Change of Registered Office & New Factory Acquisition

As part of the Rectifier Technologies Ltd (RFT) group expansion, a new office was leased in Melbourne (Australia) and a new factory building purchased in Johor Bahru (Malaysia).

RFT have effectively doubled the total floor space in Melbourne. This is part of RFT's plan to continue investing in the development of new products for both its traditional industrial power and new energy markets. The new factory will allow for a 50% increase in production capacity and is expected to be operational by the end of December 2019.

RFT advises that its registered office is now located at 97 Highbury Rd, Burwood, Vic, 3125. All other contact details for the Company remain unchanged:
