Appendix 4C

The Company's September 2020 Appendix 4C is attached. Following the change of the Company's financial year announced to the ASX on 2 April 2019, the attached Appendix 4C reflects the second quarter's activities of the Company's new financial year commencing 1 April 2020.

Activities Report and Business Update

The September quarter has seen the business continue to engage on a number of exciting opportunities in the European, North-American and Asian markets. The European-based team has been working closely with NTT DATA Deutschland to demonstrate its unique encryption solution, culminating in the announcement of a strategic partnership with the leading global innovator in October.

Additionally, the Company and Nucleus Cyber announced a strategic partnership in September, which will deliver enhanced Microsoft O365 protection capability, to complement Cipherpoint's best in class on-prem protection. Together with Nucleus Cyber, work has already commenced on a number of opportunities in Europe, South-East Asia and North-America.

Looking Ahead

The Company remains well capitalised to meet its near-term objectives in delivering its unique discovery, classification and protection solutions to new customers and markets. The Board is carefully observing the further Covid-19 lockdowns in Europe which are likely to impact the service sector, delay any economic rebound and impact already long sales cycles. Therefore, and given our small team we are focussing on three priorities

- building major IT integrator channel relationships as our primary go to market channel to leverage their sales presence and customer bases

- accelerating our internal cloud platform development efforts
- leveraging, through our German office, European government and enterprise preferences to use regional and local vendors and with sovereign capability

Our sales pipeline consists of a small number of large government and enterprise end users which are or have been evaluating our products for deployment.

This announcement has been approved for release by the Board.
