ASX Announcement

About Montem Resources

Montem Resources (ASX: MR1) is a steelmaking coal development company operating in the Crowsnest Pass district in southern Alberta, Canada. The Company's objective is to become the operator of steelmaking coal mines in Canada by developing its properties. The Company is planning an integrated mining complex in the Crowsnest Pass, focusing on low cost development of open-cut mines that leverage central infrastructure. The first component of this objective is to re-establish mining at the Tent Mountain Mine.

Montem completed a Definitive Feasibility Study (DFS) on the Tent Mountain Mine in 2020. The DFS is providing guidance for the re-start project, with the aim to be exporting coal in 2022. Details of the DFS are available on Montem's website: www.montem-resources.com

Montem has a large pipeline of development assets centered around the Chinook Project. The Chinook Project covers historical mines that previously exported hard coking coal to Japanese steel mills. The Chinook Project has the potential to produce multiple open-cut hard coking coal mines, and the Company plans to explore, define and develop these mines.

Montem is also progressing development opportunities at the greenfield exploration Isola, 4-Stack and Oldman projects.
