to the leased properties. If the tenants were to fail to meet their obligations under these arrangements (including due to their insolvency), Viva Energy REIT may incur significant costs to rectify contamination on (and in respect of) its properties.

The Group is subject to a range of regulatory regimes that cover the specific assets of the Group and how they are operated. These regulatory regimes are subject to ongoing review and change which may increase the cost of compliance, reporting and maintenance of the Group's assets.

Extreme weather and other climate change related events have the potential to damage the Group's assets and disrupt the tenants' operations. Such events may increase costs for maintenance and insurance of the Group's assets, and may affect the ability to re-lease the Group's investment properties in the future and the rent levels for which they can be leased, thereby affecting future investment property valuations and rental cash flows.

The precise nature of these risks is uncertain as it depends on complex factors such as policy change, technology development, market forces, and the links between these factors and climatic conditions.

(iv) Debt agreement and refinancing risk

The Group has outstanding debt facilities. General economic and business conditions that impact the debt or equity markets could impact the Group's ability to refinance its debt facilities when required. If the covenants in these facilities are breached by the Group this may result in the Group being subject to increased interest rate margins and covenants restricting its ability to engage in certain types of activities or to pay distributions to unitholders.

The directors regularly monitor the debt facility covenants to ensure compliance and consider the refinancing options and timing available to the Group.

(v) AFSL compliance risk

VER Limited, a subsidiary of Viva Energy REIT Limited, holds an Australian Financial Services Licence ('AFSL') and acts as a responsible entity for the Group's managed investment scheme. The AFSL requires minimum levels of net tangible assets, liquid assets, cash reserves and liquidity, which may restrict the Group in paying distributions that would breach these requirements.

On a quarterly basis, the directors review and monitor VER Limited's balance sheet to ensure compliance with its AFSL requirements.

(vi) Excessive reliance on the Manager and its personnel

Viva Energy REIT is managed by VER Manager Pty Limited ('Manager'), which is a subsidiary of Viva Energy Australia.

Viva Energy REIT does not have employees (other than directors) and consequently is reliant on the expertise and experience of the key executives of Viva Energy Australia made available to the Manager which provides the services to Viva Energy REIT under the Management Agreement. As a consequence, loss of such key personnel could potentially have an adverse impact on the management and the financial performance of Viva Energy REIT and in turn may affect the returns to security holders.

30 JUNE 2019 INTERIM FINANCIAL REPORT

11. COMMITMENTS AND CONTINGENCIES

Capital expenditure commitments

	30 June 2019	30 June 2018
	\$'000	\$'000
Within one year	21,175	22,800
After one year but not more than five years	-	-
	21,175	22,800

At 30 June 2019, the Group has committed to contracts for the construction of service stations on seven properties for an aggregate of \$21.2 million.

Other than that noted above, there are no material outstanding contingent assets, liabilities or commitments as at 30 June 2019.

12. EVENTS OCCURRING AFTER THE REPORTING PERIOD

Subsequent to the end of the financial period:

- The directors have confirmed the payment of a distribution for the half-year ended 30 June 2019 of \$55.7m million which will be paid on 29 August 2019; and,
- The purchase of Lot 322 Ranford Road, Canning Vale, Western Australia for \$5.7m which was contracted after 30 June 2019, was settled on 20 August 2019.

No other matter or circumstance has arisen since 30 June 2019 that has significantly affected, or may significantly affect:

- the operations of the Group in future financial years;
- the results of those operations in future financial years; or
- the state of affairs of the Group in future financial years.

13. RELATED PARTY INFORMATION

(a) Parent entity

The Company has been assessed as the parent entity of the Group; the security holders' interests in the Trust are included in equity as non-controlling interests relating to the stapled entity.

(b) Subsidiaries

Interests in subsidiaries are set out in note 10.

(c) Stapled group

Viva Energy REIT is a stapled group consisting of the Company and the Trust and their wholly owned entities. Each stapled security consists of one share in the Company and one unit in the Trust. The Trust indirectly owns the investment property portfolio through its 100% ownership of the trusts which own the investment properties and receive rent under operating leases.

The Company directly owns all of the shares in VER Limited ('Responsible Entity'). In accordance with the Viva Energy REIT Trust Scheme Deed, the Responsible Entity (VER Limited) is entitled to receive a fee of \$200,000 per annum for undertaking the activities of a responsible entity. For the period ended 30 June 2019 the fee charged was \$Nil (30 June 2018: \$Nil). The Responsible Entity intends to charge this fee effective from 1 October 2019.

DIRECTORS' DECLARATION

In the Directors' opinion:

- (a) the financial statements and notes set out on pages 11 to 28 are in accordance with the *Corporations Act 2001*, including:
 - (i) complying with Accounting Standards, the *Corporations Regulations 2001* and other mandatory professional reporting requirements; and
 - (ii) giving a true and fair view of the Group's financial position as at 30 June 2019 and of its performance for the half-year ended on that date; and
- (b) there are reasonable grounds to believe that the Group will be able to pay its debts as and when they become due and payable.

This declaration is made in accordance with a resolution of the Directors.

Laurence Brindle
Chairman

22 August 2019

Independent auditor's review report to the stapled security holders of Viva Energy REIT

Report on the Half-Year Financial Report

We have reviewed the accompanying half-year financial report of Viva Energy REIT (the Company), which comprises the Condensed consolidated balance sheet as at 30 June 2019, the Condensed consolidated statement of comprehensive income, Condensed consolidated statement of changes in equity and Condensed consolidated statement of cash flows for the half-year ended on that date, selected other explanatory notes and the directors' declaration for Viva Energy REIT. The Group comprises the Company and the entities it controlled during that half-year.

Directors' responsibility for the half-year financial report

The directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that is free from material misstatement whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Australian Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 30 June 2019 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*. As the auditor of Viva Energy REIT, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*.

Conclusion

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Viva Energy REIT is not in accordance with the *Corporations Act 2001* including:

1. giving a true and fair view of the Group's financial position as at 30 June 2019 and of its performance for the half-year ended on that date;
2. complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.
