## NOVA DIVESTS INTEREST IN HPA PROJECT

The directors of Nova Minerals Limited (**Nova** or **Company**) (ASX:**NVA** FSE: **QM3**) are pleased to advise that the company has divested its interest Halcyon Resources Pty Ltd, which owns the Tambellup Kaolin Project to Accelerate Resources Limited (ASX: **AX8**) for an initial consideration of 1,335,600 ordinary shares of AX8 and subsequent milestone shares.

Further details of the sale are included in the announcement made by Accelerate Resources Limited (ASX: **AX8**) and can be found here: <https://www.asx.com.au/asxpdf/20191118/pdf/44bnwl1zdfxw5n.pdf>

The company remains solely focussed on its strategy to upgrade and expand its gold resource inventory at its district scale Estelle Gold Project and pursue its fast track cash flow strategy from the Thompson Brothers Lithium Project held in majority Nova owned Snow Lake Resources. We will update the market on developments in due course.

## About Nova Minerals

Nova Minerals Limited (ASX:NVA FSE:QM3) is a minerals explorer and developer focused on gold and lithium projects in North America. Nova has a diversified portfolio of projects across the US, Canada, and Australia. Two of the key projects include Nova's Estelle Gold Project in Alaska, which holds some of North America's largest gold deposits, and the company's majority-owned Snow Lakes Resources, a lithium project in Canada.

Nova aims to provide shareholders with diversification through exposure to base and precious metals and to capitalise on the growing demand for lithium-based energy storage.
