XTEK completes first international delivery of XTclave plates

Friday, 2 October 2020: XTEK Limited (ASX:XTE) (“XTEK” or the “Company”) is pleased to announce it has completed delivery of the first lot of XTclave™ manufactured plates to CPE Production OY in Finland, for use by the Finnish Defence Force (FDF). This first lot represents a shipment of 250 plates.

The delivery follows the initial commercial purchase order announced on 5 May 2020, and subsequent order upsize announced on 5 June 2020, worth ~A\$2m in total.

The acceptance of this first lot follows months of industrialisation of the product and completion of comprehensive and rigorous testing procedures. The plates supplied to the FDF in this delivery are one of five XTEK products already qualified, with the next deliveries to follow in the near term to fulfil the remainder of the purchase order.

Mr. Phillipe Odouard, XTEK MD, commented:

“We are proud to be able to complete this initial delivery on the back of a long-standing relationship with Finnish Defence. The delivery provides validation of our technical capabilities and products, as well as our international commercialisation strategy. We continue to make strong progress with other potential customers, including in a range of different channels in the US.”

ENDS

Announcement authorised by the XTEK Limited Board of Directors.
