INDEPENDENT AUDITORS' REVIEW REPORT

Board of Directors, Audit Committee and Shareholders Osprey Medical, Inc. and Subsidiary Minnetonka, Minnesota and Level 13, 41 Exhibition Street Melbourne, Victoria 3000, Australia

ARBN: 152 854 923

Report on the Consolidated Financial Statements

We have reviewed the accompanying consolidated balance sheets of Osprey Medical, Inc. and Subsidiary as of June 30, 2020 and 2019, and the related consolidated statements of operations, shareholders' equity and cash flows for the six-month periods ended June 30, 2020 and 2019.

Management's Responsibility

The Company's management is responsible for the preparation and fair presentation of the interim financial information in accordance with accounting principles generally accepted in the United States of America; this responsibility includes the design, implementation, and maintenance of internal control sufficient to provide a reasonable basis for the preparation and fair presentation of interim financial information in accordance with accounting principles generally accepted in the United States of America.

Auditors' Responsibility

Our responsibility is to conduct our reviews in accordance with auditing standards generally accepted in the United States of America applicable to reviews of interim financial information. A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with auditing standards generally accepted in the United States of America, the objective of which is the expression of an opinion regarding the financial information. Accordingly, we do not express such an opinion.

Conclusion

Based on our reviews, we are not aware of any material modifications that should be made to the accompanying interim consolidated financial statements in order for them to be in conformity with accounting principles generally accepted in the United States of America.

Emphasis of Matter - Going Concern

ker Tilly US, LLP

The accompanying financial statements have been prepared assuming the company will continue as a going concern. As discussed in Note 2 to the consolidated financial statements, the company's net loss, negative cash flows and need for additional working capital raise substantial doubt about its ability to continue as a going concern. Management's plans with regard to these matters are also described in Note 2 to the consolidated financial statements. The consolidated financial statements do not include any adjustments that might result from this uncertainty. Our opinion is not modified with respect to that matter.

Minneapolis, Minnesota August 24, 2020

Baker Tilly US, LLP, trading as Baker Tilly, is a member of the global network of Baker Tilly International Ltd., the members of which are separate and independent legal entities.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
As of and for the six-month periods ended June 30, 2020 and 2019

NOTE 1 - Summary of Significant Accounting Policies

Nature of Operations

Osprey Medical, Inc. ("Osprey", "Osprey Medical" or the "Company") is a US based, commercial stage company focused on protecting patients from the harmful effects of X-ray dye (contrast) used during commonly performed angiographic imaging procedures. Osprey's mission is to improve outcomes in patients with Chronic Kidney Disease (CKD) by reducing Contrast Induced Acute Kidney Injury (AKI), and lowering hospital costs. The incidence of AKI also has a negative economic impact on the health care system and providers caring for these patients. Osprey Medical is committed to making angiography safer for patients suffering from CKD, improving clinical outcomes, and reducing economic impact.

Osprey Medical's core technologies originated from research conducted at Melbourne's Baker IDI Heart and Diabetes Institute. Its proprietary contrast reduction and monitoring technologies are designed to minimize, and track contrast volumes delivered to patients. The Company's DyeVert™ System reduces contrast delivered to the patient while maintaining image quality in a simple self-adjusting, easy-to-use design. DyeVert's monitoring capabilities allows for real-time contrast monitoring throughout the procedure and the ability to establish maximum contrast thresholds customized for each patient. DyeVert's monitoring system displays total contrast delivered to the patient and the amount diverted away from the patient during the procedure.

The Company obtained European Regulatory approval (CE Mark), TGA approval, and United States of America Food and Drug Administration ("FDA") clearance for the AVERT™, AVERT Plus, the DyeVert NG, DyeVert Plus, and DyeVert Plus EZ Systems. The Company received FDA clearance for medical claims of contrast savings, image quality and reflux reduction for its various products.

The Company commenced its commercial strategy in 2015 and has since built a sales organization focused on commercializing its DyeVert Systems to acute care hospitals throughout the United States.

On October 30, 2007, the Company formed a wholly-owned Australian subsidiary with the name Osprey Medical Pty. Ltd. (OM Pty) for the purpose of conducting research on future products. The subsidiary began operations in early 2008.

Principles of Presentation

The consolidated financial statements include the accounts of the Company's wholly-owned Australian subsidiary, OM Pty. All intercompany accounts and transactions have been eliminated in consolidation.

The US dollar is the functional currency of OM Pty, and as a result, all currency gains and losses are reflected in operations. Currency gains and losses include realized amounts on transactions, and unrealized amounts related to translating accounts from local currency to the functional currency, with translation accomplished using the current rate method.

In its consolidated statements of operations, the Company segregates its operating expenses into four categories that provide useful information to both management and Company shareholders.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Actual results could differ from those estimates.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
As of and for the six-month periods ended June 30, 2020 and 2019

NOTE 1 - Summary of Significant Accounting Policies (cont.)

Cash and Cash Equivalents

Cash and cash equivalents include short-term investments with maturities of three months or less from their date of purchase. The Company maintains cash balances that exceed federally insured limits; however, it has not incurred losses on such amounts to date.

Accounts Receivable

The Company grants credit to customers in the normal course of business and generally does not require collateral or any other security to support amounts due. Customer accounts with balances outstanding longer than the contractual terms are considered past due. The Company records accounts receivable at the original invoice amount less an estimate made for doubtful receivables based on periodic reviews of all outstanding amounts. The Company determines the need for an allowance for doubtful accounts by considering a number of factors, including length of time accounts receivables are past due, customer financial condition and ability to pay the obligation, historical and expected credit loss experience, and the condition of the general economy and the industry as a whole. It is the Company's policy to write-off accounts receivable when deemed uncollectible. There was an allowance for doubtful accounts of \$140,014 and \$0, respectively as of June 30, 2020 and 2019, respectively.

Concentration of Credit and other risks

One customer accounted for 11 percent and 12 percent of the total revenue for the six-month periods ended June 30, 2020 and 2019, respectively. The Company does not require collateral to extend credit to an account. Three customers accounted for 66 percent of the total accounts receivable as of June 30, 2020 and two customers accounted for 31 percent of the total accounts receivable as of June 30, 2019.

Inventories

Inventories are stated at lower of cost (using the first-in, first-out method) or net realizable value, and are as follows as of June 30:

	 2020		2019
Raw materials	\$ 537,497	\$	550,280
Finished goods	 418,911		386,247
Totals	\$ 956,408	\$	936,527

The Company has invested in its manufacturing operations to support future sales. The Company is not currently operating at full capacity. Charges related to excess capacity are included as current period charges to cost of sales and are not capitalized into inventory.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
As of and for the six-month periods ended June 30, 2020 and 2019

NOTE 1 - Summary of Significant Accounting Policies (cont.)

Property and Equipment

Property and equipment are recorded at cost, and depreciation and amortization are provided on the straight-line method over the estimated useful lives of the assets as follows:

	Years
Office and computer equipment	3
Furniture and fixtures	7
Laboratory equipment	5
Leasehold improvements	5

Maintenance and repairs are charged to expense as incurred. Depreciation expense on property and equipment was \$148,447 and \$133,920 for the six-month periods ended June 30, 2020 and 2019, respectively.

Intangible Assets

Intellectual property acquired for consideration is recorded either as research and development expense or as intangible assets, as appropriate to the use of the property. Intellectual property that has multiple future uses is capitalized when acquired, and single use property is expensed as research and development. The Company's recorded intangible assets are comprised entirely of patent applications acquired from V-Kardia Pty. (VK Pty) for which there were multiple future uses. At acquisition of these assets there was a difference between the value of the asset acquired and its tax basis, and the Company increased the assigned value of the asset acquired by the amount of the related deferred tax liability. The Company amortizes intangible assets on a straight-line basis over their expected economic lives, which is equivalent to the time from acquisition through expiration of the patents expected to be issued from the acquired patent applications. The intangible assets acquired in June 2007 are expected to have a life of approximately 18 years from the date of acquisition.

Revenue Recognition

Revenue from all customers is recognized when a performance obligation is satisfied by transferring control of a distinct good or service to a customer. A performance obligation is a promise in a contract to transfer a distinct good or service to the customer and is the unit of account. A contract's transaction price is allocated to each distinct performance obligation in proportion to the standalone selling price for each and recognized as revenue when, or as, the performance obligation is satisfied. Each unit of product delivered under a customer order represents a distinct and separate performance obligation as the customer can benefit from each unit on its own or with other resources that are readily available to the customer and each unit of product is separately identifiable from other products in the arrangement.

Individual promised goods and services in a contract are considered a performance obligation and accounted for separately if the good or service is distinct. A good or service is considered distinct if the customer can benefit from the good or service on its own or with other resources that are readily available to the customer and the good or service is separately identifiable from other promises in the arrangement. Costs related to products delivered are recognized in the period incurred, unless criteria for capitalization of costs are met. Cost of goods sold consist primarily of direct labor, manufacturing overhead, materials and components.

The Company excludes from revenue taxes collected from a customer that are assessed by a governmental authority and imposed on and concurrent with a specific revenue-producing transaction. The transaction price for the products is the invoiced amount.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
As of and for the six-month periods ended June 30, 2020 and 2019

NOTE 1 - Summary of Significant Accounting Policies (cont.)

Generally, revenue is recognized upon the transfer of control of the products which is based on shipment terms; however, in certain cases the amount of shipment is adjusted for expected future returns and related consideration received. The Company includes shipping and handling fees in revenue. Shipping and handling costs associated with outbound freight after control over a product has transferred to a customer are accounted for as a fulfillment cost and are included in cost of goods sold.

Impairment of Long-Lived Assets

The Company reviews long-lived assets, including property and equipment and intangible assets, for impairment whenever events or changes in business circumstances indicate that the carrying amount of an asset may not be fully recoverable. An impairment loss would be recognized when the estimated future cash flow from the use of the asset are less than the carrying amount of that asset. To date, there have been no such losses.

Lease Expense

In February 2016, the FASB issued ASU 2016-02 "Leases" (Topic 842). Topic 842 supersedes the lease accounting guidance previously set forth in the Accounting Standards Codification (ASC) Topic 840 "Leases," and requires lessees to recognize a Right of use operating lease liability and a Right of use operating lease asset for all leases that extend beyond one year. The Company adopted Topic 842 with a date of initial application of January 1, 2019, which resulted in the recording of an initial Right of use operating lease liability and a Right of use operating lease asset of \$610,000 and \$463,000, respectively.

The Company did not apply Topic 842 retrospectively using the transition option in ASU 2018-11, "Targeted Improvements" to ASC 842, to not restate comparative periods in transition and instead to use the effective date of ASC 842, "Leases", as the date of initial application of transition. In addition, we elected the package of practical expedients permitted under the transition guidance within the new standard which allowed us to carry forward the historical lease classification.

Short-term lease recognition exemption: The Company adopted the short-term lease recognition exemption as an accounting policy. Renewal and purchase options for a lease will be reassessed upon the occurrence of certain discrete reassessment events: (1) the lease term is extended more than 12 months beyond the end of the previously determined lease term or (2) the lessee now concludes that the lessee's exercise of a purchase option is reasonably certain. When a lease no longer qualifies for the short-term lease exemption, the Company will apply ASC 842 guidance on initial recognition and measurement; the commencement date of the lease for this purpose is the date of the change in circumstances.

Combining lease and non-lease components into a single component: The Company elected to adopt this practical expedient for all asset classes. As a result of this election, the consideration included in the lease payments for these asset classes will be greater, resulting in a larger operating lease liability and a right of use operating asset.

Loan Payable

On April 23, 2020, Company entered into a loan pursuant to the Paycheck Protection Program under the Coronavirus Aid, Relief, and Economic Security Act (the "CARES Act"), as administered by the U.S. Small Business Administration (the "SBA"). The loan, in the principal amount of \$1,325,122 (the "PPP Loan"), was disbursed by Silicon Valley Bank ("Lender") on April 23, 2020, pursuant to a Paycheck Protection Program Promissory Note and Agreement (the "Note and Agreement").

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
As of and for the six-month periods ended June 30, 2020 and 2019

NOTE 1 - Summary of Significant Accounting Policies (cont.)

The PPP Loan matures on the two-year anniversary of the funding date and bears interest at a fixed rate of 1.00% per annum. Monthly principal and interest payments, less the amount of any potential forgiveness (discussed below), will commence after the six-month anniversary of the funding date. The Company did not provide any collateral or guarantees for the PPP Loan, nor did the Company pay any facility charge to obtain the PPP Loan. The Note and Agreement provides for customary events of default, including those relating to failure to make payment, bankruptcy, breaches of representations and material adverse effects. The Company may prepay the principal of the PPP Loan at any time without incurring any prepayment charges.

All or a portion of the PPP Loan may be forgiven by the SBA and the Lender upon application by the Company. Loan forgiveness is based on payroll costs, covered rent payments, and covered utilities.

The Company will account for the PPP Loan as debt in accordance with Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 470, Debt and accrue interest in accordance with the interest method under FASB ASC 835-30. If the loan is forgiven in part or in whole, and legal release is received, the Company would reduce the liability by the amount forgiven and record a gain on extinguishment in the statement of operations. Based on the uncertainty surrounding the amount and timing of potential forgiveness, governmental determined changes in the Paycheck Protection Program from the original provisions and two year maturity of the unforgivable portion, the Company has classified all amounts outstanding as current liabilities on the consolidated balance sheets.

Research and Development Costs

Research and development costs are charged to expense as incurred. The Company has acquired licenses to intellectual property that do not have multiple uses and records such acquisition costs as research and development as incurred. Consideration for such intellectual property includes current and future payments of cash, issuance of common stock and warrants to acquire common stock.

Income Taxes

The Company utilizes the liability method of accounting for income taxes. Under the liability method, deferred tax assets and liabilities are determined based on the differences between financial reporting and tax bases of the assets and liabilities and are measured using the enacted tax rates and laws that will be in effect when the differences are expected to reverse. The Company records a valuation allowance to reduce net deferred tax assets when it believes it is more likely than not that all or part of its deferred tax assets will not be realized.

Stock-Based Compensation

The Company accounts for stock-based payment transactions when it receives employee or supplier goods and services in exchange for (a) equity instruments of the enterprise or (b) liabilities that are based on the fair value of the enterprise's equity instruments or that may be settled by the issuance of such equity instruments using a fair-value-based method. The Company uses the Black-Scholes-Merton (BSM) option pricing model to determine the fair value of stock-based awards. The fair value of stock-based payment is recognized over the requisite service period.

The Company evaluates change in options for modification treatment in order to determine whether to recognize the grant date fair value of the newly issued options or the incremental grant date fair value as the stock-based compensation expense.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
As of and for the six-month periods ended June 30, 2020 and 2019

NOTE 1 - Summary of Significant Accounting Policies (cont.)

Issuance of Stock

The Company issues new shares of stock upon the exercise of stock options, warrants and converted instruments.

Recent Accounting Pronouncements

ASU No. 2016-13—Financial Instruments—Credit Losses (Topic 326); Measurement of Credit Losses on Financial Instruments and Other ASUs Issued Amending Topic 326. During June 2016, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2016-13, "Measurement of Credit Losses on Financial Instruments." ASU No. 2016-13 requires financial assets measured at amortized cost to be presented at the net amount expected to be collected, through an allowance for credit losses that is deducted from the amortized cost basis. The measurement of expected credit losses is based on relevant information about past events, including historical experience, current conditions, and reasonable and supportable forecasts that affect the collectability of the reported amount. During November 2018, April 2019, May 2019, and November 2019, the FASB also issued ASU No. 2018-19, "Codification Improvements to Topic 326, Financial Instruments - Credit Losses", ASU No. 2019-04, "Codification Improvements to Topic 326, Financial Instruments - Credit Losses"; ASU No. 2019-05 "Targeted Transition Relief"; and ASU No. 2019-11, "Codification Improvements to Topic 326, Financial Instruments - Credit Losses." ASU No. 2018-19 clarifies the effective date for nonpublic entities and that receivables arising from operating leases are not within the scope of Subtopic 326-20. ASUs Nos. 2019-04 and 2019-05 amend the transition guidance provided in ASU No. 2016-13, and ASU No. 2019-11 amends ASU No. 2016-13 to clarify, correct errors in, or improve the guidance. (For public business entities that are SEC filers, excluding SRCs:) ASU No. 2016-13 is effective for annual periods and interim periods within those annual periods beginning after December 15, 2019. Early adoption is permitted for annual and interim periods beginning after December 15, 2018. (For all other entities, including other public business entities and SRCs:) ASU No. 2016-13 (as amended) is effective for annual periods and interim periods within those annual periods beginning after December 15, 2022. Early adoption is permitted for annual and interim periods beginning after December 15, 2018. The company does not believe (or: believes) that the adoption of ASU No. 2016-13 (as amended) will have a material effect on its results of operations, financial position or (or: and) cash flows. (Or:) The company is currently assessing the effect that ASU No. 2016-13 (as amended) will have on its results of operations, financial position, and cash flows. Improvements to Topic 326, Financial Instruments - Credit Losses." ASU No. 2018-19 clarifies the effective date for nonpublic entities and that receivables arising from operating leases are not within the scope of Subtopic 326-20, ASUs Nos. 2019-04 and 2019-05 amend the transition guidance provided in ASU No. 2016-13, and ASU No. 2019-11 amends ASU No. 2016-13 to clarify, correct errors in, or improve the guidance. (For public business entities that are SEC filers, excluding SRCs:) ASU No. 2016-13 is effective for annual periods and interim periods within those annual periods beginning after December 15, 2019. Early adoption is permitted for annual and interim periods beginning after December 15, 2018. (For all other entities, including other public business entities and SRCs:) ASU No. 2016-13 (as amended) is effective for annual periods and interim periods within those annual periods beginning after December 15, 2022. Early adoption is permitted for annual and interim periods beginning after December 15, 2018. The company does not believe (or: believes) that the adoption of ASU No. 2016-13 (as amended) will have a material effect on its results of operations, financial position or (or: and) cash flows. (Or:) The company is currently assessing the effect that ASU No. 2016-13 (as amended) will have on its results of operations, financial position and cash flows.

Subsequent Events

For the six-month period ended June 30, 2020, the Company has evaluated, for potential recognition and disclosure, events that occurred prior to the issuance of the consolidated financial statements for the six-month period ended June 30, 2020 through August 24, 2020.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
As of and for the six-month periods ended June 30, 2020 and 2019

NOTE 2 – Going Concern

The Company has an accumulated deficit, operating losses and has not generated cash flows from operations since its inception. These conditions raise substantial doubt regarding the Company's ability to continue as a going concern for at least 12 months from report issuance and the Company expects to need additional working capital to support operations.

The Company is working on profitable commercialization of its current products with current and additional customers, and finalizing development and commercialization of new products, however, there are various risks involved in profitable commercialization. Management plans to pursue additional financing to fund operations at least until operations are profitable, including possible proceeds received in connection with options granted for future stock purchases under the Company's recent issuance of common stock (see Note 8). However, there can be no assurance that related financing can be obtained, or the terms of the financing arrangements will be favorable to the Company. The Company is subject to risks common to companies in the medical device industry including, but not limited to, new technological innovations, dependence on key personnel, protection of proprietary technology, compliance with government regulations, uncertainty of market acceptance of products, product liability and the need to obtain additional financing.

NOTE 3 - Fair Value Measurements

Generally, fair value is determined on the exchange price which would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants. The Company discloses each major asset and liability category measured at fair value on either a recurring or nonrecurring basis and establishes a three tier fair value hierarchy which prioritizes the inputs used in fair value measurements. The three tier hierarchy for inputs used in measuring fair value is as follows:

- > Level 1 Observable inputs such as quoted prices in active markets
- > Level 2 Inputs, other than the quoted prices in active markets, that are observable either directly or indirectly
- Level 3 Unobservable inputs in which there is little or no market data, which require the reporting entity to develop its own assumptions

This table below presents the balances of assets and liabilities measured at fair value on a recurring basis:

	_	Total	_	Level 1	 Level 2	_	Level 3	_
As of June 30, 2020: Cash and cash equivalents - money market securities	\$	783,900	\$	783,900	\$ -	\$		-
As of June 30, 2019: Cash and cash equivalents - money market securities	\$	12,175,540	\$	12,175,540	\$ -	\$		-

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
As of and for the six-month periods ended June 30, 2020 and 2019

NOTE 4 - Leases

The Company leases space for our corporate headquarters in Minnetonka, Minnesota under a non-cancelable operating lease which expires in May 2023. This lease has escalating lease terms and also includes a tenant incentive that was recorded at the time the lease was originally entered into. The lease does not contain contingent rent provisions or renewal options. Further, the lease does not have significant rent escalation holidays, concessions, or other build-out clauses. The lease includes both lease (e.g., fixed rent payments) and non-lease components (e.g., common-area or other maintenance and utility costs) which are accounted for as a single lease component as we have elected the practical expedient to group lease and non-lease components for all leases.

We use our incremental borrowing rate based on the information available at the lease commencement date for a similar asset and similar term in determining the present value of the lease payments.

The cost components of our corporate headquarters operating leases were as follows for the period ended June 30, 2020 and 2019:

<u>Ju</u>		e 30, 2020	June 30, 2019		
Operating lease cost	\$	60,350	\$	76,117	
Variable lease cost Totals	\$	39,893 100,243	\$	43,111 119,228	

Variable lease costs consist primarily of taxes, insurance, and common area or other maintenance costs for our leased corporate headquarters which are paid based on actual costs incurred by the lessor.

Maturities of our lease liabilities is as follows at June 30, 2020:

2020	\$ 78,194
2021	159,908
2022	164,704
2023	 69,960
Total lease payments	472,766
Less: interest	 (37,390)
Present value of lease liabilities	\$ 435,376

The remaining lease term as of June 30, 2020 is 2.9 years and the discount rate was 5.5%. The cash outflow for operating leases for the six months ended in June 30, 2020 was \$77,056.

NOTE 5 - Employee Benefits

The Company provides a 401k plan as a benefit to its employees. The Company matches 5% of qualified payments under the 401K plan. Under the plan, eligible employees may contribute amounts through payroll deductions supplemented by employer contributions for investment in various investments specified in the plan. The Company discontinued the company match as of March 31, 2020. Company contributions to the plan were \$62,881 and \$131,487 for the six-months ended June 30, 2020 and 2019, respectively.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
As of and for the six-month periods ended June 30, 2020 and 2019

NOTE 6 - Intangible Assets

The Company received a license at inception from its then parent company, VK Pty, to certain intellectual property. That license became inoperative when VK Pty assigned its intellectual property to the Company on June 21, 2007, in advance of preferred stock financing from CM Capital Investments (CMCI) and Brandon Capital Partners (BCP). The assignment was done in exchange for issuing 348,098 shares of the Company's common stock to VK Pty, valued at \$.50 per share. As a result of these transactions, during 2007, the Company expensed as research and development the full \$14,600 of the original intangible asset value and an additional \$4,443 of value related to the deferred tax liability assigned to the initial license. The Company capitalized \$174,049 of purchased value and an additional \$52,962 related to the corresponding deferred tax liability as an intangible asset, reflecting the value of the acquired intellectual property.

The intellectual property is expected to have a useful life equal to the life of the underlying patent applications. Such life will extend, on average, 18 years from 2007 to 2025. Amortization is recorded on a straight-line basis beginning at acquisition date, resulting in amortization expense of \$6,248 for both the sixth-month periods ended June 30, 2020 and 2019. Amortization expense will approximate \$12,496 in each of the next five twelve-month periods.

NOTE 7 - Income Taxes

Osprey Medical is a C corporation under the U.S. Internal Revenue Code.

The Company incurred income tax expense of \$1,180 and \$10,067 for the six-month periods ended June 30, 2020 and 2019, respectively.

As of June 30, 2020 and June 30, 2019, the Company has recorded a valuation allowance to offset its net deferred tax assets due to uncertainty surrounding realization of the net deferred tax assets.

The Company has accumulated net operating losses to be carried forward to future years in the amount of \$114,312,725 applicable to income subject to federal income tax and \$54,242,031 applicable to income subject to state income tax as of June 30, 2020. These federal tax and state tax carryforwards begin to expire in 2028 and 2023, respectively. Utilization of these net operating losses to offset future taxable income may be limited.

Income tax expense (benefit) consists of the following:

	per	Six-month period ended June 30, 2020		Six-month eriod ended une 30, 2019
Current: Federal	\$		\$	
State	Ψ	1,180	φ	10,067
Foreign		1,180		10,067
Deferred:				
Federal	((1,496,000)		(1,726,000)
State		(272,000)		(907,000)
Foreign	((1,768,000)		(2,633,000)
Deferred tax asset valuation allowance		1,768,000		2,633,000
Total provision	\$	1,180	\$	10,067

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS As of and for the six-month periods ended June 30, 2020 and 2019

NOTE 7 - Income Taxes (cont.)

Income tax expense differs from the amount computed at the statutory federal income tax rate of 21% due principally to nondeductible expenses, different rates for foreign jurisdictions and the recognition of a valuation allowance against the net deferred tax asset.

Significant components of deferred tax assets and liabilities as of June 30 are as follows:

	2020		 2019	
Deferred tax assets:				
Net operating loss carryforwards	\$	27,741,000	\$ 24,183,000	
Research and development credit		1,631,000	1,391,000	
Organization costs		-	1,000	
Accrued vacation		46,000	59,000	
Stock-based compensation expense		163,000	 110,000	
		29,581,000	25,744,000	
Deferred tax liability:				
Intangible assets		(23,000)	 (46,000)	
		(23,000)	 (46,000)	
Net deferred tax asset		29,558,000	25,698,000	
Valuation allowance		(29,558,000)	 (25,698,000)	
	\$		\$ <u> </u>	

The valuation allowance for deferred tax assets changed by \$1,768,000 and \$2,633,000 for the sixth-month periods ended June 30, 2020 and 2019, respectively.

The Company recognizes the financial statement benefit of a tax position only after determining that the relevant tax authority would more likely than not sustain the position following an audit. For tax positions meeting the more likely than not threshold, the amount recognized in the financial statements is the largest benefit that has a greater than 50% likelihood of being realized upon ultimate settlement with the relevant tax authority.

The Company is not currently under examination by any taxing jurisdiction. In the event of any future tax assessments, the Company has elected to record the income taxes and any related interest and penalties as income tax expense on the Company's statement of operations.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS As of and for the six-month periods ended June 30, 2020 and 2019

NOTE 8 - Common Stock

During the six-month period ended June 30, 2020 and 2019, respectively, there were no options exercised.

In May 2020, the Company authorized an additional 1,870,000,000 shares of common stock resulting in a total amount authorized of 3,000,000,000 as of June 30, 2020.

In April 2020 and June 2020, the Company issued 533,495,727 shares of common stock at a price of A\$0.024 per share. As a result of the total financing, the Company raised approximately \$8,254,590 in gross proceeds, before issuance costs of approximately \$320,614. Included in the issuance costs were \$31,145 paid to Brandon Capital Partners, a related party with ownership in the Company. No additional stock was issued subsequent to June 30, 2020 under the offering and the offering was closed on July 24, 2020. As part of the issuance of common stock, the Company also offered each common stock holder that participated in the raise the option to purchase additional shares of common stock through February 2021 at a share price of A\$0.028 per share. A total of 1,066,991,454 CDI options (CDI is a ratio of 2 CDI's for 1 common share) were issued to purchase 533,495,727 shares of common stock during the sixmonths ended June 30, 2020 and all remain outstanding as of June 30, 2020. The options are accounted for within equity in the consolidated financial statements.

As of June 30, 2020 and 2019, the common shares outstanding were 749,394,412 and 215,898,685, respectively. As of June 30, 2020 and 2019, there were no preferred shares outstanding.

NOTE 9 – Weighted Average Shares Calculation

Basic loss per share is computed by dividing net loss by the weighted average shares outstanding during the reporting period. Diluted loss per share is computed similarly to basic loss per share except that the weighted average shares outstanding are increased to include additional shares from the assumed exercise of stock warrants and options, if dilutive. Diluted loss per share does not include any of these dilutive effects in its calculation. The number of additional dilutive shares is calculated by assuming that outstanding stock options were exercised and that the proceeds from the exercise were used to acquire shares of common stock at the average market price during the reporting period.

Shares used in the loss per share computations for the periods ended June 30, are as follows:

	2020	2019
Weighted average common shares outstanding – basic	368,006,602	215,898,685
Dilutive effect of stock option and warrants	<u>-</u>	<u>-</u>
Weighted average common shares outstanding – diluted	368,006,602	215,898,685

As of June 30, 2020 and 2019, stock options shares granted to employees of 17,017,514 and 18,446,796, respectively, were not included as their effect is anti-dilutive due to the loss for the periods. In addition, options for the purchase of additional common stock granted to common stock holders that participated in the raise during the six-months ended June 30, 2020 of 533,495,727 were not included as their effect is anti-dilutive due to the loss for the six-month period ended June 30, 2020.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS As of and for the six-month periods ended June 30, 2020 and 2019

NOTE 10 - Stock-Based Compensation

The Company had a stock incentive plan (the 2006 Plan) that provided for the issuance of incentive and non-qualified stock options to employees and directors, for the purpose of encouraging key officers, directors, employees, and consultants of the Company to remain with the Company and devote their best efforts to the business of the Company. The 2006 Plan expired in 2016, and 1,806,231 shares then outstanding remain available for exercise as of June 30, 2020. On August 29, 2016, the Company's stockholders approved a new stock option plan (the 2016 Plan) with the same directive as the old plan. Under the 2016 Plan, incentive stock options must be granted at exercise prices not less than 100% of the fair value of the Company's stock as of the grant date. If incentive options are granted to persons owning more than 10% of the voting stock of the Company, the Plan provides that the exercise price shall not be less than 110% of the fair value of the Company's stock as of the grant date. These options have exercise and vesting terms established by the Option Committee of the Company's Board of Directors at the time of each grant, but in no event are the options exercisable after ten years from the date of grant. The options granted are subject to time-based vesting ranging from immediate vesting to vesting 48 months after the date of grant. The Board of Directors approved an increase in the 2016 Plan of 44,000,000 shares in June 2020. The Company has reserved 61,628,541 shares of common stock for issuance under the 2016 Plan as of June 30, 2020. As of June 30, 2020, options issued under the 2016 plan were 15,211,283.

Effective April 5, 2019, the ASX Limited ("ASX"), permitted the Company to cancel 9,215,104 stock options issued to its employees, consultants and independent non-executive directors under its 2006 Stock Incentive Plan and 2016 Stock Incentive Plan with an exercise price of A\$0.60 or higher per share (equivalent to A\$0.30 or higher per CDI) in consideration for issue of 9,202,500 new stock options that have reduced exercise prices and extended exercise periods under a proposed exchange offer. Common stock option holders had to elect the cancellation of these stock options in exchange for the same number of new common stock options with an exercise price of A\$0.23 (equivalent to A\$0.115 per CDI) and an expiration date of May 27, 2029, with vesting terms of 25% vesting one year after the date of the grant and the remainder over 36 months.

In connection with the stock option exchange, the Company cancelled and reissued 9,202,500 common stock options. The estimated fair value of additional compensation cost related to the stock options exchanged was \$498,879, which will be recognized over the vesting term of the new option grants which become fully vested in 2023.

The following table presents the weighted average assumptions used to estimate the fair values of the stock options granted to employees and nonemployees in the periods presented, using the BSM option pricing formula: The risk free interest rate for periods within the contractual life of the option is based on the U.S. Treasury yield curve in effect at the time of grant. The expected life and expected volatility are based on the average reported lives and volatilities of our company.

	er	nonth period nded June 30, 2020		a-month period ended June 30, 2019
Risk-free interest rate	.44	1 – 1.46%	2	.11 – 2.62 %
Expected volatility	72.8	1 – 73.81%	73	.28 – 74.28%
Expected life (in years)		5.92		5.92
Dividend yield		0.00 %		0.00 %
Weighted-average estimated fair value of options granted during the				
period	\$	0.02	\$	0.16

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS As of and for the six-month periods ended June 30, 2020 and 2019

NOTE 10 - Stock-Based Compensation (cont.)

The following table summarizes the activity for outstanding employee and non-employee stock options:

	Number of Shares	Weighted- Average Exercise Price	Weighted- Average Remaining Contractual Term (Years)	Aggregate Intrinsic Value
Balance as of December 31, 2019 Granted Exercised	18,372,846 68,000	\$ 0.21 0.02		
Expired/Cancelled	(1,423,332)	0.16		
Balance as of June 30, 2020	17,017,514	0.20	7.88	<u>-</u>
Exercisable as of June 30, 2020	6,606,459	\$ 0.20	6.40	<u>\$</u>

	Number of Shares	Weighted- Average Exercise Price	Weighted- Average Remaining Contractual Term (Years)	Aggregate Intrinsic Value
Balance as of December 31, 2018 Granted Exercised Expired/Cancelled	13,564,956 14,352,882 - (9,471,042)			
Balance as of June 30, 2019	18,446,796	0.20	8.94	<u> </u>
Exercisable as of June 30, 2019	2,692,044	\$ 0.34	3.55	\$ -

The aggregate intrinsic value is calculated as approximately the difference between the weighted average exercise price of the underlying awards and the Company's estimated current fair value as of June 30, 2020.

The Company recognized stock-based compensation expense related to stock options of \$280,488 and \$276,849 for the sixth-month periods ended June 30, 2020 and 2019, respectively. As of June 30, 2020, \$1,074,005 of total unrecognized compensation cost related to stock options is expected to be recognized over a weighted average life of 1.25 years. To the extent the forfeiture rate is different than anticipated, stock-based compensation related to these awards will be different from the Company's expectations.
