FSG 5G Spectrum Allocation – Rural, Regional and Remote Australia

Field Solutions Holdings (ASX: FSG), Australia's leading rural, regional and remote telecommunications carrier, is pleased to announce that it has successfully obtained 5G spectrum for rural, regional and remote Australia.

Highlights

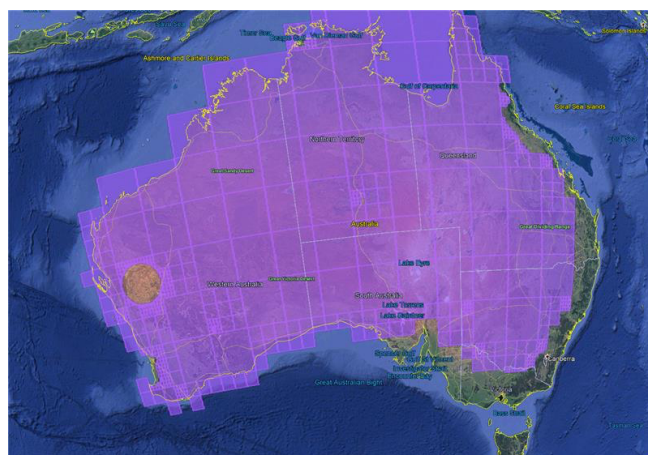

- **Allocation of 5G millimetre wave spectrum (26Ghz)**
- **Covers 85% of Australia's landmass***
- **Delivers services to 100% of FSG's target customers**
- **Allows delivery of super-fast fixed wireless services**
- **Capability to deliver 5G services to rural, regional and remote Australia**

"FSG, has secured 5G spectrum holdings to ensure that rural, regional and remote Australia is not left behind in the rollout of 5G services", outlines Andrew Roberts, CEO FSG. "We needed to secure this spectrum to ensure we can deploy superfast services within our target markets" adds Roberts.

FSG has been granted licenses covering over 85% of the Australian landmass*, encompassing FSG's current networks locations and areas where FSG may deploy network in the future. Increasing demand for bandwidth in regional areas is being driven by the agriculture sector and work-pattern changes driven by COVID-19. "5G deepens our long term commitment to the bush, and ensures FSG remains the leading provider of services for rural, regional and remote Australia" says Roberts.

FSG operate or are constructing networks in New South Wales, Queensland, Tasmania, Victoria, Northern Territory and have recently announced new network build commencing in Western Australia. By the end of 2021, FSG's network will cover over 90,000 km².

FSG will commence the rollout of 5G services in the next 6 months. 5G deployment areas are determined based on local demand, government funding and FSG's business strategy.
