

4 August 2020

ASX Announcement COVID-19 Update

On the 3rd of August 2020, the Victorian Government announced business restrictions under its Stage 4 'Stay at Home' Restrictions. The default is that workplaces in metropolitan Melbourne are closed unless the workplace is part of a permitted industry. The business of RFT falls under the categories of permitted industries allowed to stay open with a COVID Safe Plan.

These categories include -

- Telecommunications infrastructure
- Goods and material necessary for or related to supporting defence or security industries
- Computer and electronic equipment manufacturing

We will, therefore, continue to operate according to our compliant COVID Safe Plan and will comply with Federal and State Government requirements as they are announced.
