West Gate Tunnel Project update

Transurban advises that Transurban WGT Co Pty Ltd has received a document from the CPBJH Joint Venture entitled “West Gate Tunnel Project: Termination of the D&C Subcontract on the basis of a Force Majeure Termination Event”, which relates to issues in respect of the presence, classification and disposal of per and polyfluorinated alkyl substances (PFAS) within the project site and which purports to terminate the D&C Subcontract.

Transurban has advised the CPBJH Joint Venture that Transurban does not consider the D&C subcontract has been validly terminated and, as such, the contract remains valid.

In the document, despite the purported termination of the D&C Subcontract, the CPBJH JV states its intention to continue works on site.
