ASX Announcement

PolyNovo enters Poland

PolyNovo is excited to announce the Company's entry into Poland with the appointment of Hortho Medical Innovations as its exclusive distributor.

Hortho distributes modern and innovative devices for medical reconstruction. They distribute a number of complimentary bio-absorbable implant technologies and work closely with key opinion leaders in plastic/reconstructive surgery. Hortho have a direct team servicing all of Poland and plan to add dedicated personal to support their NovoSorb® BTM sales and marketing. <http://www.hortho.pl/>

Hortho Medical Innovations specialise in distributing innovative surgical devices and have a large network of surgeons. Their experience in selling biomaterials and complex surgical implants makes them an excellent growth partner for PolyNovo.

Poland is the sixth largest country in the European Union with a population of more than 38 million, and a medical device market valued at over \$2.2 billion.

Managing Director of PolyNovo, Paul Brennan said, *"Poland is an exciting growth market in Europe and we see this partnership as an important step in expanding our sales in Europe."*

This announcement has been authorised by PolyNovo Company Secretary Jan-Marcel Gielen.

About NovoSorb®

NovoSorb® is a novel range of bio-resorbable polymers that can be produced in many formats including, film, fibre, foam, and coatings. NovoSorb's unique properties provide excellent biocompatibility, control over physical properties, and programmable bio-resorption profile. NovoSorb® BTM is a dermal scaffold for the regeneration of the dermis when lost through extensive surgery or burn.
