## ASX RELEASE: AVA Appendix 4C

- **Positive operating cash flows of \$1.1m for the quarter**
- **Consolidated net cash position of \$3.7m**

Ava Risk Group Limited (ASX: AVA), (“Ava Group” or “the Company”), a market leader of risk management services and technologies, today releases its cash flow report (Appendix 4C) and provides an update on the key areas of activity for the quarter ended 31 March 2020.

### Principal Activities

Ava Group is a security services and technologies company, that develops and commercialises a range of high security perimeter and access control products to protect military, government, industrial and commercial critical assets and infrastructure. These products are sold through its Future Fibre Technologies (FFT) and BQT Solutions (BQT) brands. In addition, the Company operates Ava Global, its international secure logistics division, delivering clients with reliable secure delivery for bank notes, precious metals, and other valuables.

### Key areas of activity during the third quarter of the 2020 financial year related to:

- Across the Ava Group, and outside of usual business activity, preparing for and dealing with the impacts of COVID-19 took significant time and effort during Q3. The business took sweeping action to educate our employees and implement appropriate health and hygiene measures, including reducing the need for people to come into our offices across the globe, based on local conditions. The health and safety of our staff and customers remains a paramount priority for the business.
- The Services Division continued to provide a full range of services to all of its customers, despite the reduction in air freight capacity around the world due to COVID-19. These restrictions allowed Ava Global the opportunity to innovate and offer a range of bespoke cargo and charter aircraft solutions to ensure that it could continue to deliver currency, precious metals and other valuable goods for its customers. Client activity has significantly increased during Q3, with the addition of both new clients, and a wider breadth of services offered as a result. This has been ably facilitated thanks to the depth of skills and experience within the Services Division.

- For the Technology Division, both FFT and BQT implemented additional COVID-19 control measures to enable us to continue production at our factories, ship and deliver orders, and to provide service support to keep products running smoothly. Early March saw FFT's new Aftermarket Sales Manager join the business, with his immediate focus on the rollout of FFT's online remote technical support platform. This was particularly good timing for us, given all of the various travel restrictions, quarantine and isolation measures in place around the world, and meant that FFT was well positioned during the period to be able to capitalise on delivering online remote technical support capabilities to its customers. FFT also continued its marketing efforts of its Aura IQ conveyor health monitoring solution, with several "Proof of Value" Trials commencing around the world during the quarter. During the quarter BQT also completed the signing of a new Master Distribution Agreement for the supply of its locking products to a leading international locking products wholesaler in Europe.

#### **Commentary on Appendix 4C Cash Flow Report**

Net operating cashflows in the quarter were positive \$1.1m an improvement of \$1.3m on the previous quarter. This was due to increased cash collections from customers compared the prior quarter, up \$0.4m, and lower operating costs, down \$0.8m compared to the prior quarter. The Group also continued development of the Aura Ai and Aura IQ platforms, increasing its R&D spending and intellectual property spending during the quarter, compared to the previous quarter.

Noticeably cash receipts from customers in Q3 did not yet include any receipts from the Indian MoD project. The first payment from this project was received as expected during April, being an amount of USD\$0.9m (A\$1.5m), in line with the 120 days project payment terms.

At 31 March 2019 the Company had \$3.7m cash at bank and no debt.

An update on guidance for Ava's FY2020 forecast will be issued separately to this 4C.

ENDS.

**Approved for release by the Board of Directors.**

## Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standard applies to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
