## **Authorised Investment Fund Limited**

### **Directors' report**

**30 June 2019**

The directors present their report, together with the financial statements, on the consolidated entity (referred to hereafter as the 'consolidated entity') consisting of Authorised Investment Fund Limited (referred to hereafter as the 'company' or 'parent entity') and the entities it controlled at the end of, or during, the year ended 30 June 2019.

#### **Directors**

The following persons were directors of Authorised Investment Fund Limited during the whole of the financial year and up to the date of this report, unless otherwise stated:

Benjamin Genser - Chairman  
David H.A. Craig – Managing Director  
Chris Baring-Gould – Executive Director

#### **Principal activities**

The company is registered under the Pooled Development Funds Act 1992 (Cth) ("PDF Act"). The principal activities of the company during the financial year were the provision of passive equity capital to certain eligible small and medium-sized Australian companies in accordance with the provisions of the PDF Act. There has been no significant change in the nature of these activities during the financial year.

#### **Dividends**

There were no dividends paid, recommended or declared during the current or previous financial year.

#### **Review of operations**

The profit for the consolidated entity after providing for income tax amounted to \$2,355,011 (30 June 2018: loss of \$531,411).

The review of operations will be included in the Chairman's letter presented at the AGM.

#### **Significant changes in the state of affairs**

Refer to Note 10 for details on shares issued during the year.

There were no other significant changes in the state of affairs of the consolidated entity during the financial year.

#### **Matters subsequent to the end of the financial year**

No matter or circumstance has arisen since 30 June 2019 that has significantly affected, or may significantly affect the consolidated entity's operations, the results of those operations, or the consolidated entity's state of affairs in future financial years.

#### **Likely developments and expected results of operations**

To further improve the company's profit and maximise returns to shareholders, the directors intend to continue the company's current strategy of investing in small to medium-sized eligible Australian companies that show promising prospects of growth, in accordance with the provisions of the PDF Act. This will assist in the achievement of the company's long-term financial goals.

#### **Environmental regulation**

The consolidated entity is not subject to any significant environmental regulation under Australian Commonwealth or State law.

## Authorised Investment Fund Limited

	Full Board	
	Attended	Held
Mr.B.Genser	5	5
Mr. D.H.A. Craig	5	5
Mr. C.Baring-Gould	5	5

**Authorised Investment Fund Limited**  
**Directors' report**  
**30 June 2019**

Held: represents the number of meetings held during the time the director held office.

**Remuneration report (audited)**

The remuneration report details the key management personnel remuneration arrangements for the consolidated entity, in accordance with the requirements of the Corporations Act 2001 and its Regulations.

Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the entity, directly or indirectly, including all directors.

The remuneration report is set out under the following main headings:

- Principles used to determine the nature and amount of remuneration
- Details of remuneration
- Service agreements
- Share-based compensation
- Additional disclosures relating to key management personnel

***Principles used to determine the nature and amount of remuneration***

The remuneration policy of Authorised Investment Fund Limited has been designed to align director objectives with shareholder and business objectives by providing a fixed remuneration component and offering specific long-term incentives based upon key performance areas affecting the company's financial results. The board of Authorised Investment Fund Limited believes the remuneration policy to be appropriate and effective in its ability to attract and retain the best directors to run and manage the company, as well as create goal congruence between director and shareholders.

The board's policy for determining the nature and amount of remuneration for board members of the company is as follows:

- The remuneration policy, setting the terms and conditions for the executive directors and other senior executives, was developed and approved by the board;
- All executives receive a base salary (which is based on factors such as length of service and experience), superannuation, fringe benefits, options and performance incentives; and
- The board reviews executive packages annually by reference to the company's performance, executive performance and comparable information from industry sectors.

The performance of executives is measured against criteria agreed annually with each executive and is based predominantly on the forecast growth of the company's profits and shareholders' value. The board may, however, exercise its discretion in relation to approving incentives, bonuses and options. Any changes must be justified by reference to measurable performance criteria. The policy is designed to attract the highest calibre of executives and reward them for performance that results in long-term growth in shareholder wealth.

Executives are also entitled to participate in the employee share and option arrangements.

Where applicable, executive directors and executives receive a superannuation guarantee contribution required by the government, which is currently 9.5%, and do not receive any other retirement benefits. Some individuals, however, have chosen to sacrifice part of their salary to increase payments towards superannuation.

All remuneration paid to directors and executives is valued at the cost to the company and expensed. Shares given to directors and executives are valued as the difference between the market price of those shares and the amount paid by the director or executive. Options are valued using the Black-Scholes methodology.

The board policy is to remunerate non-executive directors at market rates for time, commitment and responsibilities. The remuneration committee determines payments to the non-executive directors and reviews their remuneration annually, based on market practice, duties and accountability. Independent external advice is sought when required. The maximum aggregate amount of fees that can be paid to non-executive directors is subject to approval by shareholders at the Annual General Meeting. Fees for non-executive directors are not linked to the performance of the company. However, to align directors' interests with shareholder interests, the directors are encouraged to hold shares in the company and are able to participate in the employee option plan.

**Authorised Investment Fund Limited**  
**Directors' report**  
**30 June 2019**

*Company performance, shareholder wealth and director and executive remuneration*

The remuneration policy has been tailored to increase goal congruence between shareholders, directors and executives. There have been two methods applied in achieving this aim, the first being a performance based bonus based on key performance indicators, and the second being the issue of options to the majority of directors and executives to encourage the alignment of personal and shareholder interests. The company believes this policy will be effective in increasing shareholder wealth in future years.

*Use of remuneration consultants*

The company has not engaged remuneration consultants

*Voting and comments made at the company's 30 November 2018 Annual General Meeting ('AGM')*

At the 30 November 2018 AGM, 99.99% of the votes received supported the adoption of the remuneration report for the year ended 30 June 2018. The company did not receive any specific feedback at the AGM regarding its remuneration practices.

**Details of remuneration**

There were no fees paid to directors and key management personnel during the 2019 financial year.

*Amounts of remuneration*

Details of the remuneration of key management personnel of the consolidated entity are set out in the following tables.

	Short-term benefits			Post-employment benefits	Long-term benefits	Share-based payments	Total
	Cash salary and fees	Cash bonus	Non-monetary	Super-annuation	Long service leave	Equity-settled	
2018	\$	\$	\$	\$	\$	\$	\$
<i>Executive Directors:</i>							
Mr. B. Genser	-	-	-	-	-	60,000	60,000
Mr. D.H.A.Craig	-	-	-	-	-	60,000	60,000
Mr C.G. Baring-Gould	-	-	-	-	-	30,000	30,000
<i>Other Key Management Personnel:</i>							
Ms C Lin	-	-	-	-	-	30,000	30,000
	-	-	-	-	-	180,000	180,000

**Service agreements**

The directors and executives do not have formalised contracts of employment.

A directors appointment may be terminated in accordance with the Corporations Act and the constitution of the company, and their office will be ipso facto vacated in the circumstances specified in the Corporations Act and the Constitution of the company. A director may terminate their appointment by giving 3 months' notice in writing to the company. The company will pay the Director, by way of remuneration for his services, directors' fees in accordance with the constitution of the company.

**Share-based compensation**

*Issue of shares*

There were no shares issued to directors and other key management personnel as part of compensation during the year ended 30 June 2019.

**Authorised Investment Fund Limited**  
**Directors' report**  
**30 June 2019**

Mr.B.Genser	3,000,000	23,540,235	(532,978)	-	26,007,257
Mr.D.H.A.Craig	3,000,000	23,200,000	-	-	26,200,000
Mr C. G. Baring-Gould	1,500,000	6,100,000	-	-	7,600,000
Ms C. Lin	2,100,000	6,666,667	-	(600,000)	8,166,667
	<u>9,600,000</u>	<u>59,506,902</u>	<u>(532,978)</u>	<u>(600,000)</u>	<u>67,973,924</u>

***This concludes the remuneration report, which has been audited.***

**Shares under option**

Unissued ordinary shares of Authorised Investment Fund Limited under option at the date of this report are as follows:

Grant date	Expiry date	Exercise price	Number under option
01 January 2018	22 December 2022	\$0.05	9,000,000
10 December 2018	20 June 2021	\$0.05	134,950,773
			<u>143,950,773</u>

No person entitled to exercise the options had or has any right by virtue of the option to participate in any share issue of the company or of any other body corporate.

**Authorised Investment Fund Limited  
Directors' report  
30 June 2019**

**Shares issued on the exercise of options**

The following ordinary shares of Authorised Investment Fund Limited were issued during the year ended 30 June 2019 and up to the date of this report on the exercise of options granted:

Date options granted	Exercise price	Number of shares issued
10 December 2018	\$0.05	779,774

**Indemnity and insurance of officers**

During the financial year, the company paid a premium in respect of a contract insuring the directors of the company, the company secretary and all executive officers of the company against liabilities for costs and expenses incurred by them in defending any legal proceedings arising out of their conduct while acting in the capacity of director, secretary or officer of the company, other than conduct involving a wilful breach of duty in relation to the company to the extent permitted by the Corporations Act 2001. The contract of insurance prohibits the disclosure of the premium amount.

Apart from the insurance premium noted above, no indemnities have been given or insurance premiums paid, during or since the end of the financial year, for any person who is an officer or auditor of the company.

**Indemnity and insurance of auditor**

The company has not, during or since the end of the financial year, indemnified or agreed to indemnify the auditor of the company or any related entity against a liability incurred by the auditor.

During the financial year, the company has not paid a premium in respect of a contract to insure the auditor of the company or any related entity.

**Proceedings on behalf of the company**

No person has applied to the Court under section 237 of the Corporations Act 2001 for leave to bring proceedings on behalf of the company, or to intervene in any proceedings to which the company is a party for the purpose of taking responsibility on behalf of the company for all or part of those proceedings.

**Non-audit services**

There were no non-audit services provided during the financial year by the auditor.

**Officers of the company who are former partners of Connect Audit**

There are no officers of the company who are former partners of Connect Audit.

**Auditor's independence declaration**

A copy of the auditor's independence declaration as required under section 307C of the Corporations Act 2001 is set out immediately after this directors' report.

**Auditor**

George Georgiou from Connect Audit continues as auditor and was appointed in accordance with section 327 of the Corporations Act 2001.

**Authorised Investment Fund Limited**  
**Directors' report**  
**30 June 2019**

This report is made in accordance with a resolution of directors, pursuant to section 298(2)(a) of the Corporations Act 2001.

On behalf of the directors

A handwritten signature in blue ink, consisting of several overlapping loops and a long horizontal stroke extending to the right.

---

Benjamin Genser  
Chairman

30 September 2019

**AUDITOR'S INDEPENDENCE DECLARATION**  
**UNDER SECTION 307C OF THE CORPORATIONS ACT 2001**

As lead auditor for the audit of Authorised Investment Fund Limited for the year ended 30 June 2019, I declare that, to the best of my knowledge and belief, there have been:

- (a) No contraventions of the auditor independence requirements of the *Corporations Act 2001* in relation to the audit; and
- (b) No contraventions of any applicable code of professional conduct in relation to the audit.

This declaration is in respect of AUTHORISED INVESTMENT FUND LIMITED.

## **Note 1. Significant accounting policies**

The principal accounting policies adopted in the preparation of the financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

### **New or amended Accounting Standards and Interpretations adopted**

The consolidated entity has adopted all of the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

The adoption of these Accounting Standards and Interpretations did not have any significant impact on the financial performance or position of the consolidated entity.

The following Accounting Standards and Interpretations are most relevant to the consolidated entity:

#### *AASB 9 Financial Instruments*

The consolidated entity has adopted AASB 9 from 1 January 2018. The standard introduced new classification and measurement models for financial assets. A financial asset shall be measured at amortised cost if it is held within a business model whose objective is to hold assets in order to collect contractual cash flows which arise on specified dates and that are solely principal and interest. A debt investment shall be measured at fair value through other comprehensive income if it is held within a business model whose objective is to both hold assets in order to collect contractual cash flows which arise on specified dates that are solely principal and interest as well as selling the asset on the basis of its fair value. All other financial assets are classified and measured at fair value through profit or loss unless the entity makes an irrevocable election on initial recognition to present gains and losses on equity instruments (that are not held-for-trading or contingent consideration recognised in a business combination) in other comprehensive income ('OCI'). Despite these requirements, a financial asset may be irrevocably designated as measured at fair value through profit or loss to reduce the effect of, or eliminate, an accounting mismatch. For financial liabilities designated at fair value through profit or loss, the standard requires the portion of the change in fair value that relates to the entity's own credit risk to be presented in OCI (unless it would create an accounting mismatch). New simpler hedge accounting requirements are intended to more closely align the accounting treatment with the risk management activities of the entity. New impairment requirements use an 'expected credit loss' ('ECL') model to recognise an allowance. Impairment is measured using a 12-month ECL method unless the credit risk on a financial instrument has increased significantly since initial recognition in which case the lifetime ECL method is adopted. For receivables, a simplified approach to measuring expected credit losses using a lifetime expected loss allowance is available. The impact of its adoption was not material because the consolidated entity was already recognising its available for sales assets at fair value through the profit and loss.

#### *AASB 15 Revenue from Contracts with Customers*

The consolidated entity has adopted AASB 15 from 1 January 2018. The standard provides a single comprehensive model for revenue recognition. The core principle of the standard is that an entity shall recognise revenue to depict the transfer of promised goods or services to customers at an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The standard introduced a new contract-based revenue recognition model with a measurement approach that is based on an allocation of the transaction price. This is described further in the accounting policies below. Credit risk is presented separately as an expense rather than adjusted against revenue. Contracts with customers are presented in an entity's statement of financial position as a contract liability, a contract asset, or a receivable, depending on the relationship between the entity's performance and the customer's payment. Customer acquisition costs and costs to fulfil a contract can, subject to certain criteria, be capitalised as an asset and amortised over the contract period. The impact of its adoption was not material.

### **Going concern**

The directors have prepared a cash flow which indicates that the company has sufficient funds to continue in the foreseeable future. These assumptions are based on certain economic and operating assumptions about future events and actions that have not yet occurred, and may not necessarily occur. Directors are confident that if necessary they will be able to raise sufficient capital to enable the continuation of operations until investment returns reach a volume to ensure a return to profitability and positive cash flows.

**Note 1. Significant accounting policies (continued)**

**Basis of preparation**

These general purpose financial statements have been prepared in accordance with Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') and the Corporations Act 2001, as appropriate for for-profit oriented entities. These financial statements also comply with International Financial Reporting Standards as issued by the International Accounting Standards Board ('IASB').

*Historical cost convention*

The financial statements have been prepared under the historical cost convention, except for, where applicable, the revaluation of financial assets and liabilities at fair value through profit or loss, financial assets at fair value through other comprehensive income, investment properties, certain classes of property, plant and equipment and derivative financial instruments.

*Critical accounting estimates*

The preparation of the financial statements requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the consolidated entity's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, are disclosed in note 2.

**Parent entity information**

In accordance with the Corporations Act 2001, these financial statements present the results of the consolidated entity only. Supplementary information about the parent entity is disclosed in note 19.

**Principles of consolidation**

The consolidated financial statements incorporate the assets and liabilities of all subsidiaries of Authorised Investment Fund Limited ('company' or 'parent entity') as at 30 June 2019 and the results of all subsidiaries for the year then ended. Authorised Investment Fund Limited and its subsidiaries together are referred to in these financial statements as the 'consolidated entity'.

Subsidiaries are all those entities over which the consolidated entity has control. The consolidated entity controls an entity when the consolidated entity is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the consolidated entity. They are de-consolidated from the date that control ceases.

Intercompany transactions, balances and unrealised gains on transactions between entities in the consolidated entity are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of the impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the consolidated entity.

The acquisition of subsidiaries is accounted for using the acquisition method of accounting. A change in ownership interest, without the loss of control, is accounted for as an equity transaction, where the difference between the consideration transferred and the book value of the share of the non-controlling interest acquired is recognised directly in equity attributable to the parent.

Where the consolidated entity loses control over a subsidiary, it derecognises the assets including goodwill, liabilities and non-controlling interest in the subsidiary together with any cumulative translation differences recognised in equity. The consolidated entity recognises the fair value of the consideration received and the fair value of any investment retained together with any gain or loss in profit or loss.

**Operating segments**

Operating segments are presented using the 'management approach', where the information presented is on the same basis as the internal reports provided to the Chief Operating Decision Makers ('CODM'). The CODM is responsible for the allocation of resources to operating segments and assessing their performance.

**Income tax**

The income tax expense or benefit for the period is the tax payable on that period's taxable income based on the applicable income tax rate for each jurisdiction, adjusted by the changes in deferred tax assets and liabilities attributable to temporary differences, unused tax losses and the adjustment recognised for prior periods, where applicable.

**Note 1. Significant accounting policies (continued)**

Deferred tax assets and liabilities are recognised for temporary differences at the tax rates expected to be applied when the assets are recovered or liabilities are settled, based on those tax rates that are enacted or substantively enacted, except for:

- When the deferred income tax asset or liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and that, at the time of the transaction, affects neither the accounting nor taxable profits; or
- When the taxable temporary difference is associated with interests in subsidiaries, associates or joint ventures, and the timing of the reversal can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred tax assets are recognised for deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

The carrying amount of recognised and unrecognised deferred tax assets are reviewed at each reporting date. Deferred tax assets recognised are reduced to the extent that it is no longer probable that future taxable profits will be available for the carrying amount to be recovered. Previously unrecognised deferred tax assets are recognised to the extent that it is probable that there are future taxable profits available to recover the asset.

Deferred tax assets and liabilities are offset only where there is a legally enforceable right to offset current tax assets against current tax liabilities and deferred tax assets against deferred tax liabilities; and they relate to the same taxable authority on either the same taxable entity or different taxable entities which intend to settle simultaneously.

**Current and non-current classification**

Assets and liabilities are presented in the statement of financial position based on current and non-current classification.

An asset is classified as current when: it is either expected to be realised or intended to be sold or consumed in the consolidated entity's normal operating cycle; it is held primarily for the purpose of trading; it is expected to be realised within 12 months after the reporting period; or the asset is cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least 12 months after the reporting period. All other assets are classified as non-current.

A liability is classified as current when: it is either expected to be settled in the consolidated entity's normal operating cycle; it is held primarily for the purpose of trading; it is due to be settled within 12 months after the reporting period; or there is no unconditional right to defer the settlement of the liability for at least 12 months after the reporting period. All other liabilities are classified as non-current.

**Cash and cash equivalents**

Cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

**Trade and other receivables**

Other receivables are recognised at amortised cost, less any allowance for expected credit losses.

**Associates**

The consolidated entity discontinues the use of the equity method upon the loss of significant influence over the associate and recognises any retained investment at its fair value. Any difference between the associate's carrying amount, fair value of the retained investment and proceeds from disposal is recognised in profit or loss.

**Investments and other financial assets**

Investments and other financial assets are initially measured at fair value. Transaction costs are included as part of the initial measurement, except for financial assets at fair value through profit or loss. Such assets are subsequently measured at either amortised cost or fair value depending on their classification. Classification is determined based on both the business model within which such assets are held and the contractual cash flow characteristics of the financial asset unless, an accounting mismatch is being avoided.

Financial assets are derecognised when the rights to receive cash flows have expired or have been transferred and the consolidated entity has transferred substantially all the risks and rewards of ownership. When there is no reasonable expectation of recovering part or all of a financial asset, its carrying value is written off.

**Note 1. Significant accounting policies (continued)**

*Financial assets at fair value through other comprehensive income*

Financial assets at fair value through other comprehensive income include equity investments which the consolidated entity intends to hold for the foreseeable future and has irrevocably elected to classify them as such upon initial recognition.

*Impairment of financial assets*

The consolidated entity recognises a loss allowance for expected credit losses on financial assets which are either measured at amortised cost or fair value through other comprehensive income. The measurement of the loss allowance depends upon the consolidated entity's assessment at the end of each reporting period as to whether the financial instrument's credit risk has increased significantly since initial recognition, based on reasonable and supportable information that is available, without undue cost or effort to obtain.

Where there has not been a significant increase in exposure to credit risk since initial recognition, a 12-month expected credit loss allowance is estimated. This represents a portion of the asset's lifetime expected credit losses that is attributable to a default event that is possible within the next 12 months. Where a financial asset has become credit impaired or where it is determined that credit risk has increased significantly, the loss allowance is based on the asset's lifetime expected credit losses. The amount of expected credit loss recognised is measured on the basis of the probability weighted present value of anticipated cash shortfalls over the life of the instrument discounted at the original effective interest rate.

For financial assets measured at fair value through other comprehensive income, the loss allowance is recognised within other comprehensive income. In all other cases, the loss allowance is recognised in profit or loss.

**Trade and other payables**

These amounts represent liabilities for goods and services provided to the consolidated entity prior to the end of the financial year and which are unpaid. Due to their short-term nature they are measured at amortised cost and are not discounted. The amounts are unsecured and are usually paid within 30 days of recognition.

**Fair value measurement**

When an asset or liability, financial or non-financial, is measured at fair value for recognition or disclosure purposes, the fair value is based on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date; and assumes that the transaction will take place either: in the principal market; or in the absence of a principal market, in the most advantageous market.

Fair value is measured using the assumptions that market participants would use when pricing the asset or liability, assuming they act in their economic best interests. For non-financial assets, the fair value measurement is based on its highest and best use. Valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, are used, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

Assets and liabilities measured at fair value are classified into three levels, using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. Classifications are reviewed at each reporting date and transfers between levels are determined based on a reassessment of the lowest level of input that is significant to the fair value measurement.

For recurring and non-recurring fair value measurements, external valuers may be used when internal expertise is either not available or when the valuation is deemed to be significant. External valuers are selected based on market knowledge and reputation. Where there is a significant change in fair value of an asset or liability from one period to another, an analysis is undertaken, which includes a verification of the major inputs applied in the latest valuation and a comparison, where applicable, with external sources of data.

**Issued capital**

Ordinary shares are classified as equity.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

**Note 1. Significant accounting policies (continued)**

**Earnings per share**

*Basic earnings per share*

Basic earnings per share is calculated by dividing the profit attributable to the owners of Authorised Investment Fund Limited, excluding any costs of servicing equity other than ordinary shares, by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the financial year.

*Diluted earnings per share*

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account the after income tax effect of interest and other financing costs associated with dilutive potential ordinary shares and the weighted average number of shares assumed to have been issued for no consideration in relation to dilutive potential ordinary shares.

**Goods and Services Tax ('GST') and other similar taxes**

Revenues, expenses and assets are recognised net of the amount of associated GST, unless the GST incurred is not recoverable from the tax authority. In this case it is recognised as part of the cost of the acquisition of the asset or as part of the expense.

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the tax authority is included in other receivables or other payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to the tax authority, are presented as operating cash flows.

Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to, the tax authority.

**New Accounting Standards and Interpretations not yet mandatory or early adopted**

Australian Accounting Standards and Interpretations that have recently been issued or amended but are not yet mandatory, have not been early adopted by the consolidated entity for the annual reporting period ended 30 June 2019. The consolidated entity's assessment of the impact of these new or amended Accounting Standards and Interpretations, most relevant to the consolidated entity, are set out below.

*AASB 16 Leases*

This standard is applicable to annual reporting periods beginning on or after 1 January 2019. The standard replaces AASB 117 'Leases' and for lessees will eliminate the classifications of operating leases and finance leases. Subject to exceptions, a 'right-of-use' asset will be capitalised in the statement of financial position, measured at the present value of the unavoidable future lease payments to be made over the lease term. The exceptions relate to short-term leases of 12 months or less and leases of low-value assets (such as personal computers and small office furniture) where an accounting policy choice exists whereby either a 'right-of-use' asset is recognised or lease payments are expensed to profit or loss as incurred. A liability corresponding to the capitalised lease will also be recognised, adjusted for lease prepayments, lease incentives received, initial direct costs incurred and an estimate of any future restoration, removal or dismantling costs. Straight-line operating lease expense recognition will be replaced with a depreciation charge for the leased asset (included in operating costs) and an interest expense on the recognised lease liability (included in finance costs). In the earlier periods of the lease, the expenses associated with the lease under AASB 16 will be higher when compared to lease expenses under AASB 117. However EBITDA (Earnings Before Interest, Tax, Depreciation and Amortisation) results will be improved as the operating expense is replaced by interest expense and depreciation in profit or loss under AASB 16. For classification within the statement of cash flows, the lease payments will be separated into both a principal (financing activities) and interest (either operating or financing activities) component. For lessor accounting, the standard does not substantially change how a lessor accounts for leases. The consolidated entity will adopt this standard from 1 July 2019 but the impact of its adoption is yet to be assessed by the consolidated entity. The only lease expires within twelve months and the practical expedient will be applied, therefore adoption of the standard will have no impact.

## **Note 2. Critical accounting judgements, estimates and assumptions**

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts in the financial statements. Management continually evaluates its judgements and estimates in relation to assets, liabilities, contingent liabilities, revenue and expenses. Management bases its judgements, estimates and assumptions on historical experience and on other various factors, including expectations of future events, management believes to be reasonable under the circumstances. The resulting accounting judgements and estimates will seldom equal the related actual results. The judgements, estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities (refer to the respective notes) within the next financial year are discussed below.

### *Valuation of investments*

The fair values of the unlisted securities not traded in an active market are determined in accordance with directors' valuations which are based on their experience in the industry.

The directors have used assumptions, such as estimated cash flows, project business growth plans and other market data available in determining their valuation of the unlisted investments. Should these assumptions change in subsequent periods the fair value may be impacted and accounted for through the profit and loss. The directors have used a number of different valuation tools together to determine the fair value of the investee companies, including projected discounted cashflows and multiples of projected revenues and profits.

### *Fair value measurement hierarchy*

The consolidated entity is required to classify all assets and liabilities, measured at fair value, using a three level hierarchy, based on the lowest level of input that is significant to the entire fair value measurement, being: Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date; Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly; and Level 3: Unobservable inputs for the asset or liability. Considerable judgement is required to determine what is significant to fair value and therefore which category the asset or liability is placed in can be subjective.

The fair value of assets and liabilities classified as level 3 is determined by the use of valuation models. These include discounted cash flow analysis or the use of observable inputs that require significant adjustments based on unobservable inputs.

## **Note 3. Differences to preliminary report**

There are a number of differences between the preliminary financial report lodged with the ASX on 30 August 2019, which are detailed below:

- Net fair value gain on financial assets was originally reported as \$3,182,468 and has changed to \$4,434,679 in the audited accounts. This is due to changes in valuation assumptions that only came to light since the preliminary report was lodged.
- Administration and other expenses was originally reported as \$1,162,547 and has changed to \$1,687,852 in the audited accounts. This is due to capital raising expenses not capitalised for amortisation in future periods, and other reconciliation differences written off.
- Impairment of investments was originally reported as \$74,400 and has changed to \$424,400 in the audited accounts. This is due to the write off of a loan to an investee company.
- Issued capital was originally reported as \$24,831,403 and has changed to \$24,154,497 in the audited accounts. This is due to changes in the valuation attributed to shares issued in lieu of fees and as consideration for investments.

## **Note 4. Operating segments**

### *Identification of reportable operating segments*

The Company operates as a registered Pooled Development Fund under the Pooled Development Funds Act 1992 (Cth) ("PDF Act"), solely within Australia.

The principal activity of the Company during the financial year ended 30 June 2018, was the provision of passive equity capital to certain eligible small or medium-sized Australian companies in accordance with the provisions of the PDF Act.

**Authorised Investment Fund Limited**  
**Notes to the financial statements**  
**30 June 2019**

**Note 5. Other income**

	<b>Consolidated</b>	
	<b>2019</b>	<b>2018</b>
	<b>\$</b>	<b>\$</b>
Net fair value gain on financial assets	4,434,679	232,962

**Note 6. Income tax expense**

	<b>Consolidated</b>	
	<b>2019</b>	<b>2018</b>
	<b>\$</b>	<b>\$</b>
<i>Numerical reconciliation of income tax expense and tax at the statutory rate</i>		
Profit/(loss) before income tax expense	2,355,011	(531,411)
Tax at the statutory tax rate of 25%	588,753	(132,853)
Current year tax losses not recognised	626,017	191,094
Write-back for impairment/valuation of investments	(1,214,770)	(58,241)
Income tax expense	-	-

	<b>Consolidated</b>	
	<b>2019</b>	<b>2018</b>
	<b>\$</b>	<b>\$</b>
<i>Tax losses not recognised</i>		
Unused tax losses for which no deferred tax asset has been recognised	7,228,062	4,915,432
Potential tax benefit @ 25%	1,807,016	1,228,858

The above potential tax benefit for tax losses has not been recognised in the statement of financial position. These tax losses can only be utilised in the future if the continuity of ownership test is passed, or failing that, the same business test is passed.

	<b>Consolidated</b>	
	<b>2019</b>	<b>2018</b>
	<b>\$</b>	<b>\$</b>
<i>Deferred tax assets not recognised</i>		
Deferred tax assets not recognised comprises temporary differences attributable to:		
Tax losses - income	7,451,298	4,947,232
Tax losses - capital	201,164	201,164
Timing differences	(424,400)	(232,964)
Total deferred tax assets not recognised	7,228,062	4,915,432

The above potential tax benefit, which excludes tax losses, for deductible temporary differences has not been recognised in the statement of financial position as the recovery of this benefit is uncertain.

**Authorised Investment Fund Limited**  
**Notes to the financial statements**  
**30 June 2019**

**Note 7. Current assets - trade and other receivables**

	<b>Consolidated</b>	
	<b>2019</b>	<b>2018</b>
	<b>\$</b>	<b>\$</b>
Receivable from related party	242,689	-
BAS receivable	117,452	1,967
	<u>360,141</u>	<u>1,967</u>

**Note 8. Non-current assets - financial assets at fair value through profit and loss**

	<b>Consolidated</b>	
	<b>2019</b>	<b>2018</b>
	<b>\$</b>	<b>\$</b>
Listed investment	860,722	201,600
Unlisted investments	14,110,911	8,927,854
	<u>14,971,633</u>	<u>9,129,454</u>

*Reconciliation*

Reconciliation of the fair values at the beginning and end of the current and previous financial year are set out below:

Opening fair value	9,129,454	96,492
Additions	1,831,900	9,190,000
Revaluation increments	4,434,679	232,962
Impairment of investments	(424,400)	(390,000)
	<u>14,971,633</u>	<u>9,129,454</u>

Refer to note 13 for further information on fair value measurement.

Financial assets at fair value comprise investments in the ordinary issued capital of various entities. Consistent with Australian Accounting Standard AASB 139 Financial Instruments: Recognition and Measurement, upon initial recognition it was designated by the entity as at fair value through profit or loss. There are no fixed returns or fixed maturity date attached to these investments.

**Note 9. Current liabilities - trade and other payables**

	<b>Consolidated</b>	
	<b>2019</b>	<b>2018</b>

*Ordinary shares*

Ordinary shares entitle the holder to participate in dividends and the proceeds on the winding up of the company in proportion to the number of and amounts paid on the shares held. The fully paid ordinary shares have no par value and the company does not have a limited amount of authorised capital.

On a show of hands every member present at a meeting in person or by proxy shall have one vote and upon a poll each share shall have one vote.

*Share buy-back*

There is no current on-market share buy-back.

*Capital risk management*

The consolidated entity's objectives when managing capital is to safeguard its ability to continue as a going concern, so that it can provide returns for shareholders and benefits for other stakeholders and to maintain an optimum capital structure to reduce the cost of capital.

Capital is regarded as total equity, as recognised in the statement of financial position, plus net debt. Net debt is calculated as total borrowings less cash and cash equivalents.

**Authorised Investment Fund Limited**  
**Notes to the financial statements**  
**30 June 2019**

**Note 10. Equity - issued capital (continued)**

In order to maintain or adjust the capital structure, the consolidated entity may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

The consolidated entity would look to raise capital when an opportunity to invest in a business or company was seen as value adding relative to the current company's share price at the time of the investment. The consolidated entity is not actively pursuing additional investments in the short term as it continues to integrate and grow its existing businesses in order to maximise synergies.

The consolidated entity is subject to certain financing arrangements covenants and meeting these is given priority in all capital risk management decisions. There have been no events of default on the financing arrangements during the financial year.

The capital risk management policy remains unchanged from the 30 June 2018.

**Note 11. Equity - dividends**

*Dividends*

There were no dividends paid, recommended or declared during the current or previous financial year.

*Franking credits*

	<b>Consolidated</b>	
	<b>2019</b>	<b>2018</b>
	<b>\$</b>	<b>\$</b>
Franking credits available for subsequent financial years based on a tax rate of 25%	<u>118,582</u>	<u>118,582</u>

The above amounts represent the balance of the franking account as at the end of the financial year, adjusted for:

- franking credits that will arise from the payment of the amount of the provision for income tax at the reporting date
- franking debits that will arise from the payment of dividends recognised as a liability at the reporting date
- franking credits that will arise from the receipt of dividends recognised as receivables at the reporting date

**Note 12. Financial instruments**

***Financial risk management objectives***

The consolidated entity's activities expose it to a variety of financial risks: market risk (including foreign currency risk, price risk and interest rate risk), credit risk and liquidity risk. The consolidated entity's overall risk management program focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the financial performance of the consolidated entity. The consolidated entity uses different methods to measure different types of risk to which it is exposed. These methods include sensitivity analysis of price risks and beta analysis in respect of investment portfolios to determine market risk.

Risk management is carried out by the Board of Directors ('the Board'). These policies include identification and analysis of the risk exposure of the consolidated entity and appropriate procedures, controls and risk limits.

***Market risk***

*Foreign currency risk*

The consolidated entity is not exposed to any significant foreign currency risk.

*Price risk*

The consolidated entity is exposed to price risk in relation to its investments its available for sales assets to - fair value through profit or loss.

Note 12. Financial instruments (continued)

Financial assets at fair value through profit and loss	20%	<u>2,994,326</u>	<u>2,994,326</u>	20%	<u>(2,994,326)</u>	<u>(2,994,326)</u>

Consolidated - 2018	% change	Average price increase		Average price decrease		
		Effect on profit before tax	Effect on equity	Effect on profit before tax	Effect on equity	
Financial assets at fair value through profit and loss`	20%	<u>1,825,891</u>	<u>1,825,891</u>	20%	<u>(1,825,891)</u>	<u>(1,825,891)</u>

**Interest rate risk**

The consolidated entity is not exposed to any significant interest rate risk.

**Credit risk**

The consolidated entity is not exposed to any significant credit rate risk.

**Liquidity risk**

Vigilant liquidity risk management requires the consolidated entity to maintain sufficient liquid assets (mainly cash and cash equivalents) to be able to pay debts as and when they become due and payable.

The consolidated entity manages liquidity risk by maintaining adequate cash reserves and continuously monitoring actual and forecast cash flows and matching the maturity profiles of financial assets and liabilities.

**Remaining contractual maturities**

The following tables detail the consolidated entity's remaining contractual maturity for its financial instrument liabilities. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the financial liabilities are required to be paid. The tables include both interest and principal cash flows disclosed as remaining contractual maturities and therefore these totals may differ from their carrying amount in the statement of financial position.

Consolidated - 2019	Weighted average interest rate %	1 year or less \$	Between 1 and 2 years \$	Between 2 and 5 years \$	Over 5 years \$	Remaining contractual maturities \$
<b>Non-derivatives</b>						
<i>Non-interest bearing</i>						
Trade and other payables	-	41,816	-	-	-	41,816
Total non-derivatives		<u>41,816</u>	<u>-</u>	<u>-</u>	<u>-</u>	<u>41,816</u>

Consolidated - 2018	Weighted average interest rate %	1 year or less \$	Between 1 and 2 years \$	Between 2 and 5 years \$	Over 5 years \$	Remaining contractual maturities \$
<b>Non-derivatives</b>						
<i>Non-interest bearing</i>						
Trade and other payables	-	349,427	-	-	-	349,427
Total non-derivatives		<u>349,427</u>	<u>-</u>	<u>-</u>	<u>-</u>	<u>349,427</u>

The cash flows in the maturity analysis above are not expected to occur significantly earlier than contractually disclosed above.

**Authorised Investment Fund Limited**  
**Notes to the financial statements**  
**30 June 2019**

**Note 12. Financial instruments (continued)**

***Fair value of financial instruments***

Unless otherwise stated, the carrying amounts of financial instruments reflect their fair value.

**Note 13. Fair value measurement**

***Fair value hierarchy***

The following tables detail the consolidated entity's assets and liabilities, measured or disclosed at fair value, using a three level hierarchy, based on the lowest level of input that is significant to the entire fair value measurement, being:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly

Level 3: Unobservable inputs for the asset or liability

<b>Consolidated - 2019</b>	Level 1 \$	Level 2 \$	Level 3 \$	Total \$
<i>Assets</i>				
Listed investments	-	-	860,722	860,722
Unlisted investments	-	-	14,110,911	14,110,911
Total assets	-	-	14,971,633	14,971,633
<b>Consolidated - 2018</b>	Level 1 \$	Level 2 \$	Level 3 \$	Total \$
<i>Assets</i>				
Listed investments	-	-	201,600	201,600
Unlisted investments	-	-	8,927,854	8,927,854
Total assets	-	-	9,129,454	9,129,454

There were no transfers between levels during the financial year.

*Valuation techniques for fair value measurements categorised within level 3*

**Authorised Investment Fund Limited**  
**Notes to the financial statements**  
**30 June 2019**

**Note 13. Fair value measurement (continued)**

The fair value of an unlisted investment is determined by the use of an appropriate valuation technique to estimate what the transaction price would have been at balance date in an arm's length exchange between willing buyers and sellers.

The valuation techniques are:

- EBITDA multiple of the listed company, with reference to similar and comparable companies trading in its industry vertical. This valuation technique is used for comparison purposes only.
- Equity Value – cash flow forecasts provided by the unlisted company management, and discounted to Present Value (PV). This Enterprise Valuation of the company comprises its PV of its visible cash flows and of its terminal value,

- The Equity Value to shareholders is derived by deducting any minority interests and debt from its Enterprise Value.

- Assumptions applied in valuation:

- Discount rate used – cost of equity to shareholders of the unlisted entity
- Perpetual growth rate – economic growth rate (GDP) of the country where the operations of the unlisted company are based.
- Risk and uncertainty factors – forecast cash flows provided by management are subject to a sensitivity analysis involving a range of pessimistic, base and optimistic scenarios.

In addition to the discount rate used, a further discount for risk and uncertainty may be applied where deemed appropriate, after due consideration of the following risk factors:

- Business model and its growth and profitability prospects
- Depth of management expertise in implementing strategies and running operations
- Quality of management accounts and forecasts provided
- Macroeconomic and geopolitical influences
- The sensitivities and assumptions are re-assessed at each reporting balance date.

**Note 14. Key management personnel disclosures**

*Directors*

The following persons were directors of Authorised Investment Fund Limited during the financial year:

Mr. B. Genser	Chairman – Executive
Mr. D.H.A. Craig	Managing Director – Executive,

**Authorised Investment Fund Limited**  
**Directors' declaration**  
**30 June 2019**

In the directors' opinion:

- the attached financial statements and notes comply with the Corporations Act 2001, the Accounting Standards, the Corporations Regulations 2001 and other mandatory professional reporting requirements;
- the attached financial statements and notes comply with International Financial Reporting Standards as issued by the International Accounting Standards Board as described in note 1 to the financial statements;
- the attached financial statements and notes give a true and fair view of the consolidated entity's financial position as at 30 June 2019 and of its performance for the financial year ended on that date; and
- there are reasonable grounds to believe that the company will be able to pay its debts as and when they become due and payable.

The directors have been given the declarations required by section 295A of the Corporations Act 2001.

Signed in accordance with a resolution of directors made pursuant to section 295(5)(a) of the Corporations Act 2001.

On behalf of the directors

---

Benjamin Genser  
Chairman

30 September 2019

## Independent Auditor's Report

### To the Members of Authorised Investment Fund Limited

#### Report on the Audit of the Financial Report

#### Opinion

We have audited the accompanying financial report of Authorised Investment Fund Limited (the "company") and its controlled entities (the "group"), which comprises the statement of financial position as at 30 June 2019, the statement of profit or loss and other comprehensive income, the statement of cash flows and the statement of changes in equity for the financial year ended on that date, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration of the company.

In our opinion the financial report of Authorised Investment Fund Limited and controlled entities is in accordance with the *Corporations Act 2001*, including:

- (i) giving a true and fair view of the group's financial position as at 30 June 2019 and of its performance for the financial year ended on that date; and
- (ii) complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

#### Basis for opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's *APES 110 Code of Ethics for Professional Accountants* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of the company, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

## Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key Audit Matter	How our audit addressed the key audit matter
<p><b>Fair Value of Investments</b></p> <p>We focus on the fair value of the investments as investments represents a significant asset of the company and that the fair valuation of these investments is significantly affected by management's judgement</p> <p>The investments are carried at a fair value of \$14,971,633.</p> <p>The Company is a Pooled Development Fund with investments in companies involved in information technology, media, building products, solar technology and pharmaceutical industries. The Company invests in a portfolio of companies, both listed and unlisted. These investments have not yet progressed to a stage where they are able to generate stable and regular cash flows. As a result, the valuation of these investments is significantly affected by management judgement, estimates and assumptions.</p>	<p>We carried out the following work in accordance with the guidance set out in AASB 13 Fair Value Measurement:</p> <p>We reviewed the company's accounting policy on Investments and other financial assets. We reviewed a sample of the investments to ensure that they are measured at fair value through the profit or loss per the policy</p> <p>For listed investments, where there is an active market, agreed market prices used to value investments to prices in the stock exchanges.</p> <p>Where there is no active market, the valuation will be determined using various available valuation models similar to those used for unlisted investments.</p> <p>For unlisted investments, we obtained an understanding of the processes undertaken by management to determine the fair value of the investments. We assessed and challenged the management's valuation methodology, assumptions, the cash flow projections and the discount factor used. We evaluated and discussed with management factors such as current financial performance, future prospect for earnings, profitability and growth from signed contracts and potential projects.</p> <p>We have obtained sufficient appropriate audit evidence with regards the fair value of the investments.</p> <p>We also considered the appropriateness of the related disclosure in Notes 1, 2 and 7 to the financial statements.</p>

## **Responsibilities of the directors for the financial report**

The directors of the company are responsible for the preparation of the financial report that gives a true and fair view and have determined that the basis of preparation described in Note 1 to the financial report is appropriate to meet the requirements of the *Corporations Act 2001* and is appropriate to meet the needs of the members. The directors' responsibility also includes such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error. In the basis of preparation, the directors also state, in accordance with Accounting Standard AASB 101 *Presentation of Financial Statements*, that the financial statements comply with International Financial Reporting Standards.

In preparing the financial report, the directors are responsible for assessing the group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the group or to cease operations, or have no realistic alternative but to do so.

## **Auditor's Responsibilities for the audit of the financial report**

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

A further description of our responsibilities for the audit of the financial report is located at the Auditing and Assurance Standards Board website at: <http://www.auasb.gov.au/Home.aspx>. This description forms part of our auditor's report.

## **Report on the Remuneration Report**

### **Opinion on the Remuneration Report**

We have audited the Remuneration Report included in pages 4 to 6 of the directors' report for the financial year ended 30 June 2019.

In our opinion the Remuneration Report of Authorised Investment Fund Limited for the financial year ended 30 June 2019, complies with section 300A of the *Corporations Act 2001*.

### **Responsibilities**

The directors of the company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.
