FSG Awarded NSW Office of Sport – Managed Connectivity Services

Field Solutions Holdings (ASX: FSG), Australia's leading rural, regional and remote telecommunications carrier is pleased to announce it has been awarded the exclusive tender to supply managed connectivity services for the NSW Office of Sport.

Highlights

- Revenue in excess of \$1.2M, over 36-month term commencing Q3 FY21
- Supply of managed connectivity services to all 20 sites across metro and rural NSW
- Delivery via the FSG Regional Australia Network™, nbn™ Enterprise Ethernet, nbn™ Business Satellite

FSG's Government and Enterprise team, in close consultation, developed and proposed a unique, long term telecommunications solution for NSW Office of Sport which delivers true broadband connectivity and managed network capabilities.

"Several NSW Office of Sport sites fall outside traditional service provider network footprints", outlines Andrew Roberts, CEO FSG. "Our solution leverages the extensive FSG Regional Australia Network™ in Northern and Southern NSW, with business nbn™'s Enterprise Ethernet and nbn™ Business Satellite products, to deliver a unique and scalable telecommunications platform", adds Roberts.

The FSG Regional Australia Network™ is designed to meet the needs of residents, businesses and agribusinesses in rural, regional and remote areas of Australia. "The FSG Regional Australia Network™ delivers true broadband and is a perfect fit to deliver symmetric services to NSW Office of Sport sites in remote areas", says Roberts.

"FSG not only has the network in these areas, but FSG staff are also based in regional areas, ensuring it can deliver service and support in the event of service disruptions", adds Roberts.

Delivery activities will begin immediately and are due to be completed in May 2021.

This project showcases FSG's unique set of government and enterprise solutions. By combining various delivery technologies such as the nbn's Enterprise Ethernet business fibre products, Business Satellite and FSG's network, FSG can deploy a carrier-agnostic, managed network solution to government and enterprise Australia wide.

NSW Office of Sport joins NSW TAFE and the NSW Department of Transport who utilise telecommunications services delivered by FSG.

This announcement has been authorised for release by the Board of FSG.

About FSG

FSG provides, builds and operates "true broadband networks" specifically for rural, regional and remote Australia. FSG is a licensed Australian telecommunications carrier, providing services via its own telecommunications network (trading under the brands 'JustISP' and 'Ant Communications') and a NBNco Retail Service Provider.
