

POWERING GLOBAL CONNECTIVITY

INVESTOR UPDATE

DISCLAIMER

This presentation has been prepared by Elsieht Limited. ("Elsieht" or the "Company") based on information available to it as at the date of this presentation. The information in this presentation is provided in summary form and does not contain all information necessary to make an investment decision. This presentation does not constitute an offer, invitation, solicitation or recommendation with respect to the purchase or sale of any security in Elsieht, nor does it constitute financial product advice or consider any individual's investment objectives, taxation situation, financial situation or needs. An investor must not act based on any matter contained in this presentation but must make its own assessment of Elsieht and conduct its own investigations. Before making an investment decision, investors should consider the appropriateness of the information having regard to their own objectives, financial situation and needs, and seek legal, taxation and financial advice appropriate to their jurisdiction and circumstances. Elsieht is not licensed to provide financial product advice in respect of its securities or any other financial products. Cooling off rights do not apply to the acquisition of Elsieht securities. Although reasonable care has been taken to ensure that the facts stated in this presentation are accurate and that the opinions expressed are fair and reasonable, no representation or warranty, express or implied, is made as to the fairness, accuracy, completeness or correctness of the information, opinions and conclusions contained in this presentation. To the maximum extent permitted by law, none of Elsieht its officers, directors, employees and agents, nor any other person, accepts any responsibility and liability for the content of this presentation including, without limitation, any liability arising from fault or negligence, for any loss arising from the use of or reliance on any of the information contained in this presentation or otherwise arising in connection with it.

The information presented in this presentation is subject to change without notice and Elsieht does not have any responsibility or obligation to inform you of any matter arising or coming to their notice, after the date of this presentation, which may affect any matter referred to in this presentation. The distribution of this presentation may be restricted by law and you should observe any such restrictions. This presentation contains certain forward-looking statements that are based on the Company's management's beliefs, assumptions and expectations and on information currently available to management. Such forward looking statements involve known and unknown risks, uncertainties, and other factors which may cause the actual results or performance of Elsieht to be materially different from the results or performance expressed or implied by such forward looking statements. Such forward looking statements are based on numerous assumptions regarding the Company's present and future business strategies and the political and economic environment in which Elsieht will operate in the future, which are subject to change without notice. Past performance is not necessarily a guide to future performance and no representation or warranty is made as to the likelihood of achievement or reasonableness of any forward-looking statements or other forecast. To the full extent permitted by law, Elsieht and its directors, officers, employees, advisers, agents and intermediaries disclaim any obligation or undertaking to release any updates or revisions to information to reflect any change in any of the information contained in this presentation (including, but not limited to, any assumptions or expectations set out in the presentation).

INVESTMENT HIGHLIGHTS

Elsight technology solutions deliver extremely reliable, high bandwidth, real-time connectivity even in the most challenging areas

Compelling value proposition

Flagship product, “Halo” launched in 2019 enables the ability to provide **connectivity everywhere**

Substantial market opportunity

Each of **1.3 million annual enterprise drone** shipments can be Halo-enabled at **\$1600 per unit**

Ahead of competition

FCC certification in the US and CE Mark certification in Europe **unlocks sales opportunities in both regions**

Proven and ready for growth

US\$2.5m in orders demonstrates company at **tipping point for growth** with multiple live opportunities in high demand verticals

Recurring revenue platform

Repeat transactional hardware sales plus **recurring managed services revenues** means value accrues to Company

CORPORATE PROFILE

Elsight Limited (ASX: ELS)

ASX Listing	June 2017
52 week low/high	A\$0.21 – A\$0.73
Shares on issue	107,016,599
Options	48,695,983
Market Cap*	A\$64M
Debt	Nil

* As at 16 November 2020

KEY SOLUTION: HALO

Halo connects resources where connectivity is not typically available (eg remote, rural, distributed)

Halo
by  *elsight*

**Halo connectivity provides
real-time data, video and audio
transmission over long distances**

KEY BENEFITS

Unique features of the Elsieht technology allows organisations to roll out new business models

ALWAYS-ON CONNECTIVITY

Automatic IP links detection allows seamless transition between channels

HIGH BANDWIDTH

Multiple IP links fused together into one network tunnel

ULTRA-LOW LATENCY

Using all available network infrastructure minimizes latency enabling a high-speed connection

SECURITY & PRIVACY

Secures encrypted data transmission

RELIABILITY & REDUNDANCY

Multiple pathways safeguards against system failure

LOW POWER CONSUMPTION

Increased longevity at optimal performance

SIMPLE INTEGRATION

Straight forward integration to every platform

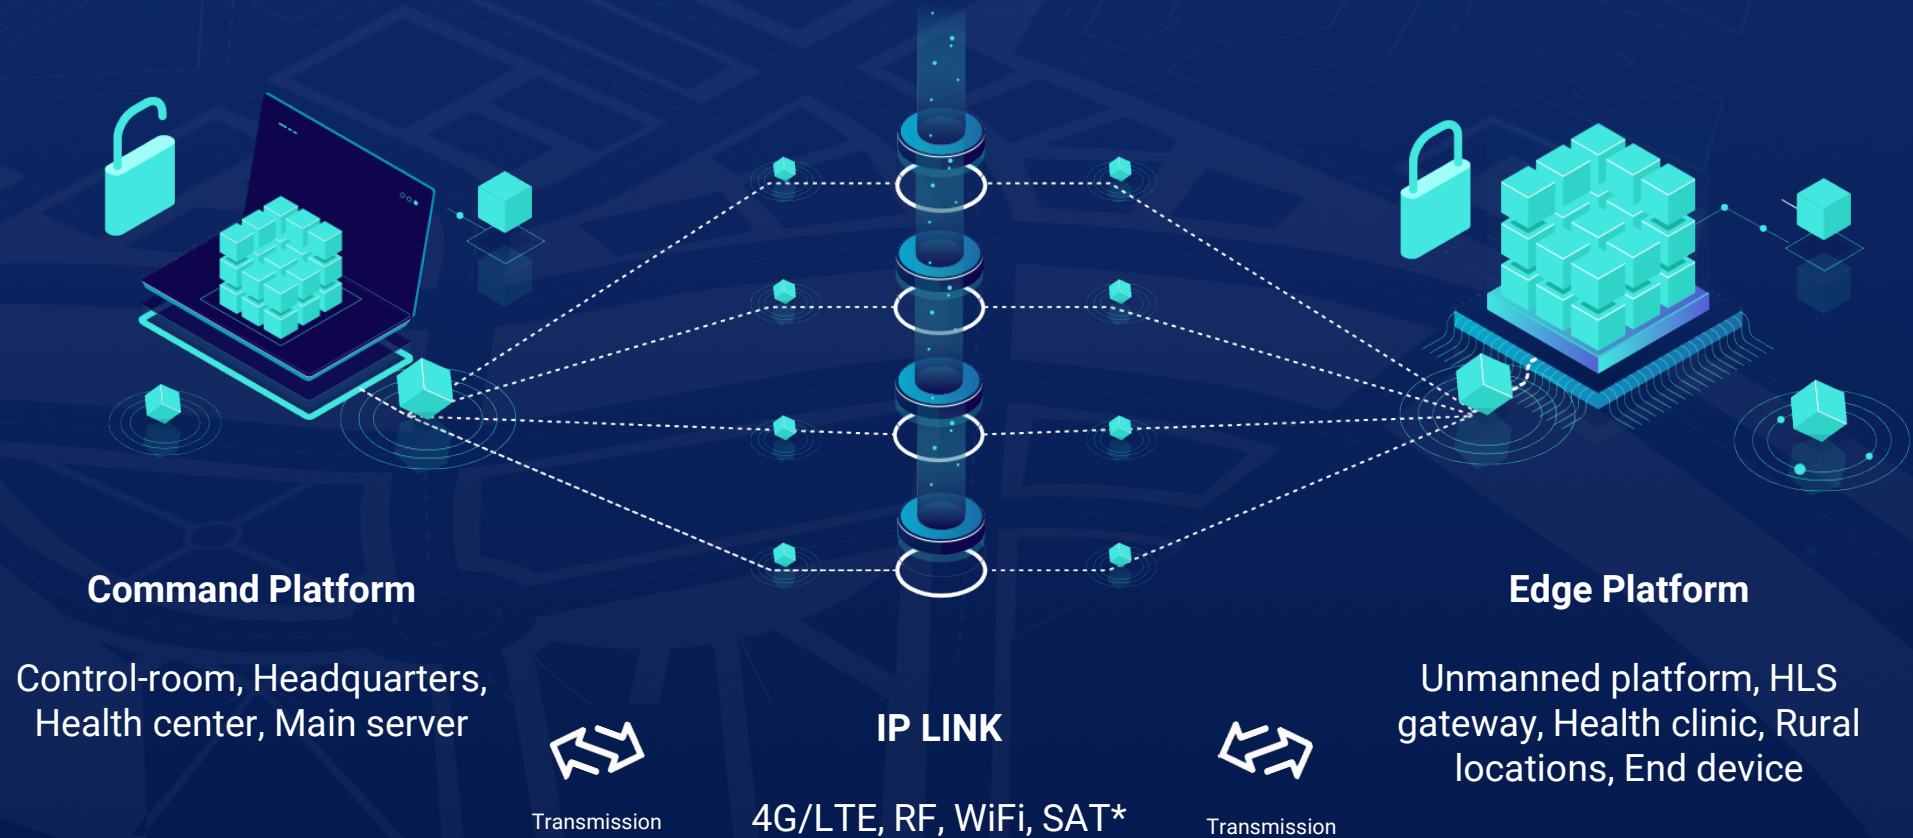

COMPACT & LIGHTWEIGHT

Increases portability, maximizes payload & extends longevity

TECHNOLOGY CORE

Our bi-directional algorithm encrypts the data, adds a VPN and splits it into packets

The packets are transmitted via multiple IP links (Cellular, RF, Wi-Fi, SAT*) to their destination where they are received, recombined and decrypted

PRODUCT OFFERING

Halo, Elsie's next generation connectivity platform, available as a CARD that can be integrated into any platform, or as a BOXED connectivity solution, all managed by the Elsie cloud

Hardware: Compact & lightweight

Services: Monitoring management capabilities

CARD

BOX

ELSIE CLOUD

Product sales: Transactional (US\$1600 for Halo)
with potential for repeat sales

IAAS * cloud and SLA managed services:
Sticky, recurring annual cost

KEY TARGET MARKETS

Halo has applications for unmanned platforms and connecting rural and remote locations

UNMANNED PLATFORMS

Enables connectivity for drones and robotics including those operating beyond the visual line of sight

RURAL & REMOTE CONNECTIVITY

Enables connectivity the Other 4 Billion people (O4B) living in rural areas around the globe

US\$1600 for each Halo sale + annual recurring revenues

MARKET OPPORTUNITY

Opportunity: Add Halo to every enterprise drone

Opportunity: Add Halo as a bridge to every remote location

¹ Gartner – "Gartner Forecasts Global IoT Enterprise Drone Shipments to Grow 50% in 2020"

² UNESCO September 2019

CASE STUDY: UNMANNED PLATFORMS - AIROBOTICS

Elsight partners with Airobotics, to power the first FCC approved “Beyond Visual Line of Sight” UAV ahead of UPS, Google and Amazon

Airobotics drone is the world's first and only compliant UAV solution that can be operated remotely

Airobotics, a US tier one industrial drone company

Halo by Elsight provides connectivity to enable “Beyond Visual Line of Sight” operation

Pilot of 10 initial units (US)

Enables new solutions in high value verticals including:

Defence, security and safety

Inspection, maintenance and operations

Unmanned delivery

Agriculture

CASE STUDY: REMOTE CONNECTIVITY - KINETX PRIME

Elsight partners with telehealth provider to enable coverage and capabilities to rural and remote communities

**US\$1.6 million
initial order (US)**

1. Hospitals and healthcare are out of reach to vast majority of rural communities

3. Halo by Elsight provides substantially improved long range connectivity beyond traditional network reach

2. Rural communities with no connectivity receive limited healthcare access

5. Existing cellular networks can be used to connect to hospitals and clinics

4. Additional antennas from Kinetx Prime enable video telehealth to distant remote communities

CASE STUDY: RURAL CONNECTIVITY - MEDIBAG

Elsight enables MediBag, a backpack that connects nurses and doctors in real-time to provide treatments to patients in Rural France

US\$300k initial
order (France)

2. Halo by Elsight
powers connectivity of
the Medibag used by
doctors and nurses

3. Halo gave the Medibag:

- Greater connectivity
- Longer battery life
- 1.1kg lighter than in previous versions

1. Patients in rural
France face an acute
shortage of doctors or
personnel trained
emergency situations

WHAT THIS MEANS FOR THE POPULATION

In rural Georgia, Jean Sumner M.D. has struggled with a slow and unreliable internet connection. The Halo has made a significant impact in her home and with her work in Telehealth.

"I live in one of the worst areas in the state for internet connectivity. As a physician it has been important to contact nursing homes and hospitals. Halo has transformed internet connection in my home from 1.5MB/s to at least 20MB/s. Outstanding"

When the pandemic started Clark Rainer had a slow connection that made it nearly impossible to do his job from his home in rural Georgia. With Halo, Clark can keep up with the demands of his high-tech job at home.

"I work in a government IT department and live 60 miles away. It's hard to work at home with a 3MB/s DSL connection. Halo gives me speeds of 30MB/s and enables me to do my job from home instead of downtown Atlanta"

CERTIFICATIONS UNLOCK SALES

Combination of certifications plus substantial flight trials with partners provides platform for sales

3,000 flight hours with drones
and robotics partners

GROWTH PLAN

Considerable progress made providing foundation for future growth

Use US FCC certification and Europe CE Mark to **accelerate sales**

Maximise sales pipeline direct and through in-country distributors and integration partners

Transition 15 live POC trials to sales and commence receiving repeat orders from existing customers

Offer companies to adapt the FAA approved Halo into their own drones for **rapid license sales**
