

MICRO-X TO HOST SHAREHOLDER OPEN DAY - TUESDAY 17TH SEPTEMBER

South Australian Premier, The Hon. Steven Marshall, MP will also officially open the Facility Expansion

Adelaide, Australia, 12th September 2019: Australian hi-tech company Micro-X Ltd (ASX:MX1) (**Micro-X** or the **Company**), a leader in cold cathode x-ray technology for health and security markets globally, is pleased to announce that it will host an Open Day for its current shareholders to have guided tours of its facility in Tonsley, Adelaide. The Open Day will be preceded by an official opening of the Facility expansion by the Premier of South Australia.

The Open day is timed to coincide with the completion of the production build of the first *Carestream DRX Revolution Nano* to be fitted with an X-ray Tube manufactured in-house at Tonsley following a two year R&D and engineering project to in-source this key technology. The Tour will also provide shareholders with an opportunity to view the production line, the use of the Nano product and development work in progress on future products.

Details and How to Register to Attend the Shareholder Open Day

Micro-X staff will conduct escorted tours of the facility in small groups for shareholders who have pre-registered.

Date: Tuesday 17th September 2019

Location: 1284 South Rd, MAB Gate 2, Tonsley (Adelaide) SA 5042

Time: Any time between 10.30am and 2.00pm

Details: Please come to Reception for visitor safety briefing. The tour will include:

- A walk-through of the assembly line for the Carestream *DRX Revolution Nano*
- Hands on demonstration of the Nano in use for bedside imaging
- Tour of the new CNT emitter and x-ray tube manufacturing facility
- First concept model of the MBI and sample images of IEDs

Registration: Numbers are limited and it is essential for safety and security reasons to pre-register your interest in attending by emailing our Office Manager, Leanne Theseira <mailto:ltheseira@micro-x.com>

Safety: Attendees are required to wear closed shoes.

Official opening by South Australian Premier

On 17 September 2019, The Premier of South Australia, The Hon Steven Marshall, MP will be opening the new extension to the manufacturing facility and will witness the first *DRX Revolution Nano* to be fitted with Micro-X's new, in-house designed and manufactured CNT X-ray tube, come off the production line.

"We are enormously proud of the ISO 13485 quality accredited manufacturing facility which we have built here in Adelaide" said Micro-X's Managing Director, Peter Rowland. "I hope that many of our shareholders who have helped make this possible can visit to see the amazing products and facilities that we have now in place."

About Micro-X

Micro-X Limited (the **Company**) is an ASX listed hi-tech company developing and commercialising a range of innovative products for global health and security markets, based on proprietary cold cathode, carbon nanotube emitter technology. The electronic control of emitters with this technology enables X-ray products with significant reduction in size, weight and power requirements, enabling greater mobility and ease of use in existing x-ray markets and a range of new and unique security and defence applications. The Company has its core R&D, engineering and production capability at its facility in Adelaide, Australia.

The Company's first product, the *Carestream DRX Revolution Nano*, is an ultra-lightweight digital medical x-ray system for the rapidly expanding mobile x-ray market in hospitals and healthcare. The *Carestream DRX Revolution Nano* holds 510(k) and CE Mark certifications and is sold commercially in a number of global markets by the Company's exclusive distributor, Carestream Health, Inc.. The Company has a portfolio of innovative products in development, aimed at customer solutions where there is little or no competition. This includes the Mobile Backscatter Imager or MBI which will image Improvised Explosive Devices for security, defence and counter-terrorism applications. The MBI is being jointly developed in partnership with Thales, a global supplier of defence and security technology systems, who are providing technical support and \$10 million of funding.
