Non cash interest expense is incurred on the liability created on 1 July 2018 to repurchase trees under the Strategy arrangement, which
was deemed a financing arrangement upon the adoption of AASB 15 Revenue from Contracts with Customers. The Strategy arrangement
is a contractual obligation to repurchase hardwood trees the Group sold in February 2016.

#### **Earnings summary**

The Group's underlying EBITDA decreased by \$8.0M to \$4.2M for the six months ending 31 December 2019 compared to the corresponding half.

The Group's earnings were adversely affected by the weakness in market demand as a result of over-production of pulp in Brazil leading to lower pulp prices and the US-China trade-war in 2019.

The biggest impact on 1H20 sales and earnings was reduced demand in China for high quality wood fibre from Geelong in the first six months of the financial year, approximately half the normal vessels shipped for this period.

Reduced demand for lower quality wood fibre has also meant the overall profit margin on sales was lower in 1H20.

A lower dry fibre content of export shipments in 1H20 of 56.8% compared with the corresponding period of 57.0% also contributed to lower earnings.

The impact of reduced sales volume was partially offset by an increase in export prices on an FOB basis for higher quality eucalypt wood fibre from Geelong than the previous corresponding period.

A favourable average exchange rate in 1H20 of 0.71 cents, two cents more favourable than the previous corresponding period of 0.73 cents, also partially offset the impact of lower volumes on Midway earnings.

# Directors' Report

#### **Dividends**

No interim dividend has been declared in respect of the half year ending 31 December 2019.

#### **Significant Changes in the State of Affairs**

#### Impairment of non financial assets

The Group has been adversely affected by external market forces including excess production and stocks of paper pulp in Brazil and US tariffs on Chinese paper imports that has affected wood fibre input suppliers such as Midway, resulting in a lower first half underlying profit. The tough economic conditions also lead to the impairment of non current assets in the following entities:

#### Plantation Management Partners Pty Ltd (PMP)

Due to the market downturn, the Group has been unable to market budgeted quantities of woodfibre from Plantation Management Partners, on the Tiwi Islands. As a result the value in use discounted cash flow model did not exceed the carrying amount of the CGU and the Group will write off the previously recognised goodwill on acquisition in PMP of \$1.0M and unamortised portion of the customer contract intangible asset for \$5.5M.

#### Impairment of ADDCO (25% equity accounted investee)

ADDCO entered voluntary administration during the period. The Group has taken a writedown on the full amount of its carrying value of its investment in ADDCO of \$1.7M and a further writedown of current receivables from ADDCO of \$0.3M, as no expected recovery is anticipated.

# Directors' Report

#### Significant Events Subsequent to the end of the Half Year

The Directors are not aware of any matter or circumstance which has arisen since 31 December 2019 that has significantly affected or may significantly affect the operations of the Group in subsequent financial years, the results of those operations, or the state of affairs of the Group in future financial years.

#### **Auditor's Independence Declaration**

The lead auditor's independence declaration is set out on page 8 and forms part of the directors' report for the period ended 31 December 2019.

#### Rounding off

The Group is of a kind referred to in ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191 and in accordance with that Instrument, amounts in the consolidated financial statements and directors' report have been rounded off to the nearest thousand dollars, unless otherwise stated.

#### **Non-IFRS** measures

Throughout this report the Group has used certain non-IFRS measures, predominately underlying EBIT and underlying EBITDA. The non-IFRS measures have been deemed useful for recipients in measuring the underlying performance of the Group. The non-IFRS measures have not been audited.

Non-IFRS measure Description

#### 1. Reporting Entity

Midway Limited (the Company) is a company domiciled in Australia. These consolidated half year financial statements as at and for the period ended 31 December 2019 are of Midway Limited and its subsidiaries (the Group). The Group is primarily involved in the production and export of wood fibre to producers of pulp, paper and associated products, forestry logistics and planation management.

The consolidated annual financial statements of the Group as at and for the year ended 30 June 2019 are available at <a href="http://www.midwaylimited.com.au/">http://www.midwaylimited.com.au/</a>.

#### 2. Basis of Preparation

These half year financial statements are prepared in accordance with AASB 134 Interim Financial Reporting and the Corporations Act 2001, and with IAS 34 Interim Financial Reporting.

They do not include all of the information required for a complete set of annual financial statements. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Group's financial position and performance since the last annual consolidated financial statements as at and for the year ended 30 June 2019.

These half year financial statements were authorised for issue by the Company's Board of Directors on 27 February 2020.

#### (a) Accounting policies

Except as noted below, the same accounting policies and methods of computation have been applied by each entity in the consolidated Group and are consistent with those adopted and disclosed in the most recent Annual Report.

#### AASB 16: Leases

AASB 16 provides a new lease accounting model which requires a lessee to recognise a right of use asset representing its right to use the underlying asset and lease liabilities. The depreciation of the right of use asset and interest on the lease liability will be recognised in the consolidated income statement. Upon application the key balance sheet metrics such as gearing and finance ratios, and profit or loss metrics such as earnings before interest, tax, depreciation and amortisation (EBITDA) will be impacted. The consolidated cash flow statement will also be impacted as payments for the principal portion of the lease liability will be presented within financing activities.

Midway Group applied AASB 16 using the modified retrospective approach from 1 July 2019, under which the cumulative effect of initial application is recognised in retained earnings at 1 July 2019. Accordingly, the comparative information presented for previous period is not restated – i.e. it is presented, as previously reported, under IAS 17 and related interpretations.

The Group made the following additional choices, as permitted by IFRS 16, for existing operating leases:

- not to bring leases with 12 months or fewer remaining to run as at 1 July 2019 (including reasonably certain options to extend) on balance sheet. Costs for these items will continue to be expensed directly to the income statement.
- for contracts in place at 1 July 2019, the Group continued to apply its existing definition of leases under the previous standards, AASB 17 'Leases' and IFRIC 4 'Determining Whether an Arrangement Contains a Lease' ('grandfathering'), instead of reassessing whether existing contracts were or contained a lease at the date of application of the new standard.
- for all leases, the lease liability was measured at 1 July 2019 as the present value of any future lease payments discounted using the appropriate incremental borrowing rate. The right of use asset was measured as equal to the lease liability and adjusted for any accruals or prepayments already on the balance sheet. The Group also excluded any initial direct costs (e.g. legal fees) from the measurement of the right of use assets at transition.
- to apply the use of hindsight when reviewing the lease arrangements for determination of the measurement or term of the lease under the retrospective option; and
- in some cases, to apply a single discount rate to a portfolio of leases with reasonably similar characteristics.

 $Midway\ Group\ has\ assessed\ the\ impact\ of\ AASB\ 16\ on\ the\ statement\ of\ financial\ position\ as\ at\ 1\ July\ 2019\ as:$ 

- New operating lease liabilities (included in Borrowings) of \$5.1M;
- New right of use assets (included in Property, plant and equipment) of \$5.1M; and
- Opening adjustment to equity (included in Reserves) \$0.2M.

### 2. Basis of Preparation (continued)

AASB 16: Leases (continued)

When measuring lease liabilities for leases that were classified as operating leases, the Group discounted lease payments using its incremental borrowing rate at 1 July 2019. The weighted average incremental borrowing rate for the Group as at 1 July 2019 was 3.95%.

Midway Group has assessed the estimated pre-tax impact of AASB 16 on the statement of comprehensive income for the half year ended 31 December 2019 as:

- Increase in depreciation expense of \$0.8M;
- Increase in interest expense of \$0.1M; and
- Reduction in other operating expenses of \$0.9M.

The most significant differences between the Group's undiscounted non-cancellable operating lease commitments of \$4.6M at 30 June 2019 and lease liabilities upon transition of \$5.1M are as follows:

|   | \$'000 |
|---|--------|
| Operating lease commitments reported as at 30 June 19 under AASB 117  | 4,556  |
| Include/Add   |        |
| Leases commencing on 1 July 2019 (undiscounted)   | 621    |
| Extension options reasonably certain to be exercised  | 228    |
| Finance Lease liability as at 30 June 2019 - Current  | 3,990  |
| Finance Lease liability as at 30 June 2019 – Non-current  | 6,482  |
| Sub total   | 15,877 |
| Effect of discounting on payments included in the calculation of the lease liability (excluding finance lease balances) | (352)  |
| Lease liability opening balance reported as at 1 July 2019 under AASB 16  | 15,525 |

The Group's activities as a lessor are not material and hence there has not been a material impact as a result of the adoption of AASB 16 on the financial statements.

#### **Use of Estimates and Judgements**

In preparing these half year financial statements, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

The significant judgements made by Management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements as at and for the year ended 30 June 2019.

#### 3. Segment Reporting

#### (a) Description of segments

The Group reports segment information based on the internal reporting used by management for making decisions and assessing performance. The operating segments are reported in a manner consistent with internal reporting provided to the chief operating decision maker. The chief operating decision maker, who is responsible for allocating resources and assessing performance of the operating segments, is the Chief Executive Officer.

The segment reporting structure reflects the manner in which the Group manages each product/service offered.

| Reportable Segments   | Products / Services   |
|-----------------------|---|
| Wood fibre processing | Includes primary processing facilities whereby the Group processes and sells Woodfibre to third parties. SWF is also accounted for at 51% reflecting how management views and makes decisions of its operations |
| Forestry Logistics    | Forestry logistics provides support services to third parties engaged in growing woodfibre including harvest and haul   |
| Plantation Management | Plantation management is the provision of silviculture services including on group owned trees. The segment also holds any group owned plantation land and trees  |
| Ancillary             | Includes income earned from the marketing of third party woodfibre and other aggregated costs which are not individually significant  |

The Group evaluates the performance of its operating segments based on net sales (net of insurance and freight costs). Net sales for Geographic segments are generally based on the location of customers earnings before interest, tax, depreciation and amortisation (EBITDA) for each segment includes net sales to third parties, related cost of sales and operating expenses directly attributable to the segment. EBITDA for each segment excludes other income and expense and certain expenses managed outside the operating segments.

Key adjustment items relate to the gross up of revenue and operating and other expenses to reflect cost, insurance and freight (CIF) sales and principal sales. Management accounts are prepared on a segment basis with 51% share of SWF joint venture included in Woodfibre processing. For statutory accounts SWF is equity accounted with revenue and expenses of SWF eliminated.

- (1) South West Fibre Pty Ltd paid and declared dividends of \$2.0M (2018: \$2.0M) (fully franked) in respect of the half year period to the Company.
- (2) As a result of adverse external market conditions, ADDCO entered voluntary administration during the period. The Group has taken an impairment write-down on the full amount of its carrying value of its investment in ADDCO of \$1.7M.

#### 6. Seasonality of Operations

#### General

The Group traditionally has higher sales in the second half of the financial year than the first half. Winter conditions in South West Victoria constrain the ability to source woodfibre in some locations that contain difficult terrain having a flow on effect on the amount of processed woodfibre available for shipment.

The Group's earnings for the period ending 31 December 2019 were adversely affected by the slump in market demand as a result of over-production of pulp in Brazil and the US-China trade-war in 2019. The biggest impact on sales and earnings was reduced demand in China for high quality wood fibre – with only five shipments from Geelong in the first six months of the financial year, half the normal shipping rate for this period.

As sales are made in bulk via shipping vessels with volumes of approximately 35,000 to 60,000 green metric tonnes per shipment, any movement in anticipated timing of shipments from one half to another can alter the half year financial performance.

#### 7. Dividends

The following dividends were declared and paid during the period ending 31 December:

|                                  | 2019            | 2018            |

The Group engaged an independent valuer to update the treecrop valuation prepared in the prior year for revised assumptions in accordance with AASB 13 Fair Value.

As noted in section 2.2 (d) of the Group's most recent Consolidated Financial Statements (as at 30 June 2019), a portion of the Group's treecrop was legally owned by Strategy Timber Pty Ltd, an investment trust managed by a third-party Timber Management Investment Organisation.

During the period, Strategy Timber Pty Ltd, sold its investment in the treecrop to another third party, Hancock Natural Resource Group (HNRG), who acquired the Strategy hardwood plantation trees in Victoria on behalf of its investment clients. The existing agreements in place concerning Midway's commitment to repurchase the hardwood treecrop has been novated as a part of the sales process and as such does not have any ramifications for the group.

#### 9. Net Debt

Excludes any liability relating to the Strategy arrangement as this is held on the balance sheet as a result of the adoption of AASB 15 and is not taken into account in the Group's debt covenant obligations.

#### i. Assets pledged as security

The Midway facilities are secured by the following:

A fixed and floating charge granted by Midway Limited, Midway Plantations Pty Ltd and Plantation Management Partners Pty Ltd.

A property mortgage over:

- the property situated at 150-190 Corio Quay Road, North Shore VIC, granted by Midway Limited
- the property situated at 10 The Esplanade, North Shore, VIC, granted by Midway Properties Pty Ltd; and the property situated at 1A The Esplanade, North Shore VIC, granted by Midway Limited
- A number of plantation land titles in South West Victoria

#### ii. Facilities

During the period, the Group increased its working capital facility in order to fund short term working capital requirements.

| Туре  | Utilised | Total  | Maturity  |
|---|----------|--------|-----------|
|   | \$'000   | \$'000 |           |

| Acquisition debt facility - tranche 2         | 3,225    | 5,850  | 31-Jul-21 |

The Group has the ability to enter into purchase arrangements under the asset finance facility until it expires. Each outstanding finance arrangement will then be repaid within a five year period.

(1) Working capital facility increased through the period

#### 10. Impairment of non financial assets

Impairment tests for all assets are performed when there is an indicator of impairment, although goodwill is tested at least annually. If the carrying amount of the asset exceeds its recoverable amount, the asset is impaired, and an impairment loss is charged to the income statement.

The Group has been adversely affected by external market forces including excess production and stocks of paper pulp in Brazil and US tariffs on Chinese paper imports that have affected wood fibre input suppliers such as Midway. This is an impairment indicator and as such the recoverable amount of the assets relating to certain cash generating units (CGUs) within the Group have been assessed using a value-in-use discounted cash flow model.

The Groups' CGUs consist of individual business units at the lowest level at which cash inflows are made including:

- Midway Geelong
- Queensland Commodity Exports
- Midway Logistics
- Midway Tasmania
- Plantation Management Partners
- South West Fibre

For H1 FY2020, with the exception of Plantation Management Partners Pty Ltd, the estimated recoverable amount for all these CGUs exceeded the carrying amount and as such no impairment loss has been recognised.

#### Plantation Management Partners Pty Ltd (PMP)

Due to the market downturn, the Group has been unable to market budgeted quantities of woodfibre from Plantation Management Partners, on the Tiwi Islands. As a result, the value in use discounted cash flow model did not exceed the carrying amount of the CGU and the Group has written off the previously recognised goodwill on acquisition of PMP of \$1.0M and unamortised portion of the customer contract intangible asset for \$5.5M.

#### Key assumptions and estimates

Key assumptions and estimates used in the impairment analysis consist of:

#### Projected cash flows

The recoverable amount of a CGU is based on value in use calculations that are based on detailed management prepared forecasts for five years through to FY 2024, unless the timing of tree crop rotation profiles justifies a longer period.

#### Long-term average growth rate

A terminal growth rate of between 2.2% and 2.4% has been used and only applied to CGUs whereby it is likely they will exceed into perpetuity and there is a reasonable chance of sourcing woodfibre in each catchment whereby a CGU resides.

#### Discount rate

The Group used a post-tax discount rate of between 8.6% and 11.4% for all CGUs.

#### Sensitivity analysis

The Group believes any reasonable possible change in the key assumptions would not cause the carrying value of the CGUs to exceed their recoverable amount.

#### Impairment of ADDCO (25% equity accounted investee)

As a result of the adverse external market conditions, ADDCO entered voluntary administration during the period. The Group has taken a writedown on the full amount of its carrying value of its investment in ADDCO of \$1.7M and a further writedown of current receivables from ADDCO of \$0.3M, as no expected recovery is anticipated.

#### 14. Subsequent Events

There have been no matters or circumstances, which have arisen since 31 December 2019 that has significantly affected or may significantly affect:

- (a) The operations, in financial periods subsequent to 31 December 2019, of the Group, or
- (b) The results of those operations, or
- (c) The state of affairs, in financial periods subsequent to 31 December 2019 of the Group.

# **Directors Declaration**

The Directors declare that the consolidated interim financial statements and notes set out on pages 13 to 23 in accordance with the Corporations Act 2001:

- a) Comply with Australian Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001; and
- b) Give a true and fair view of the financial position of the Group as at 31 December 2019 and of its performance for the half year ended on that date.

In the Directors' opinion there are reasonable grounds to believe that the Group will be able to pay its debts as and when they become due and payable.

This declaration is made in accordance with a resolution of the Board of Directors.

# Independent Auditor's Review Report

### To the shareholders of Midway Limited

#### Report on the Half-year Financial Report

#### Conclusion

We have reviewed the accompanying *Half-year Financial Report* of Midway Limited (the Company).

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the Half-year Financial Report of Midway Limited is not in accordance with the *Corporations Act 2001*, including:

- giving a true and fair view of the *Group's* financial position as at 31 December 2019 and of its performance for the Half-year ended on that date; and
- complying with Australian Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001.

The *Half-year Financial Report* comprises:

- Consolidated statement of financial position as at 31 December 2019
- Consolidated statement of comprehensive income, Consolidated statement of changes in equity and Consolidated statement of cash flows for the Halfyear ended on that date
- Notes 1 to 14 comprising a summary of significant accounting policies and other explanatory information
- The Directors' Declaration.

The *Group* comprises the Company and the entities it controlled at the Half year's end or from time to time during the Half-year Period.

The *Half-Year Period* is the 6 months ended 31 December 2019

### Responsibilities of the Directors for the Half-year Financial Report

The Directors of the Company are responsible for:

- the preparation of the Half-year Financial Report that gives a true and fair view in accordance with Australian Accounting Standards and the Corporations Act 2001
- for such internal control as the Directors determine is necessary to enable the preparation of the Half-year Financial Report that is free from material misstatement, whether due to fraud or error.

#### Auditor's responsibility for the review of the Half-year Financial Report

Our responsibility is to express a conclusion on the Half-year Financial Report based on our review. We conducted our review in accordance with *Auditing Standard on Review Engagements ASRE 2410 Review of a Financial Report Performed by the Independent Auditor of the Entity,* in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the Half-year Financial Report is not in accordance with the *Corporations Act 2001* including: giving a true and fair view of the Group's financial position as at 31 December 2019 and its performance for the half-year ended on that date; and complying with *Australian Accounting Standard AASB 134 Interim Financial Reporting* and the *Corporations Regulations 2001*. As auditor of Midway Limited, *ASRE 2410* requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a Half-year Financial Report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with *Australian Auditing Standards* and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*.
