

ASX RELEASE

1 November 2019

ASX Code: ESE

UK E-QUITS COMMERCIAL SUPPLY AGREEMENT

Life science company **eSense-Lab Ltd** ("**eSense**" or the "**Company**") (**ASX:ESE**) is pleased to announce an additional order of terpenes under the commercial supply agreement signed with the United Kingdom based E-Quits group, announced by the Company on 23 October 2018.

As per the terms of the commercial agreement with E-Quits and the previous purchase of eSense-Lab products, the Company is pleased to announce that a new order totalling 5 litres of material valued at USD\$12,500 has been ordered by E-Quits, based on the Company's Super Lemon Haze product, for distribution in the United Kingdom. The material will be used over the next 3 months.

The Company expects an increase in shipments of its terpene blends as e-Quits continues to expand its distribution and sales of its product.

E-Quits Group is one of the largest companies operating in the UK e-liquid market, acquiring other e-liquid manufacturers such as Lonjas UK and Proof E-liquids and establishing a retail distribution company called Vaping Warehouse.

The 2-year agreement between eSense and E-Quits covers the supply of terpenes with no limit to the quantity ordered and with a fixed price per litre. The full order schedule is being implemented according to the agreement and the order plan.

E-Quits continues to invest much effort in marketing this product with satisfactory results and positive response from customers. The product is aimed at the general well-being market, alleviation of anxiety, depression, pain relief and most importantly, several specific ailments such as tinnitus and menopause.

Commenting on the above announcement, eSense's CEO Mr. Haim Cohen, stated: *"The continuation of the supply of our products to e-Quits is important as it points to the continued stability in have recurring orders for our terpenes. The recurring orders for our products show the satisfaction and trust our client has in our products".*

"I look forward to informing the market on the continuation of our activities and successes".

About eSense-Lab

eSense-Lab Ltd (ASX:ESE) is a life sciences company specializing in the commercialization of the phytochemical profiling of plants. The Company combines genetics, mRNA, protein expression and phytochemical profiles to generate a comprehensive model of rare or high value plants. eSense-Lab can then use this model to 'reverse engineer' a terpene profile, which is a naturally occurring formulation of different individual terpenes, which together account for many of the plant's health and medical benefits, whilst also exactly replicating the flavor, fragrance and other desired characteristics of the targeted plant, at a more sustainable and cheaper costs.
