These draft results are subject to finalising the interim accounts and the audit review with final results to be announced on Tuesday 16th February 2021.

### **Overview of Expected 1H Financial Results**

The summary financial results presented below reflect the operations of rhipe Limited and all subsidiaries (together the "Group") for the six months from 1 July 2020 to 31 December 2020 ("1H FY21").

Financial Summary \$'000	1H FY20	1H FY21	Change
Revenue	26.6	30.5	+15%
Gross Profit	25.0	27.7	+11%
Operating Expenses	(18.4)	(19.0)	+3%
Operating Profit <sup>(1)</sup>	6.6	8.8	+34%
EBITDA	7.0	7.7	+10%

<sup>(1)</sup> Operating profit is gross profit less operating expenses and excludes any FX gains or losses, share base payments and one-off cost including restructuring or due diligence costs. Operating profit also includes all costs incurred from the Company's property leases and 80% of rhipe Japan losses.

#### Selected highlights of 1H FY21 results include:

- Group revenue growth of 15% in 1H FY21 is consistent with revenue growth in the previous financial year of 15% albeit off a larger revenue base and despite the COVID-19 pandemic. Rhipe's strong growth continues in Microsoft public cloud products and in our rhipe solutions business.
- Microsoft Office365 licenses as at 31 December 2020 were approximately 720,000 seats including more than 11,000 seats in Japan. Overall, the Office365 seat count is up 90,000 since 30 June 2020.
- Group operating expense growth was 3% in 1H FY21 with costs reducing in our licensing business due to lower
  headcount, marketing and travel costs compared to the previous corresponding period. Costs increased in the
  rhipe solutions business as we continue to invest and expand in this area in order to deliver further future
  growth.

- Group operating profit of \$8.8m was up 34% year on year due to solid revenue growth alongside strong cost management. Most of the operating profit increase was driven by our Licensing business with the profit growth in the rhipe solutions business driven by the acquisition of our Azure services business, Parallo, at the beginning of Q2.
- Cash as at 31 December 2020 was \$57.5m versus \$60.9m at 30 June 2020 following the payment of \$3.2m fully franked dividend and \$4.3m payment for Parallo acquisition which completed on the 30th September 2020.
- In January 2021 rhipe was awarded Microsoft APAC Services Partner of the Year, an award that provides validation of rhipe's strategy to add cloud-based Professional Services to its revenue portfolio.

#### **Outlook Statement**

Due to rhipe's extensive reseller base across many countries, rhipe's business has proven very resilient to the impacts of COVID-19 with a strong financial result in the first half of 2021. rhipe expects these results to continue in the second half of the financial year and, as a result, rhipe plans to increase investments in several key growth pillars of our business in order to drive further growth in 2022 and beyond. rhipe is now targeting full year operating profit for the financial year to 30 June 2021 of \$17.5m which would represent growth of almost 27% compared to the prior year.
