## ASX Announcement

### Penthrox approved in Hungary

Medical Developments International Limited (ASX: MVP) is delighted to announce that Penthrox has been approved for sale in Hungary. The Marketing Authorisation issued by the National Institute of Pharmacy and Nutrition (OGYÉI), is for Penthrox® to be used for emergency relief of moderate to severe pain in conscious adult patients with trauma and associated pain.

The approval in Hungary is part of a set of four countries. Bosnia & Herzegovina were approved earlier this month, and approvals for Greece and Malta are expected soon.

Whilst both the European Decentralised Procedure and the National phase is complete, Penthrox is yet to achieve government reimbursement in Hungary. However sales can be made to the private market immediately.

*Authorised for release by MVP Company Secretary, Mark Edwards.*

### **About Pentrox**

Penthrox is a fast onset, non-opioid analgesic indicated for pain relief by self-administration in patients with trauma and those requiring analgesia for surgical procedures. Penthrox has been used safely and effectively for more than 40 years in Australia with excess of 7.0 million units sold. There is growing interest in Penthrox being used in patients undergoing investigatory procedures, as well as operational procedures such as colonoscopy.

### **About Medical Developments International Ltd**

MVP is an Australian company delivering emergency medical solutions dedicated to improving patient outcomes. MVP is a leader in emergency pain relief and respiratory products. The Company manufactures Penthrox®, a fast-acting trauma & emergency pain relief product. It is used in Australian Hospitals including Emergency Departments, Australian Ambulance Services, the Australian Defence Forces, Sports Medicine and for analgesia during short surgical procedures such as Dental and Cosmetic surgery as well as in other medical applications. MVP is expanding internationally and manufactures a range of world-leading Asthma respiratory devices.
