

ASX / MEDIA ANNOUNCEMENT

16th June 2020

Service Agreement with the Pharmacy Guild of Australia for Asthma Management Education of Pharmacists

Respiri Limited (ASX:RSH) (“Respiri” or the “Company”), an eHealth SaaS Company supporting respiratory health management, today announces the signing of a definitive service agreement with The Pharmacy Guild of Australia, the national body representing over 5,700 community pharmacies across the country

The two year agreement with Guild Learning and Development (GuildEd), the learning destination for all pharmacists, pharmacy assistants and interns Australia wide will see the joint development of a Guild accredited Continuing Professional Development (CPD) online training course for pharmacists on optimising asthma patient management, in particular children, including the role of devices in detecting wheeze. This education program is expected to enhance and support the capability of pharmacists to better help patients diagnosed with asthma optimise care through understanding and complying with their asthma management plans also supported by the wheezo[®] eHealth SaaS App which also effectively monitors asthma wheeze.

Mr Marjan Mikel, Chief Executive Officer of Respiri Limited said “With over 65,000 pharmacists practicing in Australia, Respiri understands their importance in helping patients with asthma better manage their condition ensuring a better health outcome and quality of life and the critical need for Respiri to build relationships with these key healthcare professionals to help them better understand how wheezo[®] will help drive these patient outcomes. By educating pharmacists, who are an important intermediary between an asthmatic patient and their doctor and who already sell a range of asthmatic devices within the pharmacy setting, we see them as a critical determinant in building sales momentum and significant growth within this important channel.”

This ASX announcement dated 16 June 2020 has been authorised for release by the Board of Directors of Respiri Limited.

About Respi Limited

Respi is an e-Health SaaS company supporting respiratory health management. Its world-first technology detects wheeze, a typical symptom of asthma, COPD and respiratory disease to provide an objective measure of airway limitation. The only platform of its kind, the flagship wheezo® product employs machine learning to provide personalised feedback and education based on the user's personal health data correlated with environmental factors, and enables the sharing of that data, anytime, anywhere with caregivers, physicians and other health care professionals.

Respi's mission is to help improve quality of life for hundreds of millions of children and adults around the world and dramatically reduce hospital admissions and the economic burden of asthma. Respi Limited's operations are based in Melbourne, Australia.

About The Pharmacy Guild of Australia

The Pharmacy Guild of Australia is the national peak body representing community pharmacy. It seeks to serve the interests of its members and to support community pharmacy in its role delivering quality health outcomes for all Australians. The Guild is committed to supporting and maintaining the community pharmacy model as the most appropriate and efficient system of delivering medicines, medication management and related services to the Australian public. Over 5700 community pharmacies across Australia dispense over 300 million prescriptions annually.

Forward Looking Statements

Certain statements made in this announcement are forward-looking statements. These forward looking statements are not historical facts but rather are based on Respi current expectations, estimates and projections about the industry in which Respi operates, and its beliefs and assumptions. Words such as "anticipates," "expects," "intends," "plans," "believes," "seeks," "estimates," "guidance" and similar expressions are intended to identify forward looking statements and should be considered an at-risk statement. Such statements are subject to certain risks and uncertainties, particularly those risks or uncertainties inherent in the process of developing technology and in the endeavour of building a business around such products and services. These statements are not guarantees of future performance and are subject to known and unknown risks, uncertainties and other factors, some of which are beyond the control of Respi, are difficult to predict and could cause actual results to differ materially from those expressed or forecasted in the forward looking statements. Respi cautions shareholders and prospective shareholders not to place undue reliance on these forward looking statements, which reflect the view of Respi only as of the date of this release. The forward looking statements made in this announcement relate only to events as of the date on which the statements are made. Respi will not undertake any obligation to release publicly any revisions or updates to these forward looking statements to reflect events, circumstances or unanticipated events occurring after the date of this announcement except as required by law or by any appropriate regulatory authority.
